

**Southern Cherokee Nation and The Red Fire People (State of SCNRFP),**  
a Recognized International Independent Sovereign Neutral Nation and State  
Office of Chief Gees-Due OO-Neh-Gah Usti

01 January 2020

State of SCNRFP, we are the Lower Cherokee Peoples also known as the Chickamauga Cherokee (Chicomogie), Tsigamogi, Cherokee, Nation De Cherokee....

Note: Important to any nation that is not yet gold backed. SCNRFP Funding has added several funding methods to include but not limited to a service for becoming gold backed. We are offering nations a gold backed bond to support their currency.

This will allow their currency to become gold backed, thus increase your value of your currency and reduce their debt. Therefore, their currency would trade much higher in currency trading and exchange, it will allow them to spend less for imports, their ability for an increased budget, provide a higher and a more stable credit rating for the country, supporting economic development projects and supporting social needs.

Many countries are now becoming gold backed, and those in the future that are not gold backed will be at a huge disadvantage. "Becoming Gold Backed, Is Worth Its Weight in Gold." We will also assist any nation that does not have their own gold by assigning gold to their currency for their benefit.

We will further assist any country who does not have their own currency, to create their own currency and their currency to properly engage into currency exchange and trading as gold backed.

We offer many other funding methods that there should be no reason for a sovereign not to desire to speak to about these benefits for their nation, everything from above and below ground asset trading and monetizing to creating an additional currency for their nation, that of gold backed crypto currency, to many other methods to create profit centers for the nation.
