

Decorative Bollard Covers

Decorative Bollard Covers are a great alternative to concrete, cast iron or stone bollards. They will provide architectural elegance at a more affordable price. As with our original Post Guard covers, our decorative covers provide a dependable maintenance free covering. These covers will fit up to a 10.75" bollard. The granite-like finish provides a professional look which is perfect for any unique locations including luxury resorts, gated communities, business parks, upscale office buildings, and natural park settings.
