All of the workshops will be taught by our favorite instructors. All the children love their bubbly personalities and their patience with children of all ages.

Additional teachers will assist if needed for larger workshops.

Each workshop is 2 days and are only 90 minutes each. You may select either baton, hip hop, tumbling, or try them all.

Each workshop is different. This is a great way to try new classes or to stay "in tune" with your skills you have learned through out the year at the school.
