

Carry the Future – One Bag at a Time

**Join the Movement Towards a Sustainable
Tomorrow**

A clear plastic bottle with a blue cap lies on a sandy beach, partially covered by seaweed and small crabs. The background shows a blurred view of the ocean and sky.

The Problem We Can't Ignore

- India generates approximately 9.5 million tonnes of plastic waste annually.
- Over 60% of this consists of single-use plastics.
- Only around 60% of the plastic waste is collected and processed; the rest ends up in landfills, rivers, and oceans, causing severe environmental harm.
- An estimated 144 million plastic bottles are purchased every day in India for drinking water alone.
- While eliminating plastic production is not feasible, we can and must focus on reducing, reusing and recycling plastic to minimise impact.

“It is time to make generational change” Children as change agents!

The Samprabhav Solution

Introducing Eco-Smart School Bags

- 100% recycled plastics.
- Ocean-bound certified plastic waste.
- Reduce carbon footprints.
- Manufactured ethically, supporting livelihoods.
- Every bag supports waste collectors, environmental conservation programs, clean the planet and restore our oceans.

Why This Matters for Schools

Let students know they carry a purpose

- Every child becomes an environmental ambassador.
- Builds a culture of sustainability in your school.
- Aligns with SDG goals and NEP 2020 focuses on environmental consciousness.
- Perfect fit for Eco-clubs and Green School Certifications.

A small decision with a massive ripple effect

Emotional Appeal – A Child's Voice

This bag used to be plastic waste. Today, I carry my books and a message to protect the Earth.

Let your students be the storytellers of change

Samprabhav
Foundation

This bag is made from
Ocean Bound Plastic

A woman in traditional Mayan attire, including a colorful patterned blouse and a dark skirt with colorful geometric designs, is carrying a large white reusable bag over her shoulder and a blue tarp over her other shoulder. She is walking outdoors, and the background is slightly blurred, showing some greenery and a paved area.

School's Role in a Bigger Mission

Be a Positive Changemaker School

By choosing these bags, your school directly contributes to:

- Reducing plastic from the oceans.
- Lowering carbon footprint.
- Supporting the circular economy.
- Promoting responsible consumption.

Your school's name will be featured in our Sustainability Hall of Fame

A photograph of two young girls walking outdoors. The girl in the foreground is wearing a white long-sleeved shirt and a dark green schoolbag, looking back over her shoulder. The girl behind her is wearing a pink and white plaid shirt and a dark schoolbag, looking forward. They are walking on a path with green foliage in the background.

Customisation & Value

- School logo printing.
- Design & colour choice.
- Eco tag with your school's sustainability pledge.

Affordable. Durable. Stylish.

**Comes with a free awareness
kit for students**

Impact Metrics You Can Share

For every 1,000 bags

250 kg of ocean-bound plastic removed.

400 kg CO2 emissions reduced.

30 livelihoods supported.

You're not just buying a bag. You're carrying a purpose
