QUALITY BASEMENT FINISHING

BASEMENT FINISHING SPECIALISTS

Veteran and Family Owned

We are a local Veteran/family owned and operated basement finishing company, proudly providing excellent client service for over 50 years in Colorado.

As a General Contractor, we have a breadth of experience in architecture, construction, and real estate; our varied knowledge will best serve your home improvements needs. We have been serving Colorado since the early 70's, so we have seen and handled a variety of different scenarios and we know how to get the job done right.

We're Proud of our History

We've been in the construction industry since the early 70's. That's over 40 years of experience in Colorado! We've built homes, flipped houses, and ran government contracts, but our passion is

basement finishing.

Our years of experience in construction and project management will ensure your finished product is second to none.

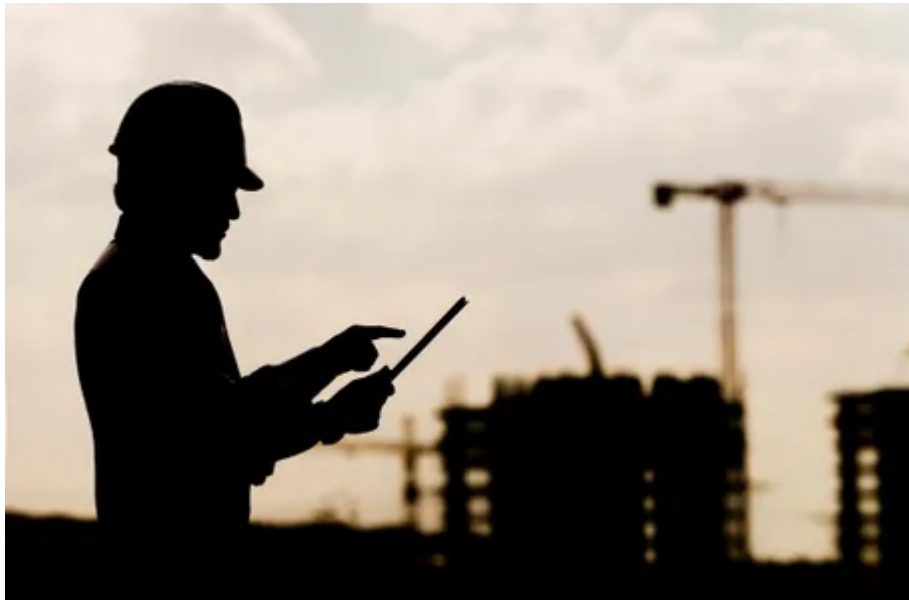

Handled with Kid Gloves

All projects are handled by the owners of DCH Construction from start to completion of project.

Providing great service is very important to us, and we strive to ensure you have the most enjoyable construction experience possible. We put you in the drivers seat when it comes to your decorative preferences, so you can budget accordingly. Please visit our design center - coming soon.

Service Area includes: SE Quadrant: SE Aurora, Centennial, Castle Rock, Castle Pines, Highlands Ranch, Lone Tree, and Parker!

OUR TEAM

Trei Hesse

Donald C. Hesse III, Owner and General Contractor, has 25 years of experience in the Building industry with extensive experience with a variety of trades. He is a licensed General Contractor in Aurora, Castle Rock, Castle Pines, Centennial, Parker, as well as, Arapahoe, Denver and Douglas Counties. Trei and his

father owned a successful interior trim company working on high end projects in the Mountain ski areas and he also worked with a variety of builders in the Denver Metro area, before founding DCH Construction.

Donald has supervised the construction of over 40 “flips” and over 500 basement finishes since DCHs inception. “Trei” works in the field and will meet with you on the initial consultation to measure and evaluate, and then once awarded, he supervises the progress of the sub-contractors from the start of the project, until our final walk-thru.

Trei works with the inspectors from each building department and in conjunction with the office, works with the clients during the entire building process. Trei is involved in the overall operations of the company in the field. He has the knowledge and eye for detail that ensures the projects are built to your specifications and finished to code.

Susan Hesse

DCH Construction, LLC, General Contractor, is a family and veteran owned company with over 50 years years of experience in Building, Real Estate and Architecture, in Colorado. We concentrate on basement finishes exclusively and we take great pride in offering excellent client service while allowing the client to get involved in the design process! We are involved in all aspects of your project, handling your project with honesty, integrity and respect.

Susan A Hesse, Owner and Project Manager, has 50 years of real estate expertise in Colorado, along with over 30 years of experience in the building industry as a construction manager. In the 90's, Susan was awarded a government contract where she renovated over 1800 houses for the Department of Housing and Urban Development in Denver, and has worked as superintendent for several builders in

the region.

Susan is responsible for the hiring of subcontractors, and keeping the jobs on schedule, customer service, bid process, and daily company operations. She has an eye for detail and finishes, keeps the trades on task to get those basements finished in a timely fashion and understands how valuable time is.

Donald Hesse II

Donald C. Hesse II, Owner and Architect, has over 50 years of experience in the architectural and building industry in the Denver Metro area. Donald was responsible for the design and building of many subdivisions in the Parker, Castle Rock, Aurora and Denver area. Don has also designed many of the beautiful homes in Cherry Hills, homes near the Country Club area off of Hampden and University, the Forum Building in Glendale and many other projects thru-out his career. Don is responsible for designing the architectural drawings of all our projects and take-offs for materials.

Donald taught his son, Trei, everything he needs to know about carpentry and trim, and together, they owned a successful interior trim company working on high end projects in the Mountain ski areas. He also worked with a variety of builders in the Denver Metro area, before founding DCH Construction, with his son and wife.

Don, our chief designer, has over 50 years of Architectural and Construction experience. He hand drafts plans using an "old-school" approach to best maximize space while adhering to building code, putting extensive thought into every detail of your custom design, to give you a design you will love!

IMPORTANT INFORMATION

1. We are licensed in the municipality your home is located, as are our trades and we always pull a contractors permit, for your protection.
2. We are insured with a Liability policy of \$2 million, and our trades are all additionally insured, as well.
3. We will provide an extensive reference list from homeowners, from actual projects we have completed.
4. We are a Team Dave Logan Member, who fully vets all contractors with an extensive pre-screening process.
5. We provide a written proposal with scope of work and architectural plans and signed contract, so you know what to expect throughout the process.
6. Our BID lays out everything you'll need for a quality basement finish, including costs for labor and materials, and estimated cost for decorative purchases and permits.
7. We will provide you with a list of the decorative items that are your responsibility for purchase. This puts you in the drivers seat and gives you the opportunity to budget your basement finish. Please be sure these items are on property and ready at start date.
