

# Discreet Urban Fox Control

London · Surrey · Sussex

Specialist, responsible fox management for high-end homes, estates, and sensitive sites.

## When foxes become a problem

- Fouling, odour, and persistent nuisance behaviour
- Damage to lawns, borders, decking, and outbuildings
- Noise and disturbance at night
- Risk to small pets, poultry, and young animals

## What I provide

- Site survey and risk assessment (safety and suitability)
- Humane, lawful control measures where appropriate
- Preventative advice to reduce re-entry and repeat issues
- Deer management (where relevant)

## Professional standards

- Former British Army trained marksman
- Police certificated
- DBS checked
- Fully insured
- British Deer Society qualified stalker

Premium, discreet, safe service.

RAMS available for property managers and commercial sites.

# The process

Clear, professional, and safety-led from first contact to aftercare.

*"I take pride in resolving fox and deer problems safely and responsibly, with respect for you, your neighbours, and the animal."*

- 1 Initial call**

We discuss what you're seeing, likely access points, and the level of urgency. If needed, I'll arrange a visit at a suitable time.
- 2 Site survey & risk assessment**

A safety-led survey confirms whether the location is suitable and identifies a practical plan. Site survey: £120 (no obligation).
- 3 Quote & plan**

You receive a clear quote and proposed approach, including timing, neighbour considerations, and aftercare advice.
- 4 Control visit(s)**

Where appropriate and lawful, control measures are carried out professionally and discreetly using firearms, with safety as the primary driver.
- 5 Aftercare & prevention**

Advice to reduce repeat problems (waste, access routes, deterrence options). Follow-up support available.

## Typical clients and sites

- Large private gardens, estates and grounds
- Property management, concierge and facilities teams
- Schools, nurseries and sports grounds
- Golf courses, hotels and parks

Trade partnerships available for pest control companies: referral, or white-label / subcontract.
