OUR VISION

To be a globally recognized leader in eco-friendly packaging solutions by delivering innovative, high-quality products that contribute to a sustainable future.

OUR MISSION

- To provide businesses with superior packaging solutions that combine durability, design, and sustainability.
- To continuously innovate and adapt to the evolving needs of the packaging industry.
- To prioritize customer satisfaction through timely deliveries and unmatched product quality.

OUR PRODUCTS

We are one of the top leading manufacturing and trading company, We supply Our Products all over India and Overseas.

ELEGENTA ELITE ENTERPRISES LPP is known for high quality products. Not Sure about desired Sizes/Quality ? Leave on Us! We take care of Everything.

Corrugation Boxes

Corrugation Boxes Elegenta Elite offers a wide range of corrugation boxes, known for their strength and durability. These boxes are ideal for shipping, storage, and packaging, ensuring your products remain safe and intact.

DT THERMAL ROLLS

DT Rolls Elegenta Elite also provides DT rolls for businesses requiring high-quality, thermal transfer printing solutions. These rolls are ideal for various printing needs in logistics, retail, and manufacturing sectors.

Key Features:

- **Direct Thermal Printing:** No ink or ribbon required, making printing fast and cost-effective.
- **Strong Adhesive:** High-quality adhesive ensures the stickers remain securely attached to a wide range of surfaces, including paper, plastic, glass, and metal.
- **Versatile Applications:** Ideal for barcodes, product labeling, shipping labels, inventory management, pricing labels, and more.
- **Durable Material:** Resistant to smudging and fading, ensuring that printed information stays clear and readable.
- **Variety of Sizes:** Available in different sizes to meet specific application needs, from small product labels to large shipping labels.
- **Eco-friendly Option:** Made from recyclable and environmentally friendly materials, reducing waste and environmental impact.

PAPER BAGS

Paper Bags & Covers As part of our eco-friendly initiatives, our paper bags and covers are made from high-quality, biodegradable materials. Available in various sizes and designs, these bags are perfect for retail, food, and gift packaging.

KEY FEATURES OF PAPER BAGS

- **Eco-Friendly and Biodegradable**

Made from recyclable materials, paper bags are an environmentally responsible packaging option, helping reduce plastic waste and supporting sustainability initiatives.

- **Durable and Strong**

Constructed from high-quality kraft or other durable paper materials, these bags are designed to carry heavy loads without tearing, making them ideal for groceries, clothing, and other items. Can hold up to 0 to 7KGS.

- **Customizable Design**

Available in various sizes, shapes, and colors with customizable options for branding, logos, and messaging. Perfect for businesses looking to enhance brand visibility.

- **Versatile Uses**

Suitable for a wide range of industries including retail, food & beverage, gift shops, and events. Paper bags can be used for shopping, packaging, or promotional purposes.

Available in different shapes` and sizes plain/square-V Bottoms and more.

- **Reusable and Recyclable**

Designed for multiple uses, paper bags are both reusable and recyclable, offering a long-lasting and eco-friendly alternative to single-use plastic bags.

- **Food-Safe Options**

Paper bags can be treated for food safety, making them ideal for takeout, bakery items, and other food packaging needs.

- **Cost-Effective**

Paper bags offer a budget-friendly solution for businesses seeking affordable yet high-quality packaging materials.

SHOPPING BAGS

Shopping Bags Our shopping bags are designed to be sturdy, stylish, and versatile, catering to a variety of retail needs. Whether for groceries, apparel, or accessories, Elegenta Elite's shopping bags are crafted for quality and reliability.

Key Features of Shopping Bags

Durable and Strong

Made from high-quality materials like plastic, cloth, or heavy-duty paper, shopping bags are designed to carry a wide range of items without tearing or breaking, making them ideal for groceries, clothing, and more.

Reusable

Many shopping bags, especially those made from cloth or heavy-duty materials, are reusable, making them an eco-friendly choice that reduces the need for single-use bags.

Customizable Designs

Shopping bags can be easily customized with company logos, colors, and branding, providing an excellent opportunity for businesses to enhance brand visibility and marketing.

Variety of Sizes and Styles

Available in multiple sizes and styles (from tote bags to large shopper bags), shopping bags are versatile and cater to different customer needs, from small items to bulk shopping.

Eco-Friendly Options

Many shopping bags are made from sustainable materials such as recycled paper, cotton, or jute, making them a great choice for environmentally-conscious consumers and businesses.

Reinforced Handles

Equipped with sturdy, reinforced handles (flat, rope, or twisted paper handles), shopping bags are designed for comfortable carrying, even with heavy items.

Water-Resistant

Plastic and certain treated paper shopping bags offer water resistance, making them suitable for all-weather use, especially for carrying groceries or wet items.

Cost-Effective

Shopping bags offer an affordable packaging solution for businesses, providing a balance between cost and quality while delivering a positive customer experience.

Stylish and Trendy

Available in modern and trendy designs, shopping bags can serve as a fashion accessory or make a style statement, appealing to consumers who value aesthetics.

Foldable and Convenient

Most shopping bags are lightweight and foldable, allowing easy storage in purses, cars, or homes for reuse, making them highly convenient for daily use.

CLOTH BAGS

Cloth Bags In line with the global push for sustainability, our cloth bags are reusable, durable, and customizable. These bags are a popular choice for environmentally-conscious consumers and businesses alike.

Key Features of Cloth Bags

Eco-Friendly and Sustainable

Cloth bags are made from natural, biodegradable materials like cotton, jute, or canvas, making them an environmentally responsible alternative to plastic bags. They help reduce plastic waste and promote sustainability.

Durable and Long-Lasting

Designed for repeated use, cloth bags are sturdy and able to withstand heavy loads without tearing, making them perfect for everyday shopping, groceries, or carrying personal items.

Reusable

Unlike single-use bags, cloth bags can be washed and reused multiple times, offering long-term utility and reducing the need for disposable packaging.

Customizable and Stylish

Cloth bags can be customized with logos, artwork, and branding, offering businesses an excellent way to enhance brand visibility. Their stylish designs and trendy appearance also make them popular as promotional items.

Variety of Sizes and Shapes

Available in different sizes, shapes, and colors, cloth bags can be tailored to meet specific needs, whether for shopping, gifting, or promotional events.

Comfortable to Carry

Equipped with soft, durable handles, cloth bags provide comfortable carrying, even for heavy items, making them ideal for daily use.

Eco-Conscious Branding

By using cloth bags, businesses can demonstrate a commitment to eco-conscious practices, appealing to environmentally aware customers who prefer sustainable packaging.

Breathable Material

Cloth bags are breathable, making them ideal for carrying fresh produce or other items that need airflow to stay fresh, unlike plastic bags which can trap moisture.

Washable and Easy to Clean

Most cloth bags are machine-washable, allowing them to be cleaned easily and reused without worry about dirt or stains, making them hygienic and practical.

Versatile Uses

Cloth bags are not limited to shopping; they are also useful for various other purposes, such as carrying books, beach essentials, gym clothes, or for travel, making them a versatile accessory.

Food Grade Containers

Paper Food Grade Containers are eco-friendly packaging solutions designed to safely store and transport food. Made from food-safe, biodegradable paper materials, these containers are ideal for both hot and cold food items.

They are commonly used in restaurants, takeout services, and catering due to their lightweight yet durable nature. Often lined with a food-safe coating, these containers are leak-resistant, grease-proof, and maintain the freshness of food. Additionally, they are recyclable and compostable, making them an environmentally sustainable choice for food packaging.

- To Offer food safe, sustainable, earth friendly products so as not leave any mark on the planet.
- Cater to the unique requirement to the resturents, hotels, caterers, events, cloud kitchens and bakeries.
- To Provide innovative customized packaging options to customer

RIGID BOXES

Rigid Boxes are premium packaging solutions known for their sturdy construction and luxurious feel. Made from thick, high-quality paperboard, these boxes provide superior protection for delicate or high-end products like electronics, cosmetics, jewelry, and gift items.

Unlike foldable cartons, rigid boxes retain their shape and are often used for branding purposes, offering a sleek, customizable design with various finishes like embossing, foil stamping, and magnetic closures.

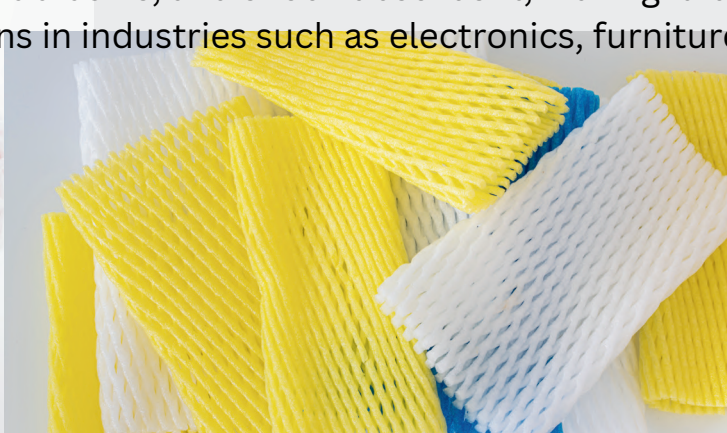

Their durability and sophisticated appearance make them a popular choice for luxury packaging.

EPE FOAM NET AND SHEET

EPE Foam Net and Sheet are lightweight, flexible packaging materials made from expanded polyethylene (EPE) foam. They offer excellent cushioning and protection for delicate items during storage and transport. The foam net is typically used for wrapping fragile items like fruits, glass bottles, or ceramics to prevent impact damage, while the foam sheet is used as padding between items or for surface protection. EPE foam is water-resistant, non-abrasive, and shock-absorbent, making it ideal for various packaging applications in industries such as electronics, furniture, and logistics.

SOFTNET

SoftNet is a cushioning material made from expanded polyethylene (EPE) foam designed to provide lightweight and flexible protection for delicate items. It is commonly used in packaging to wrap and safeguard products such as electronics, glassware, and fragile goods. SoftNet offers excellent shock absorption and impact resistance while being non-abrasive and resistant to moisture. Its soft, net-like structure makes it easy to conform to various shapes and sizes, providing reliable protection during transit and storage.

PUNNET TRAY

Punnet Trays are small, typically rectangular or square containers used primarily for packaging fresh fruits and vegetables. Made from materials such as plastic, paperboard, or molded pulp, punnet trays are designed with ventilation holes to ensure proper air circulation, helping to maintain the freshness of the produce. Their sturdy construction provides protection against damage during transport and handling. Punnet trays are commonly used in supermarkets and farmer's markets for items like berries, grapes, exotic fruits, mushrooms, and small produce.

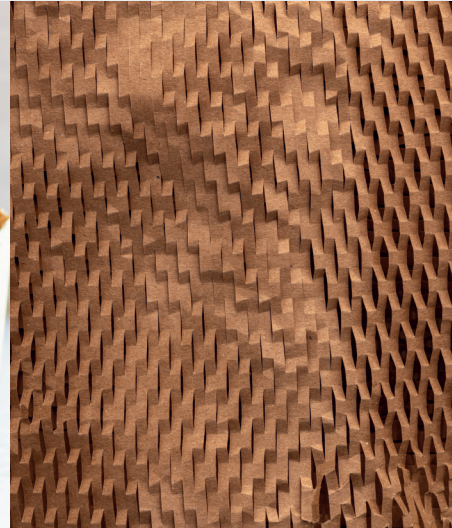

BUTTER PAPER/GREASEPROOF PAPER

Butter Paper, also known as Greaseproof Paper, is a type of parchment paper used for its non-stick and grease-resistant properties. Typically used in baking and cooking, it prevents fats and oils from seeping through, keeping food items clean and ensuring easy release from baking pans. This paper is ideal for wrapping, lining baking trays, and covering food to prevent sticking and maintain freshness. It is commonly used in kitchens, bakeries, and food packaging for its ability to withstand high temperatures and its convenience in food preparation and storage.

EE HONEYCOMB PAPER

Honeycomb Paper is a lightweight, eco-friendly packaging material made from kraft paper, designed with a hexagonal structure similar to a honeycomb. This unique design provides excellent strength and cushioning, making it ideal for protecting fragile items during shipping and storage. Honeycomb paper is often used as an alternative to plastic bubble wrap or foam, offering superior impact resistance while being 100% recyclable and biodegradable. It's commonly used in industries such as furniture, electronics, and automotive for protective packaging and void filling.

Key Features of Honeycomb Paper:

Lightweight and Strong: Despite its lightweight structure, honeycomb paper provides excellent strength and durability due to its hexagonal design, making it highly effective for protective packaging.

Eco-Friendly: Made from recyclable and biodegradable materials, honeycomb paper is a sustainable alternative to plastic packaging, reducing environmental impact.

Shock Absorption: The honeycomb structure offers superior cushioning and shock resistance, protecting fragile items from damage during shipping and handling.

Versatile Applications: Suitable for various industries, honeycomb paper can be used for packaging, void filling, wrapping, and even as a structural component in furniture and automotive sectors.

Customizable: Available in different thicknesses and sizes, honeycomb paper can be tailored to meet specific packaging needs, providing flexibility in application.

Cost-Effective: Its lightweight design helps reduce shipping costs while providing strong protection, offering a cost-effective packaging solution.

Breathable: The open hexagonal structure allows for air circulation, which is beneficial for items that need ventilation, such as fresh produce.

Non-Abrasive: Safe for delicate surfaces, honeycomb paper won't scratch or damage items, making it ideal for fragile goods like glass, ceramics, and electronics.

EE Why Choose Elegenta Elite Enterprises LLP?

- **Quality Assurance:** Our products undergo stringent quality checks to ensure they meet the highest industry standards.
- **Eco-Friendly Solutions:** We are committed to sustainable practices, offering eco-friendly packaging materials that reduce environmental impact.
- **Customization:** We offer tailored solutions to meet specific customer requirements, from size and design to branding.
- **Competitive Pricing:** We provide high-quality packaging solutions at competitive prices, ensuring our clients receive the best value for their investment.
