

## Waste to Energy Project Questionnaire

This project questionnaire was designed to allow BOSS Alliance LLC/Dynamis Energy to understand your local parameters and other conditions that will have an impact on the economic viability of the project as well as other factors that will play a role in the success of the project. Please fill out as accurately as possible and return to us as complete as possible. We realize in the early stage of most projects not all information will be readily accessible, however the more information we can gain the more realistic our discussions with you will be. We appreciate your cooperation with providing this information.
