

About Desiccare Inc.

Desiccare is a manufacturer of packaged atmospheric control products. Desiccare, Inc. is a sub-S corporation that has been in business since 1994. Desiccare prides itself in being able to deliver desiccant products (ie Strip Packs: both hole punch and clear window, Pillow Paks and Unit Paks, Oxygen Absorbers, Humidity Indicating Cards, Humectants, and a variety of consumer products) on short notice to the customer's satisfaction. Desiccare also has the capability of making specialty products that require specific packaging and/or handling.

Desiccare's Mexico Tijuana Facility is ISO 9001-2008 Certified and cGMP Certified. At this location, Desiccare makes its Pillow Paks, Strip Paks, Unit Paks and Sewn Bags primarily for the pharmaceutical, nutraceutical and electronic industries, as well as food safety products. The Richland, Mississippi manufacturing facility produces many of the same products, and maintains a first class chemical engineering laboratory for testing, developing new products, maintaining the highest quality standards. Richland also has warehousing to service the mid-west and eastern U.S. customers. Desiccare's Pomona, California Facility provides warehousing to service the western United States customers. The Corporate Headquarters and Customer Service is located in Reno, Nevada.

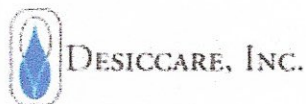

Desiccare's most recent growth has been primarily from increased demand for strip-paks and oxygen absorbers. Desiccare purchases and modifies equipment and manages the production to have adequate capacity to keep pace with demand. Desiccare is currently the 3rd largest desiccant manufacturer in the world but is first in providing short lead times to manufacture and deliver products to the customer. Desiccare has added 40% more manufacturing capacity in the past two-years to meet our increasing demands.

Desiccare follows current Good Manufacturing Practices. Desiccare (Cage Code: 1GQT7) is one of only a few desiccant manufacturers that is on the Mil-D-3464E Qualified Products List for manufacturing desiccants for the Military. The Food and Drug Administration approve Desiccare Inc. for Type III Packaging (Desiccare has a Drug Master File Number). Desiccare Inc. is committed to operating in an environmental responsible manner and is now ISO 14001 certified.

Desiccare's customer service and technical support is the best in the industry. Desiccare prides itself in having many long-term business relationship with its customers. Please contact Desiccare for your specific desiccant, food safety, and humectant needs.

Sincerely,

Ken Blankenhorn
President/CEO
