2B. Experience of Applicant, Subrecipient(s), and Other Partners

1. Describe your organization's (and subrecipient(s) if applicable) experience in effectively utilizing Federal funds and performing the activities proposed in the application.

The expertise of the Greater Flint Health Coalition (GFHC), a 501(c)3 non-profit organization, lies in neutral convening, multi-sector collaboration, and program development and implementation. With over 25 years of experience as an infrastructure organization, GFHC works with partners to achieve true collective impact. GFHC has years of experience successfully utilizing highly structured fiscal management procedures and reporting systems to oversee collaborative federal, state, and foundation grants and contracts, and has demonstrated the financial capacity for executing and monitoring subcontracts with regional partner organizations.

Over the last three years, in its role as the IO/CA for the CoC, GFHC has demonstrated its ability to effectively implement HUD requirements. GFHC has successfully worked with the CoC's Executive Committee and Governance Council to ensure the governance charter and policies and procedures are followed. GFHC has worked alongside the current HMIS Lead Agency to ensure compliance with HUD's HMIS Data Standards including data quality, privacy, and security protocols. Recently, GFHC distributed and collected newly required data use agreements. GFHC has supported HUD-required reporting such as the Point in Time Count (PIT), Housing Inventory Count (HIC), Annual Performance Report (APR) and Longitudinal System Analysis (LSA). The GFHC has incorporated data reporting and analysis as a standing agenda item for the CoC's Continuous Quality Improvement Committee leading to both data collection and system improvements.

GFHC has created standardized electronic forms and an online space for data review for CoC service providers and partners. GFHC has also established regular meetings between system service providers where they provide input on how to collect data more effectively and efficiently.

GFHC has the capacity and infrastructure to effectively manage HMIS responsibilities including technical expertise, sufficient staffing, and experience managing/working with complex databases. The GFHC's capacity is demonstrated by its development and subsequent implementation of another human services data system for Mid-Michigan CHAP. This case management data system is similar to HMIS in that it collects demographic information, screening assessments, as well as referral tracking. It meets all HIPAA privacy and security standards, which parallel those required for HMIS. GFHC staff has supported the system administration, training, user support and reporting of the CHAP data management system throughout its 10-year lifespan. Another demonstration of the GFHC's capacity and technical expertise is its utilization of Airtable in managing a multitude of CoC functions including but not limited to membership, meeting documentation, attendance, fiscal reporting, grievances, and communication requests.

At its core, GFHC is a data driven organization. GFHC maintains an annual Community Data Scorecard composed of over 550 metrics related to Genesee County residents' demographics, population health outcomes, individual behaviors, social and economic factors, environmental factors, health care, and vulnerable populations. GFHC is looking forward to leveraging this experience in utilizing HMIS data to inform the strategies and activities of the CoC.

GFHC has working relationships with all HMIS-participating service providers and their HMIS administrators. It will maintain regular contact with those service providers through in-person meetings, telephone calls, emails and messaging systems. GFHC will also conduct a monthly HMIS Administrators Meeting to provide necessary HMIS information and training to service providers and their staff members.

All GFHC staff working on this project will complete the trainings required by MCAH through its HMIS Learning Center. Required courses include Client Privacy and Data Security Essentials, Intro to the HMIS, Basic Data Entry Components, Household Management in the HMIS, Entry/Exit Suite, Service Transactions, Unnamed and Anonymous Records, Locking and Unlocking Client Profiles, Intermediate Data Sharing and Learning Visibility Concepts, Community Service Reports, Advanced Privacy and Security, Establishing Visibility Groups, Internal and External Visibility Groups, Provider Tree, and Creating and Managing Provider Pages.

GFHC HMIS staff will also be trained in HUD and MCAH HMIS requirements, as well as HMIS requirements set forth in the Flint and Genesee County CoC's Governance Charter, policies and data and security plans. This will be provided internally through GFHC and through trainings and conferences provided by HUD, the National Alliance to End Homeless (NAEH), and MCAH.

GFHC's HMIS project supports a safe and stable environment for participants and the surrounding community by protecting the privacy and confidentiality of clients entered into HMIS. This is accomplished by following all HUD, MCAH and CoC regulations, policies and guidelines related to client privacy and confidentiality, including those requiring the use of a separate, comparable database by domestic violence, sexual assault and human trafficking service providers.
GFHC will provide the following services as part of its HMIS project:
• Maintain the CoC's HMIS in compliance with U.S. Department of Housing and Urban Development (HUD) standards, including training, maintenance, and technical assistance;
• Develop and implement data standards, privacy plans, and security plans;
• Ensure consistent participation of recipients and subrecipients in HMIS, including the maintenance of HMIS licenses;
• Monitor recipients, subrecipients and all participating organizations for compliance with HUD regulations and requirements, MCAH policies and requirements, and the Flint & Genesee County CoC' s Governance Charter and HMIS policies (to include data quality, privacy and security plans);
• Provide technical assistance to the CoC, recipients, subrecipients and all participating organizations;
• Respond to requests for licensing, data, and technical support in a timely manner;
• Produce and submit all HUD-required reports and other data submissions in a timely manner;
• Properly and efficiently administer HMIS grant funds from HUD and other funders;
• Conduct the annual Point-in-Time (PIT) Count and Housing Inventory Count (HIC) in partnership with the Collaborative Applicant;
• Support project and system-level evaluation; and
• Provide information to local partners for HUD Consolidated Plan submissions.

GFHC’s key partners on this HMIS project will be the Flint & Genesee County CoC and all HMIS-participating service providers in Genesee County.

The Local System Administrator must investigate the incident within one business day, by running applicable audit reports, and by contacting MCAH staff for assistance with the investigation. If the System Administrator determines that a breach has occurred, and/or the staff involved violated privacy or security guidelines, the client record(s) in question must be immediately locked down and the Local System Administrator will submit a written report to the MSHMIS Project Director and CoC Chair within two business days. A preliminary Corrective Action Plan will be developed and implemented within five business days. Components of the plan must include at minimum supervision and retraining. It may also include removal of HMIS license, client notification if a breach has occurred, and any appropriate legal action."

Failure to enter adequate “Quantity AND Detail” may result in conditions being placed on the award and a delay of grant funding.

Annual Assistance Requested: This is a required field. For each grant year, enter the amount funds requested for each activity.

Total Annual Assistance Requested: This field is automatically calculated based on the sum of the annual assistance requests entered for each activity.

Grant term: This field is populated based on the grant term selected on Screen “6A. Funding Request" and will be read only.

Total Request for Grant Term: This field is automatically calculated based on the total amount requested for each eligible cost multiplied by the grant term.

Information About Submission without Changes

Follow the instructions below making note of the exceptions and limitations to the “Submit Without Changes” process.

In general, HUD expects a project’s proposed project application information will remain the same from year-to-year unless changes are directed by HUD or approved through the grant agreement amendment process. However, HUD expects applicants to carefully review their information to determine if submitting without changes accurately reflects the expiring grant requesting renewal.

The data from previously submitted new and renewal project applications can be imported into a FY 2024 renewal project application. The “Submit without Changes” process is not applicable for first time renewing project applications or for a project application that did not import FY 2023 information and e-snaps will automatically be set to “Make Changes” and all questions on each screen must be updated.

Renewal projects that select “Yes - Individual Application in a Renewal Grant Consolidation” on the Renewal Grant Consolidation or Renewal Grant Expansion Screen may not use the “Submit Without Changes” process and esnaps will automatically be set to “Make Changes”. In addition, esnaps will automatically be set to “Make Changes” if the project applicant indicates on the Renewal Grant Consolidation or Renewal Grant Expansion Screen, this project application is for a “Yes - Stand-Alone Renewal Application in a New Grant Expansion” project application.

The e-snaps screens that remain “open” for required annual updates and do not affect applicants’ ability to select “Submit without Changes” are:
- Recipient Performance Screen
- Consolidation and Expansion
- Screen 3A. Project Detail
- Screen 6A. Funding Request
- Screen 6D. Sources of Match
Screen 6E. Summary Budget - All of Part 7: Attachments and Certification; and
- All of Part 8: Submission Summary.

All other screens in Part 2 through Part 6 begin in “Read-Only” format and should be reviewed for accuracy; including any updates that were made to the 2023 project during the CoC Post Award Issues and Conditions process or as amended. If all the imported data is accurate and no edits or updates are needed to any screens other than the mandatory screens and questions noted above, project applicants should select “Submit Without Changes” in Part 8. If project applicants imported data and do need to make updates to the information on one or more screens, they must navigate to Part 8: “Submission Without Changes” Screen, select “Make Changes”, and check the box next to each relevant screen title to unlock screens for editing. After project applicants select the screens they intend to edit via checkboxes, click "Save" and those screens will be available for edit. Once a project applicant selects a checkbox and clicks "Save", the project applicant cannot uncheck the box.

Please refer to the Detailed Instructions and e-snaps navigation guides found on HUD.gov to find more in depth information about applying under the FY 2024 CoC Competition.

Renewal Grant Consolidation or Renewal Grant Expansion

The CoC Competition will continue offering opportunities to expand or consolidate CoC projects.

1. Expansions and Consolidations will no longer be required to submit a combined version of the application.
   a. Expansions will be required to ONLY submit a Stand-Alone Renewal and a Stand-Alone New application.
   b. Consolidations will be required to ONLY submit a Survivor grant and a terminating grant. Up to 10 grants may be involved in a consolidation (Survivor + 9 Terminating grants)

2. Since no combined version will be submitted for either the Expansion or Consolidation, the combining of data will occur at Post-Award. HUD HQ will combine all units, beds and budgets prior to the Post-Award process. The field office and applicant will then be required to combine remaining project data at C1.9a (recipient step). HUD HQ will provide a data report with the data all combined. All that will be required for applicants to do is a simple copy and paste.

We hope this process will simplify and reduce any confusion when submitting expansions or consolidations. If you have any questions, please contact the AAQ.

In FY2024, the Violence Against Women Act (VAWA) has clarified the use of CoC Program funds for VAWA eligible cost categories. These VAWA cost categories can be added to a new project application to create a CoC VAWA Budget Line Item (BLI) in e-snaps and eLOCCS. The BLI will be added to grant agreements and utilized the same as other CoC Program BLIs in e-snaps and eLOCCS. Eligible CoC VAWA costs can be identified in one or both of the following CoC VAWA categories. Examples of eligible costs in these cost categories are identified as follows:

There are three CoC Program rural cost categories that can be requested for your CoC Rural Cost BLI.
