

2019 Membership Guidelines

- 2018 new members can get up to 30% by their sponsor adding more to their group or they get new members under them. Sponsor does not get the discount.
- If a 2018 new member sponsors a 2019 new member; the 2019 new member gets 10%, two new members 20%, 3 new members 30%
- All members have a max of 30% off of their dues. Anyone bringing in a member who has already reached their 30% off will get a round of golf for four for every new member they bring in.
- Any new 2019 member who brings in one new member when they join, each receiving 10% off, has until the end of the following month to bring in additional members to receive the 20% or 30% discount. If they bring in more new members in the next months, their discount will not be in until the 2nd year, but the new member they are bringing in will have the full discount.
- If a new member resigns who is getting 30% off, the remaining new members who are a part of this group stay at the 30% but the member sponsor would go down to 20%.
- If a member who resigned from the club wants to rejoin, they can rejoin without a wait if they are rejoining at the same or higher rate. If they want to rejoin at a lower rate, they have to sit out for 2 years.
- If a social member resigned and wants to rejoin and move up to golfing or if a current member wants to move up from social to golfing the cost is \$3,500. If they bring in people under them, they would not get a discount but the people they bring in would.
- Non Resident members who sponsor new members receive a \$100 credit and three rounds of golf for each new member they bring in.
