To Whom It May Concern:

It is my honor to communicate with your esteemed self and beautiful historical country. I hope this finds you well and wish you a long life and blessings. Your knowledge and actions of your esteemed career of public service, education, and business speaks for itself as being a great benefit to your nation.

Officially, The State of SCNRFP would like to thank you in advance for the time that you are so kindly providing The State of SCNRFP for the benefit of your nation, our nation, and for the world.

State of SCNRFP does not agree with, nor support, nor participate in with colonization, rather we believe in peaceful, fair and equal self-determination and sovereignty. We support preserving traditional institutions, customs, and values. We support individual freedom, limited government, rule of law, peace through moral strength, fiscal responsibility, equal free markets, and human dignity. We believe in hope, prosperity, safety, and peace, no matter of race, color, spirituality, or creed, we are one human race. We do not support neocolonialism, cultural imperialism, nor exploitation, we believe in moral leadership.

The State of SCNRFP as a neutral unaligned State poses no kind of threat to life, liberty, economic, and social. We believe in respecting both our culture and traditions and those of others. As a theocracy, we are a government by the Creator.

The State of SCNRFP is in keeping with Diplomatic Decorum, Protocol, and Etiquette.

Diplomacy is the art and practice of building and maintaining relationships and conducting negotiations with people using tact and mutual respect.

We Offer Partnerships and Humanitarian via Relationship

State of SCNRFP Government New Directives 2025 Streamlining Government Process

Feel free to contact our government to discuss the steps. New Step One: The State of SCNRFP offers and extends relationship through partnership, not in the same way these countries have had to seek and request funding globally from other governments and organizations in the past.

We have offered relationships and partnerships globally; in return our country has requested that their country make official requests of a desire and or need of their country directly to:

The Office of The Prime Minister Usti of The State of SCNRFP Government Email Address

scnrfp@stategov.services and CC The State of SCNRFP Emissary that is working with their country for this simply way forward. Provide your official request in your language if you wish, however we will require also an English Translation when submitting your request to the State of SCNRFP Government. Be sure to provide complete detailed information about your request along with an introduction cover letter on your official government letterhead stating name, official title or position, and office, with your complete official government contact details. <https://statescnrfpgov.ag/global-mission-2025>

We look to offer partnerships to countries who are seeking and requesting any funding, investments, technologies, foreign aid, disaster relief, foreign and domestic sovereign wealth funds, trading, financial enhancement methods, increased currency value creation and trade, or otherwise, thus streamlining the global mission forward, and in keeping with the national interest of the State of SCNRFP. We offer Humanitarian as a Gift of Offerings. Offerings, on the other hand, are voluntary gifts expressing gratitude or support for specific needs, given freely, which are treated differently from that of non-humanitarian acts such as funding, investments, technologies, foreign aid, and otherwise non-humanitarian acts. There are two types of investments, either from our government with said interest or from a company incorporated within our government with said interest. Funding and investments are made financially available in multiple transactional ways, to include but not limited to on and off ledger funds being cleared via hosting nation central bank and a central bank government account established for our government to deposit dedicated funds. Funding/loans, Investments, and Humanitarian are all separate opportunities and handled differently.

Separately, we have received many requests from tribes within these countries, their request is handled differently, they are handled via NNIA supported by the State of SCNRFP <https://statescnrfpgov.ag/nnia-convention-page>

Further, it opens the ability for countries, their ministries and agencies to come directly to our country to partner, and The State of SCNRFP Emissaries to go to any ministry or agency in any countries and inform them of these positive missions forward in a partnership with our Theocracy Government.

We desire to have a good and long official relationship between our nations for peace, good-will, and friendship.

The State of SCNRFP missions is that of peace, good-will, and friendship providing ways to support and benefit the hosting nation and your people with humanitarian, investments, funding, foreign aid, technologies, economic development, social needs, disaster relief, and otherwise related under a commercial and economic diplomacy agreement. We offer to come together under a long-term diplomacy agreement 8a between the countries, followed by an offering of an 8b territorial agreement to be discussed sometime in the future which will additionally benefit the hosting nation.

The State of SCNRFP provides three defined principal ways that would be most proper and good for our two great nations to work together, feel free to choose all three. It should be aware that Number One is necessary to have a proper relationship. Number Two is optional but provides even more benefits to the Hosting Nation. Number Three is possible with or without Number Two and even possible without Number One, but we do desire to have a good relationship with the Hosting Nation and see the Hosting Nation benefit ongoing.

Please find attached herewith a letter marked 8.a. for intimating you with formal request of the establishment of an Extraterritoriality Trade Mission Office (ETMO) and for your acknowledgment, recognition, and approval of the 8.a. document.

The 8.b. provides a number of more benefits in support to your state to include ongoing investments and funding long-term. It should be noted that we are providing and introducing one hundred percent investment into economic centers whereby we are also providing equal sharing of The State of SCNRFP receivables for humanitarian, social needs, and to establish economic centers to the benefit of your country which is far better than any economic zone known today. This sharing will additionally assist in supporting any needs you may have a desire to support within your own country. Making available many kind and generous worthwhile valuable offers and opportunities that provides important methods of financial support and profits centers with having the best interest of your great state. These profits centers can be better than unpredictable foreign aid, rather may provide 365 days a year of long-term foreign aid through proper relationship and cooperation.

Equally our government is most interested and willing to make a purchase or long-term lease (purchase preferred) on one of the islands, to be used for a humanitarian base and disaster relief, providing ongoing support and benefit to the hosting country with humanitarian, and opportunities of investments, funding, and value technologies. It should be noted that many of these islands and shoreline properties are being taken over by the ocean as we speak and will one day soon be underwater caused by the rise of water globally. At such a time it will not have the same usable value any longer to the country. Much is changing globally with the shifting of world powers and global currencies, to include the world's reserve currency. Many more needs are coming caused by economic changes, climate changes, war, disasters, and otherwise. **The State of SCNRFP poses no threat as we are an unaligned and neutral nation.** The State of SCNRFP has many valuable technologies to assist with many current and forthcoming troubles. Without making mention of all the many current and forthcoming concerns it is good to have more positive relationships for any additional contributions to see you through.

Through these means of our request, we seek first to develop a relationship of Peace and Goodwill and Friendship, followed by the strengthening of both States and our peoples through making available to your great state with support of humanitarian, social needs, economic development, technologies,

investments, funding and other opportunities in a good way, as you may need, desire, and suggest, while making available many kind and generous worthwhile offers and methodologies providing important methods of financial support and profits centers with always the best interest of your great state.

Pandemics has also shown how easy things can happen in creating many needs by countries globally, therefore, no better time for our relationship to begin in ways to be ahead of the curve and the needs its presents, no better time to begin a friendly relationship together whereby we desire the best for your nation and ours. There could be no better time for our great states to form a friendly relationship and come together in a good way for first peace and goodwill and friendship, whereby we desire the best for your nation and people and ours. The State of SCNRFP believes that such a relationship will be long-lasting and mutually beneficial to both our great states.
