Hidden Animals with Franz Marc

Wednesday November 29, December 6, 13, and 20

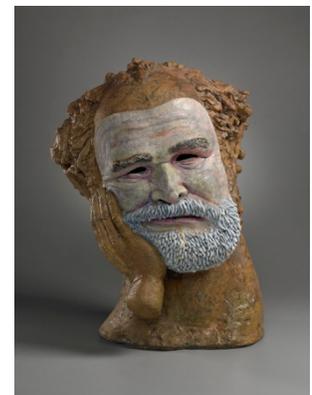

Franz Marc is the fun and enchanting artist of the animal kingdom. His animals often hide in a landscape of lines and fractions. In this fun class we will create an animal landscape filled with hidden animals. I wonder how many you'll be able to discover and hide.

Self-Portrait Pendant

Wednesday January 10, 17, 24, and 31

Ceramic Funk artist Robert Arneson has created hundreds of self-portraits portraying the many facets of his quirky personality. In this fun class we too will immortalize ourselves by creating a Papier Mâché clay self-portrait pendant. We will learn the difference between creating a sculpture in the round and one in relief. Our pendant will be in relief. We will also begin to understand the elements of texture and color and how they relate to an artwork as a whole.

Bird Sculpture

Wednesday February 7, 14, 21, and 28

John James Audubon was absolutely bird crazy. He created a picture of every species of bird in North America. I don't think anyone has loved birds more than Audubon! Except for artist Barbara Kobylynska who was also bird crazy. In this very bird crazy class, we will create a bird using sculpture materials, but this time our sculpture will be in the round.

*Above him were seraphim, each with six wings: With two wings they covered their faces, with two they covered their feet, and with two they were flying. And they were calling to one another:
"Holy, holy, holy is the Lord Almighty"
