2.02 MATERIALS

Specifier Note: Select diameter, color and pole shape. Contractor shall be responsible for giving accurate dimensions to Simon Marketing Group at the time of ordering or may cut the cover to fit at the job site.

A. Polypropylene

1. **Poletector 360 Size:** Covers base dimensions 18" to 24" round bases and 18" square bases.
Poletector 540XL Size: Covers base dimensions 25" to 34" round bases and 24" square bases.
2. Standard colors: Safety Yellow, Safety Blue, Imperial Blue, Red, Silver, Green, Safety Orange, Brown and Black.
3. Specify square or round pole. Cut out will be .125" larger than the size of the light pole.

Part 3 EXECUTION

3.01 Installation

- A. Concrete light pole bases will be covered with a 9.5" tall ring set. A second ring set will extend the unit vertically to 19". The third and fourth ring set will extend the unit vertically to 28.5" and 38". A two-piece cover will be installed upon the last ring set. This top section will have a cut out area at the light pole location that will be 1/8" larger than the size of the light pole. A four-ring Poletector covers a standard 40" base including the bolt cover.
