

HONEYMAN
HONEY

Whispers of Stone and Nectar

In medieval Scotland, the ‘Honeyman’ was a specialist craftsman whose work was essential to both Church and Crown. In the great abbeys of **Melrose and Arbroath**, they managed straw "bee-skeps" to produce the rare, golden nectar that graced the monks' refectory tables. But their duty went beyond the palate; they were the masters of light. While the common world lived in the soot of animal fat, the Honeyman harvested **pure beeswax** for altar candles—a sacred necessity that provided a clean, golden flame for midnight prayers.

By the 1700s, this vital occupation had evolved into the proud family surname still found today in **Fife and the Lothians**.

Today, at ‘**Honeyman Honey**,’ we reclaim this ancient legacy. We don’t just make honey and candles; we are restoring a thousand-year-old Scottish tradition.

Unashamedly Scottish. The original beekeepers. History, illuminated and served.

**Taste the
history!**

Original

A raw spring honey celebrated for its purity and traditional Scottish heritage. Sourced from the pristine landscapes of the Scottish countryside, this is the brand's flagship product, designed to offer honey exactly as nature intended.

Reserve

The pinnacle of Scottish craftsmanship. Our Reserve honey, featuring a generous chunk of raw honeycomb directly from the hive—delivering a luxurious, multi-textured experience made from summer flowers.

Buckwheat

A dark, robust, and malty treasure from Ukraine. This single-source honey is a powerhouse of antioxidants, perfect for those seeking a deeper, more complex flavour profile and overall wellness and medicinal benefits.

Acacia

The World's Gold Standard: Hungarian Acacia Honey. Naturally high in fructose, this honey stays silky and pourable for years without crystallizing. Unlike bolder honeys, this is light, floral, and carries a hint of vanilla.

Chocomb

This honey based (98 percent) chocolate spread has all of the goodness and none of the badness of other chocolate spreads. Made with 100% Ecuadorian cocoa and shavings of the finest dark chocolate, a firm family favourite.

Beeswax candles

Breathe Better. Burn Brighter

Experience the golden warmth of 100% pure beeswax. While ordinary candles often mask odours with chemicals, Honeyman Honey candles naturally clean the air, replacing "petro-soot" with a gentle, honey-scented sanctuary.

The Beeswax Benefit

Nature’s Air Purifier: Releases negative ions to neutralize dust, pollen, and odours.

100% Non-Toxic: Strictly paraffin-free. No phthalates, parabens, or lead.

Sun-Mimicking Light: A warmer, brighter glow that mirrors the natural solar spectrum.

The Essential Oil Advantage

Unlike fragrance oils—which are often petroleum-based—essential oils are plant-derived. They burn without releasing phthalates or "parfums" that can trigger headaches and asthma. When heated, essential oils release genuine therapeutic benefits (like calming or energizing) rather than just a "mimicked" smell.

40+ Hour Burn: Long-lasting, slow-burning natural wax.

Product	RRP	Wholesale Price MOV £200	Distributor Price MOV £750- £1250
Scented Candle (130g)	£8.00	£5.00	£4.00 – £3.80
