State of SCNRFP is Making Available to the Hosting Nations Many Valuable Technologies, to include but not limited to Renewable and Alternative Energies, Water, Waste, Oil and Gas, Mining, Agriculture, Medical, Housing, Infrastructure, Transportation, and Many Others.

State of SCNRFP is Making Available the funding for the Hosting Nations to support being able to obtain the many technologies.

State of SCNRFP is Making Available quality systems that produce more energy, but have a smaller foot print, thus less expensive.

State of SCNRFP is Making Available the ability to come to our nation for research and development with our most responsible oversight, however without having the restrictive, costly and overburdened policies and regulations.

The following technologies are from internal reach and development, and fortune 50 and fortune 500 companies that are in agreement with SCNRFP, such as:

Technologies:

- Providing Proven Advanced Science and Technologies
- Medical
- Systems and Services

- Cradle to Grave
- Upstream
- Midstream
- Downstream
- Development
- Infrastructure
- Oil and Gas to include LNG
- Alternative and Renewable Energy Technologies in front or behind the meter
- Water and Waste Solutions and Systems
- Waste to Energy
- Battery Backup
- Digestives
- Recycling
- Remediation
- Agriculture
- MEGS
- Housing
- Transportation
- Telecommunications
- Engineering and Construction
- O&M
- Sustainability for New and/or Existing Structures

Renewable Energy Project Areas

- WtE
- Digestives
- Biomass
- LNG
- Hydro
- Wind
- Solar
- Battery Backup

- Geothermal
- Hydrogen
- Cogeneration
- Energy Storage Systems
- Pressure Let-Down Systems
- Cryogenic Nitrogen
- Water Treatment Systems and Sewer Systems
- Conservation Systems
- Mission Assured and Energy Security
- Feedstocks
- MEGS
- LED
- Other

PRESENTATION LIST:

- Agriculture
- Atmospheric Water Generator - Water Security
- Baker Hughes Agreement with CDF for BH Services and Technologies
- Biomass and Waste To Energy
- CDF's New and Upgraded Technologies and Systems
- Development - Worldwide Country Development
- Digestive and Bio Gas Systems
- Energy Inquiry Forms
- Engineering and Construction, O&M
- Financing for Energy – Steps To Obtain
- Geopressure to Natural Gas Let Downs
- Green Energy From Wasted Natural Gas Pressure
- Housing, (Green and Secure)
- HVDC Technology
- Infrastructure Development
- Industrial Gas, Clean Energy, LNG and Hydrocarbon Applications
- Inside Large Water Pipe Energy
- Inside Small Water Pipe Energy
- Large Hydro
- LED Lighting
- LED Installation Partner
- Medical
- MEGS

- Oil and Gas Interest and Investment, to include LNG
- Oil and Gas Requirements to obtain investments
- Oil and Tar Sands Services and Technologies
- Remediation Technologies and Services
- Small to Micro Hydro Power System - The Guide to Hydropower
- Solar and Solar Film
- Sustainability for Existing Commercial Properties
- Sustainable Safe Living & Work Structures and Food Security
- Waste, Recycling and Green Processing Feedstock and Products and Systems
- Water Treatment and Waste Treatment Systems
- Wind
