

SCRAPE GUARD Vehicle Protection

FLEXIBLE PROTECTIVE WRAP FOR USE IN WAREHOUSE, DRIVE-THRU, FUELING STATIONS AND MUNICIPAL BARRIER APPLICATIONS

Scrape Guard is a 12 in. wide X 1/2 in. thick, high visibility cover for barriers, beams, posts and bollards to **protect vehicles from impact** and scraping damage. Scrape Guard also protects beams and posts from constant abuse—eliminating the need for painting.

Scrape Guard is manufactured from a non-marring, high visibility flexible vinyl. This effective new product can accommodate nearly any application from small diameter rack posts, to large municipal lighting bases. It conforms to rectangular posts, I-beams and round barriers. Multiple layers of Scrape Guard can be stacked to protect any height or section of post.

Durable PVC with UV Protection for long lasting indoor and outdoor applications.

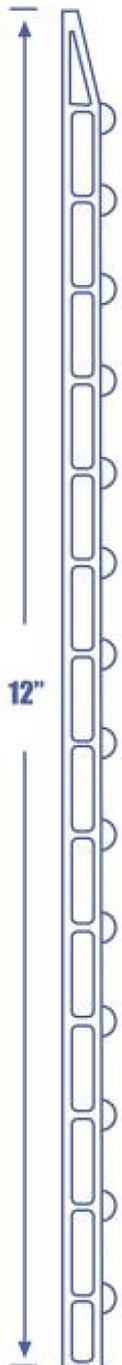

Flexible material available on 25' rolls—**cut to length for any size application.**

Safety yellow stripes integrated into product for a lifetime of high visibility protection.

Scrape Guard can be attached with plastic banding or standard cable ties.

Custom colors available.
