### QUALITY BASEMENT FINISHING

### OUR SPECIALTIES

### We Don't Skimp on Quality

DCH Construction, LLC, General Contractor, is a family and veteran owned company with over 50 years of experience in Building, Real Estate and Architecture, in Colorado.

We concentrate on basement finishes exclusively, and we take great pride in offering excellent client service while allowing the client to get involved in the design process! We are involved in all aspects of your project, handling your

project with honesty, integrity and respect.

Having done over 500 basements since our inception, we are specialists in basement finishes, providing you with the best service and the highest quality products, at the lowest cost possible. We have compiled our years of experience in construction, design, real estate and architecture, to bring you a hand-drawn old school approach, coupled with new school design aesthetics to give your project a seamless finish.

## OPTIONS

---

## Wet Bars

Custom bars from mild to wild! If you can dream it, we can build it. Adding a Wet or Dry bar to your basement finish can add value to your home and it creates a space your family and friends will love!

## Kitchens in Basements

We can build a secondary living space, to include a full kitchen. With our design assistance, your finished basement can be the envy of your neighbors, and guests can rest easy!

## Custom Showers

We can build the shower of your dreams! You pick out the tile, valve and finish; we make it a reality! Adding a steam shower, walk-in shower, or bench can give you an oasis in your own home!

## Wall Treatments

Ship lap, beetle kill, and stacked stone are just a few of the details that can add style and class to your design to make the space really pop! Please ask to include the install in our BID.

## Open Rails

Opening a stair case is an affordable BID option that can dramatically change the living space. It opens up the space, adding light and an interesting design aesthetic.

## Custom Design Options

Barrel ceilings, arches and built-ins are architectural details that add custom design aesthetic that can be included in your basement design at an affordable cost.
