YOUR EVENT PROFESSIONALS

Kapok and TheAV work in tandem to provide the best event services as a team to ensure the greatest outcome for the client. We offer a wide range of services including various audio rigs, lighting solutions, and video solutions. Continue below for detailed descriptions of our various services.

LIVE SOUND

We have an extensive inventory of audio equipment to support events with attendees ranging from 40 to 4000. We deploy a range of different microphones, high fidelity wireless systems, and speaker configurations based on the needs of your event. From simple speech reinforcement to full blown festival audio, we've got you covered.

LIGHTING

Our inventory of lighting equipment will make your next event look stunning! We have plenty of movers and wash lights to achieve whatever look you're going for. Whether it's simple up-lighting or a full blown light show, we'll make sure your event is lit beautifully.

VIDEO WALL

We can provide a 16x9 video wall to display anything from slideshows and videos to image magnification for any speakers or performers. Video wall will take your event to the next level.

BACKLINE & OTHER SERVICES

We have some high quality backline equipment available for your next festival or concert. This ranges from drums to guitar/bass amps. We also offer video editing services and a variety of post production and studio services.

Client meetings, walkthroughs, and virtual meetings are welcome and preferred. We want to make sure our services are custom tailored to the needs and specifications of your event. Contact us today for a quote.
