

Steel Pipe Bollards

Steel Pipe Bollards are used to protect facilities, parking and pedestrian areas. They keep vehicles from invading storefronts, bank drive-thru ATMs and many structural utility areas. Steel Pipe Bollards are permanently fixed at the point of installation with a portion of the pipe secured below ground.

By adding a Post Guard Bollard Cover to the steel pipe bollard, you eliminate the need for continual painting of the bollard post. The many attractive colors of the Post Guard can dramatically change not only the look of a steel pipe bollard but your facility as well.

Avoid the cost of painting - finish your bollards by covering them with [Flat Top](#) or [Dome Top](#) Bollard Covers.

Steel Bollards Size Chart

Diameter	Schedule	Wall Thickness	O.D.	Post Guard Size
4"	10	0.13	4.5"	4.5"
4"	40	0.237	4.5"	4.5"
4"	80	0.337	4.5"	4.5"
6"	10	0.134	6.625	7"
6"	40	0.28	6.625	7"
6"	80	0.432	6.625	7"
8"	20	0.25	8.625	8-7/8"
8"	40	0.322	8.625	8-7/8"
8"	80	0.5	8.625	8-7/8"
10"	20	0.25	10.75	10-7/8"
10"	40	0.365	10.75	10-7/8"
