

“I was looking for an MFA film program that offered me the credential of an MFA with a “boots on the ground” experience, one that would allow me to keep my life intact while pursuing my degree, where I didn’t have to quit my day job or move out of state. FDU’s MFA Film program was the perfect combination.”

“I was searching for an MFA Film hybrid program of online classes and hands-on experience that would work with my schedule. After searching numerous schools, I found a great fit with FDU. And with living on the West Coast, it was worth traveling to the twice-a-year on-campus residencies.”

“FDU’s MFA in Film program focuses on student and faculty relationships, which is essential in the film industry. The expert training, in-person residencies and online courses make the FDU MFA program unique and perfect for prospective students considering film, especially those who work full time.”
