

# IOU Approach to Public Service

We must inform, include, and identify everyone impacted by the material conditions that ostracize far too many from the collective good life. We will use the intersections of our narratives and life stories to collectively **organize our opportunities**

and **Unify, Utilize and Unsoct**  
CCD<sub>2</sub> and the interlinked challenges  
that disconnect us from the  
whole city and each other. We  
will utilize our district's panoply  
of talents, building off its RICH  
history of resilience and community  
cohesion. We can and will unify  
these efforts for collective ascension  
and edification, in ways that end  
Political & Community Cronyism that  
benefits the few, not the many -  
Because we must

**Everyone According to Their  
Ability (+) Everyone According to  
Their Needs = Community**

## LEVATE

Equal access to opportunity  
Equal access to information

Equal access to healthy  
environments

Equal access to **ALL**  
aspects of justice

## MERGE

$$E = MC^2$$

EVERYONE  
ASKING  
CONTRIBUTION

We must connect communities through a lens of interdependence. Each community can and should retain its unique and rich character in ways that promote, support, and retain the vitality and the people who shape(d) them.

From: **Divide and Conquer**  
To: **Mesh and Prosper**
