Walker Case Calls To Mind Local Practices

New York Ex-Mayor Was Under Pressure for Receiving Bequest From Company Doing City Work.

As predicted by The Carteret News last week, James J. Walker, Mayor of the City of New York, resigned.

The Mayor's only possible legal offense was the accepting of eight shares of stock of a company a few years ago that sometime hunky dory. later sold \$20,000.00 worth of filing cabinets to the City. The records show that the stock never paid anything so that the Mayor never could have been a financial gainer by the stock ownership.

It has been reported here from time to time in the past that officials have been directly or indirectly interested in companies that have had taxpayers' money turned over to them by the officials action or in-

In other cases it has been reported or alleged that notes otherwise practically worthless have been endorsed and then public business, regardless of bids handed over, thus protecting

Other games galore are reported to have been worked in a pretty brazen way regardless of the law with the idea it would never come

No Matter How Big You Are, Chickens Come Home to Roost

The Walker case illustrates that no matter how big you are chickens come home to roost.

What Walker is alleged to have done was a nothing alongside of the

weighed over ten pounds.

This does not appear to be the case after comparing bids. It seems there were five routes on which service was required by the Board of Education: one to East Rahway; one to Rahway Station; one by bus to New Brunswick; one to Perth Amboy and one down to the boule-

wick the Carteret Bus Service, Inc., The actual loss was \$1,224,056.00. was high. On the route to Perth It appears the company, also, had Amboy and to the Boulevard sec-

Instead of awarding each bid to the one who was low or awarding the total bid for the five routes to So that the loss for the fertilizer picked out and handed over to the Carteret Bus Service, Inc., one on which that bus service was low and one on which it was high. It is true that in the combined bids for these two routes when added to-1932 gives all apearance of being gether they were lower than the Public Service, but they put no bids

> In other words, no bids were put in at all on two routes by them and that was apparently satisfactory to the Board. They put bids in on two other routes, on one of which they were low and on one of which they were high, and they got both of them.

In view of the fact they did not bid on all routes, it seems strange that the Board of Education should club together the two offers on which they made bids and give both to them despite the fact they were high on one and low on the other.

Taxpayers Are Just As Much Local as Anyone

If they were going to give the taxpayers a break and it is the taxpayers' money they are handling, one would think the Board of Education would give to the low bidder in each case. While the Carteret Bus Service, Inc., is supposed to be "local" the taxpayers are also local and Included in the haul of fifty fish very much so. There are more tax-Mr. Merrick caught a weakfish that payers than Carteret Bus owners. (Continued on Editorial Page)

SYNOPSIS

Wilson McCann, young Arizona ranchman, is called to help an old friend, Jim Yerby, with a broken leg. Julia Stark, daughter of Matthew Stark, inveterate enemy of the McCanns, is with him. Taking a note from Julia to her father, Wilson is fired on by Jasper, Julia's brother. Ann Gifford, with her young sister, Ethel, are sheep raisers, and on that account ampopular with the cattlemen. "Night riders" here." ampopular with the cattlemen. "Night riders' aboot a McCann rider. Peter McCann, Wilson's father, offers a reward for the disclosure of their identity. Wilson McCann horsewhips Jasper, he making practically no resistance. Matthew disowns his son for his cowardice, and posts notice he will kill Wilson McCann en sight. Ann Gifford's tragedy is the fate of her dead sister, Nora, betrayed and abandoned by her lover. Jasper Stark and Carl Gitner, known as a "killer," hold secret conferences. A Stark rider, Tom McArdle, is believed by A Stark rider, Iom McArdle, is believed by the Starks to have been killed by the McCanns, but rumor links his name with that of Nors Gifford. Matthew Stark is shot and killed, from ambush. Julia finds him dead, with Wil-son McCann stooping over him. She and Phil, her younger brother, both accuse McCann of the killing, despite his vehement denial. Wil-son is shot from the chapparal, while standing over Matthew Stark's body. Believing him dying, the Starks have him taken to their

CHAPTER V-Continued

To the Flying VY man Rafferty put a blunt question: "What d'you want

"I drapped in to see if we couldn't fix things up an' to get the correct facts. I'm hopin' the story we've heard ain't true," Tapscott replied amiably. "We've heard stories and o' course we're not lookin' for trouble, so we figured I'd better come to head-

Rafferty ripped out a sudden savage oath. "That lowdown mangy coyote Wils McCann waylaid an' killed Matt Stark this mo'ning, since you're here for facts.

Mildly Tapscott profested. "I don't reckon Wils would waylay anyone, Nick. Who says he waylaid him? I know for a fact that Wils wasn't lookin' for trouble.

Phil's voice broke shrill and high. "Wasn't he? Well, he's found it. You go back an' tell them so that sent

"Meanin' he's been hurt?" "Meanin' he's lying in the house

here shot through an' through." "Tha's bad."

"Bad for the McCanns," retorted Rafferty. "I reckon you ain't worryin' none about Matt."

'Tha's bad, too," Tapscott replied. "I was hopin' we could patch up this range war before it got too late."

"You can't," Phil interrupted, with a touch of hysteria in his boyish voice. "Not till I've got two-three McCanns,"

The foreman of the Flying VY ignored this. He had not come to make sor receive a declaration of war. "What does Doc Sanders say about Wils?" he asked.

"Gives him a day-or maybe two," Gitner cut in triumphantly, with a

Tapscott looked through the Texan without apparently seeing him. But the blank hardness of his gaze softened as he turned to Julia. He had an appeal to make and he hoped that she would back it.

"How can I go back an' tell his old dad that? It'll sure break his heart. He sets the world an' all by that boy, What can we do? His old dad is out there in the mesquite waitin' for me to bring him news of his son. What am I to tell him, ma'am?"

Julia's eyes were on a sudden little wells of brimming tears. She thought of her own father and of how he would have felt if she had been dying in the house of an enemy. She hated the Mc-Canns, every last one of them. They had struck at her a mortal blow from which she would never recover. All her life she would cherish revenge. But even so she could not keep a father from the son whose life was ebbing. If she did that she would always despise herself.

"Tell him he can see his boy." "If he feels like he wants to take the chance," Gitner added with an evil

For the first time Stone spoke, in the low drawl of the Southland, "If Miss Julia says Pete McCann can come here, why I reckon it'll be all

right with you an' me, Carl, won't it?" Gitner's eyes met his reluctantly. There was something compelling in the cool steady gaze of the little man, something that was a menace if not a threat in the even murmur of the voice. The big Texan said no more.

Julia drew her brother aside and urged upon him impetuously her point of view. He listened, half resentful, half consenting. The youth in him, the milk of his tenderness not yet dried up, appreciated and shared her feeling. But he had to remember his lovalty to the dead father within. Would it be construed as weakness for him to let Peter McCann into the house? Did his honor not rather demand that he shoot the man on sight?

The boy in him was for the moment dominant. "All right. Have it yore own way. I know you will anyhow," Phil said, a little sullenly, "Tell

"No, that won't do, Phil. I don't trust that Carl Gitner. We'd better go and meet him, you and I. We'll ride one on each side of him."

To this Phil assented. The three rode up to the pass and Tapscott waved his bandanna as a signal to the | him to speak, not asking what he |

handkerchief, and presently Peter Mc-Cann and his son Lyn came out of the brush to meet them.

"Meet Miss Julia, Pete-Mr. McCann. Miss Julia. Her brother, Mr. Phil Stark-Lyn McCann."

Thus Tapscott, as self-elected master of ceremonies, by way of breaking the ice of a cold silence,

None of those named acknowledged the introduction in words or by an inclination of the head. They looked at each other with chill and bitter hatred. But, as the elder McCann looked at Julia, there came a change in his face. Beneath the shaggy brows she caught a glimpse for an instant of his soul. It was there, during the bent of a pulse, and was gone, a look that had amazingly softened the grim countenance. Later she was to puzzle over it and wonder at it.

"Well?" demanded Peter harshly. "Doc Sanders is lookin' after the boy." Tapscott said.

"How is Wils?" "Pretty bad, Doc says. Shot through

the lung and in the side." Not a muscle of the old cattleman's

face twitched. "Can he be moved?" "Not a chance. He's-a mighty sick

"I'll go to him-right now."

Instantly Phil bristled. He would show McCann whether he could ride roughshod in this high-handed way to his end, "I'll have something to say about that. You'll go unarmed if

There was a moment of significant silence while the eyes of the old and the young man clashed.

"Let's get this right," McCann said. "If I go, do I go as a prisoner? Or am I free to leave when I want to?"

Phil's boyish voice lifted to a high note that was almost a wall, "My father's lying dead down there, killed by the son you're going to see. Some day we'll wipe yore whole d-d outfit off the map. But not today. If you go in now you can walk out when you've a mind to.'

"How do we know you'll play fair? How do we know some of yore killers won't shoot Dad?" Lyn asked.

"You don't." There was a flare of insolence in young Stark's scornful eyes. "We're not askin' him to come. It's his own say-so. If he's scared why he can stay away."

For the first time Julia spoke, eyes flashing, lips tremulous. "We're not murderers, like you."

"Now folks," interposed Tapscott hurriedly. "This is a mighty bad business all round. One thing's sure. We can't make it any better by that kind of talk. I'm dawggoned sorry myself, Miss Julia, but I'll bet my boots they ain't the way you think they are. I know Wils McCann. You don't. That's the difference. Now I reckon we got this all fixed up. You ride along with these young people, Pete, an' we'll stick around till we hear from you.

They rode down from the pass in silence, the hearts of all three bitter with anger. But as they came into the valley the Starks fell back till McCann was almost abreast of them. They drew their ponies close to his, so that it would be difficult for anybody to take a shot at him without danger of hitting one of them.

Peter understood the maneuver and smiled sardonically. There was something amusing in this solicitude to protect him. In a day or two this boy and his allies would be laying plans to shoot him at sight.

In close formation they moved to the porch and dismounted. Together they went into the house.

Julia led the way to the room where Wilson McCann lay. After stepping aside to let his father enter she left at once without a word. A Mexican woman was taking care of the sick man under instructions from Doctor Sanders.

McCann moved forward and looked down at the restless figure on the bed. The young man's face was flushed. He was in a high fever and the glazed eyes showed no recognition of his

"Is he-so awful bad, Doc?" Peter asked, when he was sure of his voice, "Mighty sick, McCann," the doctor answered gently. "If he wasn't an Arizona product, tough as cactus rind and clean-blooded as a young antelope, I'd say he hadn't a chance in the world, But he's liable to fool me yet."

"Don't you let him die, Doc," the father begged. "Not if I can help it. If he lives you

can thank Miss Julia. She looked after him fine till I got here." McCann made no comment on that.

'You'll stay right here with him?" "Till morning anyhow. We'll see how he is then.' "How about sending for a doctor

from Los Angeles or El Paso? It's not that I don't trust you, but if he'd have a better chance, why-"All right, Wire for Doctor Elder

from El l'aso. He's a first-rate man." Peter turned to the nurse and asked her in Spanish to bring Miss Stark, Julia came. She stood in the doorway, straight as an arrow. Her dark

ones of the cattleman. She waited for

hurt." eyes flashed defiantly into the light

wanted. And again, for an instant, she saw in his face the expression that had puzzled her before. She knew him to be hard and fierce as the Painted desert. What was back of this look in his eyes, almost wistful and yearning, that broke through the cold mask? If it had not been for her father's body lying in the next room it would have disarmed her, for it undermined her prejudices. She did not want to believe It, but she knew that there was a side of him human and probably

"Miss Stark, I want to send to El Paso for another doctor, an' I want to stay here all night with my boy," he

It was on her tongue tip to tell him that he could not possibly stay, that neither she nor her brother would consider it. But her eyes were drawn past him to the stricken figure on the bed. Something in her that was deeper than hate, than the demand in her for revenge, stirred within her heart. She resented it bitterly, but she could not

"If you'll give me the message to your son I'll take it myself," she said. Doctor Sanders wrote the telegram so that there might be no mistake in

verbal transmission. Julia took it and walked out of the room without another look at either of the McCanns. Her pony was still saddled in front of the house. She rode out of the valley toward the pass, her body shaken with anguished sobs, Never before today had life seemed to her so empty and so futile.

A sound startled her. She turned, to see Stone riding just behind. "Thought maybe I'd better drift

along," he drawled, "You never can sometimes tell." She choked down a sob and nodded

thanks. "I don't reckon I could help you any way?" he suggested gently.

"No, it's-just the way things are. We have to let those McCanns stay here after-after what they did-"

The little Texan studied her a moment before he spoke. "It ain't been proved, Miss Julia, that Wils McCann

"If he didn't, who did?"

"I'm not offerin' any opinion on that."

"Then why do you say maybe he didn't?" His stony eyes were opaque. "Only

a notion of mine." "Oh well! If he didn't do it he knows who did. It's all the same. They were lying in wait for Dad-he and his friends. What's it matter who

fired the shot?" Stone looked at her, strangely, she thought, and looked away. "May-

CHAPTER VI

Friendship Rejected

After Julia had delivered McCann's message to his son she returned with Stone to the ranch. The Texan left her there and jogged down the valley along the road which Matthew Stark had followed a few hours earlier.

Out of the brush a man rode to meet

"'Lo, Sam," the Texan said. "I asked you to be here because I want

Her Dark Eyes Flashed Defiantly Into the Light Ones of the Cattle-

you to show me just where the old man was standin' when he was shot." "Sure," agreed Sharp. Five minutes later he was showing Stone where they picked up the body of his employer.

"Here's where he lay-an' Wils Mc-Cann was right over there. Miss Julia, she was lookin' after Wils. Say, I'm right sorry for that li'l girl. She must be a sure enough Christian, her hatin' that McCann like she does an' having to save his life after he'd shot her

"If he shot Stark," the Texan amended, "Looks to me like McCann heard the shot an' went to see who'd been

"Some one shot the old man. It don't look like if some of the rest of the McCann outfit did it they'd go away an' leave Wils wounded without lookin' after him."

"That's a bull's eye shot, Sam. They wouldn't. So we know Wils was

"I reckon." "Another point. Who shot Wils? Matt Stark didn't. Phil didn't. Miss Julia didn't. You hadn't got here, so you didn't."

Sam scratched his head. If this was a riddle he did not know the answer. Blamed if I know. Who did?"

"I don't claim to know-yet. But I'll say one thing. It ain't proved to my satisfaction that the same man didn't shoot both the old man an' Wils

"Now looky here, Dave, I ain't talkin' about the fellow who shot McCann. But take the old man. He gives it out in cold type that he aims to kill Wils McCann on sight. All right. He hears Wils is fixin' up this head gate an' he lights out hell-for-leather to get him. We all figure there's liable to be trouble between them an' we get busy to head it off. But we're too late. When we get here the old man's dead an' Wils McCann is standin' over him with a rifle in his hands."

"An open-an'-shut case, a fellow would say first off," the little Texan agreed with a smile, "But look at the other side. McCann's rifle was full up with shells. Not one gone, Are you askin' me to believe that he was packin' one extra shell in his pocket an' that he waited to put it in the magazine after he had shot Stark before comin' into the open? It don't look hardly likely, does It? This Wils Mc-Cann. I size him up a fighter but a game one. If he killed Stark it was in the open, an' I don't reckon the old man was give a chance for his white alley. He was plugged when he wasn't expecting it."

"We don't even know that, Maybe they met right here an' Wils beat him

"No. He was shot from that ditch likely." "Why from the ditch an' not from

the brush?" Stone showed his companion a clump of prickly pear standing on a sand hillock. Through two of the thick leaves a neat small hole had been

"Here's where the bullet went after It passed through Matt's head."

"Great snakes! I'll bet you're right." The wrangler's forehead wrinkled in thought. "An' if it did the fellow must a-been lying in the ditch over there or mighty close to it,"

They walked over to the irrigation

"Water runnin' in it," commented "D'you happen to notice whether there was any in it when you drove across with the buckboard?" "Nary a drop. The ditch was dry as that wash there,"

"Funny. Who opened the lateral headgate, do you reckon? An' why? Here's the point, Sam, an' it sticks out like a sore thumb. The slit-eyed sonof-a-gun that shot the old man left a heap of tracks here in the soft sand at the bottom of the ditch an' in the clay just above. He had to light a shuck real sudden when Phil an' Miss Julia drapped in on him onexpected. But he was a heap worried about them footprints. So he beats it back later an' turns the water into the ditch so no-

body can cut sign on him." "You figure maybe the McCanns-" "Did I mention the McCanns?" the little Texan asked in a soft drawl. He went over the sandy soil and studied it almost in microscopic detail. He spent nearly an hour at this before he remounted and rode away.

Jasper Stark appeared at the Circle Cross toward evening. He swaggered into the house with the manner of a

Julia met him and drew him into the big room that served as the family gathering place "Oh Jas," she wailed. "Isn't it aw-

"I just heard," he told her, "Been roundin' up cattle all day to sell. Fellow told me when I got back to Mesa. I came right out.'

Her memories flashed back to what her younger brother had said. "Phil thought he saw you near the Three Cottonwood. Were you up that way?"

quick and sullen suspicion. "No, I wasn't. Nowhere near there. Why?"

"That's where Dad was killed. Some one shot Wils McCann there afterward. We thought maybe-"

"Well, you thought wrong," he interrupted harshly. "But I hope whoever shot him did a good job."

"He's alive, but awf'ly badly hurt. He was shot through the lung and the side. Doctor Sanders thinks he hasn't much chance.'

"Bully! Where is he at?" "He's here."

"Here! Whacha mean?"

"I mean he's here in the house, too sick to move."

"Who brought him here?" "I did."

He exploded in a roar of rage. When for a moment he ceased to bellow Julia mentioned more information that added fuel to his fury. "His father's here looking after him." "Pete McCann!"

"Yes. And there's no use shouting, Jas. Dad's lying in the next room,

Jasper's Face Had Turned a Sickly Yellow, "Cut Me Out of It, Did

you know," She spoke quietly, looking straight at him.

He stamped up and down shaking his big fist. It was not till he came to a specific threat that she interrupted. "No, you won't, Jas. You'll not touch him. I told him he might come and stay."

"You told him. Goddlemighty, what you got to do with it? Claim you're boss here now, do you? I'll show you about that." Phil had come into the room and was

down to cases, just what d'you mean, Jas?" he asked. "Mean? Why, ain't I the oldest son? Ain't I runnin' the Circle Cross now? You can bet your boots I am. I'm boss

standing beside his sister. "Gettin'

here now an' don't you forget it." "Are you?" The eyes of the boy consulted those of his sister before he fired his bomb. "I reckon you're mistaken, Jas. Mr. Fletcher sent his black boy Tom out here last night with Dad's will. Right here in this room Dad signed it before witnesses. Jule an' I tried to get him to put it off, but he wouldn't listen to a word."

Jasper's face had turned a sickly yellow. "Cut me out of it, dld he?" "Yes." The boy did not add that Matthew Stark had said publicly to

those present that Jasper was no son The older son was beside himself with disappointment, ready for any

display of bad temper and malice. "Don't get on the hook," his brother advised. "Say you act mean an' vicious. What good 'll it do you? Soon as the will gets into court you'll he kicked out, anyhow,"

Jasper choked down his passion. What Phil said was true. He had no case for a fight in court. His only chance was that the other two children of Matthew Stark would reverse the action of their father. Sullenly he back-tracked.

How Should One Banish Tyranny of Insomnia?

Since an Australian scientist has | crat, concludes. Probably the victim discovered the sleep control center of the brain, may we ask if it were like a push button? This is the utility of the discovery most desired. We resent, and bitterly, the power of insomnia to work its will with us. It is a tyrant that is indifferent to our rall-

Physiology and psychology seem closely related in the human quality of sleep. It is a comfortable doctrine that if your unconscious repose is quite regularly but five hours out of the twenty-four, that that is all "your system requires"; but there is the lassitude, depression and exhaustion of the long day, to refute any such conclu-

Sleep, that knits up the raveled sleeve of care, must somehow be made to tend to its knitting, F. H. Collier, writing in the St. Louis Globe-Demo-

American Military Genius It is curious to observe, since the war of 1914-1918, the enormous and

ever-growing prestige of the American generals of our Civil war. If we may udge by expert foreign military opinon, five Americans in one local war -Lee, Jackson, Grant, Sherman, Sheridan-stand higher in military annals than any general from any country in the war between nations. I know nothing about this myself; I am merely recording the opinions of experts .-William Lyon Phelps in Scribner's

knows ways to enforce this, but they are inconvenient and often impossible. Run ten miles and you will sleep ten hours. No doubt; but when and where can one run ten miles without being taken for a lunatic? And one's hours must be occupied in making a living.

Standard Words According to a definition given by

Doctor Vizetelly, a standard English word is one that has been used by a master of classic English-one of the great authors of the day or of days gone by-that is accepted as good English by educated writers and speakers of our time. Foreign terms that are not naturalized, such as words derived from the French, German, Dutch, Spanish, Italian, Russian, etc., and printed in dictionaries, preceded by (Fr.), (Ger.), (D.), (Sp.), etc., are not standard English words; nor are dialect, provincial, Scottish, colloquial, slang or vulgar words considered so. The standard English of today is English used by present-day writers and speakers who are competent to set the standard. It is necessarily English acceptable in polite society.

Japanese Religion

It is impossible to give the precise origin of the Shinto religion of Japan. This is a mild form of ancestor worship and lists 14,000 gods and has 13 sects. It appears to have been the hative religion of the early Japanese shoe materials for summer sports.

He swept her face with a look of Designers Are in a Mood for Capes

By CHERIE NICHOLAS

NOT to be cape-conscious is not to ready for a shopping tour. Brown know fashion as is at this very mo- and white print fashions her jacket ment and as it will be this coming fall and winter. Everything from suits to evening gowns is being caped in one way or another. If the cape is not an actual part of the dress, as it is in so many instances, then it is sure to be one of those cunning little separate affairs made of velvet or silk or lace. or "what have you," for designers are conjuring these graceful shoulder out of most any medium.

These versatile capes are adding a genuine note of interest to the new modes for they offer unlimited possibilities in the field of design. Whether it be for the sports outfit or the afternoon costume or for wear during the formal evening hour the cape motif is made to lend itself to the mood and the occasion.

At all evening galas in Paris capes galore are to be seen, some half-jacket and some half-scarf and others just capes pure and simple. And then there's Hollywood, our own mecca toward which all eyes turn to see fashions at their best. There is no doubt about the reign of the cape vogue in that style center. Most any day you are apt to meet pretty Rochelle Hud son, she of the smiling countenance who is waving such a joyous salute in the picture, strolling on the boulevard in her youthful looking three-piece costume, with its jounty little cane and its printed blouse, its colorful belt and tie.

And there's Julia Hayden a bit further on, tastefully gowned as the illustration to the right reveals her, all

and white print fashions her jacket dress, which takes on a most convincing note of chic in that it flaunts a little print-lined brown velvet cape with a velvet belt to match. By the way, it is worth while to keep tab of the many attractive velvet "sets"

it to serve for a midsummer evening. and as to "looks" it is without doubt a prize-winning number. No one who knows how to sew ought to be without

of a yard or so of silk. of the same; white transparent velvet worked with rhinestones; many of

white ermine. Autumn days will witness bevies of novel fur capes for detachable or rather separate for pieces will be played up in great fashion during the suc-

ceeding months. @ 1932. Western Newspaper Union.

SMART HANDBAGS By CHERIE NICHOLAS

Those very fine old fabrics that used to be seen in custom-made Eng tish riding habits are being presented by important designers in coats and suits, hats, handbags, and footwear for summer. Rib-cord, as it is called. is a fine, softly luminous weave of extreme sturdiness. It is proving an ideal medium for pocketbooks and handbags. Here also is a trio of town and country handbags of zephyr and durene which go equally well with suits or sports clothes.

Perforated Shoes

Perforated white buck is going to be one of the smart and comfortable

which complement the new costumes. It is very stylish to wear a girdle or belt of velvet to match one's hat. Charming threesomes are also made up of chapeau, cape-wrap and girdle, all of the same material, preferably As to evening capes there is no end to the procession. The prettily frivolous little ruffled fancy cape pictured in the center is entirely of taffeta silk. There is just enough protection about

one of these pretty shoulder wraps. for it's no trick at all to make one out At fashionable midnight gatherings one sees such beguiling capes as these -a ruby red velvet model with a single scarf end thrown over the right cut and bordered with white ostrich; pink taffeta outlined with a ruching

FABRICS APPEAL IN FALL STYLES

Fabrics are the things that make a strong appeal in the fall styles. There seems to have been a concerted effort to give them a quality value. In addition there is an entertaining topsyturvydom about them-even more exaggerated than it was in spring. Wools look like crepes, and crepes like wools while velvets have so changed their complexion as to be barely recognizable. Bagheera velvet, rich and deep in tone and having practically no pile, is being widely used. By contrast there is a new velvet with a heavy pile that is pressed in such manner that it looks like a bunny's fur. Not so long ago we began to hear the word "eroquignol" (a kind of small curly cake) used in connection with crepes. It described their crinkly surface. This season satins are going "croquignol." In fact, there are all sorts of new crinkles and wrinkles in crepes, satins and velvets; crinkled velvet is a luscious thing to behold.

Perfumed Hosiery New Delight for Madame

Perfumed hosiery is the newest thing offered milady. And those scented with narcissus are the favorites. The Commerce department reported that in a recent test four pairs of hose were shown to 250 women-one just as

others scented very faintly. The perfume was so faint that only 6 per cent consciously noticed it, but 60 per cent said they liked the parcissus pair best. Twenty-four per cent chose the pair perfumed with I

fruit mixture; 18 per cent picked those

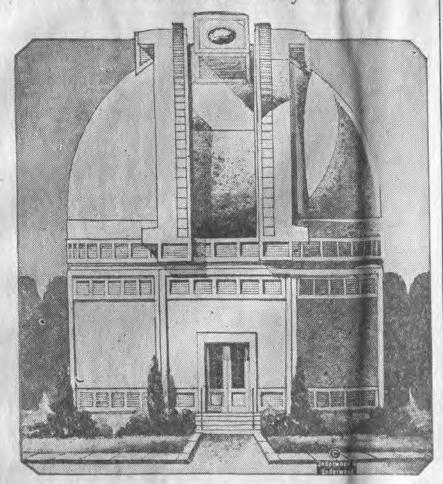

it came from the factory, and three

scented with sachet. Coats With Scarfs

Some of the new coats are so with two scarfs-one in plain col to match the coat, the other in dots or figures. The idea is good.

Tapscott to have him come down."

Modernistic Observatory Dome

RIRST photograph of the architect's drawing of the proposed new telescope dome to be erected soon at the naval observatory in Washington. Built in modernistic style, the dome will be made of welded steel and will be 30 feet in diameter, with an inner shell for ventilation and cooling. It will be operated by machinery and will house a new photographing telescope now under construction by Prof. George W. Ritchey.

READY FOR GUESTS

THERE are so many dishes which may be prepared the day before, saving the time and nerves of the hostess that one should gather as many of such recipes together for time of need. Here are some suggestions:

Fruit Dessert.

To one-half pound of marshmallows cut fine add a can of shredded pineapple, with enough of the juice to moisten well; add to one pint of lemon gelatin and mold in small cups. Serve with whipped cream and chocolate

Whole Wheat Bread Sandwiches. Cut quarter-inch slices of whole wheat bread and spread with butter. Mix salted peanuts, finely chopped, with cottage cheese and spread as filling.

Fruit Course.

Prepare casaba melon, removing the seeds and slicing in suitable portions for serving. Serve with quartered limes, sugar and powdered ginger,

Jellied Tongue.

Take a tongue from the glass jar and cut into thin slices. Prepare a jelly by soaking one tablespoonful of gelatin in one-fourth cupful of cold water and adding one cupful of boiling water in which has been dissolved a bouillon cube, salt and pepper to taste. Strain. Put the tongue into a shallow mold and when the jelly begins to thicken pour over the tongue. When ready to serve turn out on a platter and garnish with slices of sweet pickled cucumbers.

BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

PETER DISCOVERS THE SECRET OF RATTLES

DETER RABBIT was so excited that he almost forgot that he was spying and that if he showed himself he might miss the very thing for which he had waited so long. There was Rattles the Kingfisher coming straight down the Laughing Brook with a minnow in his bill, and of course he was bringing it to his babies in their secret home! In a minute or two he, Peter, would know the secret! In his excitement Peter started to sit up so as to see better. Just in time he remembered that he wasn't supposed to be there at all. If Rattles should see him he certainly wouldn't go to his home in spite of the hungry babies Peter knew must be there waiting for fish. He wouldn't be so foolish as to show where his home was by en-

Then, As If Satisfied That No One Saw Him, He Shot Out Into the Air.

tering it when he anew that he was being watched. To do such a thing wouldn't be good sense,

So just in the very nick of time l'eter ducked down among the grasses and, peeping between them, watched Rattles. He could see the sharp eyes of Rattles looking suspiciously at both banks as he came swiftly on. Peter knew without being told that Rattles was triing to make sure that no one was watching him, and he chuckled as he snuggled down a little closer to the warm earth among the grasses. "I wonder what he would do and say if he knew he was being watched," thought he.

But Rattles didn't know, and he saw nothing to make him the least bit suspicious. He came straight on until he was right opposite the big sandbank across from Peter, Then be turned and flew straight toward it, and a second later had disappeared. Peter couldn't believe it, but it was so. It seemed somehow as if that bank of sand had swallowed Rattles the Kingfisher. He had disappeared so quickly that Peter hadn't seen exactly where he did go. Peter raised his head and stared across at the sandbank. It was yellow and smooth, and nowhere could he see a hole.

"Great Jumping Jupiter!" exclaimed Peter, and rubbed his eyes that he might look better. But this didn't help him any. Rattles the Kingfisher had disappeared as completely as if he never had been. Peter was still staring foolishly when he saw a few grains of sand trickle down from the very edge of the bank where some grass and weeds hung over the edge. Without thinking why he did it, he ducked down out of sight and then peering between the grasses watched the spot from which he had seen the sand trickle down. Was there a dark spot there just below the edge of the bank half hidden by grass and weeds? Peter Blinked and stared again. Yes, there certainly was a small dark spot there. Could it be a hole? It might be. Peter decided he would watch it. He didn't have to watch long. In I

fact, it was hardly a minute before he saw something move over there. He held his breath. Then what do you think he saw? Why, he saw first a big stout spear-like bill thrust out and then a head with a queer rough topknot. It was the head of Rattles the Kingfisher! There was no doubt about this, for no one else had a head like his. For a moment Rattles was perfectly still, looking this way and looking that way up and down the Laughing Brook. Then, as if satisfied that no one saw him, he shot out into the air and was away toward the Laughing Brook, rattling as only he can rat-There was no doubt in Peter's mind now. He had found the home of Rattles, and it was in a hole in the ground, just as he had been told.

"I never!" exclaimed Peter as he sat up and stretched. "I never! Can you beat that? A real bird living in a hole in the ground! I never!"

What more Peter might have said will never be known, for a movement down below the Laughing Brook caught his attention. It was Billy Mink, and it was very clear that Billy had also discovered the home of Rattles the Kingfisher. His bright, beady eyes were fixed on that hole in the bank, and he was swimming straight across to the shore just below. Peter wondered what would happen next. (@, 1032, by T. W. Burgess.) - WNU Service.

Small Wonder Message Interested "Old Idiot"

Irade

off your

A young lawyer was speaking for the defendants in a civil action, and his long windedness was obviously horing the court. The leader for the plaintiffs scribbled a note and passed it along to the talkative youth. He, however, did not read it imme-

diately. A frown wrinkled the judge's brow; he told the usber to pass up the message for his inspection. It was no ticed that the writer of the note looked acutely uncomfortable at this

The judge read the message, folded it again, and passed it back to the young lawyer.

"I think this note will be of interest to you," said the judge, grimly. "It was to me."

The lawyer opened the note and was astonished to read this message; "Sit down. Can't you see the old

idiot is with you?" An 1877 Typewriter

We have dug up some old papers showing that the typewriter was used in business as early as 1877. A letter dated January 2 of that year, from the National life Insurance company of Chicago and signed by J. M. Butler, secretary, is typed-and neatly so. However, these first typewriters used only caps. This concern was ahead of its time as it was two years later, in 1879, when a typewriter

FORTUNATE

We are now in what is termed the 4th year of the depression.

The records show that in a great many industrial centers the However, the Carteret Bus Service through the smoke--screen which said he favored a change. He went largest companies in the world completely shut plant after plant. The United States Steel Company, much larger than all the local companies combined, for no little part of the period ran on a 12% | Yet it was allowed to group two Borough saving money, there is tabto 13% basis. That means that seven-eighths of the plant capacity bids together one of which it was ulated below the reported total bids of the company scattered throughout the United States has been

In many centers plants have been entirely closed for three or four years. Right now the newspapers are featuring on the front page the starting up of a plant here and there for a few months, plants which have been closed for one or more years.

In 1929 Carteret did not feel the depression in any way what-The industries kept going about as usual.

The industries here did about the same thing in 1930. In the latter part of 1930 they had to resort to all kinds of make-shifts to People Would Welcome keep a fairly good size force going.

In 1931 maintenance and repair work and staggering of forces

was worked overtime. The same applies to 1932. This attitued on the part of the industries was a God-send to be open to question whether the tracts as against bids on these two the community. It meant the pitiful poverty that stalked in many courts will sustain this kind of bid-routes. This would appear to in-

centers in 1930 showed no vestige of an appearance here. The substantial payment of industrial taxes in 1931 and 1932 saved the credit situation for Carteret as a municipality.

Without the prompt payment foreclosures would have been widespread and tax sales would have had to have been consummated.

For two years now almost daily there have been several pages partments on making sure that a of advertisements in Elizabeth and Newark papers of tax sales. It dollar's value was obtained for a To E. Rahway would have been necessary to have resorted to such sales here to dollar spent. Here it appears To N. Brunsw get money to operate the local government in the past two years, \$346.00 of the taxpayers' money is if it had not been for these industrial payments, which have been actually given away since it does heavy and a handicap to the industries.

Especially would there have been no salary payments of public same services for less. If the Pubofficials including the Board of Education's large army.

While the way the industries have carried on as an aid to the was some fly-by-night, unknown community saving homes and families and the community itself, company, that could not be expected this policy of helping out with no business has been a severe drain to give satisfactory service, then Why Not in Other Ways? on the reserves or savings these companies have had.

Here and there you hear of a politician who does not want to have any of his regular funds touched. But what of the businesses enter into this at all except to pay tion on which the local bus service and individuals the not only have not their usual income but have the inll. The routes and the bids did not bid, awards were not made no income at all and for several years have been eating up what appear to be as follows: little savings they put aside in better times.

In no community that we know of in the United States was vice, \$3,087.60; Carteret Bus Service, used last year did not amount to there such a general resort to these reserves or savings in keeping going some form of industrial operation. While plant after plant tion, Public Service, \$1,320.60; Carling would be had by using the school some years back closed in industrial centers all over the country teret Bus Service, \$1,200.00. Bid 2, tickets. Apparently, in one case and kept closed, no industry here completely closed for any substantial period. They are, of course, now badly bent financially due to the generous policy maintained.

A week ago the financial statements of two of the largest companies came out. It indicated for the first six months of 1932 that they had been losing at the rate of over a million and a half dollars Boulevard Section. Public Service, a year and that in the previous year their losses had only been \$1,525.00; Carteret Bus Service, No Education want to be big fellows

slightly less. During this week the report of the third largest company, as Contract Bidding Thus far as employment goes, came out and showed a loss for the year up to June 30th of \$1,250,000.00. The previous year's losses were about \$800,000.00.

So it can be seen with them it has not been a guestion of earning less. They have simply not earned at all, but have had steady and increasingly heavy losses. These losses must come out of reserves or savings. Of course, you finally get to a point where you have no more to lose. Had the industries here adopted the policy of industries in many parts of the country early in the depression and shut down, their losses would have been comparatively small.

To keep the industries going, on which the community depends, means not only the heavy local taxes, insurance and interest on borrowed money on which operations are carried on but the maintenance of sales offices all over the country in order to try to get business to keep the factory wheels turning at all. Most people do not realize the cost of bringing business to a factory.

Due to the way the industries have carried on, Carteret in many ways has been far and away ahead of most industrial centers in the United States. It has kept going longer and is going today on a better basis than most of them. However, the financial statements in the newspapers, showing the tremendous losses not only in this year but in previous years, indicates that those industries cannot continue as they have unless there is a very substantial pick up in business.

In the meantime here and there we hear grumbling by those on the public payroll who have been getting the same salaries all during the depression. Businesses and individuals have been eating up their savings whereas those on the public payroll, in this community at least, have not, up to this writing, had their incomes touched. They are the community's most fortunate individuals. Particularly is this so since the very ones who have had to go to their savings in the past few years in order to exist are the ones who have had to pay out the public salaries and for other public expenditures.

No one at any time welcomes, relishes or enjoys a reduction in income or salary. No public official who is acustomed to spending public money with a free hand approves of the suggestion that there be curtailment.

However, the country as a whole and public officials no longer have any choice. It is not a question of what we would like to do; it is what we must do. The people and the businesses of this community have been unusually patient. Communities all over the country have had substantial reductions in public salary expenditures over the past three years. Here they have had no reductions whatever. In the meantime a 30% decrease in the cost of living since 1929 has added to their pay envelopes. Over and above that a number of employees in the municipality have been substantially increased in salaries since 1928.

Without the prompt industrial tax payments in the past two years, the community's credit would have been destroyed and no one on the public payroll would be getting a nickel.

That the industries here at a staggering loss have attempted to carry on instead of closing down early in the depression was fortuna). It does not seem, however, to be appreciated by public officials, who have continued to spend as usual. The published financial statements of the several industrial companies indicates, however, that they cannot go on much longer.

Public officials here should act promptly and drastically to put public finances on the proper basis and public expenditures more in keeping with the ability of the taxpayer to pay.

It is unfortunate that it is not appreciated locally by public officials that they are rapidly approaching the point where they will not be able to spend because there will be nothing to spend.

Regardless of the storm and warning signals that have been flying all over the country, there seems to be a steady attempt by officials here to pooh-pooh the depression. This is reckless and

HEALTH HINTS FOR AMATEUR ATHLETES

By JAMES J. CORBETT

Former Heavyweight Champion of the World

These articles have been prepared by Mr. Corbett in cooperation with the staff of the Department of Health of the City of New York and are being released for the free use of newspapers throughout the country in the interest of the health of boys and girls.

10. BEVERAGES WHILE AT PLAY

Baseball, cricket, tennis, rowing and swimming, indeed all out-door sports invariably produce thirst. A glass of milk after exercise will quench the thirst and also supply easily digested nourishment.

In almost every outdoor sport the contestants become overheated and perspire freely. Frequently many athletes, both professional and amateur, become ill from drinking too much ice water when in this condition.

The drinking, frequently containing synthetic flavor and artificial coloring, also has caused many players' stomachs to become "upset". They, too, are often too cold.

Drink plenty of cool water, but not too much ice water. Drink plenty of cool, fresh milk.

unwise. A community government cannot spend as usual while the Jersey, New York and the New Engsources of its income are steadily drying up. By sources of income we mean the income of the taxpayers. Borrowing against the fu- West and down South. The government should have done the same as the taxpayer wants. has been forced to do-reduce. It is time for the local government to stop borrowing in order to carry on as usual. It cannot be done here any more than it was possible in Chicago, Philadelphia or countless other municipalities which have practically gone bankrupt. street, will hold a public card party

The Newark Sunday Call in a very temperate editorial referred at her home on Sunday evening, to the fact that a speaker before one of the public bodies in Newark | September 11, for the benefit of St. in 1924 predicted that public taxation would bring about a crisis Joseph's Parent-Teacher Association and industrial stagnation. The Call makes the remark that this Mrs. Mary LeVan, Mrs. James Dunn, speaker prophesied correctly. In winding up its editorial, the Mrs. Arthur McNally, and Mrs. D. Sunday Call makes the following statement:

"It is a question whether the authorities vested with the power of spending the taxpayers' money and levying taxes have yet to come to a full realization of the need for radical retrenchment in public expenditures. . It is not now a question of what we would like to have in the way of public improvements, conveniences and luxuries, but what we can get along without. Taxes must be reduced. Above all public bodies must cease borrowing money for projects that may be desirable but are not indispensable.

"In no other way can municipal bankruptcy be avoided and the property of taxpayers saved from confiscation."

(Continued from First Page)

Mayor Walker Presents His Defense-Progress of the Mid-West Farmers' Strike-Business Conference Opened by President Hoover.

By EDWARD W. PICKARD

MAYOR JAMES J. WALKER | opened his defense before Governor Roosevelt, and numerous witnesses were called to testify to the

the statement: "We can only go to court to avoid a physical conflict that might well ensue if a removal order were made without juris-

diction." Henry Epstein of the at-

torney general's staff challenged the authority of the court to limit the gov-

ernor's power. The mayor's first witnesses were the members of the city taxi board of control, one of them being L. F. Loree, president of the Delaware and Hudson railroad. He and his colleagues testi fied that Walker did not attempt in any way to limit the number of cabs after the hond transaction with J. A. Sisto which is the basis of one of Mr. Seabury's most serious charges. Four independent taxicab operators were called and swore the board of control had not tried to create a monopoly for the larger companies.

Paul Block, the newspaper publisher, was a loyal and stubborn witness for the mayor. Concerning their joint stock account, he testified that each took \$102,000 from it in one year. and he told the governor that he never entertained the thought that his personal or business friendship for the mayor might be used to trade for "favors," Governor Roosevelt's questioning brought forth illuminating testimony regarding \$140,000 that Mr. Block had put into a tile manufacturing concern in which Senator John J. Hastings, another of the Walker group, owned a large interest. It was brought out that none of the tile ever was sold to the city. It was also shown that if the plans to manufacture the tile had not been dropped the city would have been interested in the product.

Walker's claim has been that the entire investigation was inspired by the Republicans to embarrass the Democratic party in the November election, In the attempt to bolster up this claim he summoned eight Republican state leaders, at the head of the list being W. Kingsland Macy, state chairman.

The governor, however, blocked this move by refusing to hear testimony regarding the motives of the legislators who ordered the investigation that resulted in the charges against the mayor.

The hearing has taken much more time than had been expected, so the governor decided on night sessions.

A LFRED E. SMITH, whilom national leader of the Democratic party, is now an editor. When the Outlook, now re-named the New Out-

look, resumes publieation on October 1 At will be filling the editorial chair, once occupied by Theodore Roosevelt. In his announcement of the fact he said he would carry on the traditions of Roosevelt and strive to make the magazine "a platform for the free and liberal expression of A. E. Smith progressive thought

on the economic, civic and spiritual problems of the day." As to its political complexion he had nothing to

The Outlook, which suspended publication last spring, was recently purchased by Frank Tichenor, publisher of the Spur, Aero Digest and other magazines. It was founded by Heury Ward Beecher in 1869 and has included among its editors Lyman Abbott as well as Theodore Roosevelt. Four years ago it was combined with the Independent, which was founded by H. C. Bowen as an anti-slavery organ.

FARMERS of the Middle West were meeting with considerable success in their "strike" designed to force produce prices to higher levels. The movement, which started in Iowa, spread to other states, and two victories were scored in Nebraska where milk producers gained higher prices.

At Omaha officials of the Iowa-Nebraska Co-Operative Milk association consented to pay \$2 per hundredweight for milk, compared with a previous figure of \$1.45, while at Lincoln milk dealers agreed to pay \$1.80, an increase of 40 cents ever the previous

More than 1,000 agriculturists were assembled in camps along the main highways lending into Omaha, but there were reports that some of the picketers were in a dispute as to the best method of enforcing the farmers'

Despite warnings from federal officials, the farmers in several instances interfered with rail shipments of live stock in Iowa and Nebraska, Wisconsin and Minnesota dairymen were planning meetings to decide whether or not to join in the strike.

Tear bombs came into use at Council Bluffs, Iowa, when sheriffs' deputies employed them to scatter a crowd of 1,000 farm "strikers" and spectators who were blocking a highway. Each trucker en route to market was given a deputy escort and no violence

WHEN the White House conferopened Friday with more than one hundred prominent men in attendance, President Hoover started the proceedings with a statement outlining the scope of the parley. He proposed several specific lines of action, One aims to bring about increased employment and includes the five-day week, though Mr. Hoover did not recommend its adoption universally. A second deals with easier and cheaper credit for certain industries that have not benefited by the loosening up that already has taken place. A third proposition is to seek better credit facilities for marketing of farm products and live stock, both in the United States and abroad.

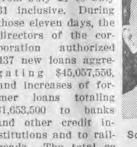

Other speakers of the opening day vere: Secretary of the Treasury Mills, Gov. Eugene Meyer of the federal reserve board, Chairman Atlee Pomerene of the Reconstruction Finance corporation, Secretary of Commerce Ralph D. Chapin, Chairman Franklin W. Fort of the home loan bank board and Paul Bestor, farm loan commissioner.

It was decided that small committees should handle each specific problem of economic inertia, and that after the close of the conference the plans it may develop shall be given ffect by local subcommittees.

Officials predicted that as a result of the conference a central or executive ommittee will be formed to include the biggest bankers and business men of the country. This body, they pointed out, may unify the activities of the business and industrial committees of the 12 federal reserve districts and become the spearhead of the recovery

SOUTH TRIMBLE, clerk of the house of representatives, made good his promise and gave to the public a statement of the transactions of

the Reconstruction Finance corporation from July 21 to July 31 inclusive, During those eleven days, the directors of the corporation authorized 437 new loans aggregating \$45,057,556, and increases of former loans totaling \$1,653,500 to banks and other credit in-

stitutions and to rail- South Trimble roads. The total so

loaned was \$46,711,056. Later it was revealed that some of the loans authorized to banks had not been drawn upon.

Chairman Steagall of the house banking committee said be believed the publicity given the loans would tend to strengthen the confidence of depositors in the banks concerned.

Mr. Trimble was accused by Congressman Treadway of Massachusetts of acting as he did in order to gain favor with Speaker Garner, who advocated publicity for the reports, In reply the house clerk said this charge was ridiculous and that he acted on the legal advice of his son, who held the law gave him no discretion in

CONGRESSMAN SHANNON'S com-mittee investigating the results of federal competition with private concerns in business went to South Bend, Ind., and there heard a lot more complaints against Uncle Sam as a trader. Manufacturers, business men and representatives of various industries declared they were being pushed to the wall through competition from government boards and bureaus that are financed by taxpayers' money. Their wail was presented by the Federation of American Business, and the lines of competition ran all the way from pickles and rubber stamps to depart-

ment stores, wheat, coffee and cotton. The Association of Railway Executives presented a brief attacking the Inland Waterways corporation, the government barge line that operates on the Mississippi, Illinois and Warrior rivers. The railway men argued that the government should get rid of the barge line as an unfair competitor of

Manufacturers in Illinois presented a brief giving specific lines in which competition by the government is reducing their business, cutting into the normal revenues, reducing their pay rolls and number of employees, meanwhile piling up the tax burden. One item of complaint is the growth of prison industries.

F. TRUBEE DAVISON, assistant secretary of war, has announced that he is a candidate for the gubernatorial nomination at the New York state Republican convention. The announcement followed formal notification to him that the executive committee of Nassau county Republican committee had adopted a resolution pronouncing him the candidate of the Nassau county Republicans.

PROSPECTS for civil war in Germany were heightened when a court at Beuthen, Upper Silesia, sentenced five National Socialists to death in connection with the

Franz von Papen

Papen and the entire government of the reich and demanding pardon for the five. There were riotous demonstrations in Beuthen and other places, with attacks on Jews and Socialists, and the police and more conservative Nazi leaders had a hard

killing of a Commu-

nist. Seven other Na-

zis were sentenced

to prison at hard

labor. Immediately

Adolf Hitler and his

followers arose in

mighty wrath, de-

nouncing the sen-

tence, Chancellor Von

time curbing the enraged Hitlerites. Hitler issued a statement declaring the condemned men to be "martyrs" and assuring them that their freedom 'from this minute is a question of our honor." He added: "It is our duty to battle the government which made this monstrous blood sentence possible. Heaven may send us torture upon torture, but the National Socialist movement will soon be able to finish this guillotine government led by Von Papen."

To meet the storm of protest and denunciation, the governments of the reich and of Prussia issued a joint manifesto that made it plain Von Papen's cabinet would not tolerate any revolt against the laws of the reich. It declared that the severest penalties would be invoked against "every lawbreaker, regardless of person or party,' and that the government would yield to no political pressure in considering the cases of the five condemned men.

PERHAPS the best piece of news of the week was the announcement by Myron C. Taylor, chairman of the board of the United States Steel corporation, that it would immediately spend \$5,000,000 for replacements and new equipment. The expenditures are to be made in the corporation's plants in Ohio, Illinois, Indiana, Alabama and Pennsylvania,

"It would seem the buying movement cannot long be delayed," said Mr. Taylor, and his further remarks indicated that the directors of the huge corporation believe it is now safe of the Himalayas higher than many for them to plan for better times in the industrial world.

On the other hand, a "sour note" is injected in the chorus of hope by a group of eminent engineers known as Technocracy who for more than ten years have been analyzing the American industrial and social system under the auspices of Columbia univer-sity. These men, using a yardstick | Crowell recent! where the creation of debt on an al- the helpless youngster. ready overladen structure has passed its period of growth. I ONDON again hears that the prince of Wales is going to take a bride, and again the rumor is that the lady chosen is Princess Ingrid of Sweden.

The prince is to open a British exhibition at Copenhagen on September 24, and he is to attend the wedding of Prince Gustaf of Sweden at Coburg on October 20. Between those dates, according to the unconfirmed story, he will pay a visit to Stockholm, and it is expected the marriage will then be arranged.

Prince of Wales

The prince of Wales was thirty-eight years old last June. Ingrid, a pretty blond, is twenty-two. She is distantly related to the prince and is a frequent visitor in London, where she is often the guest of the British royal family. She is also one of the most eligible of the princesses in Europe,

CAPT. JAMES A. MOLLISON of Great Britain put his little Moth plane down at Roosevelt field, New York, and went on record as the first person to make the solo flight westward across the Atlantic. His start was from Ireland and he landed first forty miles from St. John, N. B. He planned to fly back to Ireland as soon as the weather was propitious.

TROPHY FOR WOMEN

This Aerol trophy and \$5,000 in prize money were put up for the 50-mile competition for women pilots at the 1932 National Air races in Cleveland, August 27 to September 5. The trophy was won in 1929 by Phoebe Omlie of Memphis, Tenn.; in 1930 by Mrs. Gladys O'Donnell of Long Beach, Calif., and by Mrs. Maud Tait Morarity ¥ Springfield, Mass., in 1931.

peaks of the Alps, where no wheels ever before had turned on steep, snowbound yak trails, across the trackless wastes of the Gobi desert and through bandit-infested wild western largement, constituting a pictorial China. Use of the cars enabled the representation of the expedition's equipment, including color short-wave radio, soundcameras. recording apparatus and numerous scientific instruments to portray, study and collect specimens of all phases of the long-hidden wonders

of the mother continent. To face extremes of heat and cold -ranging from 25 below zero to 115 above-clothing had to be carried which varied from suits invented by Sir Ernest Shackleton for Antarctic work to khaki safari blouses, shirts and pith helmets for protection against the blazing desert sun. These and other equipment were hauled in trailers and there was a kitchen car where food could be prepared while the motor caravan was on the move, so meals might be served immediately for the halts, which were frequently brief in runs that ran as long as 16 hours a day.

Bullet-Scarred Car. In the main hall of the exposition is the bullet-scarred car in which the leader, Georges-Marie Haardt, was riding when it was riddled by the fire of Chinese brigands. The "Salon of Honor" is the room devoted to the martyr leader of the expedition, M. Haardt, who, after making the arduous 10,000-mile journey without the loss of a man, himself dled of pneumonia, weakened by exhaustion after months of leading his motor caravan through untracked areas.

Portrayed in diorama-a mode of scenic representation devised by Daguerre-are contrasting scenes in the Gobi desert and the ascent of the formidable Burzil pass, in the Hima

laya mountains. The National Geographic society's exhibit comprises a wide series of noteworthy photographs, in sepla en-

process, taken by the society's representative, Dr. Maynard Owen Williams, who was decorated with the Legion of Honor upon arrival in China. It also includes exhibits of the society's various world explorations, and of its world-wide scientific and educational work. The American exhibit was assembled at the headquarters of the society in Washington, upon invitation of M. Andre Citroen, patron of the African and Asiatic expeditions.

In recognition of the Franco-Amerlean co-operation in the explorations the National Geographic society recently elected the president of France an honorary member of the society, an honor accorded fewer than a score of individuals in the history of the society.

Texas Dog Works in U. S. Civil Service

Willis, Texas.-Although he has never been placed on the pay roll, a boun' dog here is one of the most faithful of the United States civil service workers.

At three o'clock every morning a bus driver deposits a sack of mail on the sidewalk of this little inland town. As the bus driver leaves, the dog lies down on the sack and allows no one to approach the mail until the postmaster arrives several hours later.

Uncle Sam Makes War on Beetles

Uncle Sam has declared war-but the object of his wrath is a pernicious insect invader who will this year attempt to destroy as much of the nation's food, flowers and shrubbery as possible, just as he has done in past seaso The pest, known as the Japanese beetle, is being battled by means of traps, which might be called "execution chambers." At the left are shown some of the 600 death chambers in which 200 different kinds of poison are used to determine which is the most fatal to the beetle, at the experimental station at Moorestown, N. J. Miss Gertrude Presscott, at right, is shown examining one

Bandit's Fate Arouses Corsica

Case of Last of Robin Hoods Divides Island.

Bastia, Corsica.-The fate of the picturesque and romantic honor bandits of Corsica is swinging in the balance as a court decision decides the case of the last of the Robin Hoods, known as Jean Simon Ettori, who ranged the Island brush for 27 years and gave himself up to the authorities in their campaign to cleanse the

All of Corsica is divided over the question, which they claim is one of honor, involving the right of native Corsicans to pursue their feuds and live the free and adventurous life of banditry, according to the code in which personal honor with a dash of kindness and gallantry, flavors their ways.

Ettori claims he committed only one crime, and that 27 years ago, which was demanded on the honor ofhis family. Being thus outlawed, Ettori accepted the life of beautiful and primitive hillsides, and for 27 years he carried on in the true Robin Hood

Ettori was unsympathetic to the killers and murderers who rob taverns and poor people indiscriminately to the bad repute of the island and the Corsican race.

It is claimed that Ettori's past is not all filled with gallant exchanges of booty from rich to poor, nor are his days and nights idyls of free and romantic beauty in the flower-scented headlands over the Sapphire sea. There is a little item of the killing of Antoine Lenzi at Pila Canale, when three distinguished bandits arrived at his tavern, demanded much wine, asked for the bill and paid it with bullets, killing Lenzi and blinding a customer, Dominique Casablanca.

There is a tale of wounded gendarmes in a scuffle at Saparello when a bandit was being sought who had not done his military service, and who man's food was bad for teeth.

let a gun fall in his fight, and this gun bore the name of Simon Ettori, These incidents must be studied by the court, but there is no doubt that Ettori has honorably presented himself to the court, and if it decides he has honorably lived, Ettori, the honor

Cigar Boxes Are Used to Build Model Church Geneva, N. Y .- A three-foot model

of a cathedral tower made of nothing but cigar boxes, has been constructed by Russell R. Isenhour,

bandit, will go free.

Five spires surmount the structure, which is complete with alcoves, porticos and entrances. The exterior is arrayed in numerous metallic colors, including gold, bronze, aluminum and One of the most remarkable features

of the model is its mechanical equipment. The tower contains an old German clock. In a miniature street in front of the building stands a lamp post, surmounted by a little electric clock. As the clock prepares to strike the hour, a tiny mechanical man emerges from the building. He holds an electric light in his hand. Going into the street, he turns about, glances at the face of the clock, and disappears into the doorway.

Civilization Means Toothache to Eskimo

Washington .- To the Eskimo civilization means a toothache. White men started dental trouble among the Alaskan natives, the Smithsonian institution said recently in a report of studies by Henry B. Collins, Jr.

Collins examined many Eskimos Natives in remote spots who fed mostly on fish, seal and birds had good teeth. But those at Nome and other white settlements were cases for the dentist. Collins concluded white

Mercolized Wax Keeps Skin Young

Statues to the Living Statues to the living are almost as

rare as the faces of the living on our postage stamps. However, there are a few statues of notables who still live. General Pershing's likeness appears in bronze and there is a marble bust of Charles G. Dawes at the Capitol. The late Chauncey M. Depew saw a statue of himself unveiled. But the latest one is of Col. Charles A. Lindbergh. Depicting the "Lone Eagle" in the working clothes he wore as a youthful flyer, the bronze figure stands at Lindbergh field, San Diego, Calif., the gift of admiring citizens.

PARKER'S

Puzzle for Archeologists Archeologists unearthing the ruins

of Ur of the Chaldees discovered a coffin filled with strangely marked lumps of baked clay. The bones had been removed from the coffin and it was filled with the clay lumps, each warked with the impression of a priceless gem. The gems were beautifully cut, the report said, and were in a style in vogue during the reign of the great Persian emperor, Darius, in the Fiftieth century B. C. A picture on one of the gems depicts the monarch strangling a lion.

Brazil Spurns "Baby" Cars

Autoists in Brazil are not interested in "baby" cars. Neither do they care for automobiles from the United Kingdom, according to a report of the commercial secretary at Rio de Janeiro to the British department of overseas trade. The antipathy is due to the fact that local distributors of British cars went out of business after a few months or a year, and left their clients without service.

mation. In addition to that, he has asked Princeton University to make a thorough investigation of the general State machinery for the purpose of bringing it up to date.

The Governor during the week issued a vigorous statement to all heads of departments. His communication to all departments, bureaus and commissions said that the expenses of the State Government must be further reduced. He said that the State with reduced revenues, like a family with reduced income, must go without many things it would like to have if ample funds were available.

He particularly pointed out that simply because items were in the budget it did not mean that expenditures were to be made up to the limit of those items. He should send a special copy of this to our Board of Education, more especially

His statement in this connection was as follows:

"An appropriation is not a mandate to spend. The test for expenditure must be the essential need for service or things bought and the asurance of full value received. Expenditures must be made strictly in accordance with the law as written. and for the specific purpose for which funds have been provided. The transfer of funds than provided in the law will not be approved."

Famous Dinosaur Skeleton

The dinesaur on exhibition at Peabody museum of Yale university is nearly 70 feet long, 16 feet high, and the skeleton weighs six and a half tons. Its estimated weight when alive was between 37 and 40 tons. The specimen was discovered by William Reed in Wyoming in 1881, and the bones were brought to Yale under the direction of Prof. Othniel C. March, whose research resulted in this type's being known as Brontosaurus excelus. At Yale's biceptennial in 1901 a portion of the skeleton was mounted and exhibited. Lack of space prevented the erectien of the rest, which remained in storage. A few years ago the mounting was begun anew, the hall of Peabody being especially constructed to house this one animal.

Electric Kisses

One bundred and fifty years ago the only known method of generating electricity was to rub glass, wax or rosin with the dry hand or with a dry cloth, and a popular amusement consisted of two people doing this and giving each other an elect-

A studio official inquired of him while they were waiting for his allotted time on the air to begin, how he would like to be introduced to the air audience. He replied: "O, you don't need to say very much about me. Just call me the silver-tongued orator of western Massachusetts."-Spring-

Wonderful Meteoric Shower

The meteoric shower which occurred in the early morning of November 13, 1833, is thought to have been the most brilliant ever recorded. It is the shower usually referred to as the "falling of the stars." It began about midnight and lasted until dawn, and was visible more or less over half the earth, including North America, but not France. The number seen at Boston was estimated at 250,000 or more. The United States naval observatory states that this stream of meteors was supposed to be the result of the disintegration of Temple's comet, which was not seen when last due in 1900,

Wake Up Your Liver Bile -Without Calomel

And You'll Jump Out of Bed | in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels

If this one is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skinoften breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned. It takes those good old CARTER'S LITTLE

LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely-But don't ask for liver pills. Ask for Carter's

Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute, 25c at All stores, @1931, C. M. Co.

THREE CENTS

CARTERET, NEW JERSEY, FRIDAY, SEPTEMBER 9, 1932

JOE MEDWICK WITH A GREAT TEAM, BUT IT HAS FLAT TIRES

Carteret Boy Hired as Mechanic to Fix Them Up.

Pride in anything comes when there is reason to be proud. Joey Medwick now plays with the St. Louis Cards in the National league. Because of him, a Carteret ,boy many local baseball fans are looking at the St. Louis team and will ultimately take pride in every good victory that team attains.

But, as Sam Murphy says today in The Sun, "limping into the Polo Grounds tomorrow will be one of the greatest baseball machines on four flat tires." Medwick, who has just been acquired by the champions, was not a member of the team when it was great. His present job is four good tires.

Murphy also says, "The players' complain. There is a good deal of second guessing of the manager's strategy.

"Philadelphia observers point out that the conquerors of the A's in 1931 seem only the shells of great champions," says Murphy. "They are hanging on the ropes not certain whether they will be able to stay up their season on the road."

Medwick Batted 352 The latest records show that Medwick batted 352 when he left the ited the house despite the holiday Houston team of the Texas League and the fact his family was still at for the St. Louis National. A slump the shore. It appears it was necesof one week brought him down from sary to force his way in. he assisfirst to second place, where he was tance of pas re-by were offered when he is the country without any penetical result. the result with heartfelt sympathy Funeral services were held Tuesleading a league every season he was Perth Amboy cemetery.

ganized baseball brought him into of Majority Leader, Elmer E. Brown the Middle Atlantic League, when he got out of high school in Carteret. the deceased is survived by his He wound up the season with the father and three brothers, William, best batting average, which was Marwin and Leo.

His second year in the game was last year and he went to Houston. At the termination of the campaign he again came out in front with slightly over .300.

This season, if the Cardinals had sent for him a little more than a week sooner, he would have come out ahead again with .363, but as it turned out he landed into second place with .352. At the time Medwick had twenty-five home runs, the highest individual total.

BLDG. LOAN WILL GRANT DIVIDENDS

Within the next thirty days, the Carteret Building Loan Association of this borough will pay out to its shareholders approximately \$45000, it was announced by Thomas Devereux, sr., recently.

This sum of money represents the twenty-fifth series off the assogiation. Assets are now nearly \$1,000,000.00.

New York Doubtful Now

Mayor Walker's resignation, with If the Board of Education will not to tone up his candidacy and supply why the campaign has not yet its resultant confusion in the Democratic situation in New York State, puts New York in the doubtful column and is seen as a blow to Roose-. velt's candidacy.

> With Tammany bolting its party's presidential nomince and a city election thrown into the campaign at th's stage, the Governor faces a bad set-up. His chances of carrying his home state, with its forty-seven electoral votes, are dubious, and in a close contest this same state may decide the presidency. It is too soon to determine the effect of the Tammany bolt in other states.

> The immediate reaction to the nominations made in the Chicago conventions was that there was little choice between Hoover and Roosevelt. The political mind of the country went into eclipse and has not yet come out. Apathy followed as voters in both parties wavered. Lacking determining factors on either side to help them reach a decision, the independent voter is seen as slipping back to his old party moorings as about the only way out.

Nothing Yet Convincing

Neither candidate has done anything to capture the public imagination or start a strong movement his way. The anti-this and that sentiment still is strong on both sides. Roosevelt was making a strong bid for support by his capable handling of the Walker case until that blew up in his face. The President and his party have made little if any progress in breaking down the powerful opposition forces arrayed against Hoover as an outcome of the depression and especially in the agrarian States.

The Republican party normally is five to six million votes stronger than the Democratic. Hoover can take a substantial loss and still win if the Republican shrinkage is distributed properly. The electoral (Continued on Last Page)

SYNOPSIS

Wilson McCann, young Arizona ranchman, is called to help an old friend, Jim Yerby, with a broken leg. Julia Stark, daughter of Matthew Stark, inveterate enemy of the McCanns, is with him. Taking a note from Julia to her father, Wilson is fired on by Jasper, Julia's brother. Ann Gifford, with her young sister, Ethel, are sheep raisers, and on that account unpopular with the cattlemen. "Night riders" shoot a McCann rider. Peter McCann, Wilson's father, offers a reward for the disclosure of their identity. Wilson McCann horsewhips Jasper, he making practically no resistance. Matthew disowns his son for his cowardice, and posts notice he will kill Wilson McCann on sight. Ann Gifford's tragedy is the fate of on sight. Ann Gifford's tragedy is the fate of her dead sister, Nora, betrayed and abandoned by her lover. Jasper Stark and Carl Gitner, known as a "killer," hold secret conferences. A Stark rider, Tom McArdle, is believed by the Starks to have been killed by the McCanns, but rumor links his name with that of Nora Gifford. Matthew Stark is shot and killed, from ambush. Julia finds him dead, with Wilson McCann stooping over him. She and Phil, her younger brother, both accuse McCann of the killing, despite his vehement denial. Wilson is shot from the chaoparal, while standing son is shot from the chapparal, while standing over Matthew Stark's body. Believing him dying, the Starks have him taken to their home. Despite opposition, his father is allowed to see him. Dave Stone, Stark rider, a Texan with a record as a "killer," openly doubts Wilson's guilt. Jasper is disinherited by his father's will.

CHAPTER VI-Continued

"Jule, you an' Phil wouldn't keep me outa my share of the property, would you? That would be a low-down trick, jus' because Dad got sore at me an' hadn't time to forget it.'

"Phil and I haven't talked this over. We haven't even thought about it." She broke into sudden passionate protest. "I'd think, Jas, you'd have the decency to forget it till-for a few days anyhow."

"Easy enough for you to talk," he grumbled. "Nobody's done you a meanness like they have me."

"We'll do what's right, Phil and I. But you can't come here and bully us. We don't want the McCanns here any more 'n you do. We hate it-espe-

She bit her lip to keep back a sob. Both the men knew she was thinking of her father.

"Well, then, why not throw 'em out?" Jasper wanted to know.

"Because we're not savages. Because one of 'em is dying-and the other is his father. Can't you see, Jas? It's not what we want to do, but what we've got to do."

"Folks are liable to do a lot of talkin'. I'll say that."

"Then they'll have to talk. We

can't help it." t sabe this

told her, narrowed eyes full in hers. "What's back of it? What game are you playin'?" A flush swept the girl's cheeks and

died away leaving her white and still. She knew what he meant—that this was a covert insinuation of a love affair between her and Wilson Mc-Cann. A wave of nausea engulfed her.

"I think you're the most hateful man I ever knew," she flamed, and went out of the room on a crescendo of sobs.

Phil missed the point but knew that his sister thought Jasper had insulted her. He asked a question bluntly. "What you drivin' at, anyhow?"

"Don't you get sore, too, kid," the older brother answered. "I got eyes, an' I use 'em. She's mighty highheeled, Jule is. But she can't draw the wool over my eyes. It ain't all Christian kindness that's moving her. Not on yore sweet life. It's that Wils McCann. She's in love with him."

"What!" "Sure as you're a foot high. There's somethin' doin' between her an' that lobo wolf that killed Dad." Jasper nodded malevolently and triumphantly. His brother recoiled, hard hit. "I don't believe it."

"You'll see," Jasper promised, wisely. To those stricken by grief it seems at first that death has dammed the river of life and that its channel must be forever dry. But it is of the fortunate essence of our being that life flows on in spite of us. The very detail of existence so absorbs us that our sorrow is pushed into the background.

Thus it was with Julia in the days after her father's body had been laid to rest. Her time was very fully occupied, for she had inherited the joint management of large interests. Jasper still called the ranch his home apparently, though he was of no use whatever in looking after it. Julia did not understand him at all. It was not only that he considered himself illused. There was something on his mind that made him savage and irritable. His idea of justice was that Phil and she should make out a deed to him of one-third the property left by their father and should let him run the ranch according to his fancy with-

out interference. If he had been at all reasonable Julia would have been tempted to join with Phil in acceding to his demand. But she knew in her heart that if she gave way it would be weakness. In this Phil concurred. He knew, better even than Julia, that Jasper had flung away the reins of all self-control, that he was drinking heavily and spending | felt like a shadow of disaster hovering | was divided by his attention to his in-

had so moved her to futile and protestant outburst? Was it possible that some threat still overhung, one of the nature of which he was in the dark?

"Couldn't you and your sister come and stay with us a few days?" Julia asked, her fingers caressing the soft and dimpled cheek. "We'd love to have you?"

"Oh, I wish we could. But we can't. There's no use talking," Ethel cried. "It's sweet of you to ask us, though. Ann wouldn't want to go. I'm sure she wouldn't." A shadow darkened the doorway.

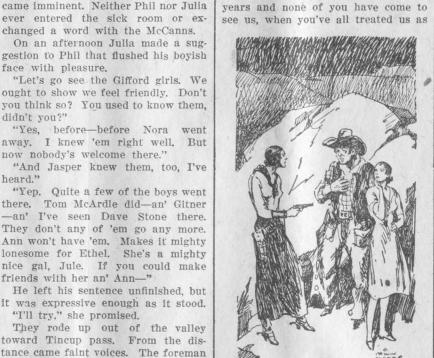

"Where is it Ann wouldn't want to go?" Miss Gifford came into the room, a quirt dangling from her wrist. In an unlovely khaki divided skirt and

spurred boots, a revolver cased in the belt at her hip, she looked very much a denizen of the desert. But she had an aspect of efficient competence. "I was asking your sister if you and

she wouldn't come and stay for a few days at the Circle Cross. We'relonesome just now," explained Julia. "No, thank you," Ann answered bluntly.

"We'd so like to have you come," Julia persisted. "There aren't many of us women folk on the desert. Don't you think we ought to be friends?" "Friends!" Ann's voice carried a laugh far removed from humor. "Why

not? When we have lived here two

"Stop Right Where You Are," She Said.

though we had the plague, when you've harried our sheep over cliffs and poisoned them, when your vile men-" She stopped abruptly, to add a moment later contemptuously, "Yes, let's be

"Phil and I didn't do any of this, did we?" Julia asked gently. "Oh, I know you haven't been treated right. But give us a chance now. If you're generous you'll give us a chance to make up for it. We'd love to try."

"I'm not generous," Ann Gifford re plied, and in her eyes there burned sparks of anger. "The less we have to do with any of you the better pleased meet them. At sight of Phil her

> "That's plain enough," Julia said stiffly. "It doesn't leave much room for argument. If you won't have our friendship, why of course we can't

> Phil spoke. "Miss Ann, some time you might need friends, don't you reckon? You can't play a lone hand 'way off here. You ain't livin' in Denver or El Paso. You seen yoreself how it was with old Jim Yerby. He bust his laig an' would of died if Sis hadn't drapped around an' took care of him. You went up there every day an' looked after him. Folks are dependent on each other in this country. You gotta have friends here. It ain't reasonable to say you won't have 'em. We're tryin' to say, Jule an' I are, that we'd like to be neighborly even if you don't exactly want us for friends. Miss Ethel an' you, why you need good neighbors-'

> "When we're looking for some one to neighbor with, Mr. Stark," Ann cut in with a swift flare of feminine ferocity, 'we'll not choose any of the Circle Cross outfit."

"Why?" Julia asked. "I'll not tell you why."

There was nothing more to be said. Ann had closed the matter by imperative veto. Phil longed for a rehearing, but knew it would be of no use. Better than his sister, he guessed at the grounds of Ann's resentment toward the Circle Cross. Most of the cowboys visiting the sheep ranch had heard whispered comment at the bunk house. Probably she had reason to I

younger. "How long has he been meeting you?" "He came the week after-after he was killed." Ethel spoke in a low

voice of distress. The pronoun of indefinite antecedent was quite clear to all present as to who was meant. 'And he has been here since?"

"Four-five times." "Threatening you?" Ethel nodded.

"That he would tell-what he claims to know about me? Is that it?" "Yes."

"If you wouldn't marry him? I suppose he does you the honor to offer marriage. Or does he?" Ann spoke in a low clear note of concentrated bitterness. "Yes."

"I'm on the square with her," Stark less she made a clean breast of her said virtuously. "That's the kind of a fellow I am. I'm here as a friend, "I ain't onreasonable," he said. "I'm understand." askin' you to marry me, girl. Do that,

"But if she doesn't marry you I'm to go to the penitentiary. Is that it?" "She'll marry me. I ain't worried good deal. I'll be some husband, if I about that."

"Or you'll send me to prison," the other sister persisted.

"Have it yore own way," he laughed brutally.

The pupils of her eyes dilated as they blazed scorn at him. "You yellow coyote! If there's anything that walks as low as you-' His teeth showed in a snarl. "Tha's

no way to talk to me, you crazy hellcat. I got you where the wool's short -got you right. Get on the hook with me, an' I'll sure enough put you through." "Do whatever you've a mind to do. But get off our ranch and stay off. If

ever see you on it again I'll pump lead into you—as I would into a diamond-back." Voice and manner were full of disgust and bitterness. She felt degraded at having to wrangle with him. It seemed to put her on his

"I'll get off when I'm good an' ready to go. But get it straight, girl. It's a showdown. I'm tellin' you. Me, Jas Stark." He swaggered into the shade of a live oak and rolled a cigarette for effect. "I'm tellin' you that either Ethel an' me take a trip to the sky pilot or you take one to the pen. Understand?"

"I told you to go," Ann warned. "Don't run on me," he advised savagely. "I'm dangerous, girl. Don't fool yoreself till it's too late. I want the kid, an' I allow to have her in spite of h-l an' high water."

"You'd better go." "What's the sense of all this the-ater talk? I'm makin' a reasonable proposition?" He turned to Ethel. 'Look here, honey. She ain't in this a-tall. It's between you'n me. Listen." "I don't want to," she cried at him,

a little hysterically. "Well, you're going to listen."

He moved toward Ethel in his heavy domineering way. What his intentions were perhaps he did not quite know himself. He meant to take her into his arms and by sheer momentum ride down her will; just how, he did not

But Ann was taking no chances. Out of its scabbard she whipped the small "Stop right revolver she carried. where you are." she said.

(TO BE CONTINUED.)

Now the Time for Chic Velvet Hat

By CHERIE NICHOLAS

WOULD'ST add an unmistakable ! touch of chic and an air of new-"You're a prince of liars," she told ness to your mid-season and early fall appearance? Here's how! Women "Thought you'd get away with it, keenly alert to those subtle moves how you'd dry-gulched Tom at the cut- immediate appeal in the idea. That is, they are topping their flowery chif He straddled, bow-legged in his fons and afternoon prints, their pastel tle velvet hats such as all Paris is wearing in restaurants, to theaters and at all smart gatherings.

And if you have already acquired your "first" fall frock or suit, why of course you will be wanting to wear with it one of the new and fascinating velvet chapeaux which milliners are now featuring, so as to stamp your costume with that last-minute look which all covet.

Ruby is the newest color for the alluring little toques which are now gracing the style picture. For that matter, even the newest velvet sailor is apt to be in that flattering shade. However, be assured that black and white are definitely holding their own. That "touch of white" which fashion so persistently calls for is frequently supplied by the little toque or beret of twisted or braided or otherwise draped white velvet. Just to be "nifty," wear with it one of the sprightly wee white veils which flare out like a halo about the head

Perhaps you are partial to brims. If so you will find waiting to answer your bid and call attractive black velvet capelines. Decidedly shallowcrowned are these newest models. They sure do a lot for any costume in the way of topping it with style. Milliners are placing considerable emphasis on this type of hat for immediate wear.

The new cuffed hats are proving just to the liking of women who seek a change from the cap-fitting little berets and toques such as have been holding the center of the stage so long, and yet do not fancy the wider brims. These little hats with a cuft are smartly in fashion at the present moment. The perky little cuff effect at the top of the picture to the left brings velvet back in truly Victorian manner. In the original it is of violet, but it will prove ever so goodlooking in black for general wear.

Just below this model the hat shown is of gray velvet, for gray as a millinery color is high style for fall. The velvet is in this instance hardstitched and the crown and brim are made on a stiff wired crinoline frame-a very new and significant move in the realm of millinery, for it has been many a day since hats were worked on a foundation. We forgot to mention that the little violet velvet hat above described is also done over a

The wee toque at the top to the right is conjured of velvet which is stitched to form a checkered effect. By the way, milliners are doing all sorts of fancy stunts with velvet this season in the way of stitching, tucking, shirring and such.

And now we come to the concluding number in this group—a velvet sailor, than which there is no more important type forespoken for the coming months. The model shown is a very conservative one. Some ultra sailors have amusingly shallow crowns with narrow brims worn tilted over one eye.

©. 1932. Western Newspaper Union.

ONE-PIECE FROCKS SIMPLE IN DESIGN

Simplicity is the "keynote speech" of some of the new one-piece knit frocks that are going to be much worn when the election results begin to roll in next November, says an authority. in the Kansas City Star. Monotone for the most part, these slim frocks with either short or long sleeves. One still sees the boucle suit in some of its younger moods. A rum brown boucle, made in three pieces, had a threequarter length coat and a slim skirt, worn with a cream color fagotted (magic word, this fall) blouse. The coat has widened smartly seamed sleeves, tightly buttoned cuff bands, a pull-through scarf with ends of brown galyak and a slightly fitted waistline.

The one-piece frock with the detachable high-necked cape is not to be crowded off the smart street scene this autumn. In a rich wine novelty woolen it has matching octagonal buttons tipped with silver metal that fasten the cape, trim the sleeves, and aid a deep side pleat in achieving a wrap-around effect. These coat frocks, by the way, are tremendously important for early fall wear-you really should have one.

New Stockings Proof Against Mosquito Bites

Stockings are smarter than no stockings at all this summer. Mesh stocking are tremendously popular. But what about mosquitoes and their unpleasant little stings? The newest in hosiery ideas is the

chemically treated stocking. It doesn't look any different from the stockings we're used to and you, yourself, can't detect the chemical, but the mosquito can and he makes a hasty retreat.

Three-Quarter Coats

This new length between the knees and the ankles is the smartest for summer coats whether they be of wool, silk or linen, or one of the gay new striped cottons.

NEW-LENGTH JACKET By CHERIE NICHOLAS

Perhaps the most outstanding feature of the definitely new suits is the three-quarter length of their jackets. It does not matter if the suit is strictly tailored or designed along soft lines, as in the model pictured, the new length is its claim to last-minute creation. The fact that the suit shown has a slenderizing straightline skirt, also that the jacket buttons up to the neck and that the sleeves are of dolman influence, establish the correctness and chic of this model for

The Trial of Aaron Burr John Marshall Theodos Burr Aaron By ELMO SCOTT WATSON NE HUNDRED AND TWENTYfive years ago the eyes of the whole nation were turned toward Richmond, Va., for there was taking place one of the most dramatic events in American history-what has been called "the greatest criminal trial in American history and one of the notable trials in the annals of the law." No less a person than Aaron Burr, but lately Vice President of the United States, was on trial for his life and the charge against him was that of committing a crime which was a threat to the safety of not just one person or a group of persons but to the safety of the whole nation, the crime of high treason. Although Burr was acquitted by what was substantially a Scotch verdict of "not proven, my lord," and historians are still doubtful as to Courtroom Scene at Burr's Trial (FROM THE PAINTING by C.W. JEFFERYS in "THE PAGEANT OF AMERICA"; COURTESY YALE UNIVERSITY PRESS) whether or not the famous "Burr Conspiracy" was actually a treasonable scheme, the name of Aaron Burr has come down in popular belief among our "galaxy of scoundrels" second only to Benedict Arnold. Whether or not he has been assigned such a place justly or unjustly is a matter over which again historians disagree. In the Presidential election of 1800 Burr and Thorass Jefferson, the Democratic-Republican candidates, each received 73 electoral votes, a tie which threw the election into the house of representatives, which was strongly Federalist, After balloting for a week, ten votes were cast for Jefferson and four for Burr, and under the Constitution as it stood then this made Jefferson President and Burr, Vice President. cause of political jobbery with the Federalists, Furr lost whatever regard the leaders among the new party held for him. Then he became involved in a bitter struggle for supremacy in New York politics and because of the antagonism of Jefferson all the patronage was thrown to Burr's rivals, the Clintons and the Living-

Hamilton. The result was the defeat of Burr, THE WAR DEREN who held Hamilton chiefly responsible for his Thomas Jefferson humiliation. Then followed the famous Burr-Hamilton duel in which Burr's pistols ended the great career of Washington's secretary of the Richmond. John Marshall, chief justice of the treasury and made Burr a political and social Supreme court of the United States presided over the trial. Luther Martin and Edmund Ran-Discredited in the East where he had been dolph were counsel for the accused and William a leader, Burr turned to the West to recoup Wirt was counsel for the government. The his fortunes, hoping to capitalize on the unrest foreman of the grand jury which brought the among the Westerners where talk of disunion Indictment against Burr was the waspish but was rife. Crossing the Alleghenies he arrived brilliant John Randolph of Roanoke. And not at Blennerhassett's island in the Ohio river the least of the great figures in this case was where lived Harman Blennerhassett, a wealthy Burr's charming daughter, Theodosia, of tragic

stons. Accordingly he accepted Federalist sup-

port in the gubernatorial race of 1804, an alli-

ance which was fought bitterly by Alexander

Irishman, who had settled there in 1798. To

Blennerhassett Burr proposed a wild scheme of

raising an armed force in the Old Southwest,

driving the Spaniards out of Mexico and estab-

lishing a great southern confederacy composed

of these conquered Mexican possessions and

the American territory west of the Alleghenies

where the sentiment for disunion seemed so

Blennerhassett was enough impressed by

Burr's scheme to mortgage his vast possessions

to furnish the necessary money.\ They also

hoped to gain the aid of Great Britain in car-

rying out their scheme and, further to insure

the success of the plan, Burr won the support

of General Wilkinson, then governor of Louisi-

ana territory, commander of the United States

army and "as two-faced a villain as ever served

Throughout 1805 and 1806 Burr developed his

plot which became well known throughout the

West. The federal authorities, however, seem

to have been strangely blind to what was tak-

ing place until at last Wilkinson betrayed the

scheme to Jefferson who on November 27, 1806,

Issued a Presidential proclamation calling for

the arrest of all those involved. Wilkinson and

the others, to save their own skins, deserted

Burr and, in the modern parlance, he was made

the goat of the whole affair. Attempting to flee,

Burr was arrested in Alabama and brought

back to Virginia for trial on the charge of trea-

cuit court sitting at Richmond and never, per

baps, in American history has there been gath-

ered together in a courtroom such a galaxy of

actables as assembled in that little room in

the United States government."

strong.

Although Aaron Burr was upon trial on the most serious charge which can be placed against the citizen of a country, in reality he was little more than a pawn in what was at the time regarded as a test of strength between the Republican President Jefferson and the Federalist Chief Justice Marshall. The trial lasted from March 27 to September 7, 1807, and the full story of the legal maneuvers executed by the two clashing forces would require a book for the telling.

Under the Constitution, treason against the United States consists "only in levying war against them, or in adhering to their enemies, giving them aid and comfort," and no person may be convicted of it "unless on the testimony of two witnesses to the same overt act, or on confession in open court." The crux of the whole case against Burr was whether or not on a certain date (December 10, 1806) Burr had actually "levied war against the United States" by assembling an armed force on Blennerhassett's island and on the day following had set in motion this same armed force in an expedition against the City of New Orleans.

The prosecution produced a series of witnesses, mainly servants of Blennerhassett, to prove this point. Then it announced its intention of introducing evidence to show Burr's connection with the assemblage on the island, whereupon the defense sprang a surprise which turned the tide in Burr's favor, Developing the fact that on the night of December 10 Burr had not been present at the island, but had been 200 miles away in Kentucky, they contended that under the Constitution the assemblage on Blen-

nerhassett's island could not be regarded as his act, even granting that he had advised it, for, said they, advising war is one thing but levying it is quite another. If this interpretation was correct, then no overt act of levying war, either within the jurisdiction of the court or stated in the indictment, had been or could be

John

Burr's attrneys and when the prosecution was independent establishunable to produce two witnesses who had actual ments have submitted ly seen Burr procure the assemblage on the island, it allowed the case to go to the jury.

returned: "We of the jury say that Aaron Burr | Whether the budget is not proved to be guilty under this indictment by any evidence submitted to us. We therefore find him not guilty." At the order of the chief justice this Scotch verdict was entered on the records of the court as a simple "not guilty."

Acquitted, Burr became an exile and an outcast. The man who came within one vote of be be larger. ing President of the United States wandered about Europe for four years, borrowing small amounts, attempting dubious promotions, urging the French to seize Louisiana in 1810, and finally returning to his own land with a false wig and whiskers. Shortly after his arrival he encountered the breaking of the one tie that held him to the earth when his beloved Theodosia, who had stood by him when the whole world seemed to have turned against him took ship from the South to meet him in New York. The ship on which she sailed never reached port and what her fate was is to this day an unsolved mystery. One of the most tragic pictures in all American history is that of the broken, disgraced Aaron Burr, a devoted father whatever else he may have been, going down to the battery every day for years, searching the horizon for the sail of a ship which never came—the ship bringing back to him his long-lost daughter. And then as a final touch to an ill-fated career was his unfortunate marrlage to the famous Madame Jumel who divorced him on the day he died.

late home improvement and repair; to assist home owners in carrying their mortgage burdens; to make credit affirmatively useful by making it available to those en-

The central committee named to carry out this program is headed by Henry M. Robinson of Los Angeles, a white-halred banker and lawyer who has been one of President Hoover's closest friends and unofficial advisers and who has previously served the public in various capacities, notably as a member of the commission that formulated the Dawes plan. It is said in Washington that Mr. Robinson may soor be known as the Colonel House of the Hoover administration.

Of the sub-committees named at the conference, the first to get into action was that on spreading employment. Its chairman, Walter C. Teagle, president of the Standard Oil Company of New Jersey, said the committee intends to educate industry to do the most convenient thing to be worked out from the various methods already devised and operated by nearly 400 companies throughout the country, which reported to the unemployment relief organization in the course of its study of the program and its application to industry.

Dispatches received in Washington from all parts of the country indicated that the conference already was having an effect on the revival of industry, and the news from banks was especially cheerful.

A NDREW W. MELLON, ambassador to England and former secretary of the treasury, had a long talk with the President, and on emerging from the White House said he believed the current advance in stock prices was justified and would be maintained. Mr. Mellon's reputation as a financial wizard has been considerably lessened, but there are still many who think his judgment is sound,

MONTAGU C, NORMAN, governor over to this country recently as "Prof. Clarence Skinner," ostensibly to spend a vacation in Maine. But it was not long before he was in New York consulting with some of our leading bankers, and then it was officially admitted in Washington that he would "see or communicate with" Ogden L. Mills, secretary of the treasury. In the minds of many this made it certain that the main object of Mr. Norman's visit was to discuss war debts. It also probably had to do with Britain's return to the gold standard in 1933, this being dependent on the settlement of the war debts and reparations and the lowering of world tariff barriers.

D ESIDENT HOOVER and Budget Director J. Clawson Roup have begun preparation of the budget for the 1934 fiscal year which starts July

their estimates and Mr. Roup has begun hearings on them. will be larger or smaller than the one submitted to congress for the current fiscal year is not yet known. but probably it will Sec'y Adams

The naval general board completed its new building program and laid it before Secretary Charles F. Adams. Whether or not he would submit it to the President with a recommendation that it be offered to congress in December was not to be decided until Secretary Adams had consulted with a number of ranking admirals.

It was understood the general board program included a one-year installment of the Vinson \$200,000.000 tenyear program. It recommanded starting work on the seventeenth 8-inch gun cruiser permitted under the London treaty and already authorized. Other parts of the program presumably call for the laying down of two cruisers, one airplane carrier, and additional airplanes and submarines.

SUPREME COURT JUSTICE ELLIS J. Staley at Albany ruled in the Walker case that Governor Roosevelt had the authority to sit in judgment | projecter triborough bridge.

IF PROSPERITY can be restored by the united efforts of individuals on the mayor, and that the courts could not interfere in the executive acts of the governor. However, he also ruled that court action might be taken after the governor has given his decision on the Walker ouster charges, provided the mayor's three constitutional defenses had been violated. These safeguards, the court said, were:

That the mayor must have been given a "fair trial" by the governor. A fair trial, Staley explained, gave the mayor the right to cross-examine the witnesses on whose testimony the charges against him were based.

That the removal was "only for cause, and for a cause relating to some act or omission which amounts to official misconduct or violation of public trust, or one that involves moral

That the "act or neglect" justifying the removal must have occurred "during the term which the officer is serving. The "trial" of the mayor was resumed by Governor Roosevelt on Friday, having been postponed until then because of the death of a brother of Mr. Walker.

[]NLESS late returns from the Dem ocratic run-off primary upset present figures, "Ma" Ferguson will be governor of Texas again. At this writing she has a rather slight lead over Gov. Ross S. Sterling. The vote had veered and swayed from the incumbent to Mrs. Ferguson in such dramatic manner that A. F. Henning, head of the Texas election bureau, declined to forecast either the possible outcome of the race or the probable total vote.

The returns were still to be canvassed by the county committees and then by the state committee.

GOVERNOR'S day at Seagirt, New Jersey, was taken by Franklin D. Roosevelt as the occasion for his first campaign speech on the prohibition question, and what he said to his 150,000 listeners was highly pleasing to the wet Democrats. Some of the Republican leaders, on the other hand, called it old stuff and ludicrous; and it did not have the approval of the Prohibitionists.

After speaking a good word for genuine temperance, Mr. Roosevelt dealt with the "tax burden" that prohibition has brought, declaring "the only business in the country that was not helping to support the government was in a real sense being supported by this government,"

Describing the Republican platform as "long, indirect, insincere and false," the governor compared its stand on prohibition repeal with "the concise sincerity of our own platform."

"The Democratic party squarely met the issue," said the governor, "while the Republican administration attempted to evade and confuse the

O NE after another the state conventions of the American Legion are disregarding the advice of the leaders of the Legion and adopting

resolutions calling for immediate payment of the veterans' bonus in full. The meeting of the New York Legion, in Brooklyn, was enlivened by an almost violent demonstration against F. Trubee Davison, assistant secretary of war for aviation and now an aspirant for the Republican nomination for

governor of New

F. Trubee Davison

Mr. Davison, defending the federal administration for the use of force in expelling the bonus army from Washington, charged that many members of the B. E. F. in the National Capital were "tramps and hoodlums" possessing fake military discharges that were produced by a "Communistowned diploma mill." His speech was frequently interrupted by loud jeers and boos and cries of "put him out," and finally it was necessary to call the police reserves to restore order.

THREE major conditions on which it will make loans for self-liquidating projects were announced by the Reconstruction Finance corporation board. The applicant must prove that his project is self-liquidating; he must prove that it is adequately secured by good collateral; and he must be able to give the board complete information on all phases of the project. Among the minor conditions are the barring of convict labor; limitation of labor to 30 hours a wek, and giving preference to war veterans with depend-

When the applicants gathered in the corporation's offices Los Angeles was near the head of the line, asking \$132,-000,000 to carry to the city the water and power made available by the Boulder dam. New York wanted \$75,000, 000 for a bridge across the Hudson to Weehawken and \$55,000,000 for the

NATIONAL air races at Cleveland were almost disrupted at the start because the aviators learned that the prizes for closed events had been reduced to 28 per cent of their advertised value. But the flyers finally gave in and consented to go ahead with the contest, James G. Haizlip, former army flyer, won the Bendix dash from Burbank, Calif., to Cleveland in 8 hours 19 minutes elapsed time. He then continued to New York, establishing a new transcontinental record of 10 hours 19 minutes.

I OWA farmers engaged in the "strike for higher prices were being investigated by a grand jury in Council Bluffs which was instructed to inquire

into wilful obstruction of highways, destruction of property and intimidation of truck drivers. The "holiday" movement, started by C. P. Savery and other leaders, meanwhile was losing its peaceful aspect

and there were con-

flicts between the pick-

ets and sheriffs' pos-

sees at various points. C. P. Savery

Generally the officers had the best of it, but not always, Near Cushing, Ia., a force of fifty depities that undertook to escort five truckloads of hogs was attacked by nundreds of farmers armed with lead pipes and sticks, and eleven deputies were injured. The aroused sheriff declared the picket lines would be broken. It is noteworthy that many of the members of the late bonus army have entered the fray on the side of the striking farmers.

England was confronted with one of the worst strikes of recent years when more than 125,000 cotton weavers in Lancashire quit work because of a wage cut and working conditions. While most of the mills were forced to close, some continued with depleted staffs and others, which made private arrangements with the workers, operated at full capacity. The leaders of the weavers' union estimate that the walkout was two-thirds effective on the first day and believe It will spread to all the mills.

A direct appeal to King George to intervene through the government in the dispute was sent to Balmoral by Joe Compton, a former Laborite meniber of parliament, who wields great influence in the mill district.

It appears likely that the 20,000 conluctors and drivers of London busses would strike soon because of wage reductions and changes in working conditions ordered by the London General Omnibus company.

GERMANY was tremendously exfor Adolf Hitler had decided that his 230 Nazi members should not support the Von Papen government. At the last moment the chancellor had luncheon with Hitler and in their discussion the breach between them was widened. Von Papen then went quickly to Neudeck, where President Von Hindenburg was resting on his estate and received from him authority to dissolve the reichstag at his discretion, giving him almost dictatorial powers. The aged president told the chancellor he was at liberty to take this step if the reichstag tried to vote no confidence in Von Papen's government and its \$500,000,000 reconstruction gram, which seemed a certainty. This would give the chancellor's regime at least three months further life.

The entire German press features the Neudeck confab as of historic moment. There is no doubt that Von Papen enjoys the president's full confidence and the chancellor will not yield even to a Nazi-Centrist combination unless the president can be shown that such a coalition would set up a presidential and not a party cabinet and that it would offer a concrete program of action, acceptable to the majority of the reichstag and at least as good or better than Von Papen's,

Clara Zetkin, seventy-five-year-old Communist, presided over the opening session of the reichstag, being entitled to that prerogative by being the oldest member. She demanded the impeachment of the president and cabinet in a long speech. The National Socialists behaved with dignity and, with the aid of the Catholic Centrists, Nationalists and Bavarian People's party, they elected as speaker Hermann William Goering, one of Hitler's lieutenants. Goering declared he would act impartially but would stand for nothing derogatory to the national

L AST will of Mrs. Edith Rocke-feller McCormick, daughter of John D. Rockefeller, signed by her just three weeks before her death, was filed for probate in Chicago. Edwin Krenn, the Austrian architect who was Mrs. Rockefeller's close friend and business associate, is the principal beneficiary, being bequeathed fivetwelfths of the estate. To her daughter Muriel Hubbard she left one-third of the estate; to her daughter Mathilde Oser, one-sixth; and to her son Fowler McCormick, one-twelfth. Edward A. Dato, Krenn's partner in a real estate firm, has announced that before Mrs. McCormick died Krenn signed an agreement with Dato by which he waived all claims to the estate as well as his interest in the firm of Krenn & Date, and accepted in lieu thereof a guarantee of \$2,000 a month income for life.

The estate was once estimated to have a value of \$40,000,000, but it has been greatly depleted.

YES THEY DO

A few weeks ago The Carteret News had an editorial to the effect that chickens come home to roost. It alluded to Mayor Walker. It said that even he was not too big.

It pointed out that some of the practices he was charged with were inconsequential as compared to the rackets that are openly and brazenly perpetrated here.

Of course, even the so-called big shots here can take a tumble just the same as Jimmy has done.

At the time we made this prophecy one of the so-called news-

papers out of town referring to our article said:

"Chickens come home to roost, but when?"

Well, if the hicks read the newspapers at all they must know that the chickens have come home to roost in Jimmy's case.

In the case of other so--called politicians they may come home to roost most any time.

It is well for everyone to pause and consider Abraham Lincoln's homely but true saying:

OF THE TIME,

YOU CAN FOOL SOME OF THE PEOPLE MUCH

BUT NOT ALL THE PEOPLE ALL THE TIME."

REALLY MOURNED

This newspaper carried an account last week of the death of John Michael Daly, section superintendent for many years of the Public Service Coordinated Transport Company. His operations years, says an article in the Brooklyn brought him into this district along the right-of-way of what is Eagle. known as the Fast Line.

Mr. Daly was a plain, kindly, friendly soul. If he knew you at all, even in a passing way, he had a friendly word and welcoming smile. He seemed always of a happy nature. Mr. Daly, who graduated from Rutgers some years ago, was a brother of the late Supreme Court Justice Peter F. Daly.

Although John M. Daly held no high position, the number who sincerely mourned him was legion. A list of those attending his burial indicates many in high official position gave up their day to pay their last respects to him, along with hundreds of others. Many who were unable to attend no doubt thought of him.

What a strange thing life is. Many a person with money hires press agents and eternally seek publicity. The attention they get is never lasting and the regard that is had for them, if any, is fleeting.

Yet here was a simple man but friendly and cordial who held no high office of any sort and yet he was really mourned.

The Carteret News joins in tribute to his friendliness and cor-

The world is a better place to live in when we have such humans in it as John Michael Daly.

A GOOD EXAMPLE

Governor Moore, acting under the power the Legislature gave him for the emergency, is abolishing unnecessary jobs. Already two departments have been affected.

Mr. Moore insists that government is no different than the in- the management and maintenance of dividual with reduced income.

He contends the only way open to the government is to reduce its expenses in the same way the individual is forced to do.

This, of course, is common sense. The government's income depends upon the income of the individual. If the income of the individual is sharply cut, as it has been, where is the State to get its income to carry on as usual?

Since the hectic days of the Legislature are over, Governor Moore has had a few balance sheets placed in front of him. He has judgment enough to appreciate that things cannot continue as they have been.

Unlike some of his fellow Democrats in Carteret he is not pretending everything is rosy and that we need not worry today or

No Governor knows the individual citizen better than Mr. Moore. He is a good mixer. He knows what is going on in the minds of the people of the State of New Jersey.

Mr. Moore is sufficiently in touch with the pulse of the people to know he would soon become very unpopular if he did not act in the direction of cutting down expenditures. He appreciates that the cost of government is borne by every man, woman and child in New Jersey. He also understands well that the heavier business is burdened by taxation the more unemployment there will be.

In other words, the heavy local taxation in the State of New Jersey is what has created the terrific unemployment.

HEALTH HINTS FOR AMATEUR ATHLETES

JAMES J. CORBETT

Former Heavyweight Champion of the World

These articles have been prepared by Mr Corbett in cooperation with the staff of the Department of Health of the City of New York and are being released for the free use of newspapers throughout the country in the interest of the health of boys and girls.

11. AVOID SOME THINGS

Every year during the vacation season many lose their lives while swimming-and many of the victims are expert swimmers. In the majority of instances those drowned were victims of "cramps."

The attack of cramps may be due to a run-down condition of the swimmer or to water that is too chilly. In many instances the attack has been traced to the fact that the victim entered the water too soon after eating.

No person should ever go swimming until two hours after eating. Nor should any one enter any strenuous game before that time. The stomach requires time to begin to digest the food, and in any untoward demand made upon the body while this is in progress is dangerous.

So do not go swimming, rowing, or enter any game that requires strain until two hours after each meal,

First Wireless Valve Was Edison Discovery

Many years ago Edison was expermenting with electric lamps, trying to discover how the blackening of the inside of the bulbs came about in those of the old carbon type. He found that if a plate of metal was sealed into the bulb and electrified positively, a current passed through the vacuum from the filament to this plate. He noticed that the current always traveled from the filament to the plate; nothing could make a current pass is the opposite direction.

He thought nothing of the discovery. and no use could be found for it, for it was many years before wireless was to

Before we can hear anything of wireless signals the waves must be retified. Each wave consists of a push of current in one direction followed by a pull in the other. Rectification means straining out the pulls and leaving only the pushes. All early methods of doing this were complicated and unsatisfactory.

Then Prof. J. A. Fleming had an inspiration. He made the first wireless valve in which a filament and a plate were placed in a vacuum inside a glass

The Edison effect was harnessed, for the valve would respond only to the pushes and automatically eliminated the pulls. But for the invention of the valve there would have been no broadcasting today,-London Tit-Bits.

Edison Dragged From

Workshop to Wedding Thomas A. Edison was so preoccupied with his laboratory work that he nearly missed his second wedding. This was recalled by Mrs. Franklin Ives, whose father, the late Benjamin Franklin Card, was associated with the great inventor for more time 30

"The story of Edison's second wedding was one of my father's favorite recollections of him," Mrs. Ives said. "Edison was hard at work on a problem in his laboratory just before the wedding. He had become so preoccupied that he had quite forgotten time. "Fifteen minutes before the appoint ed hour his 'hest man' found him there utterly absorbed. He begged the Inventor to dress and hurry to the wedding. Edison protested that he was on the verge of a great discovery and couldn't possibly leave. Finally, almost by main force, his 'best man' succeeded in dressing him and getting him

Old Society of Mariners

to the church-a little late and still

preoccupied, but at least acquiescent."

Records seem to indicate that the corporation of Trinity house, London. vas originally a society of English mariners founded by Sir Thomas Spert with headquarters at Deptford, says an article in the Montreal Family Herald. There is no doubt that it obtained its first charter from Henry VII in 1514, and was authorized by Queen Elizabeth about half a century later to erect beacons and other marks on the coast for the guidance of sailors. Its duties today are concerned with lighthcuses, lightships, beacons and woys, and the supervision of pilots. It owns a fleet of 19 vessels. The corporation has four special flags, the Masters' flag, the Ensign, the Jack, and Burgee, all of which bear the four ship's symbol of Trinity house.

Awerome Hjorund Fjord

A short summer cruise among the fjords of Norway will sometimes bring the tourist to the Hjorand fjord, twenty-five miles long and two miles wide in parts. Here he will see some of the most impressive scenery in Enrope, for the nuscaled Sondmore Alps raise their peaks about the rockrimmed waters. Norwegians and English climbed year after year gradually conquering the heights, but the grandeur is not diminished, and at twilight, the effect is awesome. When Norway was visited by the "Black Death" in the Middle ages, the entire population of the fjord perished, and the present inhabitants are chiefly descendants of Scotch immigrants who came to fill the houses left vacant.

Taking Chances

The teacher of the history class had been telling her pupils of the ancient Roman custom in which the bridegroom lifted the bride over the threshold to prevent her stumbling and bringing bad luck.

Just at that moment the bell rang and the class wit, who happened to be a favorite with the teacher; paused at the desk to pass his customary remurks.

"Gosh!" he exclaimed, "it'd be tough on him if he got a heavy woman!"

Rare Opportunity

A Butler coed's date was wairing patiently for the fair one to put the finishing touches on her toilet when the younger brother appeared and

"I'm going to the drug store to buy sis a new lip stick. Don't you want to come along and pick out your favorite flavor?"-Indianapolis News.

Young People's League

The Epworth league got its name from the name of the town in Lincolnshire, England, which was the irthplace of John Wesley, founder of Methodism. The Epworth league was born in Cleveland, Ohio, in May, 1889, at a meeting of representatives of varlous young people's societies,

Town Claims Many Records

There is a little town in South Af rica which claims to lick creation Name most any record you like, and this little place will go one better. Volksrust they call it in South Africa, and it certainly does live up to that reputation. Sunflowers-they grow from 28 inches across in Volksrust. Snakes, pumpkins, fish, pigs' litters and everything right down to the daily milk output of the average cow-all these things mean records for Volksrust. It is doubtful, however, if all or any of the claims would stand investigation, but they certainly do keep Volkstust on the map, which is apt to surprise anybody who has seen the dare.-Washington Star.

Conscience Fund

The first contribution to the concience fund was made in 1811, Money received for this fund is not car ried on the books of the Treasury de partment as such, but is listed as misrellaneous receipts. The amounts sent in range from 2 cents for a person who falled to put a stamp on a letter when mailed to several thousand dollars from persons who smuggled goods into the United States without paying Import duty. Usually the sums sent are small. No special use is made of the money; it simply goes into the general funds of the department.

School vs. Bridge

It may not have been original, but six-year-old Esther placed her observation in a good spot. She was sitting In on a session of grownups which had turned to contract bridge, and her father was describing a particularly thrilling duplicate contract tourna ment. After listening for some time to the jabber about east and west and north and south, she interrupted: "At school they told us east and west and north and south were points on the compass, but here they're only people playing cards."-New York Sun.

Ain't Nature Grand?

They were seeing America first in the family automobile. Thanks to the wonderful variety of hillboards in traveling from Detroit to Ann Arbor, they Grand canyon, the Eiffel tower, the Mediterranean, the Golden gate, three camels and a de luxe steamship crossheadliners in a three-ring circus. ery, little sister looked to the sky.

"Them's not clouds," Bobby scoffed. "That's a sky writer an' them clouds would spell dad's favorite shirts if it wasn't so windy." - Detroit Motor

Of the Citrus Family

The calamondin is a variety of cltrus fruit (Citrus mitis) which is unique among circus fruits in belog the hardiest of the acid species now being grown in America. Its dense head with bright green leaves, upright habit and small fruits resembling tangerines in shape and color make it one of the most ornamental of the citrus allies. The fruits are bright orangered, I to 11/2 inches in diameter, with deep orange flesh. The juice is well flavored and very acid. It is a valuable garden fruit adaptable to those sec tions where the satsuma and kumqua are grown and is unsurpassed among ade-making fruits.

Evolution of the Quilt

The history of quilts is involved in a tradition of long centuries of slow but certain progress; in fact, the origin of all domestic arts is shrouded in mystery. No positive reference to patchwork or quilting is found in western Europe prior to the time of the Crusades, but from the Eleventh century these arts become more and more conspicuous in the needlecraft of nearly every country in western Europe. Noticeable progress was made in the design of quilts during the Middle ages in Spain. Some of the finest specimens of quilts of this period nave been preserved in Persia,

Financial Giant Well

Likened to Lightning When George Baker, the banker, dled, ninety-nine people out of every hundred exclaimed "Who was he?" and yet Baker's fortune ranked with that of Rockefeller and like the oil king, he made it himself. Of course, Wall Street and the inner circle of finance had always known Baker, but to the general public he was a stranger.

Baker's passing recalls an encounter in which he, Tom Lawson and H. M. Rogers are said to have participated at the time the country was seething with frenzied finance.

Rogers, according to the story, was protesting against a certain exposure that Lawson had threatened to make, and Baker might be termed to escrow in the affair. And it was Baker who laid down the law.

"I don't care what you say!" stormed Lawson. "I'm going through

"Oh, very well, but remember what I have told you," replied Baker mildly, and that ended the interview. Rogers hastened to tell his friends that everything was all right.

"But how do you know it's all right?" asked a friend. "Lawson still declares he's going through with it." "But he won't," predicted Rogers. "Always remember-thunder makes a great big noise, but it's the lightning that really counts. And Baker is light "-Los Angeles Times.

Musical Taste Matter

of Matrimonial Bliss? "If music be the food of love, play on"-but first make sure that the bill of fare has been satisfactorily arranged. Another nerve specialist has been pointing out that in his experience an "astonishing number" of mar riages come to grief over incompati bility of musical tastes. In their case

the result seems to be something like

Jack Spratt could stand no Bach, Whereat his wife would droop— So that with Wagner versus Jazz They landed in the soup.

According to the specialist in question a difference of this kind can deffnitely lead to the divorce court-if not to serious mental disease. But up to now there are no cases of anyone getring a marriage dissolved as the re-* of citing a Beethoven sonata as corespondent.-Manchester (England) Guardian.

Lake's Name Boiled Down

"I noted with interest that the name of Lake Chargoggagoggmanchaugagoggchaubunagungamaugg has been entered in the long word contest," said a letter to the editor of a San Francisco paper not long ago, "It is a good American word of a most original type, for it doubtless was coined by the Indians long before English was known on this continent. An eastern paper a few years ago gave the Interpretation as follows: 'I fish on my side; you fish on your side; nobody shall fish in the middle.' Apparently the name commemorates the settlement of certain important fishing rights by arbitration or less gentle means. The present natives of Massachusetts no longer attempt the whole name, even on holidays, but now have it boiled down to Lake Gogg."-Detroit News.

Ash "Queen of the Woods"

The oak is spoken of ac "the Monarch of the Woods," but the ash tree la "Queen of the Woods," says the Montreal Herald. Ancient stories tell that the gods held their council beneath an ash tree, on the topmost branch of which sat an eagle, watching the way of the world while a were able to see Niagara falls, the squirrel ran up and down the trunk, carrying messages from the bird to the gods. The ash is one of the easiest trees to recognize with its straight ing the marshes, Pike's peak, and the trunk, the bark a pale gray color, its lower branches growing straight out Hungering for a bit of natural scen | from the trunk, curving gracefully to the sky. The tips are quite different "Oh! See the pretty clouds," she from all other tree-tips, each ending in a stout gray twig, slightly flattened at the tip, and beyond this flattened tip two black buds, with smaller buds at the sides. Even when other trees have put in their spring dress of green, the ash tree stands bare.

Mixed Figures

It is not always the merely slip-shod writer who sets down mixed metaphors. Here are two specimens from he writings of professed literary crities, one of whom, at all events, was nothing if not fastidious, Mark Pattison, in the first chapter of his autobiography, wrote: "Even at this day a country squire or rector, on landing with his cub under his wing in Oxford. finds himself as much at sea," etc. The other is from Mr. Gosse's book on the literature of the Eighteenth century: "When he (Gibbon) was salling on the deep waters of his theme, he proved himself a master in the eruft of language." There is a double shuffle about the words italicized in the last passage, says the finder of this odd phrase, which is more irritating than the frank absurdities of the rector of Lincoln.

Dear Littul Butterflies!

To facilitate finding his golf ball a Californian rubs it with a scent which attracts butterflies. An added advantage is said to be that no caddy ia needed-and botterflies can't count

CLEANING YOUR WINTER GARMENTS BEFORE PUTTING AWAY-GIVES ADDED PROTECTION AGAINST MOTHS

Klein's Carteret Cleaning & Dyeing Est. THE OLDEST-THE BEST IN TOWN

573 Roosevelt Avenue Carteret, N. J. HEMSTITCHING DONE WHILE YOU WAIT

The THOR Has the Features Women Want in a Washer

THE THOR ELECTRIC WASHER demands from the operator the minimum of work and attention. It is early to fill the tub, to empty it and to perform the few operations required.

The Thor method of washing is easy on clothes. All the work is done by the force of the water. Hot, soapy water dashes over and through each article. Eighteen currents of water are at work. Six of these keep the clothes away from the top of the agitator and from the center of the tub, preventing bunching or tangling. You never have to stop the machine to untangle the clothes.

There is a good sized Thor washer which sells at \$69.50 cash and a larger size model with an automatic pump for \$99.75. This pnmp makes it possible to do rinsing and blueing in the water without delay. Both models may be purchased on our part payment plan at a small increase over cash prices, \$3.50 down and eighteen months to pay the bulance.

With Automatic Pump only \$99.75 cash

† SOCIAL AND PERSONAL

REPUBLICANS WILL ATTEND OUTING

A large group of Republicans from this borough will attend the annual outing of the Middlesex County Republicans to be held at Linwood Grove, Lincoln Highway, Raritan Township, tomorrow afternoon, and there will be dancing, refreshments and speeches. Music by Connie Atkinson's orchestra; parachute jumps by Daredevil Dan Perry, airplane stunts and a prize waltz.

Among the speakers present will be: W. Warren Barbour, United Luke Kelly, Mrs. Rossman, Mrs. as and Charlotte Larkin, Mrs. Lee, tion of Rt. Rev. Dr. Joseph A. Zuk, States Senator: Major Stanley Washburn, candidate for Congress; Charles Forman, county surrogate; Benjamin Dowdell, George Hutchinson and Leon McElroy, candidates Mr. and Mrs. Edward Lloyd, Mrs. Brooklyn and others. Wake Up Your Liver Bile -Without Calomel

And You'll Jump Out of Bed | in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels

If this one is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

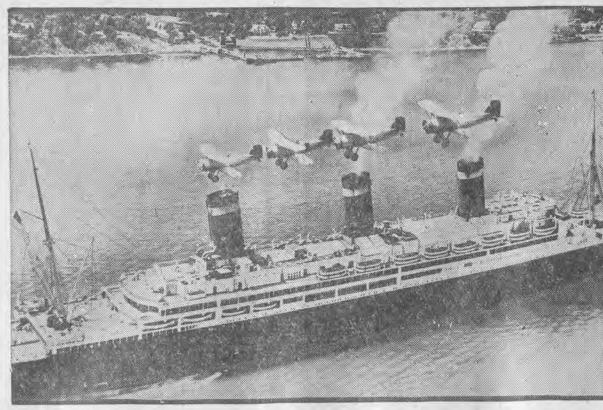

It takes those good old CARTER'S LITTLE

But don't ask for liver pills. Ask for Carter's Little Liver Pills, Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at all stores. @ 1931, C. M. Co.

Spectacular Welcome for Two Flyers

When James Mattern and Bennett Griffin, aviators who crashed in Russia on their attempted flight around the world, returned to the United States the other day on the Leviathan the naval reserve's "Hell Divers" were among their welcomers. This remarkable photograph shows their four planes roaring over the big liner in New York harbor.

ZUIDERZEE IS NOW CALLED IJESSELMEER

Holland's "Old Man Sea" as a Name Is No More.

Washington.-Dutch engineers have divorced Zuiderzee completely from the North sea by an 18-mile dike. Part of the former salt-water gulf will become a fresh-water lake, to be known as Ijessel lake, or, in the Dutch, Ijesselmeer. Most of it, however, will be pumped dry and developed into neat

"In separating the Zuiderzee from the ocean the Dutch are no more than reclaiming their own," says a bulletin from the Washington (D. C.) headquarters of the National Geographic society. "Six hundred years ago much of the late Zuiderzee was dry land, protected from the North sea by sand dunes. Then the sea rolled in. Today a huge man-made dike will make possible an increase in the total land area of the Netherlands of 7 per cent, and in the arable land of 10 per

Played Important Part.

"The Zuiderzee basin, with an area of more than 550,000 acres, is almost as large as the state of Rhode Island. Situated in the very heart of northern Holland, it has long played an important part in the commerce and social life of the country. While Holland is rejoicing with her engineers in their greatest victory over their ancient foe, the sea, the fishing villages and quaint islands of the Zuiderzee, beloved of tourists, are silent. Most of the sea ports along the shores of the Zuiderzee are destined to become inland farming villages, connected with salt-water only by canals, while Islands may be hillocks, only slightly raised from encircling fields of grain, vegetables and flowers.

"Among the ports which will become rural centers are Edam, famous for its globular cheeses. It once was the water-gate to Amsterdam when the only approach to the greatest of Dutch cities was via the Zuiderzee. Now a deep canal connects Amsterdam directly with the North sea. Artists will miss the water front at Volendam, and the arrival of the little fishing schooners each Saturday morning. Hoorn will live in the annals of the sea, however, in 'Cape Horn,' the southernmost tip of South America, named after the home town of its discoverer, Willem Schouten.

Bad Boy in Court

Tonawanda, N. Y .- Charged with threatening harm to his mother, a twelve-year-old boy was haled into court. The woman complained he had a gun. Search disclosed a loaded ,32 caliber rifle and a "billy." The youth was reprimanded severely and then dismissed.

"Perhaps the most lamented change will be that affecting the Isle of Marken, which is destined to become a part of the southeast polder, or drained section. This island, detached from the mainland in the Thirteenth century, lies out of the ordinary routes of travel. Its inhabitants have kept the quaint costumes and queer ceremonies that prevailed when their land became an island. The ground is barely above the water at high tide, but the houses are built on hillocks of earth obtained by digging drainage canals. On seven of these mounds brick and frame dwellings are grouped,

Need for More Farms.

while on the eighth is the silent home

of the dead.

"Colorful as the ports and islands of the Zuiderzee may be, they have outlived most of their usefulness. Holland's rapidly growing population demands more farm lands. The Zuiderzee, the greater part of which had hardly more than 15 feet of water at low tide, offered a source of new

"The land to be reclaimed will be roughly divided into four sections, or polders, by Lake Ijessel, and the mouths of the Amstel and Ijessel rivers. Ijessel lake itself, when drainage operations are completed, will be a long, funnel-shaped body of water running back from the new sea dike to the city of Kampen. It will be a mere shadow of the former Zuiderzee. Most of the new land will be reclaimed from the buge, stomachshaped southwestern end of the Zui-

"One polder, the Dutch word applied to any area of land protected by an encircling dike and drained by its own system of pumps, back of Wieringen island, consisting of 50,000 acres, has been completed, and this year crops were harvested from fields which in 1930 were covered with wa-

Chinese Girls Bring \$13 in Flood Area

Harbin, Manchurla.—Daughters of the poor were offered for sale for 50 yen (\$13) apiece as floods and guerilla fighting with Manchoukuo and Japanese troops reduced millions of Chinese to des-

In Hurbin, flood waters of the Sungari river rose in the streets, carrying away the small possessions of destitute families. Mobs gathered, clamoring for aid. Acting at the request of local Chinese, Liuetenant General Hirose, of the Japanese forces, assumed command of the district and declared what amounted to martial law.

daries. The first efforts were precautionary, the war with the waters being wholly on the defensive. The holding of the streams in check, keeping them within their proper channels, allowed some of the marshes to become dry. This gain of land whetted the people's appetite for more. Dutch farmers yearned for thousands of acres too shallow for fisheries but ideal for pasture land to produce cheeses for foreign markets. This led to draining of inland lakes and coastal strips by windmills-the most characteristic feature of Holland land-

Stray Dogs Are Problem

on Streets of Istanbul Istanbul.-Although more than 4,000

tray dogs have been killed by the authorities here in recent months, they still remain a plague in certain quarters. Popular sympathy with the animals handicaps the task of getting rid of them. There have been many cially women, have administered emetics to dogs which had been officially poisoned.

FORETOLD PROGRESS OF THOUSAND YEARS

Monk, in 932, Predicted the "Astonishing" Advances.

Paris .- One thousand years ago the monk Theodosius sketched in broad lines what might be expected of the world in 1932. He foresaw a great increase of population, astonishing advances in the sciences, especially in botany, zoology and astrology, and so great an increase in the demand for books that "pious monks will sit night and day copying and recopying the manuscripts of the great bishops of long ago."

Some of Theodosius' guesses went as far afield as others went true, according to Charles Richet, who gives in Le Matin, a translation of pertinent parts of the manuscript, which, he says, he discovered by chance in a Franciscan monastery at Ravenna.

"Will there be a year 1000?" Theodosius asks. "Many good Christians imagine that the year 1000 will see the end of the world and the final cataclysm. But this is probably an error. God is too good to wipe out the human

"What shall we find after the year 1000? To seek to know that is not impious. One thing is certain, that well before the 1000 years which I have in mind, the terrible religion invented and propagated by Mahomet will be destroyed together with the hideous book called the Koran, which was dictated by Satan himself. The armles of the infidels, triumphant as they seem today, will have disappeared as dust in the wind. There will be none but God's servants. The Cross will have conquered the Crescent.

Safety on the roads would encour age travel, Theodosius said.

"As to the sciences, they will make | Becker

astonishing progress. I do not speak of magic, that redoubtable science inspired by the Spirit of Evil to deceive unhappy men, but of botany, zoology and especially astrology. Thales saw that amber attracted small bodies when it is rubbed . . . but that is a trick of nature and there is nothing to be hoped for from it. Archytas of Tarentum thought he could build a flying machine, but it is madness to think that man could raise himself into the air like a bird, Icarus gave sad proof of that."

Artist Colony in Iowa

Lives in Ice Wagons Stone City, Iowa.-Gaily decorated

ce wagons, painted in the gay grand manner of a gypsy caravan, have revived the crumbling ruins of Stone City, deserted ice cutting camp whose stone towers have been a curiosity here for several years.

Almost 100 Middle Western artists have taken over the camp, installed pallet and brush in the old ruins and are using it as a summer studio. The artists live in deserted ice wagons, redecorated in modern lines. Some of the early arrivals established themselves in a round stone tower which formerly was an ice house,

The artists have hired a business manager who pays living expenses from tourist trade which has flocked here to see the exhibitions and view the artists at work.

THE CHILDREN'S STORY

By THORNTON W. BURGESS

DETER RABBIT had a queer feeling inside, Yes, sir, he did. It wasn't a comfortable feeling. It was the feeling that he was going to see something dreadful happen, something which he couldn't stop, no matter how much he wanted to. You see from where he was sitting on the bank of the Laughing Brook below the Smiling Pool he looked right across to a big sandbank near the top of which was a hole which was the entrance to the home of Rattles the Kinglisher, and right down below him in the Laugh ing Brook was Billy Mink swimming straight across with his beady little eyes fixed on the doorway. He was swimming very fast, was Billy Mink, as if in a great hurry.

Peter guessed why Billy was in such a hurry. He guesed that Billy bad guessed there were young kingfishers in that home in the sandbank, and that Billy, who has a liking for young

"Oh Dear! Oh Dear!" Cried Peter.

birds, was in a hurry to get them for his dinner before Rattles, their father, should return from the Smiling Pool where he was fishing. Now Peter never barms anyone himself, and be cannot bear to think of anyone else being harmed, but he knows that Billy Mink cannot live on grass and vegetables and bark, as he can. So he knew that Billy was doing nothing wrong in trying to get a dinner of those young Kingfishers. He had been born a hunter, and he was simply obeying the natural instinct to fill his empty stomach. He was not breaking one of Old Mother Nature's laws. Billy Mink had simply been smart enough to do what Peter himself had done-find the home of Rattles the Kingfisher-and now it was for Rattles bimself to protect his

TALES OF THE CHIEFS

Editha L. Watson

By

DEKANAWIDA AND HIAWATHA

Creeping out to a hole in the river ice, the Huron woman thrust her newborn baby into the freezing waters, There was a fear born of supernatnatural things in her heart, for it had been revealed to her that her son would be a source of evil to her people. Hence, it was loyalty to her tribe, and not hatred of her baby, that prompted the awful deed.

Morning came. The mother felt omething warm in her arms. Curiosity triumphed over fear, and she dared to look at the little bundle-it was her child I Twice more, she tried to drown her

ill-omened son in the icy waters of the river, and twice more he miraculously reappeared in her arms at dawn. She could no longer bear to attempt his death.

This is a legend, it is true, but the child, who grew into one of the greatest of Indian statesmen, is a historical reality. His name was Dekanawida, and it was he who, with one other, formed the first successful league of nations, and propounded the idea of universal peace.

The Hurons had united four tribes about the year 1500, but this league did not last. Since It was the Iroquois confederation which destroyed that of the Hurons, the prophecy about Dekanawida would seem to have come to pass. It is probable, however, that the young Indian bad an unusually alert mind, which grasped the shortcomings of the Huron union and later turned them to account in the organization of the Iroquois confeder-

As soon as he had grown to manhood, Dekanawida traveled south. He was equipped with two mighty essentials for his life-work-wisdom in framing laws and establishing the foundation upon which the confederation was based, and astuteness in negotiation.

Among the Mohawk, about the same time, a younger man, who was called Hiawatha, was filled with the same deas. Legends have grown up around him, too, and in fact we think of Hiawatha as the hero of Longfellow's poem, but the truth is that the poem was written about Manabozho, a Chippewa delty, and does not contain a single fact or fiction relating to the real Hiawatha.

Somehow the two Indians met, and found powerful allies in each other. It was Dekanawida who formulated the laws and principles of the confederation. It was Hiawatha who converted the five tribes to the idea of union. Together they labored to establish reforms which would end all strife and murder.

As modern reformers can testify, this was a bitterly hard task, and the two were opposed, not by the general public so much as by men of equal standing with their own. One of these, an Onondaga, among which tribe Hiawatha started his campaign, went so far as to kill Hiawatha's daughters in his efforts to halt him. Even this rime, however, proved unsuccessful in its purpose.

Hiawatha made three attempts to bring his scheme before the Onondaga council, but the crafty chief thwarted him each time. He then turned to his own people, the Mohawks, for aid. It is well known what honor a prophet has in his own country, so that we efforts met with meager success. Then he went to the Oneida, and at last obtained their promise to join the projected confederacy if the Mohawk would do likewise. Armed with this agreement, he returned to the Mohawks, and finally was able to persunde them to unite with the Onelda and the Cayuga, and to invite the Onondaga to join them. This tribe at last promised to join if another, the Seneca, would also enter the confederacy. Such promises would have discouraged a less earnest man, Hiawatha, however, considered them in the light of a partial success, and, emboldened by it, he redoubled his efforts to consolidate the temporizing nations.

At last, about 1570, the five tribes were brought into confederation, and united in adopting the laws framed by Dekanawida for the common welfare. It is worthy of note that the remorseless Onondaga chief who had so opposed Hiawatha's efforts in the beginning, was the one through whom that tribe accepted the proposed union. As the chief was a reputed sorcerer, this victory of Dekanawida and Hiawatha over him was looked upon by the Indians as a sign of great supernatural power, a fact which added greatly to their prestige, now that it was too late to be of much value.

The Iroquois confederation was not the first league of nations, as the Hurons had united four tribes about thirty years earlier, but it was the first successful one. The sensible laws and stable foundation given it by the able brain of Dekanawida, and the untiring efforts of both Dekanawida and Hiawatha, formed a project deemed worthy of study by our statesmen of modern times.

There are no statues erected to the memory of these two gifted men. They are scarcely known except by delvers in Indian lore. But the Iroquois confederation stands in history as their monument, and the memory of their success will encourage the peace-proponents of our day.

(O. 1932, Western Newspaper Union.)

"Porky" Evidently Has His Own Dietetic Ideas

The appetite of the porcupine has long been a wonder to those who are acquainted with the habits of this animal. Practically any person who has spent some time in the wilderness has started his day's activities with the frequently embarrassing discovery that gnawed shoes and saddles indicate a fondness for leather.

However, it remains for Ranger Lou Hanson of Glagier National park to report the most startling discovery with reference to the diet of this woods inhabitant. Hanson, who is one of the park's "old timers," states that in the past he has found that "porky" considers cardboard boxes, ax handles, asphalt roofing, and tar paper as being delicacies. This should lead a person to expect almost anything from the animal, but even the ranger was completely surprised when he found that one or more porcupines had made away completely with a 50pound bale of oakum.

With reference to this diet, Hanson states, "A more indigestible material would be hard to find, and yet they seem to have suffered no ill effects, as they are still around there enjoying the best of health, and I imagine are even hoping some body will provide another bale,"

Leading the Leader Back Grover V'halen, former official

<u></u> Parrot Cries "Help";

Cops Come on Run Belleville, III.-Pelice officers Henry Brandt and Walter Magin rushed to a home in the southern section of the city here and demanded to know what the trouble was.

"There's no trouble," the occupant of the house said.

A moment later a voice screamed "Help, belp, murder, police." The officers walked in. They found a lady sitting complacently in the house.

"No, I didn't call for police," she informed the officers. And again came the cry for help, this time from an adjoining

The officers rushed forward and flung the deer open in time to hear a parrot call, "Help, murder, police."

KILLER IS GIVEN FOUR LIFE TERMS

Man Jests at Prison Gate After Guilty Plea.

Waupun, Wis .- Following a trial that lasted but a few minutes Frank Gray, forty-year-old farmhand, who killed a prosperous Eurlington (Wis.) darmer and three others "because "there were too many cows to milk," is in prison here under four sentences of life imprisonment.

Judge E. B. Belden, following pleas of guilty entered by the defendant at Racine, immediately imposed sentence and within ten minutes the killer was on his way to prison. The judge specifically ordered that the senfences run consecutively, which, it was pointed out, would prevent Gray's eligibility for parole before the expiration of at least half a century.

In court Gray maintained the same paconcerned demeanor that he displayed immediately after the discovery of his four victims-Frank Boschert, sixty; his son, Herbert, thirty; Bobby Boschert, eighteen-month old child of the latter, and Miss Cecilla Kerkman, a housekeeper. The Boscherts and the young woman were slain with a shotgun, and the child was benten to death.

Even at the prison gates Gray joked with Sheriff Johnson Anderson and proferred him his watch.

Here," he said, "you take this. I won't have any reason for keeping track of time where I'm going." Anderson declined the gift.

Desert Rats Keep Bull Snakes for House Pets

Tonopah, Nev .- City dwellers, who happen to stray from the beaten path and find their way into the more remote sections of the Nevada desert. are amazed, when calling at some old desert cat's cable, to find a bull snake curled up on the doorstep, or lazily catching insects and playing around

desertionts keeps a bull snake for a pet. Old Tex Watson, the lone resident of the once booming mining camp of Golden Arrow, Nev., keeps two of these odd pets. They are hig fellows. "That one over there," said Tex. pointing, "sleeps under my bed every

night, docile as a lamb." Noticing a slight shudder from his

visitor, Tex laughed. "Why, they're perfectly harmless," he said. "They keep the place clear of bugs and insects and, best of all,

they keep the rattlesnakes away.

"A rattlesnake is as scared of a bull snake as poison. In a buttle between a bull snake and a rattler, the bull will always win. A bull snake is not affected by a rattler's bite. He wraps himself around a rattler and squeezes the life out of him,"

Shortly before George, who escaped from Maryland house of correction on October 9, had held up C. A. Chaffin, manager of the Mucon Retail Credit bureau, trussing him up to a tree and escaping in Chaffin's car.

While Chaffin reported to Chief Watkins, George was attempting a similar holdup of R. A. McCord, Atlanta manger of the brokerage firm of Fenner & Beane, walley

McCord, waiting his time as the car swerved around a corner, shot a swift right smash to the bandit's jaw, staggering him McCord then wrested Meredith's gun from him and began

With a 32 caliber bullet in his abdomen, George staggered out of the car and fled. McCord leaped out and emptied the weapon at the fleeing man, hitting him in the back and in

For more than a mile the bandit staggered to the home of Louis,

Louis called police. The chief leaped at his chauffeur's words and found that the hunted man had fallen into the hands of police through his own

Then George told Louis who he was. He had been doing twenty years in the Maryland penitentiary for burglary, he said, but had been transferred to the bouse of correction in fear that rival convicts might put an end to his life for "welching,"

Veteran Dies of Gas as Phonograph Plays Hymns

Washington.-George F. Steffens, Practically every one of these old little furnished room in the 300 block of C street, N. W., placed a pot of coffee on a small gas plate and a record of hymns on a phonograph and climbed

into bed to wait for the coffee to boil, Fellow ladgers heard the phonograph play and finally drag to a stop. Next day Arthur Moore and J. E. Edwards, who live in the same house, missed the old man.

They went to his room and found gas escaping from the small jet of the gas plate and the phonograph run

Steffens was found in bed, the covers pulled over his head, as if he were trying to escape from the cold. Polire believe that as the old man dozed off the coffee not boiled over and the gus fumes asphyxiated him,

Boy Lifer Will Receive His Schooling in Prison

Walla Wulla, Wash.-The education of Hubert Nicholls, Jr., twelve, who is serving a life term in the state prison here for murder, will be directed personally by Walter M. Kern, superintendent of Walla Walla schools and member of the state board of educa-

Kern will outline the course of study and interview Hubert before his schooling begins. Warden C. E. Long says the boy has received three times as many letters as he could possibly

Barks of Hungry Poodle Reveal Mistress Is Dead

Detroit, Mich.-Peggy, a white poodle, was hungry. She barked. Her mistress, Mrs. Mary E. Moeller, eighty. did not answer. For three days Peggy cried for food. The aged mistress sat still in her rocking chair, a Bible open in her lap. Finally, Peggy's barks attracted the attention of neighbors. They found Mrs. Moeller dead. They fed Peggy.

Piano Movers Required to Bury 632-Pound Man

Chicago.-A crew of piano movers and a special hoisting apparatus were used for the funeral and burial of Charles Bush, forty-nine, whose weight was 632 pounds.

A specially constructed coffin, weighing 408 pounds, bad been or dered before Bush's death. At the time of his funeral it was lifted with block and tackle from a large sec end-floor window of his home,

COULD USE ONE

In a barber shop the other day we overheard one of our old citizens say that what Carteret needed was a M'Kee.

We could very well use one here.

If the officials are so spineless they are afraid to attack the reduction of public expenditures, let them put the propositions on the ballot.

Let them put on the ballot the question of a 25% reduction in all public school expenditures, including salaries.

It could easily be done without injury to the school sys-

Everyone who has lived in Carteret for any length of time knows that they do not fight tooth and nail, move Heaven and earth, to be elected to the Board of Education for nothing.

There is some attraction to the Board of Education. What

DEMOCRATIC BOARD OF EDUCATION SHAMEFULLY REFUSES TO CONSIDER REDUCING ITS EMPLOYEES' SALARIES

CUT DOWN SALARIES BY \$10,000 A WEEK

Paterson Education B'd. Sees the Light.

Despite the drastic cuts in the finances of the Board of Education in Paterson, the members of the Board of Finance have urged further reductions and have been promised cooperation by the Board of Education. It was stated by the Board of Firance there would have to be a substantial reduction on a weekly basis amounting to \$10,000.00 a week over and above the reductions that have already taken place.

The party having the bus contract it seems pretty stupid political propaganda. for the transportation of the children, much to the surprise of the Relief for the State, has facts and cient for the next few months. LETS EMPLOYEES RULE THE ROOST

School Teachers and Other Parasites Denounce Honest Effort to Relieve Town of Excessive Burden and Avoiding Bankruptcy.

The Democratic leadership here once again proved at the Board of Education meeting on Wednesday that it was paralyzed by fear-afraid to help the taxpayers by a real reduction. The so-called Democratic leadership is obsessed with the idea that if there is any reduction in public expenditure for the usual hand-outs in the way of contracts, salaries, etc., it may be injured at the polls. The truth of the matter is that unless it wakes up it will be swept into the ash can at the polls no matter how many handshaking euchcres and picnics it holds telling the people just how hot it is.

The Republicans in the Board of Education led by Haury offered a definite resolution to reduce the Board of Education sal-\$21,020.50 aries up to 20%. The Democrats under Coughlin leadership voted this move down 6 to 3. All the Democrats voted with him. 440.00 Coughlin, himself, has a district clerk's job at \$2,200.00, yet the \$21,460.50 Board only meets twelve times a year. Jakeway, chairman of the Finance

Committee, claimed the Democrats had a milder plan on a sliding scale which they would take up with the

Democratic "Free-For-All" Politicians Give Away Everything at Great Big

Picnic at Markwalt's Grove.

The first labelled Democratic rally of the campaign was staged turned during the depression period at Markwalt's Grove last Sunday favored by splendid weather.

> so there naturally was a good-sized crowd, augmented by those who have this mild Democratic plan lived in the neighborhood. The Democratic candidates in the ready after working on it all summer county were present and spoke, including Director Lewis Compton and meet with the teachers before of the Board of Freeholders and his associates, C. Henry Berg and Raymond Wicoff,

Others who spoke connected with the county government were Allan Ely, now Under-Sheriff and candidate for Sheriff on the Democratic sioner Frank Connolly, who is the party' candidate for Surrogate. The Freeholders, led by the able

IT IS UP TO YOU MR. AND MRS. TAXPAYER

No one who has lived in Carteret any length of time needs to be told the lavish way funds around here have been handed out by the Board of Education. The taxpayers' money has been treated practically as private property by those connected with the Board. Secrecy and silence appear to be the slogan.

At the last meeting of the ered in the news story, a pro-Board of Education, as covposal was made for reduction of salaries of the Board of Education on a sliding scale up to

Those who voted in favor and against are given below.

Governor Moore, the leading Democrat of the State, has told taxpayers that the way to get reduction is to remove at the polls those who will not reduce.

Below is given those who voted for the reduction and those who opposed it. For the Reduction

Mrs. Charles Crane and Mrs. An-

that the Board of Education held meetings at the end of the school

year with the employees and were practically told by the employees that they were not interested in the taxation problems of the community. Everything was free including eats, drinks and the bus service, Why did not the Board of Education school began? So-called Democratic leaders in town took great credit to themselves about the fact they did not renew the teaching contracts in the schools and that they were to adjust salaries when sechool opened again. What a lot of bunk that was!

employees of the Board of Educa-

Nothing was said about the fact

Now, they have renewed the contracts after getting a few chills up their spines afraid of the few votes on the school board payroll. School has met and started and they have done nothing. The Republicans offered them a plan up to 20% and it was voted down.

It is about time the Democratic leadership, paralyzed with fear, woke up. The taxpayers in this community who have been taking it on the chin now for some years, are a lot mightier, more powerful, more numerous than all those on the public payroll and their kith and kin. Democrats all over the country, including the real leader of the party in New Jersey, Frank Hague, and Governor Moore, have found it human, decent and good politics to cut public expenditures. Here it is just the other way. The result of the election in Maine, according to the Governor-elect himself, was the increasing expenditures of the Republican regime and the failure to reduce expenditures and public salaries.

A Big Family Affair

Of those who voted down the increase up to 20% on the public payroll one has a wife a teacher, another has a couple of daughters teaching, another has a daughter a telephone operator, one has the softest job in New Jersey as parttime District Clerk at \$2,200.00; one has, in the past, had contract work

THE DESERT'S PRICE

Wilson McCann, young Arizona ranchman, finds an old friend, Jim Yerby, with a broken leg. Julia Stark, daughter of Matthew Stark, inveterate enemy of the McCanns, is with him. Jasper, Julia's brother, attempts to assassinate Wilson. Ann Gifford, with her young sister, Ethel, are sheep raisers, and on that account unpopular with the cattlemen. "Night riders" shoot a McCann rider. Peter McCann, Wilson's father, offers a reward for the disclosure of their identity. Wilson McCann horsewhips Jasper, he making practically no resistance. Matthew Stark posts notice he will kill Wilson McCann on sight. Ann Gifford's tragedy is the fate of her dead sister, Nora, betrayed and mbandoned by her lover. Jasper Stark and Carl Gitner, known as a "killer," held secret conferences. A Stark rider, Tom McArdle, is believed by the Starks to have been killed by the McCanns, but rumor links his name with that of Nora Gifford. Matthew Stark is killed, from ambush. Julia finds him dead, with Wilson McCann stooping over him. She and Phil, her younger brother, accuse McCann of the killing, despite his vehement denial. Wilson is shot from the chapparal, while standing over Matthew Stark's body. Believing him dying, the Starks have him taken to their home. Dave Stone, Stark rider, a Texan with a record as a "killer," openly doubts Wilson's guilt. Jasper is disinherited by his father's will. Wilson Mc-Cann is restored to health. Jasper Stark, despite the girl's aversion, seeks to persuade Ethel Gifford to marry him, holding over her the threat of revealing Ann as the slayer of Tom McArdle, Ann drives him from the

CHAPTER VII-Continued

His stride faltered. He stood still, taken by surprise. There was about her such an air of tense feminine ferocity that his purpose was shaken. "I wasn't aimin' to hurt her none,"

he explained sullenly. "Get away from her."

He hesitated, his vanity in arms. The position was a humiliating one, but he did not see any way out of it just now.

"All right. It's yore say-so," he admitted vindictively. "But don't come belly-achin' to me when you get arrested. I've done give you yore chance an' you wouldn't take it. Suits me if It does you.'

He turned and walked down into the arroyo where he had left his horse,

Ethel looked piteously at her sister. "Is it true-what he said?" she asked. Ann did not ask to what she re-

ferred. There was no need to specify. In the forefront of both their minds was the death of Tom McArdle and Ann's relation to it.

They stared at each other, horror in their eyes.

"It's true."

"I . . . I was afraid so," Ethel murmured. "It's been awful for me, too. I was awake when you came in that morning-and I knew something was wrong by the way you looked. I pretended to be asleep, but I saw you clean the rifle. You acted so .. . so kinda dead for days . . . like you were numb. And when this Jasper Stark came and told me one day when you were out that you had . . . done it . . . why I just knew you had."

She ended with a wail of distress. They went into each other's arms and sobbed together. After a time, when they had cried themselves out, Ann told her story.

She had spent the night at one of their sheep camps and was riding home orning when she met Tom McArdle. He had stopped her, though she had tried to push past him, and she had lashed him savagely In a spate of words for what he had done to Nora.

"I thought of her, lying out there under the ground in California, and of him riding around big as Cuffey," Ann said to her sister. "But that wasn't the worst of it. You know how he kept coming to the house . . . afterward, pretending he wanted to hear about our dear girl and all the time trying to make up to you. You know how I told him never to come again. Well, after I had flayed him that morning he bowed and thanked me with a sneer and rode away. When he got to the edge of the road above the outbank he called to tell me he'd be over to see you Thursday. You don't know how hatefully he said it. Something in me snapped. I didn't have time to think. I just fired at him and he threw up his hands and slid from his horse down the cutbank. I didn't wait to see any more, but just rode away fast as I could. For I knew by the way he fell that . . . he was dead."

"You poor, poor girl!" Ethel held the slonder figure close as though to keep her from the cruel reach of the law that was going to snatch her away and lock her up for years. "Oh darling, why didn't you tell me?"

"I don't care, if you don't hate me for doing it," Ann replied brokenly. So, with love, they comforted each

It was characteristic of Jasper that he did not at once go to the authorities and charge Ann Gifford with the murder of Tom McArdle. Instead, he wrote an anonymous letter to Sheriff

Le Page and accused her of it. He did not want to burn his bridges behind him. It would be better, he reflected, to see what the effect would be of a covert imputation. Hank would very likely go out to the sheep ranch and ask questions. This would frighten not only Ethel but Ann, too, in spite of the high hand she had taken with him. They might come to terms.

Anyhow, it could do no harm to wait

* few days and watch developments. Most of his waiting was done at Pedro's place, a bottle in front of him. But as the days passed he grew impatient and decided to talk the matter over with Carl Gitner. It might be a good idea to send the big Texan up to the sheep ranch just to show the Gif-

By William MacLeod Raine

(WNU Service) Copyright by William MacLeod Raine

At the ranch Jasper pulled up at the bunk house and swung down, Inside he found Gitner and Stone. The former was riveting a stirrup leather. "Come to say adios to yore dear friend Wils McCann?" he jeered.

"Whatjamean?" demanded Stark.

"Why, ain't you heard the good news?" Gitner affected polite surprise. "Our dear guest's done mended so much he's allowin' to hit the trail today. The old man's conin' with a wagon to get him. Pretty soon, if Mr. Wilson McCann continues to improve, as the papers say, he'll be able to bump off another Stark or two maybe.'

Stone was honing a hunting knife. He had acknowledged the arrival of Jasper by a nod. Now he spoke.

"Wils McCann didn't kill Matt." He said it quietly, without emphasis,

"Hmp! He was caught, you might say, right in the act." This from Jasper, with exasperation, "What's the sense in sayin' he didn't do it?" "I went over the ground soon as I

could an' read sign. Wils didn't shoot yore father, any more than I did." "Phil tells me you gave him an'

Jule that line of talk, Dave. Tha's why she's lettin' this murderer get away from us." He ripped out an oath of savage anger, "I've a good mind to plug him from the chaparral my own self."

"I wouldn't do that, Jas. I'd hire some one. Maybe you could get Carl," the little Texan murmured.

The words seemed to fall almost casually, except for the fact that Stone's eyes were full on those of the man he addressed. They had a surprising effect. The red of Jasper's skin faded to a sickly yellow. His jaw dropped.

Gitner was made of stiffer stuff. He turned snarling on Stone, "What the blue blazes you mean by that?" he demanded with a series of crackling

Stone's face was hard as jade and held as much expression. "Why, what could I mean, Carl? Only that you're a better shot than Jas. an' if he wanted any killin' done looks like it would reasonable for him to hire you

"Say, what's eatin' you, Dave?" Gitner's eyes were closely slitted. He had dropped the stirrup leather and his hands hung free for action. "Lemme get you right. What makes you figure Wils McCann didn't bushwhack the old man?"

"Several things, Carl. First off, if Wils did it he wouldn't 'a' been found lingerin' around. More likely he's 'a' been hittin' the high spots for a getaway. I cut sign on the ground an' I know Matt was shot by some one lying in the irrigation ditch. The fellow got scared afterward an' turned water into the ditch to wipe out his tracks. We know Wils didn't do that. I'm not satisfied that the same guy didn't shoot both yore father an' McCann.

"Sounds reasonable," sneered Gitner. "Go ahead. Tell us who he is." "I went up to the head gate an' studied the ground some. McCann's tracks were there. He'd been fixin' It. We know that. Covering his tracks in two places there was the print of a big boot run over at the

heel with a nail sticking out." The eyes of Stone and Gitner were fastened as though drawn together by powerful magnets. Jasper felt a cold chill at his heart. He flashed one look at Gitner's boots. "How d'you know which was Wils

McCann's track an' which wasn't?" Gitner asked. "I took his boots later an' fitted

them to the tracks." There was a moment of chill sin-

Ister silence. "Did you take any boots an' fit them

to the other tracks?" Gitner asked, almost in a murmur.

"Why no, Carl. Whose boots would I take?" The issue between the men had come to crisis. No words were spoken. For

that question was a low-voiced chal-

lenge. It called for an answer, There was silence, heavy and oppressive, while one might have counted twenty. Watching Gitner closely, Stone could almost read his exact thoughts. Should he draw now and be

done with it? Or had he better wait? "Well, you know what you mean. I don't, an' I don't give a d-n." Gitner turned, bravado in his manner, to Jasper. "Me, I'm headed for the chuck wagon. Get a move on you, Jas."

Stark breathed again. Carl had chosen to postpone the question of the day to a more favorable time.

The two men left the bunkhouse together. Through the open door Stone watched them walk to the eating room. He had done an unwise thing, some men would have said. At least he had done it on purpose. He had smoked them into the open. Beyond a reasonable doubt he was convinced that he had found the man who had shot Matthew Stark and Wilson Mc-Cann. He had made a guess that was

a center shot. Out of the situation he got one flicker of amusement. He would be willing to give odds that when he saw Carl Gitner after his next visit to town the big man would either be wearing a new pair of boots or the heels of the old ones would be rebuilt.

. It was Wilson McCann's first long ride since his recovery. The weeks

fords that he really had the goods on | had slipped away and his splendid vitality had asserted itself. Health had flowed back into his veins. He and his brother Lyn were jogging along toward Mesa. The fierce heat of summer was almost broken, but they still looked up into a brazen sky and clouds of alkaline dust choked them. With an eye carefully measuring

his brother's strength, Lyn suggested that they throw off and rest at the "I'm kinda off my feed these days,"

he added apologetically.

Wilson smiled at this duplicity. "Suits me," he assented. "I'd hate to see you wore to a frazzle an' you with no more appetite than you got. I was worried about you traveling so far on nothing but nine flannel cakes, eleven biscuits, two-three eggs, one small steak no bigger than a plate, an' three cups o' coffee."

"It ain't what a man eats, but how it nourishes him," argued the bronzed young giant,

At the edge of the dry river, in a little group of cottonwoods a couple

"The Sheriff Went Out to the Sheep Ranch and Had a Talk With Miss

dismounted and Lyn unsaddled. With their rifles by their sides they lay down and Wilson rested.

"It does kinda take the tuck outa me," he admitted. "I reckon I'm not ight stout yet."

Purgatory river the Indians called t from the Spanish name, or the River of Lost Souls, but the unsentimental cowpuncher had corrupted it to Picket Wire river.

Lying on his back, one leg cocked over the other, Lyn mused aloud. 'Something's changed Dad. He ain't so rambunctious since you an' him got back from the Circle Cross. All the boys have strict orders not to get into rouble with any of the Stark He acts like he's bumped up against something that set him thinking."

Wilson thought of his father, big, strong, slightly bowlegged, hard eyes set in a leathery face, a dominating man with many friends and some bitter enemies. What Lyn said was true. There had come a change in him. He spoke less. His manner was gentler at times. More than once his oldest son had come on him in the dusk brooding in an armchair. This was not at all like the Peter McCann he had known a score of years.

"Figure it out for yourself, Lyn. Julia Stark an' that young brother of hers saved my life an' kept right on saving it. They scared off the killer, They took me home an' looked after me. They sent for Doc Sanders. She nursed me, that girl did, like I was her brother, though her father lay there dead beside me an' she thought I'd killed him. They let Dad come an' live in the house, an' every minute of the time they watched to see we weren't shot while we were there. Do you reckon, if they had been given half a chance Jas Stark an' that Gitner would ever have let us get away from there alive? Not on yore tiptype. But the girl an' young Phil an' Stone an' Rafferty rode with us, bunched round the wagon, till we met up with the boys. That puts it right up to us, don't it? Dad's millin' this over in his head. He's a white man, Peter McCann is, He's figurin' on finding a way out that won't leave him feeling like a coyote?" "How about you?"

"I'll not crook a finger against one of 'em. How can I now?"

"What kind of a girl is she?" Lyn asked, his curiosity stirred. "She used to be a regular li'l catamount at school "

Wilson measured his words carefully to achieve a dispassionate manner of casual criticism. "I reckon she's got that temper yet. There's 'most usually a breeze around her neighborhood, 1 notice. A sure enough li'l ginger mill, She's let loose on me some, O' course she hates the ground I walk on. Naturally she would, since she figures I shot her father. But she's all right, Lyn-there every way, high, low, jack an' the game. I don't quite know how to tell you what she's like. You remember that li'l palomino racer we usta have-what a fine high-strung, high-steppin' thoroughbred the filly was, game to the marrow an' true as steel, Well, that's Julia Stark."

Lyn rolled and lit a cigarette, "I ain't spoke a word to her since she was | to make the usual catches and there | Florence (Ala.) Herald.

a long-legged colt with her mane all flying wild an' black eyes snappin' at you like live coals. But what you say goes with me. If she hadn't been there both ways from the ace she sure would have let you die the day of the rookus. Funny about women, how they tangle up the lives of he-men. When we was out on Tin Cup the other day Wes Tapscott got to talkin' about Dad an' Matt Stark. We was breakin' camp an' I was loadin' the crossbuck. He got to joshin' me while I was fixin' the lash rope to throw the diamond hitch an' somethin' I said reminded him of old days. Seems that Dad an' Matt usta run together when they were young. They skylarked a heap in Dodge an' Hays City an' Denver when they were out with trail herds. Seems they both fell in love with the same girl an' that busted their friendship wide open."

The older brother nodded, "Jessie Farwell her name was. She married

"It would be right funny if this Julia Stark was to put an end to this feud after her mother started it before any of us were born.'

The brooding eyes of Wilson were not focussed on anything within range of their vision. He made no comment on what his brother had said, but his mind was full of it. Why not? Surely the thing she had done made it impossible for the McCanns to pursue the feud, to fight for hair-line rights bitterly and savagely. She had cut the ground from under their feet. If there was any generosity in them they would have to abstain from hostility even though friendship was not practicable.

"Do you reckon they're liable to push the case against you for killin' Matt Stark?" asked Lyn presently.

Wilson was out on bail furnished by his father. He had been formally arrested by the sheriff, even though it was understood that no conviction would be possible in Arizona after Stark had given public notice that he meant to kill young McCann on sight. "I don't reckon," Wilson replied. "They haven't got a leg to stand on

and they know it. Even if I had killed hlm I was justified." "Who did kill him? You don't reckon

any of our boys could of done it and be holdin' out on us."

"No, I don't. I'm not guessin', Lynnot out loud."

Lyn suddenly sat up and listened. There had come to him down the wash the sound of a horse's boof striking a stone. Presently voices drifted to the two in the grove. In a feud country it pays to watch travelers whose intentions have not been declared. Both of the McCanns reached silently for

Into view rode Carl Gitner and Jasper Stark. They crossed the dry river and passed into the desert landscape of light and color and air. The Mc-Canns watched them go.

their rifles.

It was Lyn who spoke first, "I'm wonderin', Wils," he drawled,

"Whether if those beauties had been here and we'd been ridin' across the river there we'd still be good insur-

"One of us anyhow wouldn't; likely

"Both of us. They'd never a-let me get away to tell it. It's a cinch they wouldn't. That's one trouble in dealing with scalawags like them. You can't play the game their way, an' it don't make an even bet."

Presently Lyn resaddled and they took up again the sandy road. They rode into Mesa and drew up in front of Basford's emporium. Public opinion sat on the porch in session. Simp Shell was there as usual, fat and overflowing. Basford lounged in the doorway. Doctor Sanders held down the top step, his back against a post. In a chair tilted to the wall, lounged Curt Quinn, just in from his ranch.

Simp was talking, guardedly, 'Course I don' know a thing but what Hank told me. He got this anionymous letter an' be went out an' had a talk with her. She hadn't a word to say but just one thing: prove it." He broke off to greet the new arrivals. 'Lo, Lyn-Wils! How you makin' it? We're all mighty glad to see you live an' kickin', boy. Sure are," "Same here," agreed the recovered

invalid. "How you feeling, Wils? Seems to me this is a right long ride for you to be taking so soon," Doctor Sanders

"Oh, I got restless to hear the gent's gossip circle," grinned Wilson. "What's the latest? Don't anything new ever

in' you what happened. Hank he got this anionymous letter tellin' him that Miss Ann Gifford was the person who shot Tom McArdle." Simp spread his fat hands in disclaimer, "Like I said before, I don't know a thing but what Hank told me. Course I've done heard rumors about reasons she might have for not liking Tom. I reckon you all heard 'em, for that matter. Jas Stark says he heard her warn Tom never to show up at the sheep ranch again, or if he did she'd fill him plumb full of

"Well, there's this anionymous letter

Hank got." "Hank who?"

lead."

"The sheriff went out to the sheep ranch and had a talk with Miss Ann,' Doctor Sanders contributed. "She wasn't hardly civil. Good as told him to get busy and prove it if he could."

"Funny she didn't welcome him more cordial," the young man answered with obvious sarcasm, "You'd think she would ask Hank to stay to dinner when he come out merely to inquire if she murdered a man from the chaparral. I can't understand her being sharp about a li'l thing like

"Didn't know she was a friend of yours, Wils, or I wouldn't a-mentioned This from Simp.

"She isn't, Far as I know she's got no friends. You can put me on record right here as sayin' that this country here has been hog mean to those three girls on the sheep ranch."

"I've had notions that way myself at times," Lyn said, backing his brother. "Just because old Gifford was a stubborn cantankerous old son-of-agun don't prove his nieces weren't nice girls. Me. I got no use for a sheepman, but you got to treat women to richer coloring than that human." "Because some darned fool writes an

Stripes of All Kinds

Paris has taken to stripes with more than a little enthusiasm and Roman stripes, candy stripes, pin stripes and bold zebra stripes are featured in bright colors or two-toned effects in summer clothes designed for the smart resorts.

BROWN AND WHITE By CHERIE NICHOLAS

your early fall coat or suit in brown and white if you would keep pace with fashion's step. The model pictured is a forerunner of coats to be for the crisp autumn months. It is of brown and white tweed and is trimmed with brown and white fur. The ensembling of this costume is perfect from a color standpoint. The little velvet toque is brown. The fact that it is velvet is significant, for most of the initial bats are just such clever velvet fantasies as this. The shoes also enter into the color alliance. These sturdy brown kid oxfords have a discreet design of lizard across the throat. The low cuban heels make the shoe practical for autumn walks. They also assure comfort during the shopping hours.

Work out your color scheme for

fourth Friday in September as American Indian day and the governor of Illinois on July 28 of that year approved the measure, establishing the day as a state holiday, it was the first official step taken toward paying a just tribute to a race which has greatly enriched our national heritage. Since that time the event has

been observed annually in Illinois and the idea of American Indian day has spread to other states. Although it has not yet become established either as a holiday or a day for general observance throughout the country, it is sufficiently well known to remind Americans of the present day of honor due to the "original Americans" and, on American Indian day, there may pass before us a pageant of those individuals who played a part in making the history of this nation and who richly deserve to be remembered for what they were or what they did.

"The mark of our contact with the Indian is upon us indelibly and forever," writes Norman B. Wood in his "Lives of Famous Indian Chiefs." He has not only impressed himself upon our geography, but on our character, language and literature. Bancroft, our greatest historian, is not quite right when he says, 'The memorials of their former existence are found only in the names of rivers and mountains.' These memorials have not only permeated our poetry and other literature, but they are perpetuated in much of the food we eat, and every mention of potatoes, chocolate, cocoa, mush, green corn, succotash, hominy and the festive turkey is a tribute to the redman, while the fragrance of the tobacco or Indian weed we smoke is incense to

"On one occasion, according to Aesop, a man and a lion got into an argument as to which of the two was the stronger, and, thus contending, they walked together until they came to a statue representing a man choking and subduing a lion. 'There,' exclaimed the man, 'that proves my point, and demonstrates that a man is stronger than a lion.' To which the king of beasts replied, 'When the lions get to be sculptors, they will have the lion choking and overcoming the man.'

"The Indians are neither sculptors, painters nor historians. The only record we have of many of their noblest chiefs, greatest deeds, hardest-fought battles, or sublimest flights of eloquence, are the poor, fragmentary accounts recorded and handed down by their implacable enemies, the all-conquering whites."

If ever an Indian painter, sculptor or historian rises to tell the full story of the achievements of men and women of his race through the medium of expression which he chooses, what a magnificent record he can set down! In it will be the story of such patriots as King Philip of the Wampanoags, Pontiac of the Ottawas, Tecumseh of the Shawnees, Black Hawk of the Sauk and Foxes, Osceola of the Seminoles, Sitting Bull of the Sioux, Captain Jack of the Modocs and Standing Bear of the Poncas. In it will be the story of such great captains as Cornstalk of the Shawnees, Little Turtle of the Miamis, Red Cloud, Crazy Horse and Gall of the Sioux, Chief Joseph of the Nez Perces, and Dull Knife and Little Wolf of the Cheyennes. As for orators, he can set forth the names of Logan of the Cayugas, Red Jacket of the Senecas, Satanta of the Klowas, and Running Antelope of the Sioux and be sure that they will compare favorably with those of any other race of men.

The speech of one of them has become immortal. For it was Logan who sent this message to Lord Dunmore of Virginia;

"I appeal to any white man to say if he ever entered Logan's cabin hungry and he gave him not meat; if ever he came cold and naked and he clothed him not. During the course of the last long and bloody war, Logan remained idle in his camp, an advocate of peace. Such was my love for the whites that my countrymen pointed as I passed and said, 'Logan is the friend of the white man.' I had even thought to have lived with you, but for the injuries of one man. Colonel Cresap, the last spring, in cold blood and unprovoked, murdered all the relations of Logan, not even sparing my women and children. There runs not a drop of my blood in the veins of any living creature. This called on me for revenge. I have sought it. I have killed many. I have fully glutted my vengeance. For my country I rejoice at the beams of peace; but do not harbor a thought that mine is the joy of fear. Logan never felt fear. He will not turn on his heel to save his life. Who is there to mourn for Logan? Not one!"

Although Sitting Bull of the Sionx is better known as a warrior and medicine man than as an orator, on one occasion he made a speech to his people in which he voiced a protest against oppression and a plea for human rights that deserves to be placed beside Patrick Henry's immortal "Give me liberty or give me death!" It was before a council of the Sioux, held on the Powder river that Sitting Bull stood before his people and said:

"Behold, my friends the spring is come; the earth has gladly received the embraces of the

1 .- Sitting Bull, the great Indian patriot and medicine man of the Sioux, who is the subject of one of the important biographies of the year.

2.- A modern miss gets instruction in an anclent art. No Water and Young Skunk, two old Sioux warriors, show Miss Ellen Gunderson the correct way to use a bow and arrow.

3.-A procession to the medicine lodge on the Blackfeet reservation, Glacier National park in Montana. Few of the present-day Indians practice their ancient customs for other than commercial purposes. The Blackfoot Indians, however, still cling to many of their old customs, among them the ceremonles of the medicine

sun, and we shall soon see the results of their love! Every seed is awakened, and all animal life. It is through this mysterious power that we, too, have our being, and we therefore yield to our neighbors, even to our animal neighbors, the same right as ourselves to inhabit this vast

"Yet hear me, friends! we have now to deal with another people, small and feeble when our forefathers first met with them, but now great and overbearing. Strangely enough, they have a mind to till the soil, and the love of possession is a disease in them. These people have many rules that the rich may break, but the poor may not! They have a religion in which the poor worship, but the rich will not!

"This nation is like a spring freshet; it overruns its banks and destroys all who are in its path. We cannot dwell side by side. Only seven years ago we made a treaty by which we were assured that the buffalo country should be left to us forever. Now they threaten to take that from us also. My brothers, shall we submit or shall we say to them; 'First kill me, before you can take possession of my fatherland!"

A similar patriotic declaration, made under even more dramatic circumstances, should preserve the name of Chief Dull Knife of the Cheyennes imperishably in our history. After the surrender of Dull Knife and his people during the Sioux and Cheyenne war of 1876-77, they were sent to Indian Territory to live. The Cheyennes were mountain Indians, accustomed to the clear, pure air of the high altitudes, and in the lowlands of the south they rapidly sickened and died until two-thirds of their number had perished. Again and again Dull Knife appealed to the government for permission to

return to their old home in the north, but his appeal was all in vain,

Finally in desperation Dull Knife and Little Wolf, the junior war chief, resolved to leave their hated reservation. In the fall of 1878 they started north and although six lines of military barrier were thrown out to stop them, they cut their way through three of these lines before Dull Knife and a part of the Chevennes were captured in Nebraska. They were taken to Fort Robinson, disarmed and imprisoned in an old barracks.

Army officers, acting under instructions from share in comparison with \$3 in each Washington, informed them that they must be of the two preceding periods and with returned to Indian Territory. Then, in the words a former annual rate of \$16. The of an eve-witness:

"The old Cheyenne war chief, Dull Knife, \$75,000,000. stepped slowly to the center of the circle, a grim, lean figure.

"Never when riding at the head of hundreds plan for nationalizing the bank was of his wild warriors, clad in the purple of his race-leggings of golden yellow buckskin, heavily beaded, blanket of dark blue broadcloth, war of the United States, all of which inbonnet of eagles' feathers that trailed behind dicates a distinct trend in the direchim on the ground, necklace of bears' claws, the tion of a more unified national strucspoils of many a deadly tussle-never in his life ture, strengthened and controlled by did Dull Knife look more a chieftain than there | the federal banking authorities." in his captivity and rags. He said;

"'All we ask is to be allowed to live, and to live in peace. I seek no war with anyone. An old man, my fighting days are done. We bowed to the will of the Great Father and went far into the south where he told us to go. There and already is busy we found a hyena cannot live. Sickness came among us that made mourning in every lodge. Then the treaty promises were broken, and our rations were short. Those not worn by disease were wasted by hunger. To stay there meant that all of us would die. Our petitions to the Great Father were unheeded. We thought it better to die fighting to regain our old homes than to perish of sickness. Then our march was begun. The rest you know.

"Tell the Great Father Dull Knife and his West that officials of people ask only to end their days here in the the corporation feel north where we were born. Farm Board to Sell No More Wheat or Cotton This Year -Iowa Farmers Still "Striking" -Germany Demands Arms Equality.

By EDWARD W. PICKARD

been stopped by the federal farm poard until next year, according to the made by Chairman James C. Stone, He

Co-operative association had agreed to the terms laid down by the Reconstruction Finance corporation for a loan of \$50,000,-000, stipulating that their holdings of nearly 2,000,000 bales of cotton be taken off the market until 1933. Mr. Stone also an

said the board and

the American Cotton

nounced that the board had sold all its stabilization wheat except 3,000, 000 bushels. This means the grain stabilization corporation has disposed of more than 254,000,000 bushels of wheat since July 1, 1931, and more than 186,000,000 bushels since November 1 last. The stabilization corpora tion, therefor, is no longer a factor in the grain market. It still holds what Mr. Stone called "a certain amount of futures contracts" which will be held at least until after the beginning of the next year.

A loophole for the disposal of the cash wheat was left by the provision that, though this wheat would be kept off the market until the new year, this limitation would not apply to possible sales to foreign countries not reckoned as important buyers of

American grain. In making the announcement, Chairman Stone explained that the purpose of the arrangements was to make a better market for the farmers. The cotton growers, he pointed out, will get the full benefit of the market for their crop of this year without the price-dulling interference of the holdover crop. The Cotton Stabilization corporation and the Cotton Co-operative association, Mr. Stone said, would gradually liquidate their holdings "during periods when more active demand is anticipated."

IOWA'S striking farmers did not approve of the truce called by the head of their "holiday" "ssociation and made preparations to renew the picketing of the highways around the larger cities. They also called on Gov. Dan Turner to try to induce the governors of several middle west states, at a conference in Sioux City, to institute an embargo "upon all foodstuffs from the middle western states at less than production costs."

Pickets outside Sloux City wrecked a number of trucks and injured the drivers, but the sheriff's forces then got bosy and dispersed them and removed from the roads the formidable obstructions placed by the farmers. In Nebraska the picketing was abandoned for the present.

FINANCIAL circles of the country were intensely interested to read of the new plans for the Continental Illinois Bank and Trust company of Chicago, largest bank outside of New York city. The directors voted to nationalize the institution and to set up special reserves of \$40,000,000 out of surplus to cover losses incurred. As a further mark of conservatism they voted a quarterly dividend of \$2 a bank's capital remains unchanged at

The directors explained to the stockholders that "the development of a suggested by recent legislative proposals regarding the banking system

FRED HOVEY of Omaha, Neb., has been appointed head of the agricultural credit organization of the Reconstruction Finance corporation

in his office in Washington. For many venrs Mr. Hovey has been connected with the Stock Yards National bank of South Omaha. He is so familiar with conditions and the needs of the stock raisers of the

glory for Maj. James H. Doolittle, who won the free-for-all race and the handsome Thompson trophy with his Gee Bee racer. His average speed for the 100 miles over a triangular

SALES of its wheat and cotton have | course was 252.686 miles an hour, and he broke all American records for speed around a closed course. Taree days previously Doolittle with we same barrel-shaped plane set a new record for land planes, his average speed on four consecutive laps being 292.287 miles an hour.

Mrs. Mae Haizlip of St. Louis broke the women's world speed record for land planes by attaining an average speed of 255,513 miles an hour in four dashes over the three kilometer course. She won the Shell gold plaque.

M EXICO has a new president in the person of Gen. Abelardo L. Rodriguez, who was chosen for the position by the congress after Pascual Ortiz Rubio resigned

ment in which he said: "Naturally I Rodriguez shall continue the same friendly, cordial relations with the United States that have existed." In the new cabinet Manuel Tellez

remains as foreign minister and Alberto J. Pani as secretary of the treasury; several others were reappointed. Gen. Pablo Quiroga was given the war portfolio. The entire diplomatic corps in Mexico City called on President Rodriguez, and hundreds of congratulatory messages were received by him, including one from President Hoover.

BOLIVIA was reported to have flatly rejected the plea of the neutral Latin-American nations for a truce with Paraguay in their dispute over the Gran Chaco. The Paraguayans assumed that this meant war was certain and went ahead with their preparations. It was officially announced in La Paz that a Paraguayan force had attacked a defense post on the frontier and was repulsed by Bolivian troops.

Brazilian rebels in Sao Paulo state had an agreement with the navy that the latter would not indulge in hostilities for the time being; but the rebels fired machine guns on naval planes dropping manifestos over Montserrat, which seemed to end the semi-neutral attitude of the navy. Seven of its planes flew over Fort Itaipu at the entrance of Santos harbor and destroyed it with bombs. The federal forces were said to have made considerable gains from both the north and the south.

WHILE the Germans were preparing for the crucial session of the reichstag, called for September 12 by Hermann Goering, the National

Socialist president of the parliament, the Von Papen government was keeping the rest of the world greatly interested if not excited by its demand for the arms equality which Ger many insists was promised her in the Versailles treaty. The demand had been submitted to France in the form of an aide

Goering

memoire and some days later was given to the public by Baron Von Neurath, foreign minister. It is really an ultimatum, announcing that unless the equality in armaments is granted by the powers, Germany will quit the world disarmament con-

Before and after the publication of the note, Gen. Kurt von Schleicher, minister of defense, declared in addresses and interviews that if the demand were not granted Germany would arm anyway, and he was most emphatic in his statements, To newspaper men in Koenigsberg he asserted stormily: "I mean everything I have said. We will no longer stand for being treated like a second rate

Premier Herriot decided that France's reply to the Germans should be a refusal to discuss their demands, and in this he was upheld by the cabinet. He also disapproved mixing up modification of the Versailles treaty with the disarmament conference, and in his answer said that if the Germans questioned the accepted interpretation of the Versailles treaty and the League covenant, the matter must be referred to arbitration by the League council or the world court.

Some stress was also placed on the fact that the military clauses in the treaty of Versailles form the basis of many other post-war treaties and that the entire edifice of post-wer Europe will be imperiled if that are tampered with.

O'SEPTEMBER 11, the eight-eenth anniversary of the Battle of the Marne, a fine memorial of that mighty struggl- was presented to the French nation by America, whose citizens to the number 4,000,000 contributed its cost. The piece of statuary, entitled "France Defiant," rises 130 feet above a 60-ft of pedestal, on an eminence overlooking the battlefield. It stand as high as a sevenstory building, and is the largest monument in France. It was designed by Frederic MacMonnies and Edmondo Quattrocchi was the sculptor. The motif of the memorial is a woman symbolic of France at bay, support-Ing a stricken soldier son. An infant emblematic of the future clings to the hem of the woman's tattered robe. On the front of the pedestal is Marshal loffre's famous message to the French army on the eve of the battle:

"At this moment when a battle impends upon which rests the fate of our country no one must look behind, All must unite to attack. Any troop finding itself unable to advance further must hold the ground and fight until death. No retreat!"

JOSEPH V. McKEE, who became mayor of New York on the resignation of Jimmy Walker, was informed by the citizens' budget commission that the city pays more than \$1,000,000 every day in the year for salaries for its employees. Therefore he got busy at once on economies in a way that made the politicians gasp. First he announced that his own salary was reduced immediately from \$40,000 to \$25,000 a year. Then he served notice that, after October 1, no city commissioner appointed by the mayor would receive more than \$12,-000 a year. And more of the same sort was expected to follow.

The budget commission pointed out that in the six years of the Walker administration 32,380 extra positions had been added to the city pay roll at a total cost of \$120,633,223 a yearpractically a third of the year's entire payment for personal service.

SCANDAL concerning labor employed on government jobs has been transferred from western projects to the lower Mississippi river valley. Charges have

ers in river flood control construction camps down there are held by contractors in a virtual state of peonage; that the men are working 12 hours a day and 7 days a week at very small wages. Since this falls in the prov-Gen. L. Brown ince of the Depart-

been made that work-

ment of War, Secretary Patrick J. Hurley took cognizance of the charges and sent Gen. Lytle Brown, chief of army engineers, to make an investigation.

I OS ANGELES, the prolific source L of tragedies, provided anotherthe suicide of Paul Bern, moving picture executive and husband of Jean Harlow, a famous screen actress. For reasons that at this writing are unknown. Mr. Bern shot and killed himself in the beautiful home he presented to his bride when they were married two months ago. He left a note that only added to the mystery. It said he was making good "the frightful wrong I have done you" and wiping out his "abject humiliation," and Miss Harlow insisted she did not know what he meant and that they had been perfectly happy together. Mr. Bern, who was born in Germany 42 years ago, had been actor, stage manager and director, and in his work in pictures was very successful and popular. His associates said he had been acting strangely of late, and that his mother and three of his sisters had committed suicide,

One possible explanation for Bern's suiclde was revealed when it was learned that for years before his marriage to Jean Harlow he lived with another woman. His brother asserted Bern continued to support her in a sanitarium after she had a nervous breakdown, and that Miss Harlow knew all about it. For ten years this woman lived at the Hotel Algonquin in New York city as Mrs. Paul Bern and paid her bills with checks sent to her fortnightly from Hollywood by the movie executive. She left the hotel last winter and had her trunks shipped to San Francisco.

R APID progress on the government's \$700.000,000 public building program was reported by the Treasury department in a review of authorized projects.

The report said that specific authorizations aggregated \$496,463,942 and that 230 buildings costing \$71,-400.219 had already been completed. It further reported 382 projects with a total cost limit of \$324,588,323 were under contract either in whole or in

In regard to 136 projects costing \$42,172,900, the treasury said they either were in the specification stage or that bids had been received for their construction.

It was explained that Secretary Mills had not yet determined on the expenditure of the \$100,000,000 provided in the relief act for public buildings.

CHILDISH

Those who have been helping themselves to the taxpayers' funds locally through expenditure of public funds have been trying in a ridiculous way to make people believe that there is no depression. Of course, the obvious purpose of this was that no one would have the temerity to suggest that there be a reduction in any public expenditures.

Just as if the majority of the people of Carteret and its businesses did not konw any better. If a family has tremendously reduced income or no income for sometime, it knows it. No kind of palaver or smoke-screen changes that. Hot air is no substitute

Now we have a steady campaign by the smoke screen artists to the effect that operations are being stepped up by leaps and bounds in local business. This is obviously untrue.

The people cannot be fooled as easily as that. Intelligent men in this community on the job where there are operations conducted at a great sacrifice to the companies carrying them on, know full well what conditions are. They know that operations are tremendously reduced, much more so than this time a year ago.

Such a type of campaign indicates that someone has apparently reached his second childhood.

Early in the depression attempts were made in Washington to it after the Board of Education has cheer everybody up by telling them that business was getting bet- had all summer to come to some sort ter and better. At that time most business was getting worse and of an agreement. Practically 68% worse. Signs were placed all over the country including Carteret the high salaries paid by the Board saying-"Busines is Good, Keep It Good!" Of course this was of Education. Well over 100 emnot true and as head of one big business in Carteret said only last ployed by the Board of Education week, water will seek its own level In other words, you cannot fool get \$1,400.00 or more; most of them the people that way.

One of the difficulties of the depression has been the unwillingness to face the situation. The childish idea that you could avoid facing the music by just whistling and saying everything was fine just did not work. Conditions got worse and worse as was demenstrated by the thousands of industries closed tight all over the country, mortgage foreclosures, bank closings, tax sales and bank-

The idea that you cannot tell the people the truth is the gospel year and it has had all summer to they ought to have their choice. In gest rallies held in the county in of fear and nothing else. Grown-ups cannot be treated as children. Over a year ago the administration in Washington began to realize the seriousness of the situation and commenced to apply correctives. It did this on a scale that indicated it was appreciated we were in a crisis. For the time being the hopelessness that generally pervaded the country appears to have been at least toned down and efforts on a large scale are being renewed by the administration in Washington to restore stability and confidence.

In Washington and in the country in general it is fully appreciated that the devastating effects of a depression cannot be reduced, arrested or the tide stemmed by simply turning our backs, closing our eyes and telling ourselves it does not exist.

The family in want, the fellow without a job, the factory without business know it. You cannot mislead them,

The United States is a big country. It took a long while to come to a realization of what the actual situation was as it applied totally to the nation. When it was once appreciated, measures over a wide front on a large scale had to be planned, legislative approval obtained and emergency machinery set up to put it into effect.

Carteret is a comparatively small community. The people in for the clerk's office is supposed to they reside in the Borough. it as a whole cannot be fooled as to what conditions are that directly be \$2,200.00. This \$2,200.00 is at Yes, and when that suggestion is affect them in the municipality. The politician who attempts under least three times as much as the made they should be given a list of existing conditions to try to tell them that prosperity is here, that all business is speeding up, fools no one and is likely to create the impression among the taxpayers that he is in his second childhood and is unsuited for further responsibility in these times.

Like the governments and municipalities all over the world, Carteret must face the situation. The individuals and businesses have had to try to put their houses in order. Those governing this municipality must now do likewise. There are no two ways about

HELPING US OUT

Moore's campaign for State economy. It goes on to say there is but to the municipalities which get a big share of their educational share. revenue from such taxation.

News says:

Those municipalities which do not take example from Trenton must lie in the beds they make."

This was said by The Newark Evening News, not The Carteret News. In Carteret it is a crime to suggest economy in governmental

expenditures. Yet, every newspaper in the State that amounts to anything has been driving for economy. The Democratic leader of the State has preached it and practiced it. The Democratic Governor of the

State has preached it and practiced it. Here, when such suggestion is made every possible step is taken with the use of public funds to mislead you. Although much talk is heard about spending money locally it is noticed that Carteret taxpayers' money is regularly sent out of town when it suits

the personal pleasure of a publicly-elected official. One would think that the public monies, collected from the Carteret taxpayers, would be spent in Carteret.

It is highly questionable whether in some cases the transfer of money from the taxpayers pocketbooks is legal.

It has been reported that one official has been on the notes of an out-of-town outfit to which local taxpayers' money is regularly sent. This would appear to make the taxpayers' the protectors of that party's endorsement in such a case.

Jimmy Walker's resignation came about from much less than that. No one proved he went on the notes of anyone who might have been on the rocks if it did not get the City's business.

LETS EMPLOYEES RULE THE ROOST

comparatively new member.

parently, in a stupid effort to avoid taxpayer.

All Summer Yet No Action

It is unthinkable at a time like this that the question of reduction of public expenditures in the chief spending unit, the Board of Education, should have nothing done about get \$1,800.00 or better.

SOUND DOCTRINE

Instead of pretending everything was in good shape in Philadelphia, where they were embarrassed with bills to meet and no funds to care for them, the authorities there came out frankly and stated the situation. They said the obligations were those of the municipality, which meant the taxpayers. They appealed to the taxpayers who could pay to come forward and save the embarrassment of the municipality and injury to its credit.

It was pointed out that the injury to the municipality's credit The Newark Evening News praises editorially Governor was hurtful to the ownership of property in the community. There was no babyish attempt to say, in these times, that everything was a growing fear the railroads of the state may default in this year's going as normal. The public cannot be fooled. The Mayor of tax payments. It points out that failure to pay the taxes by the Philadelphia had the good sense to recognize this and to state the railroads would be a severe blow not only to the state government case frankly and urge the taxpayers to come forward and do their

The same proposal has been made in Newark. In reference In speaking of Governor Moore's good example, the Newark to this matter The Sunday Call propounded the very same doctrine, which is applicable all over and is true in Carteret as it was in Philadelphia or any other of thousands of municipalities. We believe their reference to the subject matter is worth being re-stated in their own terms, which were as follows:

> "There is no doubt that many property owners are in default in their tax payments who are abundantly able to pay. It has become somewhat fashionable to be a tax delinquent.

> "Property owners ask 'Why should I pay my taxes promptly when John Smith, who is much wealthier than I am, does not?' He knows nothing of the circumstances that account for John Smith's delinquency, and he fails to remember that in following Mr. Smith's example he is subjecting himself to a heavy interest penalty. He knows that his municipality is not pushing him for the money, and he reasons that his few dollars would not help much anyway, failing to reflect that when thousands of taxpayers assume this same attitude the total of unpaid taxes soon rises to the millions.

> "The property owner who is able to pay his taxes when due and who fails to do so punishes himself because of the interest penalty which is added to his bill, and at the same time injures the reputation of his muni-

> It is a black eye for any municipality to be unable to meet its obligations because of unpaid taxes.'

hint be put out that they must go to sc and so's place who is part of the political machinery of the Board

If there ever was a case of both ends against the middle on this living in town stuff, here it is.

LETTER TO EDITOR

A Democrat Wants to Look Into Party Organization.

Is it true that a leading Democrat has to do with contract work in a cemetery in a nearby municipality job over there, while the people who have always been Democrats just wish and wait?

Is the idea of political party organization to take care of the fellows who have never supported the

12. REGARDING PERSONAL HYGIENE

If you have not been in the habit of taking a daily bath now is a good time to begin. If possible you should take a shower or a plunge every morning and if you have been indulging in a game during the day should take another shower to wash the perspiration from your body.

Shampoo your hair every week, using plain or castile soap, which is made from olive oil. Rinse your hair thoroughly and dry it well.

Keep your finger and toe nails manicured and use your nail file to remove any deposits from under the nails.

See to it that your bowels are moved every day, if possible at the same hours. If you eat plenty of fruit and green leafy vegetables you will not be troubled with constipation.

WOMAN'S CLUB **ACTIVITIES**

The Woman's Club held its fifth annual Flower Show, Friday, September 9th in the Blaukopf property on Washington avenue. Starting out timidly five years ago in its first venture of a public Flower Show, the Woman's Club Flower Show has grown to be an annual event for which the community prepares and it is always greeted with enthusiasm on the part of the exhibitors and the lovers of flowers.

The judges, J. R. Bauman, florist, of Rahway and Mrs. Charles Seguine of the Perth Amboy Woman's Club an authority on flowers, commended the community on its fine display and were manifestly pleased and surprised at many of the blooms grown here. The Woman's Club The sermon theme at the Presby- keenly appreciates the efforts of all all donated by members of the club. A complete list of the prize win-

ners follows: Roses-Single-1st prize, Mrs. J. Cook; 2nd Prize, Mrs. Skiba. Roses, three in vase-1st prize, Mrs. Skiba; 2nd, Mrs. H. Green; Dahlias, Single, 1st, Mrs. O. Dick; 2nd, Mrs. F. Wake Up Your Liver Bile -Without Calome!

And You'll Jump Out of Bed | in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet

and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels

If this wie is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skip often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE

LIVER PILLS to get these two pounds of bile

flowing freely and make you feel "up and up,"

They contain wonderful, harmless, gentle regetable extracts, amazing when it comes to making the bile flow freely. But don't nsk for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent s substitute, 25c at All stores. @ 1981, C. M. Co.

HILDREN'S STORY

THORNTON W. BURGESS BILLY MINK'S MISTAKE

DETER RABBIT bad been quite I right about Billy Mink. Billy was hungry. He was especially hungry for a dinner of tender young birds. He had eaten fish until he felt as if he would turn into a fish himself. He was tired of fish and wanted a change. I guess you know how he felt. No matter how fond of a thing we may be there comes a time when our stomachs grow tired of it. This is true even of candy and ice cream when we have too much of them. And it was just that way with Billy Mink.

When he had started out that morning Billy had had no particular plan. He just trusted to luck to find something besides fish to eat. He had stopped at the Smiling Pool to pass

He Had Stopped at the Smiling Pool to Pass the Time of the Day With Jerry Muskrat.

the time of day with Jerry Muskrat, and it was while he was there that he had noticed Rattles the Kingfisher flying down the Laughing Brook with a tlny fish in his bill. It wasn't long before he was back watching for another fish, and when he caught it he took It off down the Laughing Brook. This was enough for Billy Mink. He knew right away what it meant. It

Most Valuable Man

Moses (Lefty) Grove, star twirler of the Philadelphia Athletics, who was voted the American league's most valuable player for 1931, is shown here holding the trophy that was presented to him. The decision was made by baseball writers.

SEVERAL GOOD THINGS

SALAD dressings are a food accessory which we find a daily necessity and when one presents one that is different we hail it with joy.

Sour Cream Dressing.

Mix together one tablespoonful of flour, one-half teaspoonful of salt, oneeighth teaspoonful of pepper and onehalf cupful of vinegar. Stir until smooth. Add one cupful of sour cream, stir over water in a double boiler until it begins to boil. Remove from the fire immediately. If sour milk is used add two tablespoonfuls of olive oil and cook as above.

Veal a la King.

Take two pounds of lean veal, cut into cubes about one inch square. Add water to cover after it has been well browned in one-fourth cupful of butter. Add six medium-sized carrots, two onions, one sweet pepper-all minced; one bay leaf, four cloves and cook until the meat is tender. Keep enough water to make a pint of liquor during the cooking. Add one quart of scalded sweet cream thickened as for gravy, add one can of mushrooms cut fine and one can of sifted peas. Season to taste with salt and paprika and serve on noodles.

A dainty and pretty as well as an easy dessert is prepared thus: Bake small cupcakes, cover with thin slices of candy bar-any with or without nuts. Pour a hot custard over them or a lemon sauce. Serve hot or cold. Cut cake into layers with sliced candy bar between, serve with whipped cream or any desired sauce.

O. 1932, Western Newspaper Union.

St. Louis Has Colony of Clay-Eaters

IN ST. LOUIS, MO., there has been discovered a colony of clay-enters. Their source of supply is an ideal clay mound about which they gather to scoop it up and consume it. They claim that they do not eat it because of hunger but because it leaves a pleasant "tang" in the mouth and is a desirable food. Persons of various ages admit eating this clay and some have done it for years. This particular mound is most favorable because its clay is not gritty. Our photograph shows two youngsters sampling the clay.

meant that somewhere down the lose told him that way way back at Laughing Brook was a home with bables in it. The very thought made Billy's mouth water. He cut his visit with Jerry Muskrat short and started down the Laughing Brook.

Now, unlike Peter Rabbit, Billy knew just what to look for, and where to look for it. He knew all about the ways of Rattles the Kingfisher, and just what kind of a place he would choose for a home, and he didn't have a doubt of being able to find it. But he took precious good care not to let Rattles the Kingfisher catch a glimpse of him. He knew that if Rattles once saw him going down the Laughing Brook he would mount guard over his home, and Billy was of no mind to face that sharp, spear-like bill which Rattles possesses. So whenever he heard Rattles coming, Billy hld until the way was clear once more.

You remember that Billy was hiding right near the sandbank where Rattles had made his home at the time Peter Rabbit, watching from the opposite shore, discovered it. All that Peter saw Bill Mink saw, too, He saw the little hole close up under the edge of the high sandbank where the grasses hung over and partly hid it. He saw Rattles go in and come put again. And when he swam across to the foot of the bank and tested the air with his keen little nose he smelled young kingfishers. Before he had made up his mind just what to do he heard Rattles returning, and once more hid. The instant Rattles departed again for another tiny fish for those hungry babies, Billy scrambled up the bank. There was no time to lose. He wanted to get those babies and get away before Rattles should return. He had nothing to fear from the little kingfishers, they would be quite helpless and harmless.

So Billy scrambled up the sandbank and into the hole. The instant he got his head inside he forgot everything

the end of a long hall was a nestful of young birds. If he had stopped to smell a little more carefully that nose of his might have told him something else. But he was so eager that he didn't stop to find out all that his nose might have told him. That was where he made a mistake-a very great mistake. If he had heeded his nose he would have remembered something which he had quite forgotten in his greedy haste. He would have remembered that he hadn't seen anything of Mrs. Rattles, and Mrs. Rattles carries quite as big and sharp

a bill as does Rattles himself. But Billy had forgotten all about this and in his greedy haste pushed in along that narrow hall where there wasn't room to turn around. It was a mistake, a very great mistake. Half way to the nest at the end of that long hall Billy found it out.

Life's Proudest Moment

"No bigger than a minute"-when he arrived .

But look at him now! See what the scales are saying! Look at those muscles! Look at that husky framework! Look at the bright-eyed, pink-skinned health of him!

It comes over you both with a great surge of happiness-he's a perfect specimen, your baby!

Can a baby thrive like that, if his mother's milk fails?

Millions ot mothers nod a beaming "Yes!" For millions of mothers in America have had proof in their own homes that Eagle Brand builds wonderfully sturdy babies-babies that grow to be men and women of fine physique, outstanding health.

And recently, two famous baby specialists put Eagle Brand to one of the most searching tests that modern science has ever given a baby food. They fed fifty average infants on Eagle Brand* for a period of months, comparing results with other groups of babies similarly fed on other foods. They tested these babies' progress with the X-ray, with blood counts, with measuring, weighing, every modern check on growing structure, growing strength.

And measured by every scientific test, the result was favorable to Eagle Brand. These Eagle Brand babies showed themselves superbly nourished-lacking in nothing that makes for future health and stamina. Eagle Brand* had proved itself equal in every way to the building of 100% babies!

You see, Eagle Brand is wonderfully easy to digest-second only to mother's milk in easy digestibility. Every drop goes quickly into the making of bones and teeth, tissue and muscle, energy and strength. Eagle Brand is easily prepared-you merely add boiled water. See directions on the label. Eagle Brand is free from dangerous germs-safe for your baby. It keeps indefinitely in the can. And can be obtained at any grocer's.

Send for a free copy of "Baby's Welfare"? -an 80-page booklet on feeding and caring for baby. It gives you pictures and histories of a number of Eagle Brand babies. And let us send your physician a report of the scientific test we have described.

*As with mother's milk, or any milk diet, the usual supplementary foods were given. These are, of course, orange or tomato juice, and cod-liver oil or other source of the antirachitic Vitamin D.

Dorothy's Mother Proves Claim

Children don't orlinarily take to medcines but here's one that all of them love. Perhaps it shouldn't be called a medicine at all. It's more like a rich, concentrated food.

It's pure, wholesome, sweet to the taste and sweet in your child's little stomach. It builds up and strengthens weak, puny, underweight children, makes them eat heartily, brings the roses back to their cheeks, makes them playful, energetic, full of life. And no billous, headachy, constipated, feverish, fretful baby or child ever failed to respond to the gentle influence of California Fig Syrup on their little bowels. It starts lazy bowels quick, cleans them out thoroughly, tones and strengthens them so they continue to act normally, of their own accord.

Millions of mothers know about California Fig Syrup from experience. A Western mother, Mrs. J. G. Moore, 119 Cliff Ave., San Antonio, Texas, says: "California Fig Syrup is certainly all that's claimed for it. I have proved that with my little Dorothy. She was a bottle baby and very delicate. Her bowels were weak. I started her on Fig Syrup when she was a few months old and it regulated her, quick. I have used it with her ever since for colds and every little set-back and her wonderful condition tells better than words how it helps."

Don't be imposed on. See that the Fig Syrup you buy bears the name, "California" so you'll get the genuine, famous for 50 years.

Beet Sugar

The first factory for the manufacture of sugar from beets was erected by Edward Lee Church at Northampton, Mass., in 1838, and the following year it produced 1,300 pounds of sugar. A few other Actories followed, but all were failures. In 1870, E. H. Dyer erected at Alvarado, Calif., a factory which became successful in 1879 and marked the beginning of the modern sugar-making from sugar beets.

Odd Postage Stamps

In the main hall of the South Kensington museum, London, is to be seen one of the most remarkable collections of postage stamps in the world. Every one of the hundreds of specimens displayed portrays some member of the animal kingdom in its native haunts. For the most part they are typical of the countries from whence they come.

Ralph Waldo Emerson's View Ralph Waldo, Emerson, "the wisest of Americans," mentions the name of Shakespeare twice as frequently in his writings as he does that of his next favorite, Goethe. He is reported to have said, "I am always happy to meet persons who perceive the transcendent superiority of Shakespeare over all other writers.

Hamlet's Sanity

Whether or not Hamlet was insane is a question which has disturbed critics for 300 years. It is interesting to know that most of the profound thinkers who have given the question deep consideration regard Hamlet as sane. It would seem that if Hamlet was insane there is no point in the drama .-Washington Star.

Bird Sheep Herder

The akamik, a species of crane, is used by the natives of Venezuela, South America, in the place of shepherd dogs, for guarding and herding flocks of sheep. However far the yakamik may wander with the flocks, it never fails to find its way home at night, driving before it all the creatures entrusted to its care.

Best Things Are Nearest The best things are nearest: breath in your nostrils, light in your eyes, flowers at your feet, duties at your hand, the path of God just before you. Then do not grasp at the stars, but do life's plain, common work as it comes, certain that daily duties and daily brend are the sweetest things of life,-R. L. Ste-

Man's Supremacy

Scientists tell us that what has lifted man above the brute creation with which be has so much in common is the fact that he can touch each of his fingers with his thumb! No other living thing can do that. Try experiments with your own hand, and see what a difference it would make if you could not do this simple-seeming act.

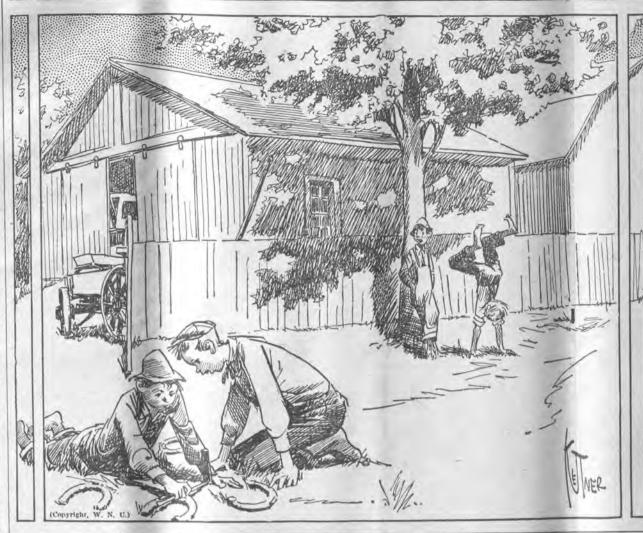

Glaciers Disappear

The evidence indicates that hundreds of small glaciers have disappeared altogether from the Yosemite National park during the last half century. The first "living glacier" discovered by John Muir in 1871 in the Sierra Nevadas now has ceased to exist, it is reported.

British Pun "A new hat is like wine to a woman," said a magnate the other day. It goes to her head very quickly.-London Humorist.

Modern Contract Bridge By Lelia Hattersley

Higher Opening Suit Bids

E .CH opening bid in the forcing system has certain definite characteristics and carries with it certain information highly important for the achievement of the best results in partnership hidding.

Opening suit bids of one and two are differentiated by their honor strength (the honor-trick requirement being twice as great for a minimum bld of two as for a minimum bid of one). But original declarations of one and two have this in common-the trump suit named may, and usually does, require full trump support from the partner. Also, these declarations are apt to show hands of flexible type which offer another bid or support for other declarations.

Original suit bids higher than two also show different degrees of honor strength, according to whether they are immediate game declarations or bids for just one less than game (as three in a major suit or four in a minor). But all bids of three or more have two definite characteristics. In the trump suit, at least, these high opening bids announce independence of partner's support. They always show trumps of such abnormal length or strength as to contain without assistance at least five sure trump tricks. Also they reveal hands of inflexible type which will play to advantage only at the suit named.

The difference which distinguishes immediate game bids from bids of one less than game lies mainly in their honor strength requirements. Opening suit bids of three in a

major and four in a minor are not, strictly speaking, pre-emptive. They are strength-showing bids, covering the type of hands which just lack enough honor-tricks for a forcing two-bid, but are so powerful in honors and playing-tricks as to be within two tricks of game.

An original bid of three in a major

suit requires (vulnerable or not vulnerable) 8 playing-tricks including at

least 11/2 honor-tricks in side suits. An original bid of four in a minor suit requires (vulnerable or not vulnerable) 9 playing-tricks including at least 11/2 honor-tricks in side suits.

The forcing system does not recommend minor suit three-bids, but if used, restricts them to one meaning long, unquestionably established suit.

Immediate Game Bids: Pre-Emptive

Original bids of four in a major or five in a minor show holdings of abnormal distributional value (trump length), but do not promise any de-

fensive honor-trick strength.

An original bid of four in a major suit shows (not vulnerable) 7 playing-tricks; (vulnerable) 8 playingtricks. No honor strength in side

An original bid of five in a minor suit shows (not vulnerable) 8 playing-tricks; (vulnerable) 9 playing-No honor strength in side tricks.

Examples of pre-emptive (game)

(Not Vulnerable) Four Spades: D-Q J 65 S-KQJ10578 C-62 H-None

Five Clubs D-A 10942 S-None C-KJ987642 H-None

If any value is to be realized from hands of this type they must be played at their suits, and the partner should be warned of the fact by an immediate bid for game. From its very nature, an original bid of this character can never be construed as an invitation for slam.

Pre-emptive bids are especially effective at contract because, though the many high cards missing from your hand may be against you, the spector of drastic penalties usually so terrorizes the opponents that they do not venture to over-call your preemptive declaration unless entirely sure of their ground. Thus, at a slight risk, you can often shut out a game or slam which the adversaries might readily have discovered had they been allowed the opportunity for an exchange of information.

For instance, if the dealer of the following hand, not vulnerable, should pass, the opponents could probably get together for a small slam at spades. Singly, it is doubtful that either of them would overcall an original bid of four hearts, especially if they were vuinerable.

Discoveries at Samaria Beautiful Ivory panels, dating from the year 800 B. C., and depicting lotus bud; and flowers, strange animals and celestial beings from the Egyptian pantheon, have been discovered at Samaria, the ancient capital of the kingdom of Israel. The site of this discovery leaves no doubt that these ivories belonged to the "house of ivory" mentioned in the Bible-L. Kings 22:39-for the inscription carved on one of them bears the name of Hazel, king of Damascus, 850-800 B. C. One panel shows a fight between a bull and a lion in relief. Others show cherubs and sphinxes. A third represents the personification of eternity. These discoveries, which are due to the joint work of British and American archeologists, are of the greatest importance in illustrating the

Magpies Execute Cat

civilization of the period.

A cat, which climbed to an Irish magpie's nest at Ballyjamesduff, Ireland, was carried away by the birds and literally torn to pieces. The cat climbed to the nest, which was at the top of a tree, and was furiously attacked by the male and female birds. In the battle which ensued the shrill cries of the magples and the screams of pain of the cat were heard by many of the residents. They alighted in a field where later the cat was found practically torn to pieces.

MEDWICK FIGHTS TO KEEP TIGHT HOLD ON PLACE

Does Not Want to Fade Out of Baseball Picture.

All Carteret athletic fandom has its eyes on the sporting pages of their favorite New York newspapers during the past ten days. Why not? Is not Joe Medwick, the former star of the local high school football and baseball team, shining ever so brightly on the Metropolitan baseball diamonds in the National league?

Plenty of reports came up from the Texas League about Joe. Those who saw Joe perform either on the diamond or on the gridiron as one of McCarthy's mighty men knew Joe was good. Few, however, despite favorable reports are able to break into the big show in satisfactory fashion at the height of the season, with practically all teams bending every effort to get in the first di-

Early in the season when the big leaguers have not limbered up yet, minor leaguers very often go like a house afire and then fade out like a June rose. Now the National League is having one of the tightest fights in its history. Philadelphia, the Dodgers and Boston are lighting fiercely for a high first division berth. Manager Terry of the Giants is on trial and his men want to hold the enemy down,

In just such a situation that Joe Medwick came up from the Texas League to take regular assignment in the outfield of St. Louis, last year's World Champions. So that Joe had no path of roses to trod on. As all local fans know Joe has been fielding his job faultlessly.

like a house afire. All pitchers ap- Sloan, R. Sloan, Billy Elliott, T. pear to look alike to him. During the week he matched Jim Bottomley with a home run at the Polo grounds. Earlier in last week at Forbes Field, Pittsburgh, Joe gave a good account of himself against both Meine and French, two of the leading pitchers of the Pirates' staff. Against Max Carey's Dodgers over in Brooklyn on Tuesday in the first game of a double-header, Joe sacked out 3 hits spite of Thurston's air-tight pitching in the second game, Joe nicked him

In Philadelphia, batting against bat, and figured in a fast double play, showing that his throwing arm matches up with his batting eye. On the following day Holley was

in the box for the Quakers and Joe by slamming out four hits in six appearances at the plate.

High School athletics known through from Hunter, N. Y., where they much of this section of the State, spent the summer. when he ripped the lines of the opposing elevens from end to end, is keeping Carteret on the map through his continued success in the professional leagues. Most of the New York evening papers have given Joe a complimentary write-up from time to time. Especially complimentary has been the New York Evening

On Wednesday of this week the sedate, New York Times, after referring to Joe as a "sensation" in its news write-up of the Brooklyn double-header, wrote him up on an additional page in the following dig- wheelbarrow race, John Lakatos, nified manner, which is usual for the Mary Mudrak; 100-yard-dash, Wal-New York Times. It points out, nevertheless, that Joe was the ath- three-legged race, boys and girls, letic star at the Carteret High William Balka, Emma Balka. School. In this write-up the Times had the following to say:

"Joe Medwick, former high school athletic star of Carteret, N. J., is the latest player developed by the St. Louis National League Club's widespread chain store" baseball system. Before this young outfielder joined the Cardinals, coming from the Houston Club, he was leading the Texas League in runs scored hits, two-base hits, was second in runs batted in and had batted .354. He also had hit twenty six home runs.

"He is not yet 21 years old, but he has been a power with the bat for 3 years. He led the Middle Atlantic League when only 18 with a seasonal mark of .419 in his first year in organied baseball. "Medwick is of Hungarian descent. The Cardinals now have one Hungarian, three Italians, one Scot, one Cuban, one Englishman, one Hebrew, one Irishman, one Swede and a few Germans."

THREE CENTS

VOTING AT POLLS THIS WEEK SHOWS HOW PEOPLE THINK

LaFollette, a Spender, Loses Wisconsin Contest.

The news of the week indicates wherever the voters have had a chance they have turned out of office those who made no move to reduce taxation. On top of that throughout New Jersey there continues to be added to the list, a number of Board of Education and municipalities which reduced salary costs in line with the leadership of Frank Hague, Mayor of Jersey City and Democratic leader of the State of New Jersey and his colleague, Democratic Governor A. Harry Moore.

In the past week they had an election in Maine and Democratic Governor Brann, speaking in New York, said the principal issue was one of taxation. He alleged that the Republican control had made unnecessary jobs at high salaries, so that the taxpayers of every description were weighed down and in distress due to no little extent to the failure to reduce taxes. His campaign was the speaker of the evening at a Relargely made on the necessity for publican rally tomorrow night at the elimination of jobs, wastefulness and reducing public expenditures.

LaFollette An Example

CASE OF CHROME STEEL AT COURT

Receivers of the Defunct Works Are Under Fire For Settlements, Which Have Been Criticized as Not Being the Same for All Creditors.

The United States District Court of New Jersey, with Judge Guy L. Fake sitting, has just issued an order to the creditors and stockholders of the Chrome Steel Corporation to show cause on the third day of October why the receivers and the counsel in the receivership should not be compensated for their services.

IN RARITAN

In Raritan Township, according to announcement by Mayor Julius C. Engel, salaries of the employees have been cut fifteen per cent as part of the economy program and a necessary step in the reduction of the tax burden.

This was in an effort on the part of the Township to make its income and its outgo meet.

Obviously no one in Carteret had anything to do with the reduction in expenditures in Raritan Township any more than it did in Jersey City, Newark and thousands of other municipalities in the State of New Jersey.

The Desert's Price

WNU Service

By WILLIAM MACLEOD RAINE

SYNOPSIS

Wilson McCann, young Arizona ranchman, finds an old friend, Jim Yerby, with a broken leg. Julia Stark, daughter of Matthew Stark, inveterate enemy of the McCanns, is with him. Jasper, Julia's brother, attempts to assassinate Wilson. Ann Gifford, with her young sister, Ethel, are sheep raisers, and on that account unpopular with the cattlemen. "Night riders" shoot a McCann rider. Peter McCann, Wilson's father, offers a reward for the disclosure of their identity. Wilson McCann horsewhips Jasper, he making practically no resistance. Matthew Stark posts notice he will kill Wilson McCann on sight. Ann Gifford's tragedy is the fate of her dead sister, Nora, betrayed and abandoned by her lover. Jasper Stark and Carl Gitner, known as a "killer," hold secret conferences. A Stark rider, Tom McArdle, is be-lieved by the Starks to have been killed by the McCanns, but rumor links his name with that of Nora Gifford. Matthew Stark is killed, from ambush. Julia finds him dead, with Wilson McCann stooping over him. She and Phil, her younger brother, accuse McCann of the killing, despite his vehement denial. Wilson is shot from the chapparal, while standing over Matthew Stark's body. Believing him dying, the Starks have him taken to their home. Dave Stone, Stark rider, a Texan with a record as a "killer," openly doubts Wilson's guilt. Jasper is disinherited by his father's will. Wilson Mc-

CHAPTER VIII

Cann is restored to health. Jasper Stark, de-spite the girl's aversion, seeks to persuade Ethel Gifford to marry him, holding over her

the threat of revealing Ann as the slayer of Tom McArdle. Ann drives him from the

ranch, defying him. Later she admits to Ethel that she killed McArdle, Nora's betrayer. No

action as to Matthew Stark's killing is taken.

An anonymous letter to the sheriff charges Ann Gifford with McArdle's murder.

A Quiet Man Talks Stone had killed a white-tailed buck

in the foothills of the Sierras. Phil was with him, and Julia. All three of them had left the ranch in the early morning.

They were homeward bound now, with night impending. In the valley darkness was beginning to fall, but long shafts of golden glow still ran along the mountain ridges and bathed their rocky slopes in splendor. To Julia the desert always symbolized itself in terms of life. She saw the flash of teeth in its eternal conflict. This little man riding beside her, so lean and sinewy and dangerous, so effective in meeting the conditions it demanded to endure, was a reflection of its gaunt persistence.

All day Phil had been preoccupied with an anxiety that now found words. "I'm worried some, Sis. At Mesa yesterday I heard gossip." He stopped, then added: "About Ann Gifford."

The Texan riding beside him gave by no outward action any sign of interest, but somehow Phil knew that he was intent on catching every word. "They say she shot Tom McArdle."

Julia flashed an indignant retort. "How outrageous! And senseless! What object could she possibly have?"

"They say-her sister Nora."

"What do you mean?" "Why, that Tom was responsible."

"Oh!" The girl fell silent, her thoughts busy knitting together ends of gossip she had heard.

"Who says so?" she demanded, The boy hesitated. He could talk freely before Stone, for hard and tough though the Texan was, an accredited killer, both these young people sensed in him the same loyalty that bound them to Dominick Rafferty.

"Jas, for one," Phil gulped out, "Jas!" Julia pulled up her horse ab-

ruptly. "What does he know about it?" "Claims he practically saw her do It, him an' Gitner."

Stone spoke for the first time. "Where'd you hear this, Phil?"

"In town. Everybody knows it. They say when Hank Le Page went out to her place she wouldn't even deny it-jus' told him to prove it if he could."

"But Jas-I don't understand. If he saw her do it, or felt sure she had done it, why did he wait nearly three months to tell it? Why didn't he tell it then, or not at all?" Julia asked.

"I don't know," Phil answered. "But what worries me is that the story is liable to be true. She might a-done

It. She's thataway." Out of the night came the Texan's low drawl. "You needn't to worry

none, boy. She didn't do it." "You think she didn't?" Phil turned

with relief to Stone. "I don't think, I know." Julia turned white, "You don't

mean that-Jas did it?"

"But you know who did?"

"I sure do."

"And you'll tell?" "Yes, ma'am. I was tryin' to shield him, for Tom McArdle certainly needed killin'. But now that Miss Gifford's name has been brought into it I reckon he'll have to stand the gaff,"

Both of the young Starks wanted to ask him who had done it. More than once the question almost passed Julia's lips. But there was something in the little man's manner that restrained her. If he wanted her to know he would tell her.

"Well, I'm glad Ann Gifford didn't do it," she said. "The poor girl's had enough trouble. If she wasn't so stiff with me-if she'd only meet me a quarter of the way-I'd ride over tomorrow and see her, just to show her we be-

lieve in her." "I'd do that anyway," the Texan said. "It would be right kind of you. neighbors with a-tall."

"Will you go with me?" Julia asked Stone. "You used to know her."

"I'll go with you if I'm footloose," he promised, rather evasively. She laughed. "I believe you're

afraid to go." "Tha's no josh, Miss Julia. Ladies

scare me."

"Some ladies," she corrected. "I notice I don't scare you any."

Snatches of thought began to race in the girl's brain. Usually when a man was afraid of a woman, unless he was her husband and had given offense to her, it was because he was attracted to her. She had observed a painful shyness on the part of the youths about her as a symptom of suppressed emotion. It was an unconscious warning they flung out to Julia to trim the sails of her manner to them. This Texan would not exhibit any awkward bashfulness. He was too self-contained, too much master of every nerve and muscle. None the less he might, within, be as much disturbed as they were. Why shouldn't he be in love with Ann Gifford? She guessed his age about forty, and in a man that is still young.

He had walked dangerous trails, had done dreadful things if rumors were true. But she knew instinctively that there still burned in him that dynamic spark of self-respect which justified him to himself. He had his standards, and he played the game by them. She had no more doubt of this than she had that such a man as Gitner had no standards,

Ann Gifford needed some one to take from her shoulder the heavy burden life had laid upon them. Stone was such a man, strong, quiet, self-reliant, He was dangerous to his foes, but it came to Julia with a flash of clairvoyance that the very qualities that had made his name notorious would be a sure protection to a woman like Ann.

Stone rode up to the office of Hank Le Page, sheriff, swung from the saddle, and dropped the bridle reins.

Le Page looked up from the ledger in which he was laboriously entering some items of expense. "'Lo, Dave, How's everything?"

"Fine an' dandy." The Texan found a chair, a cigarette, and a match.

For five minutes there was silence except for the scratching of the sheriff's pen and the gruntings with which he accompanied the manual labor of bookkeeping. Then, with a sigh of relief, the official closed the heavy

"Anything new, Dave?" he asked, relaxing.

"Not a thing with me. Hear you've hit a new trail in the McArdle case,"

"Looks thataway. Some of you Circle Cross boys tipped me off that the Gifford girl was seen makin' a getaway from the place where Tom was shot. I went out to see her about it. She acted mighty funny."

"Oh, kinda defiant. The li'l sister broke down an' cried. I couldn't get

a thing outa her, either," "So you reckon Miss Ann did it?" "Wouldn't it look that way? Tom McArdle had made his brags about the other sister. That was known. She'd

Say they meet by chance an' quarrel. She's got a temper. Well, say it ripped loose an' she shot him.' "Looks reasonable. Only trouble is,

warned him off the place, Ann had.

it ain't true." "Think she didn't do it?"

And again Stone gave the answer he had given Phil. "I ain't thinkin'. I

The sheriff lost his manner of casual "Did you say you knew? How do

you know?"

"Saw him do it." "Who?"

"I'm allowin' to tell you who-pres-

"Hmp!" The sheriff looked at him, not without resentment. "You've waited three menths to tell me. Reckon I can wait another five minutes."

"Sure. Fact is, I didn't aim to tell you a-tall. But when I found out there was talk about Miss Ann-why, tha's different. Might as well begin at the start. I usta hang around the sheep ranch some my own self. Knew old Gifford when he lived at Santone, so I drifted in oncet in a while to advise Miss Ann. I got kinda suspicious of McArdle. He was one of these blackmustached lady-killers, good lookin' an' glib with his tongue. Nora was a mighty nice li'l lady an' I could see she had took a great fancy to him. What I was worried about was that she'd marry him, but that wasn't what happened. If I'd known what I knew later, that McArdle had a wife living at Prescott, well I'd sure have sat in

an' took a hand." Le Page nodded. The Texan looked away dreamily and blew smoke wreaths. Presently he took up again

"After Miss Ann came back from Los Angeles she wouldn't have any of us around. On top of the trouble about her sister some durn fools had killed a bunch of her sheep. So she

Jim Yerby is about the only one she | ridin' in to Tucson to see Ethel while | she was at school an' he tried goln' to the ranch. Wish I'd been there when he showed up, but I wasn't. Anyhow, Miss Ann gave him the gate. For that matter, the li'l sister was plumb through with him when she found out what he'd done."

"You're makin' a long story of it, Dave."

"I'm comin' to business now, The mornin' Tom was killed four of us from the Circle Cross had a camp near the foot of Round Top. There was Tom an' Jas an' Gitner an' myself. We separated to pick up a bunch of vacas to drive back to the ranch. 'Long about sun-up I heard a shot right close to me, over to the left where Tom was. I rode thataway an' met Tom. He was laughing fit to kill an' right away. began to tell me the joke. He'd just seen Miss Ann an' been devilin' her again. I didn't say a word but listened to him dig his grave with his

"I Reckon the Celebration Will Be Later," the Man in the Apron Said Significantly.

tongue. What tickled him so much was that he'd riled her so that she'd shot at him an' he'd pretended to fall from his horse over a dugway like he was dead. I asked him what he'd said to make her so mad. He'd told her he was coming' up to the ranch to see her li'l sister."

The Texan stopped. He looked out of the open door at a freight outfit coming down the dusty street. The mule skinner was using raucous and explosive language. Dave Stone did not see him except automatically. Another picture filled his vision,

"The Gifford woman shot at him an'

missed," the sheriff prompted. "Like I done told you. I said to nim, 'You don't really figure on going back up to the sheep ranch after what you've done?' He come back at me right quick, that he sure did. I taken a hand there an' then. I said he had another guess comin', that I wouldn't stand for it. He got mad an' wanted to know what business it was of mine. Then he began to lay the blame on what had happened on that li'l girl lying in her grave out in California. I told him what he was an' gave him first chance to draw. His gun was in the open when I killed him. It was

me or him an' I beat him to it." "Jas Stark and Gitner didn't know

"No. I couldn't prove it was a fair fight, so I rode back into the chaparral when I heard them comin'. Pretty soon I showed up an' they began to tell me how Miss Ann had shot McArdle. I'd a-told them how it was but I saw Jas was all for hushin' it up

Explosion of Krakatoa Believed to Be Record lava, pumice and dust into the air.

The greatest explosion which the vorld has ever known took place in 1883 when the volcano, Krakatoa, located in the Sunda strait between Java and Sumatra, blew up. "At that time a huge crater stood there, with a rim of islands 2,600 feet above the writes Charles Baker, Jr., in Boys' Life, the monthly publication of the Boy Scouts of America. "The whole cluster of islands were blown into bits, leaving a hole in the sea 1,000 feet deep; 3,600 vertical feet of

rock were thrown aside. "These explosions were caused by steam from sea water in the throat of the new crater meeting the first of the molten lava," continues Mr. Baker, "After the first explosions, water probably chilled the lava to a crust, enclosing enormous quantities of steam within. This finally burst through the chilled crust in the most violent explosion, hurling a vast mass of cool

Sensible Speaker

A good story is told of Edmund Burke, the celebrated English orator and friend of America. A colleague of Burke's, rather a poor speaker, was called upon to speak immediately after Burke had made one of his best speeches. Rising to his feet, he said, "I say ditto to Mr. Burke-I say ditto She sure needs a woman friend. Old lius' swept us all out. Tom had been to Mr. Burke," and sat down.

The sound of the explosion was heard 3,000 miles away. Never before or since have sound waves carried so far on earth. Long tidal waves 50 feet high reached Cape Horn, South America, 7,818 miles away. Thirty-six thousand people were killed. Thousands of ships were destroyed or carried high and dry, far inland."

Famous Irish Race Course 'The word "curragh" derives from the Gaelic cuirrech. Cuirrech means race course and also low-lying or marshy ground. The double meaning is understandable in that flat land would naturally be selected for a race course. The Curragh of Kildare is one of the most famous race courses in the world. Beside the River Liffey, near Dublin, it is the scene of the Irish derby and many other famous races. Also, the great Dublin horse fair is held there annually. In the Tenth century the king of Leinster granted the Curragh of Kildare, which embraces some 4,800 acres, to St.

Silent Mirth

preserved as open land.

A gentleman is often seen, but very seldom heard to laugh.-Chesterfield.

that she'd killed him, so I jus' told the | frightened he would not have jumped so eagerly at Gitner's suggestion. But he quaked like the coward he was at thought of what the little man knew. The terror of it walked with him day and night. Stone was dangerous, a ruthless tool of Nemesls dogging his footsteps to destroy him. He had followed Gitner's logic, that the only safety for them lay in putting an end

Copyright by William MacLeod Raine

Now a way had opened, without danger, with no possible comeback. If Mesa rose up and lynched the murderer of Tom McArdle he could not be blamed in any way.

"Let's go to town, Carl," he proposed. "We gotta find just how things

passed the Circle Cross and stopped "Reckon I'll go back with you, boys," "I would of liked to a-got home, but

The three rode there together. They dismounted in front of Pedro's place. Gitner led the way to the bar. "Free drinks on me today, boys. Everybody welcome, Set 'em up, Pedro."

The process of working up public sentiment for a lynching had begun.

CHAPTER IX

Ann Rides to Mesa

In town with a pack horse for sup- they are, especially the excursions plies, Jim Yerby stopped at the Gilt which take one into the college girl's Edge saloon to get a bottle of snakebite medicine. The old-timer ad- her realm are positively exciting, seemitted that he never had been struck ing that they depart so radically from by a rattler but you never could tell modes that have gone before. when your luck would turn bad. He took the cure in advance to forestall the evil day.

While Yerby talked to the bartender his quick beady eyes darted round the room on voyages of discovery. Something was in the air, something that caused unwonted excitement. The patrons of the place were gathered together in knots, and at the heart of each group a man was talking in a low urgent voice. Jasper Stark was one of the murmuring orators. Another was Carl Gitner.

The bartender took Yerby's money for the bottle of liquor he bought but pushed back the quarter proffered for

"It's on some of the boys today," he explained.

"Why no, I reckon not. Except "A li'l celebratin'?" asked the nester with lifted eyebrows.

"I reckon the celebratin' will be Both of the cowpuncher's hosts had later," the man in the apron said sigbecome instantly intent, but he failed nificantly.

Yerby sauntered to the outskirts of "Why, he's been arrested for killin' the nearest group. It was the one ir Tom McArdle. He rode in today an' the center of which Jasper Stark confessed to Hank Le Page that he sawed the air, done it. They had some kind of a

"You say he was our friend when he did it," Jasper was repeating, in a voice dry as a whisper. "Leave it lay at that. Say he was. So was Tom. But that ain't the point. I wouldn't make no holler if he'd plugged Tom fair an' square in the open. No. gents. I'd go through from h-l to breakfast for him. You're d-n whistling 1 would. If it had a-been thataway, Which it wasn't. Like I been tellin' you, this Texas killer an' Tom had quarreled. Stone told Car' an' he told me that he would sure get Tom. When we saw the Gifford woman lighting out so sudden we figured naturally that she'd done it. All the same, both Carl an' I thought Stone acted mighty an' found us beside Tom's body. He played like he was surprised, an' it didn't get acrost to us. We suspicioned somehow he knew more'n he said. sleeves. Maybe he was in cahoots with Ann Gifford."

to do with this. She's a right nice

young lady." If Jasper had not been thoroughly sheepherding friends, Yerby," he sneered. "But leave that go. Say Stone played a lone hand. Question is: Can a Texas killer come in here an' shoot down our boys from the brush an' get away with it? I'll gamble on it he can't."

> "Meanin'?" asked Yerby. "Meanin' that the boys aim to take

a hand pronto." The nester knew the crowd had been

drinking. He had met before the lust to kill that makes a mob cruel and inhuman. For some reason, he saw at once, young Stark was working up the particularly for town wear. men of Mesa to an act of summary vengeance.

shakin' hands with you. No sense in sleeves of dark brown sable, going off half cocked."

Stone has confessed he did it," Jasper interrupted rudely. "Has he confessed he shot Tom from

the brush?"

The sly and shifty eyes of the Bridget, who gave it to the people as younger man met those of the oldtimer and slid away. "Not necessary. a common. For 1,000 years it has been The facts show it. Carl an' I were the first folks on the ground. Tom hadn't fired a shot. The coward that shot him never gave him a chance."

are now "on." Thrilling events

land o' fashion. The styles shown in There's the new silhouette, for instance. Its narrower, taller, straighter-skirted, broader-shouldered with most of the trimming features concentrating above the waistline. And sleeves! They are a study within themselves. In fact, sleeves are providing most of the novelty which dis-

too, are attracting a lot of attention in that they are mounting higher and higher, adopting a built-up-around-thethroat movement which calls for entirely new designing tacties. As to skirt lengths there is no really radical change. For daytime nine to 10 and sometimes to 11 inches from the ground are being generally accept-

ed, with instep length sponsored for

dressy afternoon and evening wear

reaching to the floor for very most

tinguishes this season's frocks and

coats, sults and blouses. Necklines,

formal occasion. As to color, a goodly share of the honors is going to the browns which are that varied in tones they include every gradation from darkest, deepest dye to a range of those lovely russet and radiant shades which are so highly flattering to most every complexion. Handsome bronzy greens also appear

on the color register. The college girl who elects to include the trio of styles pictured in her early fall wardrobe may be assured of having made three correct choices. The coat of dull red diagonal wool is as practical as it is smart. Note how the sleeves are capped to achieve the proper broad-shouldered silhouette. With the ensemble idea in mind the designer lines this coat with the identical brown wool fabric which fashions the frock.

Ar item of outstanding interest in connection with the young-looking campus frock to the right, made of coco brown rabbit's hair wool with white angora for the blouse or guimpe, is its high neckline and the fact that the sleeves are full and in contrast.

It is taken for granted that every college girl will include a velvet afternoon gown in her wardrobe. The model pictured is of that voguish mat velvet, brown in this instance, the dull finish of which carries an air of refinement. Brown mink fur forms the ornamental bow at the neckline. An unusual buckle of brown composition

and rhinestones fastens the belt. As a climat to this recital of college-daughter fashions we call your attention to the stunning footwear which adds so decided a note of chic. The fact that in each instance the handsome shoes worn are of patent leather carries its own message of what's what in smart footwear for fall. Parent leather and suede oxfords in blended browns co-ordinate with the coat. With her guimpe frock Miss College-girl is wearing brown patent leather shoes with fancy openwork design. A sandal-like lacing enhances the brown patent leather shoes which tune so beautifully to the charming

velvet gown. 6, 1932. Western Newspaper Union,

LUMBER-JACK COATS DECREED FOR FALL

Fall suits will not have the strictly tailored finish of the suits of last season. The short little bellhop jackets funny when he came outs the brush and snug double-breasted models of last year will be replaced by lumberjack coats and loosely fitted jackets with less formal fastenings and wider

The hip-length and three-quarter coats will be favored both for street Yerby spoke up promptly. "Not on and sports wear. One of the new yore tintype. Miss Ann hadn't a thing lumber-jack models is fashioned of a feather tweed, and consists of a straight dress and jacket. The dress Bleaky Jasper looked at him. "Sorry top and lining of the coat are of emif I hurt yore feelings by naming yore | broidered cashmere. The collar of the unusual coat buttons high about the throat. Broadcloth is used for a number of dress suits and velvet is a favorite for restaurant dining and informal evening occasions.

Fur-Lined Cloth Coats

Seen in Early Showings Fur-lined and fur-trimmed cloth coats are featured in advance showings of winter wraps. They are warm without being bulky, and many women prefer them to the all-fur coat,

By ELMO SCOTT WATSON Haste thee, school-boy, haste away
Far too long has been thy stay;
Often you have tardy been,
Many a lesson you've not seen;
Haste thee, school-boy, haste away,
Far too long has been thy stay,
—McGuffey's Third Reader.

LL over the United States during the last two or three weeks there has been a constant repetition of that "haste thee, school-boy, haste away" scene, as the army of Young America has marched schoolwards. And as the elders watched them go, have their minds turned back to their own youth and did there come to their minds the verse printed above? But if the elders should quote the

above verse to their juniors, would the name of McGnffey mean anything to Young America? Probably not! And yet there are those who say that it is the name of a man who was the most popular American of the Nineteenth century, the man who had the largest influence in determining the thoughts and ideals of the American people during that period and the man to whose work many great Americans of the present day pay tribute as being the fountain of their inspiration to aspire and to achieve. Even though a recent popular American encyclopedia gives only 15 lines to this man and the Encyclopedia Brittanica doesn't mention him at all, there are thousands of Americans to whom the tended a public school in America from 1836 down to the end of the century can remember something which they learned in one of the

nev-er

Every little girl and boy in the eighties has been told more than once by his fond but strict parents: "If at first you don't succeed, try, try again!" This poem in its entirety appears in McGuffey's New Fourth Eclectic Reader, "Waste not, want not" was a good old proverb of those days, and we who were taught at an early age that it was a sin to abstain from "licking the plate clean" did not know then that this was the title of a little drama in McGuffey's Fourth Reader, "Lazy Ned," "Meddlesome Matty," "A Mother's Gift, the Bible," "Extract from the 'Sermon on the Mount'" are some of the other well remembered titles.

The Fifth Reader boasts the title: "McGuffey's New Fifth Eclectic Reader: Selected and Original Exercises for Schools." Here we find old friends: "Maud Muller," "Shylock, or the Pound of Flesh," "Effects of Gambling," which begins: also were victors. The Democrats

"The love of gambling steals, perhaps more named W. A. Comstock for governor. often than any other sin, with an imperceptible influence on its victim. Its first pretext is inconsiderable, and falsely termed innocent play, with no more than the gentle excitement necessary to amusement. This plea, once indulged, is the Democrats of South Carolina, Cole but too often 'as the letting out of water.' The interest imperceptibly grows, Pride of superior skill, opportunity, avarice, and all the overwhelming passions of depraved natures, ally themselves with the incipient and growing fondness. Dam and dike are swept away. The victim struggles in vain, and is borne down by the

uncontrolled current." "The Bible, the best of Classics," "Religion the only basis of society." "The Intemperate William D. Mitchell on the bonus army Husband," are the titles of other lessons, and and the regrettable many of these articles are honored by the name of the author in the index. That familiar poem, "The Spider and the Fly," Is given in this reader, "Directions for Reading" are expounded and rules for proper diction are stressed.

It remains for the Sixth Reader to begin with "Principles of Education," which is con-

sidered under six heads:

1. Articulation.

2. Inflection. 3. Accent and Emphasis.

4. Reading verse. 5. The voice.

6. Gesture.

All faults to be remedied are meticulously listed. Indeed, lessons in articulation start with the second reader, and proper emphasis and correct pronunciation are stressed all through the series.

Of the McGuffey Readers, adults are probably most familiar with the Sixth Readers. To rect the many misstatements of fact millions who live today, that work meant the as to this incident with which the literary peak. It contained Hamlet's soliliquy country has been flooded," and "The Fall of Cardinal Wolsey," from "Henry VIII;" Scott's "Lochinvar" and "Marmion and Douglas"; Gray's Elegy; Macauley on "The clared it was misleading generally Impeachment of Warren Hastings"; Tennyson's and absolutely false in certain vital "Enoch Arden"; Poe's "The Raven"; Longfellow's "Evangeline," and "A Psalm of Life."

The McGuffey Readers have had a wide influence. They have been translated into many languages, even the Japanese. Their serious pur- istration. News Review of Current Events the World Over

Startling Victory of Democrats in the Maine Election-Hoover Calls for Big Budget Cuts-Von Papen Triumphs Over Reichstag.

By EDWARD W. PICKARD

in the Republican camps. Maine, normally a rock-ribbed Republican state,

has gone Democratic, and everyone is quoting the old adage: "As Maine goes, so goes the Nation." Whether or not that is true, this September election certainly gives immense encouragement to the supporters of Franklin D. Roosevelt. Nor did the Hoover forces attempt to minimize its importance.

For the first time in 18 years Maine chose a Democrat for governor. He is Louis J. Brann, mayor of Lewiston, whose plurality over Burleigh Martin was nearly 1,400. The Democrats also elected two out of three congressmen the victors being Edward C. Moran, Jr., Rockland insurance agent who twice ran for governor, and John G. Utterback, an automobile dealer who was once reform mayor of Bangor. Congressman Carroll L. Beedy, Republican, was reelected in the First district. Republican National Chairman Ev-

erett Sanders sent a reassuring telegram to President Hoover, but the Chief Executive was not to be deceived. His reply wire said:

"The result of the election in Maine imposes need for renewed and stronger effort that the people may fully understand the issues at stake. We have known all along that, owing to the ravages of the world depression, our fight is a hard one; but we have a strong case and a right cause. Our task is to acquaint every man and woman in the country with the facts and issues which confront the nation.' "We are greatly disappointed," admitted Vice President Curtis. "But it will only make us work the harder, and we will carry Maine in Novem-

Democratic Chairman Farley grinned exultantly as he said he was impatiently awaiting a Republican explanation of the Democratic victory in

"The Democrats do not concede a single state," he added. "I think it must be admitted by Mr. Hoover's supporters that in this particular commonwealth the Democratic prospects were no better, to put it mildly, than in the least promising (from our point of view) of the so-called doubtful states. Maine was no harder bit by the depression than the rest of the country and had no more reason to resent the evasive policies of the administration.

P HMARIES were held in various states during the week. In Michigan Gov. Wilher M. Brucker, Republican, easily won renomination and Representatives Walcott and Person Senators George H. Moses of New Hampshire and Porter Dale of Vermont were renominated by the Republicans, as was Senator E. D. Smith by Blease being rejected. In Louisiana Representative John H. Overton, friend of Senator Huey Long, defeated Senator Broussard who sought re-

Of greater importance to the Legionnaires than this affair was the demand for immediate cash payment of the bonus. The resolution calling | election is expected in the near future,"

GREAT rejoicing among the Demo-crats, and corresponding dismay for this was adopted by a vote of 1,167 to 109 after a noisy debate. The delegates thus disregarded the warnings of President Hoover and General Hines, director of the veterans' bureau, that the payment would cost the treasury between two and two and one-half billion dollars and impose an intolerable burden on taxpayers.

Other resolutions adopted called for repeal of the Eighteenth amendment and immediate modification of the Volstead act, opposed cancellation of foreign war debts and favored adequate national defense. Chicago was selected for the 1933 convention, and Louis A. Johnson of Clarksburg, W. Va., was elected national commander.

How the problem of intergovernmental debts may best be solved is the puzzling question that is now being considered by a new organiza-

ler, president of Columbia university; James M. Cox, former governor of Ohio; John W. Davis, former ambassador to Great Britain; Frank O. Lowden, former governor of Illinois; E. A. O'Neal president of the American Farm Bu reau federation, and Louis Tabor, master of the National grange.

Nicholas Murray But-

Mr. Sloan's new forum, it is announced, will devote itself to "mobilizing practical opinion" on the international debts question.

DRESIDENT HOOVER started off

the week well by calling on the heads of departments and the executives of all other federal activities to cut out all non-essentials from bugget requests for the next fiscal year. The President said he had requested Director of the Budget Roop "to make every offort to secure a reduction of at least \$500,000,000 in the estimates of appropriations for the next year from the appropriations made for the current year, and the co-operation of the responsible administrative officers is necessary to achieve this end. A part of this can be accomplished in reduction of construction, activities which have been so greatly speeded up during the past

few years as an aid to employment." From administration sources it was learned the President hoped the total budget reduction might be \$800,-

Just before sending his message to department heads, the President announced that the government would go ahead with that portion of the construction program which the relief act made contingent on the ability of the treasury to raise the necessary money. He said he had instructed the various departments to speed up the program by the amount of slightly less than \$200,000,000.

On Tuesday the War department, to advance the government's employment relief efforts, approved a great construction program that calls for the expenditure of \$41,577,260 on flood control and rivers and harbors projects. The department expects these activities will provide work for 25,-000 persons now jobless.

THOUGH supported by only oneernment of Chancellor Von Papen of Germany remains in power, for it has

the backing of President Von Hindenburg who seems to agree with the chancellor that parliamentary government in the reich is a fallure. When the reichstag met Monday Von Papen tried to read the command for its dissolution given him by the president, but

Herman Goering, the Von Papen Nazi president of the

4800

parliament, refused to recognize him until after a vote of non-confidence in the government had been moved by a Nazi and carried by an overwhelming majority.

Von Papen walked out, leaving the decree of dissolution on Goering's desk. That gentleman announced it was not valid since the reichstag had already overthrown the cabinet. Later he admitted that both the dissolution and the vote of non-confidence were legal, after being rebuked by the president for his action. Government officials said there would be new elections within sixty days, according to the constitution, but the Deutsches Zeitung, mouthplece of the government, said: "There will be no new elections-no decision on a date of

A S WAS forecast a week ago, France rejected the German demand for equality of armaments, though in a conciliatory way, asserting that the other allied nations and also the United States would have to assent to the proposal before it could be granted. Chancellor Von Papen thereupon announced that German delegates would not attend further sessions of the disarmament conference, which reassembled Wednesday.

FROM Riga comes the interesting statement that Josef Stalin, dictator of Soviet Russia, has lost his influence and before long will be replaced as secretary

shilov

ter man, however, is a devoted disciple of Klem E. Voroshilov, commander of the Soviet armies, so it is taken for granted that Voroshilov will thereafter direct the K. E. Voro- policies of the Communist party and of the nation.

he holds-by M. L.

Stalin's reign, it is said, is being brought to a close because of failure of the five-year plan to industrialize the country, coupled with the growing shortage of food, which is causing workers everywhere to desert the industrial undertakings and return to the villages.

Another reason for the fall of the dictator is said to be Moscow's hope to obtain American recognition by a radical change of internal policy. Voroshilov is anxious to obtain America as an ally against Japan, whose plans, Russians fear, threaten Siberia.

MANCHOUKUO, the "independent" state set up by Japan in Manchuria, is now a full-fledged nation for Japan gave it recognition by signing a protocol Thursday at Changchun, which city was re-named Hsinching, meaning "New Capital." There was great rejoicing in Tokyo and a display of intense resentment in Chinese cities.

C HILE narrowly escaped another revolution during the week. A military clique led by Col. Arturo Benitez, air force commander, served notice on Carlos Davila, the Socialist President and former ambassador to Washington, that unless he resigned the Presidential palace would be bombed or attacked by troops. The clique already had forced the resignation of the cabinet, and the men and planes of the air corps gathered at Santiago ready for action. So Davila gracefully stepped down and out, saying he would leave Chile and probably would seek a job in journalism in some other country.

GATHERED in Sloux City for the purpose of considering the needs of the farmers, governors and other representatives of nine middle western states outlined a proposed federal program for financial aid to farmers. Among other things they suggested tariff revision to protect farm products, "sound" expansion of currency, Reconstruction Finance corporation loans to farmers, a moratorium on farm mortgage foreclosures and crop surplus control legislation.

This program seemed fairly satisfactory to the farmers who were on "strike," and there was an immediate decrease in the picketing that had kept much farm produce out of several large cities, especially in Iowa,

FOR several days it was believed the "Flying Family," made up of Mr. and Mrs. George R. Hutchinson, their two small daughters and a crew of four, had perished off the coast of Greenland on their flight by stages to Europe. Their buge amphibian plane was forced down and smashed in the ice, but all of them were found alive and unhurt in an Eskimo settlement and were taken to Angmagsalik by the British trawler Lord Talbot. The projected flight of the Hutchinsons over Greenland and Iceland was not approved by the Danish government, and the taking of the children has been severely criticized.

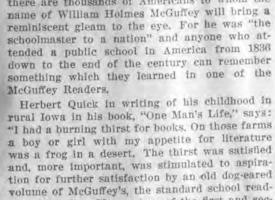

R ECEIVERS for the Insull Utility Investments, Inc., report to Federal Judge Lindley in Chicago that the concern is hopelessly insolvent, its assets being \$27,473,364 and its liabilities \$253,984,341. Aside from the \$148,000,000 which 51,678 persons invested in the stock of the corporation and lost, there still remains a deficit of \$78,474,403.

That apparently wipes out the purchasers of \$58,645,028 of debenture bonds in the company, with still a deficit of nearly \$20,000,000. That is nearly half of what the bankers loaned the corporation.

FOUR years ago John D. Rockefeller, Jr., conceived the idea of restoring the old town of Williamsburg, Va., to the conditions of colonial days. The first step in the project, the restoration of the historic Raleigh tavern, has been completed, and the structure, rebuilt on the original site and furnished in the style in vogue 150 years ago, was opened to the public on Friday. This one item has cost more than \$200,000 of the \$5,000,-000 Mr. Rockefeller has contributed for the entire work.

Close by the tavern, which is sitnated on the Duke of Gloucester street, is the old Colonial Capitol building, another of the structure which has been included in the restoration plan and which is now nearing completion.

REPEAL

It is quite true, as United States Senator Barbour of New Jersey now points out, that his resolution for repeal was the first and only one introduced into the Senate.

It is equally true that he attempted to have his repeal resolution acted on after the Democratic convention in Chicago which had gone on record at the instance of Alfred E. Smith for repeal. However, Democratic Roosevelt supporters in the United States Senate blocked Mr. Barbour's repeal move.

Apparently they were for repeal and immediate modification at the convention as so much molasses to get the votes in the industrial Eastern States, but were not actually for it when it came up for action in Congress.

Regardless of the Democrats' action, Senator Barbour was for repeal when he entered the Senate, introduced a resolution to bring it about and fought for it in spite of the opposition of Democrats who were legislatively dry but wet at political conventions.

What the people who favor repeal need is to have a represen tative in the United States Senate like W. Warren Barbour, who will fight and vote for repeal.

SOMERSAULT

A short time prior to the Democratic convention in Chicago, Governor Roosevelt issued an ignorant blast to the effect that the Reconstruction Finance Corporation, organized by President Hoover, had given of its funds primarily to a few large banks in New York and Chicago and t othe railroads.

On the next day former Superintendent of Banks of the State of New York, McLaughlin, a staunch Democrat, came out with the statement he was amazed Mr. Roosevelt did not know better. He pointed out that the New York Banking Commission could have informed him that the principal banks aided were small ones band and escort him to the hall. Without any flair and without any trumpets, the Reconstruc- A. O. H. Goes to Trenton tion Finance Corporation made advances to some railroads that

Entirely aside from the very human end of seeing that the insurance companies are able to take care of death benefits through hary unit of the order went to Trenprotection of proper investments in railroads, it is a question of the railroads being able to transport food and other supplies from one part of the country to the other with a certain amount of celerity. Auto trucking certainly is not in a position to replace the railroads Metuchen where other units joined on long hauls. Without the railroads the farmers could not exist, and all moved on to New Brunswick and without the products of the farms the rest of the population where still other units fell in. A could not carry on.

So the situation is not as simple as Mr. Roosevelt first thought it was when he attacked the Reconstruction Finance Corporation for lending to the railroads. He now comes out only last week and states that the railroads must have every posible assistance and alludes to the fact that insurance companies are heavy investors in were pleasing and unusual. the railroads through the purchase of bonds.

It is regrettable and pitiful to think that a candidate for President of the United States after the campaign is on should have to come to the realization that the protection of the railroads of the country is essential to the existence of the nation.

HEALTH HINTS FOR AMATEUR ATHLETES

JAMES J. CORBETT Former Heavyweight Champion of the World

13. NOW FOR THE SUMMING UP Final Article of this Series

In the twelve former articles in this series we have pointed out how any boy or girl can fit himself or herself for participation in sports, how to get on the road to health and to build up strength and stamina.

Not one of the rules we have laid down is hard to comply with. And those who will follow them will find themselves better in every way. Those who did follow them undoubtedly found greater pleasure in sports, too.

All the articles were based on the rules of health that are followed by healthy grown-ups. They were intended not only to enable you to enjoy sports, but to build up your bodies and mind-to equip you for the battle of life. In a few years you will be men and women and if you have sound bodies and sound minds your way in the world will be made much easier.

AT PRESIDENTS COUNCIL

Several members attended the Third District Club Institute and President's Council which was held Tuesday morning and afternoon at the Packer House in Sea Girt. The nated a Club Institute as a place where members could get together to discuss problems which were common to all of them. She said members in clubs should be constructive critics, not destructive critics. Mrs. Ropes said also that the responsibility of a club should not lie only with the president but should be mutually shared with the members. She advocated that membership in women's clubs should not be limited because opportunity should not be limited and Woman's Clubs are opportunities for learning and sociability. The speaker, in a very interesting manner, also gave the members and presidents valuable points on parliamentary procedure in clubs. In the afternoon Mrs. Isaac Gil-

Wake Up Your Liver Bile -Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it, They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels

If this rate is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned. It takes those good old CARTER'S LITTLE

LIVER PILLS to get these two pounds of bile

flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't nsk for liver pills. Ash for Carter's

BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

PETER RABBIT SEES THINGS HAPPEN

DETER RABBIT sat on the bank of the Laughing Brook staring across at a little bole near the top of the big sandbank opposite. Billy Mink had just vanished in that hole and Peter knew why. He knew that that hole was the entrance to the home of Rattles the Kingfisher, and he knew that somewhere back beyond that entrance was a nest, and in it were the babies of Rattles. He knew, too, that it was for those babies that Billy Mink had entered that hole in the sandbank, that Billy meant to make a dinner of them.

Tears were in Peter's eyes as be stared across at that little hole, for there was nothing he could do to save

Billy Squealed and Then He Rolled Over Down That Steep Sandbank.

those babies. He didn't want to stay. and yet somehow he couldn't make up his mind to go. He knew just how dreadfully Rattles would feel when he returned and found that home empty. and it made his heart ache. So he sat staring at the hole in the bank across the Laughing Brook and wishing with all his might that there had been some way for him to save those baby kingfishers.

Suddenly he noticed sand begin to trickle down from the edge of that hole. First there was a little, then more and more. Strange noises reached him, smothered noises. There was an angry spitting sound and growls and little squeals of pain. No baby kingfishers ever made sounds like that. What could it mean? Peter crept to the very edge of the bank and stared across with eyes that looked as if they were trying to pop right out of his head. He didn't have long to wait. More sand poured out of that hole. and then the tail of Billy Mink followed by Billy's long slim body. Billy Mink was backing out of that hole. and he was doing it in a hurry!

Just then there was a sharp rattle

Big Help to Yanks

Johnny Allen, though a first year man with the New York Yankees, is classed as a veteran because of his impressive string of winning games. His right-hand pitching has done considerable toward keeping the Yankees at the top of the American league column, Johnny, once a hotel clerk in Greensboro, N. C., came to New York from Toronto.

from up the Laughing Brook, Rattles the Kingfisher was bringing home another fish. He reached the sandbank just as Billy Mink was half way out of the hole. Dropping the little fish he had brought, Rattles shot down like a fury and his sharp bill struck Billy Mink, leaving a red mark where it had torn Billy's cont. Billy squealed

and then he rolled over and over down that steep sandbank. He didn't stop to come down gracefully. No, sir, he just rolled over and over any way to get to the water.

Billy Mink was a sorry sight. He certainly was. His coat was torn and there were bright red marks on the top of his brown head, Hardly was Billy out of that hole when the spearlike bill of Mrs. Rattles followed, and then she herself, as angry a kingfisher as ever was seen. As Billy dived into the cool, welcome water of the Laugh ing Brook both Rattles and Mrs. Rattles shot after him. But they were just too late. Then, rattling excitedly, they hovered over the water waiting for Billy to show his head. But he didn't show it. He knew all too well what was walting for him. He swam under water until he could crawl out for air at a place where the bank overhung the water and he couldn't be seen. There he licked his wounds and then, whimpering softly, made his way down the Laughing Brook toward the Big River, taking the greatest care to keep out of sight. He had lost all appetite for young kingfishers.

As for Rattles and Mrs. Rattles, they flew about excitedly watching for Billy and ready to give him more punishment. At last when they were quite

TALES OF THE

Watson JOHN OTHERDAY

By

Editha

L.

Out in a cow pasture, some twelve miles from Wilmot, S. D., there is a Place a leaf or two of crisp lettuce lonely grave. on each salad plate. Place a slice of

There is no headstone to tell who lies here. There are no lovingly-planted flowers to brighten the spot. Two er with a thick slice of orange, top or three small stones mark the location-stones which a child could roll down into the creek which flows by.

serving pour over the following sirup: Yet in this little-noticed, unkept grave lies the dust of John Otherday, the juice of one orange and one-half a lemon. This will serve four salads.

He was a Wahpeton Sioux, born at the beginning of the Nineteenth century, and his early manhood was not what we would expect from heroes. toes after slicing off the top. Sprinkle Passionate and revengeful, he killed well with salt and pepper. Cook two several of his tribesmen in drunker tablespoonfuls of butter with one-half rages. Here, surely, was not the matablespoonful of chopped onion for five terial from which good citizens are minutes. Add one-half cupful of made.

chopped cold veal, one-half cupful of Bravery, however, was a virtue which Otherday always possessed. In son with salt and pepper. Cook five one of the fierce battles between those minutes and fill the tomatoes with this life-long enemies, the Sloux and the mixture. Place in a buttered pan, Chippewa, he carried a severelysprinkle with buttered crumbs and wounded tribesman from the field, and later in the day saved the life of another. Thus the scales might be said to balance, for though he killed on one Take one cupful of milk, three egg hand, he heroically saved on the other.

I do not know what changed Otherday into the man he became. At any rate, when he decided to become as nearly like a white man as an Indian could, he went at the task with the intensity he showed in everything. He became a devout church member, and dressed in white man's clothing,

This, perhaps, was not unusual in Itself, but the "Spirit Lake massacre" proved Otherday to be a sincere friend of the white man. Inkpaduta, a hostile, renegade Sioux, with his followers killed the settlers at Spirit Lake, S. D., and carried off two white women, Abigail Gardner (later Mrs. Sharp) and Mrs. Noble. Otherday and anoth er Sioux, a chief, offered to attempt a rescue, and followed the dangerous band at the risk of their own lives. Mrs. Noble died before the friendly pair won through to them, but Miss Gardner was released.

Otherday was fifty-six years old at this time. The exciting events of his life, especially this latest exploit, were enough for one person to have experienced, surely. He had married a white woman, and lived comfortably in a house built for him by the agent of his reservation. It is unlikely that he expected further adventures-he had certainly earned a peaceful life for his later years-and it is doubtful if he ever longed for other deeds of valor to perform.

But his service was not over; in fact, it may be said to have scarcely begun. The Sieux outbreak of 1862, in which hundreds of Minnesota settlers were tortured and killed, aroused the entire region. Somthing must be done,

and done quickly. John Otherday, Sioux, one of the very tribe whose anger had flamed forth in such dreadful might, heard the call again. He was sixty-one years old, but he knew that he must answer. There was a wilderness be tween the besieged settlers and Saint Paul, where they would be safe. The people needed a guide, lest they become lost and die as they fled.

Sixty-two white persons were gathered by Otherday. He led them through to Saint Paul safely, and then turned back to the frontier to offer every aid at his command.

General Sibley and his troops having been ordered to quell the uprising, Otherday became attached to them as a scout, fighting against his tribesmen. It is said that "no person in the field compared with him in the exhibition of reckless bravery." He dressed all in white, and it was his custom to go so far in advance of the troops that they often fired at hlm, mistaking him for an enemy. Remember the age of John Other-

day; it seems incredible that he could kill several younger men, Sioux warriors, and take their horses, but a man who had lived through adventures enough to fill several lives, found this feat not so difficult. At the close of this war, the valiant

old Sioux was granted the sum of \$2,500 by congress. He bought a farm, and tried to succeeded at agriculture, but it was too late for the war horse to begin drawing a plow. Finally he moved to the Sisseton and Wahpeton reservation, where he lived only a short time, dying of tuberculosis, and was buried on the land which he had hoped to some day own. There is a monument at Morton,

Minn., erected in honor of Otherday and the three other Christian Indians who showed their loyalty so heroically during the Sioux uprising. But only now, more than sixty years after his death, a movement has begun to mark the grave in a fitting manner. I suggest an epitaph for the stone:

"Here lies the body of an Indian, which enclosed the soul of a white man."

(©, 1932, Western Newspaper Union.)

"Inland Islands" Britain's "inland islands"-land sit-

nated in one county but under the jurisdiction of another-will soon disappear, according to recent reports. Neighboring countles in which these "islands" exist have decided to exchange their "foreign" territories. The change will simplify administration work, but it is meeting some opposition from those who for sentimental reasons regret the passing of this "pe culiarly English anomaly."

Los Angeles Boy Needed Help

Leroy Young, 1116 Georgia St., Los Angeles, is a "regular fellow," active in sports, and at the top in his classes at school. To look at him now, you'd think he never had a day's sickness but his mother says: "When

with him. He was fretful, feverish and puny. "When we started giving him California Fig Syrup his condition improved quickly. His constipation and biliousness stopped and he has had no more trouble of that kind. I have since used California Fig Syrup with him for colds and upset spells. Mighty Is Wealth Ovaltine-Money talks. Asperin-In this country it not only talks; it votes.

WARNING to PROPERTY OWNERS

TODAY a letter came to my desk that deeply impressed me. It was written by a woman - the mother in a typical American family. Her little home had been saved from foreclosure by a coat of new paint, for which a part of their meager savings had been paid.

Those few gallons of fresh paint had so revived the appearance and enhanced the value of the property that the mortgagee had consented to renew the loan . . . and the little home was saved.

I could not help thinking of the thousands of homes and buildings that are shabby and unattractive today due to several years of neglected painting; of the millions of home owners who, because of reduced incomes and enforced economy, have been obliged to sacrifice painting for taxes, interest, assessments, to say nothing of food, clothing, heat and other essentials of comfort and health.

You have seen these paint-starved houses and buildings, as have I. They are everywhere about you. Perhaps your home is included.

Do you understand what they signify? Do you realize what will happen to wood or metal that is literally naked of paint if these houses and buildings face the attack of another season of rain, snow, ice, and frost?

Never in the history of our country has the situation been paralleled. Property owners face an added burden of expense amounting to millions of dollars for repairs and replacements next spring.

And the crisis, in my opinion, will be reached this coming winter when paint of four, five, and even six years exposure to the weather will be unable to resist the elements -when badly weathered wood and metal will be easy prey for rot, rust and decay.

Today the big question facing thousands of property owners is plain. It is "paint or pay." Either you must invest a little this fall in new paint or you must take the risk of

paying many times the cost of paint to repair the damage done by rot, rust and decay this winter.

Even at the sacrifice of other things, have your house or buildings completely repainted now. No investment you can make will pay better dividends. And nothing you can buy will make you and your family feel so uplifted and cheerful.

If you cannot arrange to do a complete repainting job now, at least give the badly weathered places a coat or two of protecting paint.

Look especially, to the window sills, thresholds, outdoor porches and steps; the joints of porch railings and palings; the bases of pillars; the edges of eaves; the roof; the gutters and down spouts. These are the vital spots where water lodges—where ice and frost settle-where rot and rust attack first.

A few dollars' worth of good paint, applied now, will protect these vital spots-will tide you over this crucial winter. And it will probably save you a much greater expense for repairs and replacements next spring and summer.

Under existing conditions, you may be tempted to buy a cheap paint because of its low price. I hope you will not make this costly mistake.

Even on sound lumber, inferior paint is a poor bargain. But on weathered wood, which is very porous, such paint is worse than useless. It gives you a false feeling of security and leaves you without protection.

Prices of well-known, established brands of paint are now the lowest in fifteen years. Enough good, dependable paint can be purchased for a few dollars to protect all the badly weathered surfaces on your building.

Again I repeat, do a complete job this fall if you can. But at least do the vital exposed places before it is "too late."

Fine Stories Have Been Written About Billy Urbanski and Joe Medwick

Made Good With Cards

Joe Medwick, the former local high school athlete, is continuing to make his mark in the National Baseball League as outfielder for the St. Louis Cardinals, incidentally keeping Carteret on the map, Joe's big contribution during the past week was a home run and a triple in three visits to the plate while playing on the field of the Boston Braves. This was in the first game of a double

HOW PEOPLE THINK

In the second game, Medwick contributed a single and a double.

Already he is batting well over .300. He has made but one error in the field. In the two weeks play he has accumulated two homers, as many triples and a creditable collection of doubles. This does not take into account the last couple of days performances.

Among the experts who predict a bright future for the Carteret youngster are Charley Grimm, manager of the pennant leading Chicago Cubs; Burt Shotton, leader of the Phillies and Pie Traynor, star of the Pittsburg Pirates.

Fine Fielding Play

One of the finest bits of fielding turned in during the recent series in Philadelphia was when Joe nailed Chuck Klein at the plate on a perfect throw from deep center when the Quaker City slugger attempted get in line. to score from third on a fly. It must be remembered that Klein is considered one of the fastest men in the National League.

Medwick has been hitting all kinds of pitching showing that he has not been paralyzed with fear whenever bit nearer than Maine or Wisconsin, big names are mentioned. We mean by big names the names of the leading pitchers of the National League. When he played against the Dod- of unnecessary jobs and payroll regers over in Brooklyn, he ill-treated ductions. It is not because Mr. Mcthe slants of Dazzy Vance and was | Kee wants to do it but because Mr. equally rough with the star hurlers McKee has the good sense to know of the Boston Braves.

Joe is getting write-ups in the that everybody else has contributed leading papers throughout the entire and contributed until it hurts and in country as well as many in his native State. In all the write-ups McKee, up until he started this work, reference is made to the fact that the slugging St. Louis player graduated from Carteret High School in

His Bat Record Reviewed

One of the New Jersev papers refers to the fact that after graduating from high school here, Joe joined the Scottsdale Club of the Middle Atlantic League where he pounded out 22 home runs and batted .402 to lead the league. The same paper says he performed for on Wheeler avenue, Sunday night, the Houston Buffs of the Texas October 16. League last year compiling an average of .305, in addition to leading the league in home runs, total extra bases and runs batted in. This year before he joined the Cardinals, Medwick had piled up a batting average with Houston of .356.

Two Out of Three Wednesday

While Dizzy Dean was shutting out the Cincinnati Reds, Wednesday, Medwick made a double and single in three official times at bat. He did not knock in any of the two runs, but scored one. He stole a base.

The whole baseball fraternity claims that Medwick has made good with the Cardinals. Manager Street does not plan to let him go as some though he would.

Three Out of Four

In vesterday's game between the Cincinnati Reds and St. Louis Cardinals, Joe Medwick amassed three dent Citizens Club for a dance to be hits in four times at bat. The Cards held at the German Lutheran hall on won the game, 8-5 Medwick knocked Saturday night, October 22. in one of the runs, and scored one.

BOARD ACCEPTS TEACHER'S PROPOSAL

WANT TOWNS TO HOFFMAN SPEAKS PAY 25% OF COST

Entire Cost of Project Would Run Over Million Dollar Mark-Six Surveys Unfavorable.

The Rahway River Commission appeared before the Rivers and Harbors Board on Monday in Washington to request that the original report of the United States District Engineer favoring a 12-foot channel in the Rahway River be approved.

It appears the District Engineer recommended a 12-foot channel 120 feet wide from the mouth of the Rahway River up to Highway Route No. 25 bridge near the Reformatory. The estimated cost of this was \$982,-000.00. The yearly maintenance work was \$20,000.00 running the cost well over one million dollars.

The recommendation of the District Engineer was that the work be done in sections. The first section was to run up to Lambert's stone yard in Linden just above the Fast Line cross-over. The second section was to be from that point up to Route No. 25 Bridge

The proposal of the District Engineer was that 25 per cent of the cost be provided to be the three muni-cipalities - Linden, Carteret and Rahway-before the Government did any work at all 25% of the cost would be one quarter of a million dollars. In addition the municipalities are to put up public docks and Prompt Action Averts provide suitable area for disposal of dredged materials.

The report of the District Engineer admitted there is no traffic on the river except some barge loads of Tuesday morning in the two-story broken stone and mason materials tenement house at 27 Persbing avethat go to P. AT G. O. P. RALLY

Republicans Have Big Turnout Last Saturday.

Motor Vehicle Commissioner Harold G. Hoffman was greeted by a capacity turnout at the Republican rally held in Sokol hall, Saturday night in one of the largest political turnouts held in the Borough. The Commissioner was met at the Borough line by the Carteret Post of the American Legion. His entrance into the hall was a signal for a tremendous and prolonged outburst of cheering and hand-clapping.

Former Congressman Hoffman, who served this district for two terms and who was reelected by the greatest majority ever given a candidate, especially praised Congressman Charles Aubrey Eaton who is candidate in this district. Mr. Hoffman dwelt on Eaton's splendid training, his experience in Congress and nis nation wide reputation as a gressman Eaton's well known abili- behalf of the Hebrew Social Alliance volunteered to help in making up ties as a speaker is a special advantage on matters if importance to a district are upon the floor of Con-

NEW YEAR GREETINGS

Mr. and Mrs. S. Srulowitz and family wish their friends a Happy

The Board of Education finally got around to action about getting some contribution towards the taxpayers' plight from the over-paid employees of the Board of Education.

It was understood that several

meetings were held prior to the dismissal of school in June with the employees and there was much puffing and bluffing about what was going to be done. At that time it was stated it would be nothing less than 10%. However, despite the fact that the School Board meeting had been held all summer, no plan was formulated and taken up with the employees on the return of the school teachers from the vacations

in Europe and other places. This, too, even though the janitors, panic-stricken afraid the matter would be put to a vote of the people on the ballot, had implored the Board of Education during the summer to accept a month's pay from them. When the Board tock no action on the plea the spotesman for the janitors wanted to know what was going to be done about their petition. If the question is ever put up to the people and kept out of the hands of the political ring, the whole gang will find out what will

shoot him down.

go with me quietly."

"Go-go where?"

self out of trouble.

spot and murder him.

rest," Jasper quavered.

say to you

rupted."

hurt."

dry creek.

THE DESERT'S PRICE

Wilson McCann, young Arizona ranchman, finds an old friend, Jim Yerby, with a broken leg. Julia Stark, daughter of Matthew Stark, inveterate enemy of the McCann, is with him. Jasper, Julia's brother, attempts to assassinate Wilson. Ann Gifford, with her young sister, Ethel, are sheep raisers, and on that account impopular with the cattlemen. "Night riders" shoot a McCann rider. Peter McCann, Wilson's father, offers a reward for the disclosure of their identity. Wilson McCann horsewhips Jasper, he making practically no resistance. Matthew Stark posts notice he will kill Wilson McCam on sight. Ann Gifford's tragedy is the fate of her dead sister, Nora, betrayed and abandoned by her lover. Jasper Stark and Carl Gitner, known as a "killer," hold secret conferences. A Stark rider, Tom McArdle, is believed by the Starks to have been killed by the McCanns, but rumor links his name with that of Nora Gifford. Matthew Stark is killed, from ambush. Julia finds him dead, with Wilson McCann stooping over him. She and Phil, her younger brother, accuse McCann of the killing, despite his vehement denial. Wilson is shot from the chapparal, while standing over Mat-thew Stark's body. Believing him dying, the Starks have him taken to their home. Dave Stone, Stark rider, a Texan with a record as a "killer," openly doubts Wilson's guilt. Jasper is disinherited by his father's will. Wilson Mc-Cann is restored to health. Jasper Stark, despite the girl's aversion, seeks to persuade Ethel Gifford to marry bim, holding over her the threat of revealing Ann as the slayer of Tom McArdle. Ann drives him from the ranch. Later she admits to Ethel that she killed McArdle, Nora's betrayer. No action as to Matthew Stark's killing is taken. An anonymous letter to the sheriff charges Ann Gifford with McArdle's murder. Dave Stone, hearing of this, confesses to the sheriff that he killed McArdle, the slaying being the result of Mc-Ardle's betrayal of Nora. Stone is confined in the jail at Mesa. Jim Yerby finds Jasper Stark and Gitner urging the lynching of Stone for McArdle's murder.

CHAPTER IX-Continued

-10-"We ain't aimin' to tell it to no Jury. We ain't allowin' to let some slick lawyer talk him of. Not none. This town aims to see justice done, to show these bad men who come in an' kill our citizens that we won't stand for it a minute."

The gray-haired little man rubbed his unshaven chin and tried again. "Boys, it's a mighty serious business to make a misrake an' take a man's life without giving him a show to tell the courts his story."

A big hook-nosed man, the worse for fiquor, laughed savagely. "You're right, it's serious. Dave Stone's liable to find that out. Jas is e'rect. This fellow had ought to be strung up to a telegraph pole. Me, I expect to do some pulling on the rope that's round his gullet."

The fierce murmur of assent told Yerby that opposition was useless. Argument was a waste of time.

He moved away reluctantly, forgetting to take his snake-bite medicine with him when he left the saloon. For he was troubled. This thing was wrong, he felt. Yet he did not know how to prevent it.

At Basford's he found little encouragement. On the porch were Simp Shell, a cowpuncher whom he knew as Red, and Medford a tenderfoot clerk. Simp wanted to know in his indolent drawling voice what was new.

"Why, nothing I reckon, except-Say, Simp, the devil's broth is brewin' in town today. The boys are aimin'

to lynch Dave Stone." "Looks thataway," admitted Shell. "I'm not for it myself after he come in an' give himself up-not till we

hear the right of the story, but of course if they're h-l bent on it-" The nester shook his head, "Some-

thing queer about this deal. I don't get it a-tall. Me, I don't hold with these killers. Time we settled down an' became decent folks an' law-abidin' citizens. But there's somethin' about Dave Stone-well, I guess he's a killer all right, but I'd trust him all the way an' back.'

"But Jas Stark says-"

"I know what he says, an' wouldn't trust him any farther than I could throw a bull by the tail, neither him nor that Carl Gitner. They're bad eggs, both of 'em. There's somethin' back of this, I tell you, if we knew

"Stone had a talk with Le Page an' then shut up like a clam, I understand. Hank's gone to Tucson on business."

"He has?" Yerby's thoughts moved fast. "Then they aim-the Circle Cross outfit does-to get Stone outa jail an' hang him while Hank's away. They'll do it, too, sure as you're a foot high."

"I ain't allowin' to stop 'em, Jim. Are you?"

"I don't know as I am," Yerby conceded reluctantly. "But looks to me like the decent citizens would get together an' serve notice that there would be nothin' doin' in necktie parties far as this case goes."

Simp's forefinger fanned the air. "Now tha's right where you're 'way off, Jim. If Jas was fixin' to hang you why I reckon some of us would wake up an' ask some questions. But this Stone-why, we don't care a billy-bed-n whether he gets hung or not. They're all in the same crowd-no-'count triffin' fellows hellin' around an' makin' trouble for the rest of us, There's just one plain word for killers. They're cold-blooded murderers. Most of 'em would just as lief shoot a man in the back as in front. Point of fact, they'd rather, if they think they can get away with it, because there's less danger in it. You can't get me to shed

any tears about this Stone.' Yerby tried one or two other representative citizens elsewhere and met with the same lack of response. The general sentiment was that neither Jasper Stark nor Carl Gitner were any good but so long as they confined their attention to Stone they might go as far

The little man gave up with a shrug of his shoulders. The feeling of the

(WNU Service) Copyright by William MacLeod Raine

all, Stone was a "bad man" and probably deserved the fate hanging over Yerby loaded his supplies on the pack horse, arranged the lash rope, and threw a squaw hitch. Presently he was out of town and headed home-

On the way home 'erby stopped at the sheep ranch to leave a sack of flour and some coffee he had bought for the Giffords. Ann came to the door at his call.

"Miss Ethel not home?" he asked. "No. She rode out with a message

for Tony." "Maybe just as well. I got news for you, Miss Ann."

A bitter smile broke the lines of her thin sardonic face. "News is always bad news for us," she said. "What is it?"

"I don't know as you could call this right bad news. That Dave Stone of the Circle Cross outfit has give himself up an' confessed that he killed Tom McArdle."

Ann was literally struck dumb with astonishment. She stared incredulously at the nester.

"Dave Stone says he killed McArdle," she repeated.

"Yes, ma'am. Come through clean as a whistle, they say. Sheriff Le Page he give it out himself. I didn't get to talk with him, because Hank's outa town. Gone to Tucson, I hear, I'm right sorry about that, too, hecause he'll be needed in town tonig' looks like. Some of the Circle Cross outfit are makin' trouble. They're aimin' to break into the jail an' lynch Stone.

Beneath the tan the color faded from the face of the young woman. "Because he killed Tom McArdle?" she asked in a hoarse whisper.

"Tha's why. Jas Stark is stirring up feeling. Him an' that Gitner."

"I'm going to town," Ann announced, "Can you go with me?"

"Why, I reckon so," he replied, taken aback. "But Mesa ain't any place for a young lady like you-allnot tonight. The lid's off an' there's certainly going to be wild times. You can't do a thing. I know, because I did my darndest. They're h-lbent on going through with this,"

"I can tell them the truth-that I killed him myself,"

It was his turn to stare. "McArdle?" he asked. "You killed Tom?" "Yes. I'll tell you all about it on

the way. But let's get started-please. We may be too late already." Yerby went to the corral, He

roped and saddled a horse while Ann changed her dress and wrote a hurried note to Ethel. "Miss Ann, you ain't gonna be able

to put it over," the old-timer warned her. "I'm scared to death you'll git into trouble yore own self. I hadn't ought to let you go to Mesa."

"I'm going," she told him with finality. "When I tell them I did it and why-" "I've been in mobs," he persisted.

"I've heard 'em roar when the pore devil they was waitin' to hang was brought out. It's awful.

"I've got to do what I can." She swung to the saddle and started down

There was nothing for him to do but

When they came to a long hill and were forced for a short time to walk the horses he once more remonstrated

"If it would do any good I wouldn't say a word, Miss Ann. But it won't."

"Do you think I can sit still and let them kill a man I know is innocent?" He knew by the set look in her young face, the intentness of her gaze, that she could not be moved from her

in silence. "He claimed he did it, Miss Annwent in and told Le Page so. Whyfor did he do that if it ain't so?"

purpose. But he could not consent

"I don't know." A faint flame of color beat into the cheeks beneath the tan. "But how could be have done it when I-when I shot Tom McArdle

"If you'll tell me the story, Miss

She told it, almost as she had done to her sister, just as she had gone over it in her own mind a hundred dreadful times. There was a relief in confession.

Yerby's wrinkled leathery hand reached across to the pommel of the saddle where hers rested and gave a comforting little pressure. "I'm with you at every turn of the road, Miss

The young woman looked at him and nodded, a lump in her throat. Since life had wounded her so greatly she had tried to encase her heart in ice, resolved to fend off friendship. In the shame of her hurt she had hugged her passionate resentment, cherishing it as a virtue instead of the evil thing it was. To look at this brown-faced little cowman, whom she had helped in his need, was to know that his loyalty would never falter.

And there was another who had offered friendship and been rejected -the man who was lying in the jail at Mesa while the town seethed with propagated hate. Even now the mob might be storming the prison to blot out his life. He was dangerous, men said, of a cold and deadly temper it was not safe to cross. But the David Stone beneath this surface armor of defense was a wholly different one, Ann was convinced. She knew him town had its weight with him. After | kind and strong and steadfast, To

save her he had taken on himself the burden of her guilt. He would not weaken. If he died it would be for

They rode fast, for Ann was consumed with anxiety. Just before they reached the river a rider swung into the road twenty-five yards ahead of them. At sight of Ann and her escort he reined up.

"Have you heard?" he asked. "That you folks from the Circle Cross are workin' up the town to lynch Dave Stone? Yes, we've heard

that." Yerby replied curtly. Phil flushed angrily. He was much excited. "No such a thing," he retorted angrily, "There won't be any lynching if I can stop it. I don't get this business, but I'm dead sure of one thing. Stone never killed Tom McArdle unless he had it to do."

"He didn't kill him," Ann said quickly. "I did."

The boy's eyes grew big and troubled. "Then why did he say he shot him?"

"Because he was our uncle's friend and wanted to be ours. But does it matter what his reason is?" Ann asked

"And You-Are You One of This Brave Mob?" She Asked Scorn-

impatiently. "I tell you I did it. I shot the man and left him there, Surely I ought to know."

Almost on the wings of the wind the news spread that the Texas killer was to be lynched for the murder of Tom McArdle. By word of mouth it came from the cowpuncher Red to Julia. Red had wanted to stay in town and share the excitement, but he had agreed to skin a jerkline string to Monarch with supplies for the Ben Bolt mine. And he prided himself that he was a man of his word.

"Come night they'll sure put it up to Mike Rand to open the jail door an' turn over Dave to them. If he killed poor Tom McArdle like they claim he did hangin' ain't any too good for him. Jas has sure got the right of it when he says we hadn't ought to stand for them Texas bad men comin' in an'

bumpin' off our own boys." The sound of her brother's name dragged Julia out of the shock the news had given her. "Is Jas mixed up in this?" she asked quickly.

It occurred to Red that perhaps he had been indiscreet. He went through the process of what he would have

called stalling. "Well now, Miss Julia, I expect everybody's in it more or less."

He was putty in her hands. Inside of two minutes she had the truth out

Julia was greatly troubled. In the past weeks she had come to know the little Texan. It was impossible for her to believe that he was a cold-blooded murderer. He had been a friend when she needed one, at a time when her own brother had failed. In the phrase of the Southwest he would do to tie to, she felt sure. Now, somehow, he was

caught in this net and would be de-And Jasper was leading the mob against him-Jasper who had always claimed to be a friend of his. She knew her brother was not doing it because of his love of justice. Instinctively she felt, with dread, that there was some sinister motive she could

Like Ann Gifford her impulse was all for action. She could not sit down quietly and let events take their course. Phil was not at the ranch. He could not go to town with her. But Dominick Rafferty could and would. She sent Red to find and bring

Unfortunately Rafferty was not to he found. Julia took with her instead the wrangler Sam Sharp, leaving word for Rafferty to follow as soon as they could get word to him.

They rode through the falling night, The stars were out when they drew into the outskirts of the little town. An unusual excitement could be felt. Many people were on the streets.

Julia stopped one hurrying man to ask fearfully if the jail had been yet stormed. At recognition of him she gave a startled little cry. The eyes that looked up into hers were those of Wilson McCann.

"Not yet, Miss Stark," he answered. "And you-are you one of this brave mob?" she asked scornfully.

She forgot that he was a McCann, sealed of the tribe of the enemy. She remembered only that the life of a man she liked was in great danger, "Can't you save him?" she cried. "He didn't do it-not the way they say he did. I know better. He's not that kind of man."

Her appeal went home to him instantly. "I'll try."

"What can you do?" she asked eagerly, wistfully, The sense of her sweet dependence

flowed in on him like a stream of cold bracing water. He had not the least idea what he could do, but he was suddenly sure that he would find a way, "We've got to move fast," he said,

he was instigating. He strode out of his brain working as he talked. "I'll the saloon into the starlit night all get myself appointed deputy sheriff by primed for a burst of indignation at Mike Rand. You go to yore friends. Tell 'em what you've told me. Try to her unwomanly conduct in coming to stir up an opposition sentiment," town on such an errand. It died away on his lips, Julia was not there, A

"If I could see Jasper-if I could man moved forward to meet him out talk with himof the darkness.

Even as she spoke an idea flashed into the mind of McCann. "Don't you." he urged. "I'll see him. I'll talk with

"You!" Her eyes dilated. "You don't mean-you wouldn't-" "I'll not hurt him," he promised. But there's just a chance I could per-

suade him to be reasonable. I've got an argument that might work with him. No time to talk it over with you "Well," she agreed doubtfully. "That's my secret, how I figure on

doing it." He smiled up into the dark vivid eyes to assure her it was no dark and dreadful one. "Now we got to get busy right quick." "Yes," came her obedient answer,

Afterward she was surprised at the meekness with which she surrendered to him, to the arch enemy of her family, the direction of her actions,

"See everybody you can who might help," he told her. "My brother Lyn is in town, probably at the Legal Tender. He's a good man, Send for him, Tell him I'll be at the jail. If he can get half a dozen men with rifles it'll do the business. They'll have to come up the creek bed and in the back way. You keep off the streets yoreself. Outdoors in this town is no place for women tonight. Sam here will do yore errands for you.

"Sure will," Sam volunteered. What McCann said was true. The streets were full of men loitering, men whispering together, men hurrying to and fro, but of women there was no evidence. More than one pair of searching eyes during that minute of hurried talk had challenged her right

"I'll stay in," Julia promised, an access of color in her dark cheeks.

He nodded, casually, and turned away. Her gaze followed him as he moved down the street, walking with the strong purposeful stride of one who knew what he was about to do and the best way to do it. A primal emotion, old as the race, surged up in her unexpectedly. For the moment he was not the man she hated but the one who filled her life.

Before Wilson McCann put into execution the plan he had in mind he paid a visit to Mike Rand, jailor and deputy

The jail was already being watched. but after a few words with those in front Wilson was allowed to go in. The instructions of the armed men posted near were not to allow the deputy to pass out with his prisoner. Nothing had been said about people

going into the jail, "What you aimin' to do, Mike?" Mc-Cann asked the jailer.

"About what? "This lynchin' Jus Stark is workin'

"What do you reckon I aim to do?" Rand asked sulkily. "I'm sheriff here

in Hank's absence, "Meanin' that you'll fight, I reckon." McCann shook his head. "No chance,

Mike. Let me light out with Stone an' keep him hidden till this blows over." The deputy rejected this proposition flatly. "No, sir. He'll stay right here. Hank left him in my charge, for

more than once tried to kill. (TO BE CONTINUED.)

American Hotels First to Use Bills of Fare

No bill of fare was necessary when | and the innkeepers' wife serving "vict-Jacob made the mess of pottage for Esau-it was a one-course meal lacking even the simplest refinements. Neither did the early Romans follow a menu card in their choice of food, although the word "menu" itself is derived from the Latin "minutus," meaning "minute detail." (From this the deduction follows that "menu" is used to denote the particulars of the different courses of a meal.)

Indeed the term was used among the Romans, but the practice of entertaining both guest and traveler in the "domus" precluded the need for a written card.

Even the prevalence of inns and taverns in Thirteenth, Fourteenth and Fifteenth century England and the American taverns of the Eighteenth and early Nineteenth centuries failed to produce the menu card. For still there was little need for it with all the travelers seated at one great table

Pot Menders "Traveling tinkers still come our way but not one can tell me how they got their name," a reader complains. It is a corruption of "tinkler." Before motor traffic, itinerant tinsmiths warned villages of their approach by ringing a small bell.-London Anuals" of her own choice. The frivolous elegant styles of the

second empire in France and the opening of the first American hotels about the middle of the Nineteenth century brought the bill of fare. The United but with a peak coming down on the States hotel of Philadelphia, Foley's National hotel of Norfolk, Va., and the New York hotel of New York were the last word in fashion about 1850 with menus of long, narrow slips of with a feather or spray of flowers, or poor paper, never cardboard, and the a jeweled clasp-which, by the way, names of the dishes written in under doesn't really clasp anything-and printed headings.

Earth's Chemicals The number of so-called chemical

elements which enter into the earth's composition is more than eighty, but few of these figure as important constituents of the portion known to us. Nearly one-half of the mass of this shell is oxygen and more than a quarter is silicon. The remaining quarter is made up largely of aluminum, iron, calcium, magnesium and the alkalies sodium and potassium, in the order named. These eight constituent elements are the only ones that are important parts of the earth's surface shell. They are not found in the free condition, but combined in proportions characteristic of chemical compounds and are known as minerala

Clothes for the Kindergarten Age

By CHERIE NICHOLAS

A S IF college-going daughters and those of high and grammar-school age were the only ones who must face the "eternal-feminine" question of dress which the back-to-school season always brings on! What about the myriads of youngsters in kindergarten or in first-grade classes? Well, it's mother who must solve this problem.

To be "practical" in childhood's realm, clothes must yield kindly to frequent tubbings. From this point mothers are finding out that cordurey for tiny-tot coats and any one or more of the now-so-popular durene cotton meshes for wee folks' frocks serve a hundred per cent perfect. Not only do the good looks and the

washable qualities of corduroy speak In its favor but the fact that the modern weave is so much more supple than the old-style corduroy and lighter in weight, makes this material infinitely easier for the seamstress to handle. And so, mothers who know have come to consider corduroy a medium-ideal for the making of children's school and playtime apparel.

The corduroy cont-and hat "set" which little Miss Curlylocks is so proudly wearing in the picture might wisely be included in the wardrobe of any little girl who must go back and forth to kindergarten during crisp autumn days. Much to the delight of its wearer it has a cunning white bunny trouble. Tha's right. I don't reckon appliqued on each pocket. A selfthe gan barrel will prod yore ribs to scarf ties in cravat fashion close up around the throat in latest adult fash-They walked down the alley and ion. The neckline is, however, adjustable in that the coat can be thrown next block. This brought them to a open, forming lapels at the front,

Mothers seeking materials for little girls' school dresses are making new discoveries in the realm of cotton fabrics which are proving genuinely helpful to them. They are finding smart durene cottons so artfully woven as to have an expensive woolly appearance whereas in reality they are unbelievedly low-priced, Diagonals, ribbed effects, basket weaves, herringbone stripes and all sorts of fascinating novelties are included, and in a range of delectable colors from pastel tints to the very latest autumn reds, greens, navies and browns.

The oldest child in the picture is gowned in an attractive dress made of durene cotton mesh. It features a yoke which buttons up the front so that it will slip on and off easily. There is also a matching bolero (in her hand). The ball and cord tie which is an effective trimming touch is easily made of yarn. The jaunty little durene mesh brimmed hat is an interpretation of a French juvenile fashion. The whole outfit washes beautifully-comes out looking like new from each tubbing.

A tiny-tot wardrobe would not be complete this season without at least one knitted costume. One can get such "cute" little sweater-and-skirt outfits and in charming color combinations. These make a great point of

interesting stitch effects. @. 1932. Western Newspaper Union.

"Go right ahead," McCann directed. PREDICT VELVET WILL BE POPULAR

Velvet is verging on one of the biggest vogues it has ever enjoyed in the fashion world.

It was the very sort of thing he would Until recently worn mainly by the mature or elderly woman, it has suddenly become one of the smartest fabto murder me," he managed to get out rics of the day and French factories are now working day and night to sup-"I told you I wouldn't hurt you If ply the demand for coming fall and you were reasonable. I'm takin' you winter clothes.

There are many new varieties, the heavily woven velvet and the soft light ones, the chiffon-ring variety and vedown through the loose rubble to the lours mousseline, as well as an extremely fine and silky sort made at

Dresses, coats, hats and even shoes are being made of velvet.

"Little Convict" Is New

Hat Popular in London A new hat is taking London by storm. It is less eccentric and "difficult" than the boater or pillbox, which had a brief but devastating popularity, and is called the "little convict." Like the beret, it is a type of skull-cap, but is more formal than that charming

but abused piece of millinery. It consists of three strips or triangles, sewed to fit closely to the head, forehead, taking off the bare look that the just-gone fashions have had, and is seen in almost every material.

It can be adorned very successfully just as successfully left quite plain.

Shirred Prints Printed sheer costumes are shirred

so that the print is most charmingly blurred. Sometimes the whole frock is shirred and the jacket is left unshirred-so that there is a pleasant contrast of design between the two.

Crochet Hats

Brimmed hats of Irish and simple thread crochet mesh are replacing the brimless crochet caps that everyone was wearing earlier in the season.

Rough Cottons

Not only are these new tweedy ooking cottons especially smart for suits and matching top coats but they make simply grand beach coats.

BUTTONS UP BACK By CHERIE NICHOLAS

This frock of black corded knit wool buttons up the back, which is an exceedingly modish thing for it to do. It has other equally as outstanding style features-its sleeve, for instance, which is very smartly designed with its buttoned flap at the elbow. Its white waffle angora detachable front is another clever touch. Of considerable style importance also is the fact that shiny accessories are worn with this dull-finished knit outfit. The buttons, the belt and the shoes, all shine forth in effective contrast to the somber black. Patent feather belts with patent leather shoes are regarded as being in high style for fall. The shoes this young weman is wearing are side-laced patent leather and suede exfords of the high-cut version.

Columbus Day 1932

By ELMO SCOTT WATSON

OLUMBUS DAY this year finds a long-discussed memorial to the great navigator nearer reality than ever before, for an international jury of architects has announced its selection of the prize-winning design for the monumental lighthouse which is to stand facing the harbor of the City of Santo Domingo in the Republic of Santo Domingo in the West Indies.

The prize-winning design, a lighthouse in the form of a cross, is the work of an English architect, twenty-four-year-old J. L. Greave of Nottingham, and when the lighthouse is completed It will be unique among memorial structures throughout the world. And certainly it will be the kind of memorial which Columbus himself would have most desired-this great beacon which shall safely guide the sailors of both the sea and the air who follow him to his last rest; Ing place in Santo Domingo.

The prize design, according to Frank Lloyd Wright, the Chicago architect and a member of the international jury, not only reflects a monument of distinguished and impressive simplicity, but it presents a memorial form with a purpose. "Anything in the nature of a monument," said Mr. Wright, "is today somewhat old-fashioned in thought. This happens to be more a memorial than a monument in that it serves a useful purpose. Through its radiated lighting, the Columbus Cross will serve as both a good alr beacon and a good lighthouse. As a navigators' and aviators' beacon it has, unlike many other monuments, some reason for existence. The historic spot chosen for the memorial on Santo Domingo harbor, not far from the ruins of what was once the palace of Columbus' brother, Barthelomew, is an appropriate site for this endur-ing symbol of friendship between North and

From its harbor side the lighthouse will be reached by a flight of broad low steps, According to the design the main entrance carries Into a building which, as described by Mr. Wright, becomes a series of high cool canyons, the walls bearing sculptured motifs. Standing in the center of the largest canyon are six small altars. From these altars light is radiated upward through clefts (in the mass of the structure) in the pattern of a cross. It is this lighting system that forms the air beacon. The revolving navigators' beacon (a horizontal beam) will be mounted at the center and highest part of the cross. In its memorial chapel there will be a tomb where the bones of Columbus, which some students believe to be in the Cathedral of Santo Domingo, will be laid.

While the harbor portal may be called the main entrance, there are two others almost as impressive. They also form part of the setback design of the pyramidal pattern. There is a fourth portal at the diminishing point of the cross, affording a view of Santo Domingo's aviation field. A visitor may enter at the harbor side, and after traversing the several canyons leave by a rear door. A terrace on top of the structure, also open to visitors, commands a fine view of the harbor and city. The altars, which stand free and clear down the center of the major canyon, will tell through bas-reliefs the story of Columbus and his journey of discovery to a strange land.

That there is no idea of height in the memorial structure, Mr. Wright considers an impressive feature of the design. "Here is something finer in the idea," said Mr. Wright, "something a little more natural, a little more organic, a little more a part of the historic plot it is to commemorate. The simple thing, when you want to mark a spot, is to drive in a post, and in the case of most present-day monuments and skyscrapers the higher the post the better. This memorial is more like making a symbol (in this instance a cross) on the ground and giving it architectural character that will endure for centuries. It is earthquake-proof. In time, the jungle may grow over it, it may disappear from sight, it may be rediscovered. But it will still be a worthy symbol suitably commemorating a great discovery."

More than \$800,000 has already been contributed by this country for the monument, which will cost in the neighborhod of \$1,500,000. Santo Domingo and several South American cities have appropriated several hundred thousand dollars for the project, which is in charge of a committee of the Pan American Union.

So after more than half a century of persevering effort, during which the idea of building a fitting memorial to the man who is universally hailed as the discoverer of America was kept alive by a few enthusiastic Latin-Americans, the dream is nearer reality than ever before in this four hundred and fortieth year since Columbus made his first epochal voyage.

The honor of first suggesting the erection of a great memorial lighthouse to the eternal glory of Columbus belongs to a son of Santo Domingo, whose people have for many generations, despite their small numbers and limited means, done so much to honor the name of the great navigator. Don Antonio de Monte y Tejada of Santo Domingo, the spot Columbus loved above

structed the great monument that now holds Kohler called for a \$16,000,000 rethe remains of the discoverer and placed it in duction in taxes, and set forth as his the cathedral there, their hope was later to doctrine that factories mean jobs, and move this tomb to an appropriate structure, that to build up private incomes by crowned by a lighthouse. Lack of funds made keeping the taxing system from chasthis impossible, and it was not until 1914 that Ing industries out of the state is more really systematic labors were begun to bring fundamental than to increase income about the building of the memorial lighthouse to be participated in by all America.

lian, an American, then receiver of Dominican Industrial regions. customs, whose labors resulted in enlisting the interest of editors and publicists throughout North and South America. Mr. Pullian also was the first to appear before the house committee on foreign affairs, where he explained the projected memorial and urged the United States in a congressional government to participate in the proposal to race. An interesting make this testimonial of gratitude of all the feature of this year's Americas to Columbus an assured fact.

the fifth international conference states met at Santiago de Chile, America and any others who may so desire."

States ratified the action, resolving, "that the several states be notified of the desire of the people of the United States to participate in this movement to honor the memory of the great navigator and discoverer."

Meanwhile the governing committee of the Pan-American Union, having taken steps to secure Pan-American co-operation, resolved in April, 1927, "that the Columbus lighthouse be erected on the coast of Santo Domingo, since this site is the most appropriate one for rendering homage to the memory of the great navigator. This coast was the first land touched in the journey which discovered the continent; it was there that the vision of the New World, given to civilization by the genius of Columbus and the zeal of Spain, assumed reality; it was in Hispaniola that Columbus wishes his ashes to rest and there receive the veneration of America, and it is but just that the monument to his glory should be erected on the scene of on his program for relief of the farmhis fortunes and misfortunes, near the site of the first colonial city and near the tomb where the plety of a nation has for centuries done reverence to his remains,

"And in order that the offering may be more nearly perfect and more genuinely expressive of the significance of the discovery, of the measure of progress and well being brought to humanity by the store of natural wealth on the continent discovered by Columbus, and of the contribution of culture brought to civilization by the intellectual labor of America, the committee believes it would be fitting for each American nation to send in addition to pecuniary contribution, a portion of earth from its soil to be deposited at the base of the monument and a product of its art or industry to be used in the building, thereby giving real symbolic significance of what is most fundamental and most sacred in the national existence of each coun-

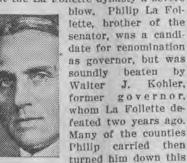

The unanimity of thought, labor and expense that animates all the 21 states of North, South and Central America in bringing about the design and construction of this great memorial is one more proof-and the greatest-that Columbus holds first place in the hearts of all men. Of almost equal significance to the United States is the further concrete evidence that in building this memorial the Pan-American Union has actually become something more than a paper union held together by an imposing building in Washington. Further links in the ties which bind Pan-America may in consequence from this unity of effort be expected in the coming years and these links may well be of the

Wisconsin Republicans Deal Blow to the La Follette Regime-Farmers' Strike Takes New Turn-Germany Out of Disarmament Parley.

By EDWARD W. PICKARD

had, the conservative Republicans dealt the La Follette dynasty a severe

turned him down this time, and he ran hehind in both agricultural and industrial sections of the

Emphasizing their change of heart, the Republican electors also voted for the retirement of United States Senator John J. Blaine, one of the staunchest of the "progressives" in the upper house. He was beaten by John B. Chapple, a young editor of Ashland who made a fierce campaign. Incomplete returns indicated the entire conservative state ticket had been carried to victory by Kohler and Chapple

Kohler, a wealthy manufacturer whose home and large factories are in a village that bears his name, never held public office until he was elected governor in 1928. His supporters this year were known as "hatchet men" for their slogan was "Cut Costs With Kohler." and the high cost of state government and high taxes were the issues emphasized. taxes. These arguments proved especially effective with the factory voters in Milwaukee county, Racine and other

This was the first time that a La Follette had been voted down since

1892, when the late Senator Robert M. La Follette was beaten campaign was the presence of Burton K Wheeler, Democratic senator from Montana, who made speeches trying to persuade the Demo crats of Wisconsin to J, B. Chapple go into the Repub-

lican primary and vote for Blaine and shall be built with the | tion and evidently it had little if any

Kohler's majority was in the neighborhood of 100,000. Chapple had a smaller majority-about 20,000-for the vote for Blaine was heavy in the industrial centers,

The Democrats at this writing appear to have nominated Mayor A. G. Schmedeman of Madison for governor over Leo P. Fox and William R. Rubin. For senator F. Ryan Duffy of Fond du Lac was unopposed.

R EPUBLICAN NATIONAL CHAIRthat President Hoover's first campaign speech would be made in Des Moines. Iowa, on October 4. He will make no addresses on the journey from Washington and back. In the heart of the agricultural region, where the farmers have been on strike against low prices, Mr. Hoover intends to expatiate er in reply to the recent address by his rival, Franklin D. Roosevelt. The speech in Des Moines will be broadcust over at nationwide radio hookup.

THOSE farmers of the Middle West I have entered on a new phase of their "holiday" strike which promises to be more effective than the movement that aimed to keep all farm produce from the cities and was marred by frequent violent deeds. The plan now evolved by their leaders contemplates the withholding from market of all grain and other non-perishable products, but the farmers are forbidden to picket the highways or block them in any way. Nearly two mitlion farmers were asked to join in this nonselling movement.

Agriculturists in Minnesota, North Dakota, Oklahoma, Nebraska and Iowa, the "strike" leaders said, had given assurances they would participate. They added that farmers in Ohio, Wisconsin, South Dakota, Kansas and Illinois had "shown interest" in the movement.

SEVERAL important meetings were held in Washington during the week, among them being those of the National Municipal league and the national conference on government. Addressing the former, Silas H. Strawn, former chairman of the United States Chamber of Commerce, declared that taxes must be reduced because the nation has reached the end of its | the Hindu conscience awakens."

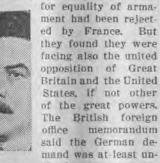

IN ONE of the most hotly contested | financial rope. In the sixteen years primaries that Wisconsin ever has from 1913 to 1929, he said, the cost of all government increased by 400 per cent, while at the same time the national income had increased by only 148 per cent. In 1930, he said, in come taxes amounted to \$2,411,000,000; in 1931 they dropped to \$1,860,000,000; and in 1932 they hit a new low of \$1,-057,000,000,

Commenting on the "soak the rich" policy noted in congress at the last session Mr. Strawn declared it "hopelessly fallacious" and that there are few rich left to "soak" and because those who still retain a part of their fortunes will Invest in tax exempt securities thereby defeating the very purpose of tax legislation aimed at the wealthy class.

To the conference on government Gordon L. Hostetter, director of the Chicago Employers' association, said that the racket, originally thought of as a temporary form of graft or extortion, has grown through alliances of business groups, union heads, politicians, and criminals until it annually costs the nation an "incalculable sum.

In Chicago alone, said Mr. Hostetter, racketeering costs more than \$145,000, 000 a year. Add to this the amount spent by the city to deal with racketeering, he said, and the total cost of Chicago's rackets equals the annual cost of the municipal government.

WHEN the disarmament conference resumed Its sittings in Geneva the Germans were not in official attendance because their demand

mand was at least untimely, since "attention and energy should be directed to economic rehabilitation of the world," and that anyhow Germany was not entitled to abrogate the part of the treaty of Versailles that limits her armament even if the other nations should fail to disarm or re-

memorandum

duce their armaments. This view of the question apparently was pleasing to the United States government, and Ambassador Walter E. Edge and Senator David A. Reed of Pennsylvania, at a luncheon given by M. Herriot In Paris, told the premier that was the view of the American people. Their government, they said, stands for progressive disarma-

ment and the sanctity of treaties. M. Herriot laid before the foreign deputies a full statement of his pollcy in this matter and defended it earnestly. He gave the commission certain details which had come into his possession regarding the alleged illicit manufacture of arms in Germany.

The German press insisted that their government must not weaken, asserting that Great Britain had deceived Germany and that the British note treated Germany in Intolerable fashion. Some papers declared Germany must withdraw from the League of Nations.

MAHATMA GANDHI, after a hearty meal of fruit and milk, began his protest fast, which he said he would keep up until he died of

starvation unless the British government altered the terms of its settlement of the communal elections problem. The mahat ma was still in Yer avda jail at Poona. The government said he was free to leave the prison, but he re fused to go out of his cell unless he were forcibly removed

So many friends and well wishers called at the jail that the aged leader was made ill from excitement, and thereafter visitors were excluded for the present. He received hundreds of telegrams and letters begging him not to undertake the death fast. To correspondents the mahatma said he counted his life as of no consequence, adding:

"Like the prophet of Islam and like Jesus, I, on a bumbler scale, have un dertaken a tussle for justice, as my fast continues my human cry will rise to the heavens of God Almighty.

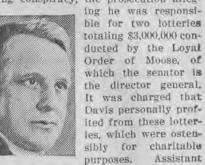

"My fast is pot for sympathy. Aft er the first few days the desire for food will vanish and I shall begin to brood. All my interest will be withdrawn from externals, and I shall become one with 'the cause.'

"Be assured, however, that I shall make a superhuman effort to retain my grip on life. I am anxious as any body to continue to live. There is nothing like water for prolonging life and I shall partake of it whenever I require it, and hope to carry on until

UST as Bolivia and Paraguay are squabbling over the Gran Chaco, so Colombia and Peru are on the verge of war over the possession of the Amazon river port of Leticia and some surrounding territory ceded by Colombia to Peru in 1922. The Bogota government has refused to accept a Peruvian proposal for settlement of the controversy, and the people of both nations are seemingly eager for war and are raising big funds for the purchase of armaments.

Both Bolivia and Paraguay have been making offers to cease hostilities pending negotiations, but apparently neither feels it can trust the other to act in good faith. Meanwhile the fighting between their border forces, especially at Fort Boqueron, was continued, the Paraguayans claiming the advantage.

SENATOR JAMES J. DAVIS of Pennsylvania went on trial in New York on two federal indictments charging conspiracy, the prosecution alleg-

Sen. Davis

United States Attorney Treadwell told the jury that checks totaling \$172,-300 from the proceeds of the drives went to pay off a note which was Mr. Davis' personal obligation, to his personal checking account, to a corporation controlled by him, and to an account from which he drew the profits of the organization department of the

In 1931 the lottery was more discreetly handled, Mr. Treadwell continued, and the drawing took place on the steamship Priscilla, outside the twelve mile limit, after which all records were thrown overboard.

Counsel for the defense contended all the transactions were innocent.

Early government witnesses inluded various officials of the Moose called to prove the domination of Davis in the order and the claim that he was cognizant of everything that was done in connection with its

HREE California citizens have undertaken to block the loan of \$40,-000,000 by the Reconstruction Finance corporation for the construction of an aqueduct from Boulder Dam to Los Angeles. The loan has been authorized by the corporation, but the suit filed in the District of Columbia Supreme court seeks to enjoin it, attacking the legality of the decision by which the corporation proposes to purchase two \$20,000,000 lots of the \$220,-

000,000 worth of water district bonds. The corporation also heard opposition to the Los Angeles application for a loan of \$32,000,000 for the construction of a power line from Boulder Dam to the coast, and to the proposed loan of \$10,000,000 for a bridge across Chesapeake bay on the ground that this would mean the use of federal funds to finance a project to compete with going privately owned ferry lines.

MERICA lost one of its most emi-A nent physicians in the death of Dr. Frank Billings of Chicago at the age of seventy-eight years. His name is linked with the history of medicine in this country and he had headed nearly every prominent organization of his profession. He was responsible for the founding of numerous hospital clinics and research institutes and trained many great doctors, and himself was rated as one of the best diagnosticians and physicians in the

Speaker John N. Garner, Democratic candidate for the Vice Presidency, was called to his home in Detroit, Texas, by the illness of his aged mother, and a few days later she passed away. Mrs. Garner was eighty-one years old and was born and spent her entire life in northeastern Texas.

SEVERAL thousand feeble old men, remnants of the Grand Army of the Republic, gathered for their sixtysixth annual encampment in Springfield, Ill., the city in which the organization was born. They had their usual business sessions; but much of their time was spent in visiting the tomb of Lincoln, their adored war commander, and other places connected with the life of the martyred President, and in attending services in the old prison Camp Butler, now a national cemetery.

PROGRESSIVE Miners of America, the new organization that is fighting the wage settlement in Illinois effected with the old union, was not having much success in keeping the workers from returning to the pits. In Taylorville the insurgents were blamed for two bombings, one of which partly wrecked a newspaper plant. Two companies of state troops were sent there and restored order. In some places the mine operators did yield to the demands of the new union for pay higher than the adopted scale.

HICAGO is jubilant, for the Cubs are now the champion team of the National league. The opening of the world's series with the New York Yankees, who won the American lecgue pennant, was set for September 28 in New York; the games in Chicago will begin the following Sat-

all other lands be discovered, wrote in 1852: "The time has arrived . . . when the verdict of posterity should be proclaimed. This verdict must be as noble, generous, memorable and eternal as his deeds. Let America proclaim it in unison, and let her acknowledge by all means that the honor of the discovery belongs to Columbus; that to him as the initiator of such great exploits are due the many discoveries that have been made by others to this day . and in order that this acknowledgment may be worthy of the New World, let us erect in the most visible and notable place in America, in a central point and where it may be visited by travelers as they approach her shores, the statue

that his greatness and remembrance demand. "I designate as such a place, Cape Isabella, on the Island of Hispaniola, because there the first city in America was founded, and let it be designed by the best sculptor and paid with funds raised by popular subscription in all the cities of Europe and America. In order that this symbol may carry within itself all the attributes of perpetuity, let there be established in this statue a lighthouse so travelers from the Old and New Worlds may look full of gratitude and emotion toward that venerable image, when

they sight the first land from the sea." Nearly 30 years after these stirring words were penned, another Dominican asked the nations of America to co-operate with ancient Hispaniola to the end that a fitting memorial be reared to Columbus on the spot where he first stepped ashore on American soil. This man was Gen Gregorio Luperon, Santo Domingo's great-

est hero in her war against Spain in 1863-65. Although many statues have been dedicated in different lands to the honor of Columbusone of the most notable being erected in the Plaza of Santo Domingo City which has since been called the Plaza de Colon-and his ashes have been enshrined in the cathedral in the city of Santo Domingo, yet the idea of a monumental memorial conceived and built by all the people

of America, would not die. At the time (October 12, 1892-the four hundredth anniversary of the discovery of America) that the Santo Domingo government con-

NO REAL NEED FOR IT

At a public hearing held at the Linden City Hall before the United States District Engineer, people who own considerable land in and about the Rahway River, which is now worthless, were frankly prominent in advocacy of Uncle Sam spending a million dollars to develop it. They admitted that prospective purchasers pointed out that while the swamp or other land was on this waterway, the depth was not sufficient to make the land attractive even as a waterfront property. So, that, what that side of the story amounts to is that Uncle Sam and the municipalities are being asked in these times to dig down in their pockets to promote some real estate grab. These land owners seemed the most vociferous.

There is only one active operation on the river moving any water tonnage at all and that is the P. W. Lambert masonry supplies outfit in Linden just above the Public Service Fast Line bridge. They seem to get along pretty well now waiting for the tide which drops four or five feet. It might be a little bit cheaper for them if the channel was deeper and they did not have to wait for the tide. This, however, is no reason why Uncle Sam or the taxpayers in Carteret should dig down in their pockets.

Another supposed point in favor of this proposition to cost over a million dollars is a most fantastic one. The Rahway Valley Sewage Commission, it appears, located the property for their disposal plant at a point adjoining the Rahway, knowing full well it was not navigable. They now claim if it became navigable they could transport the sludge by barge to sea and have a possible saving of \$6,000 a year. They knew the river was not navigable when they selected the site. Why should Uncle Sam and the taxpayers in three municipalities have to pay for that mistake of ordinary judgment?

The next point supposedly in favor of this million dollar Rahway River proposal is that miscellaneous little industries here and there frain from eating and drinking the of Carteret. might ship certain small tonnages by water which they now move entire day and liquidate all their by rail. There is very little certainty here. No business would go into a million dollar expenditure on such a shadowy, vague possibility of return on the investment.

One more point that is stressed is that there is no more water front property available and suggestion is put out that the woods are full of prospective manufacturers with bundles of gold-backs ready to dump them into the three communities' laps providing the Rahway River is dredged just so that they might have waterfront property 12 feet deep for barges. This is not so. As a matter of fact, there is right in this district industries that have been trying time, when the taypayers who have to sell waterfront property on the 30 foot channel of the Staten any income at all have tremendously Island Sound for years without finding anybody interested enough diminished income, indicates what a to put up the money to buy it.

The bait held out to get local interest was that it was not going to cost the municipalities anything, that Uncle Sam would shell it has a daughter on the educational all out. The fact of the matter is that the report of the District payroll. Engineer only recommended the 12 foot channel, 120 feet, wide from the mouth of the river to Route No. 25 Highway bridge in personally or previously in the ex-Rahway, provided, and in case, the three municipalities would first pay 25 % of the cost. The cost is estimated at approximately \$1,000,000.00; 25 % of the cost would be one quarter of a million The taxpayers will have to worry dollars. This was entirely aside from the demand of the Govern- about themselves if they expect any ment that there be docks built and suitable areas provided for the real betterment. disposal of dredged material.

This would mean that the three municipalities would have to and I will tickle you. Republicans spend probably well in excess of \$300,000.00.

This will possibly benefit a few people who have real estate more for the bus contract than the to get rid of in this community. It will primarily benefit real estate low bids called for and they all operators in the other communities. There is no reason why the ought to be ashamed of themselves. rest of the taxpayers should be taxed \$100,000.00 for this develop- who would pay more for work on ment where there is practically no waterway or manufacturing acti- their own house than they could get vity along its banks and only the most shadowy prospective activity. the job done for by another contrac-It is not worth \$100,000.00 to Carteret or any part of \$100,000.00. tor, but to pay more with the pub-

The main railroads are the Month, Haury moved to have the well removed from the biggest part of the banks of the river that scale introduced at the last meeting, would be developed. After you leave the main line of the Central which was published in this paper Railroad at close to the mouth of the Rahway River, there is no down by a party vote. Nothing was rail connections of any kind again until you get well up into the said as to why the Democrats did City of Rahway. What good would this do all the area in between not have their scale ready at the on which money would be spent for the development of the river regular meeting. Suggestion was and lining it with lines of highway all so that some real estate people made that the second meeting in the would make a big killing?

COMPTON

Sometime ago The Carteret News editorially said "Keep Competen Compton." On every public appearance, whether it is a Board meeting, a taxation hearing or on the political platform fifthy linen. Compton seems to impress.

During the last week he was unafraid to say at a political rally posal, the Republicans passed enthat real tax relief can only come by the whole hearted co-operation tirely. of all units of government including local and state.

Compton is quoted at a recent address as saying:

"It is my belief that all people now fully realize the absolute necessity for lower governmental costs. The public official who does not recognize this fact has his days numbered.

While it is true very definite economies have been already effected in many individual municipalities and in many individual counties, we have not as yet reached a point where we can rest on our laurels.'

The situation has not been more tersely or clearly presented What Mr. Compton says about the days being numbered of the public officials who do not reduce, is very clearly true as the r turns at the various elections has already demonstrated.

Jimmy Walker who dilly-dallied finally had to resign. Maine extravagances, failure to reduce public expenditures, delphia, Saturday to attend the funbrought about a political upset. Electricity for Use in Homes Has Led Downward Trend of Living Costs

Residence service rates which did not go up when prices of practically all commodities were rising have been reduced six times since November 1922-twice within last three years.

THE above graph shows index numbers of the principal groups of items entering into the cost of living as published by the Bureau of Labor Statistics of the United States Department of Labor compared with index numbers of the cost of electricity for lighting service in the territory served by Public Service Electric and Gas Company.

These index numbers indicate the trend of prices charged for the respective commodities during the period from 1913 to 1931 inclusive, with the 1913 figure set forth as 100.

The numbers emphasize the fact that instead of increasing in price like most commodities subsequent to 1913, electricity, used in the home costs even less today than it did then.

The cost of the principal items in the family budget, such as food, clothing, rent and household furnishings, increased rapidly from 1913 to 1920.

The peak cost of food, reached at the end of 1919, was 97 per cent. above the cost in 1913.

The peak cost of clothing, reached in 1919, was 168.7 per cent, above the cost in 1913.

The peak cost of rent, reached in 1924, was 68.2 per cent. above the cost in 1913.

The peak cost of household furnishings, reached in 1920, was 185.4 per cent. above the cost in 1913.

From 1913 to 1922 the cost of electricity for lighting showed little variation. Since November 1922 it has been steadily decreasing until, in 1931, it was 24.9 per cent, below the cost in 1913.

While the prices of other essential commodities which enter into the cost of living decreased in some measure, between 1922 and 1931 most of them were still well above the 1913 levels.

Since 1922, Public Service Electric and Gas Company has made six reductions in electric rates for residence service-two within the last three years. The result has been to effect aggregate savings for customers, amounting to millions of dollars annually.

"Lucile is the Happiest Girl"

So many mothers nowadays talk about giving their children fruit juices, as if this were a new discovery. As a matter of fact, for over fifty years, mothers have been accomplishing

results far surpassing anything you can secure from home prepared fruit juices, by using pure, wholesome California Fig Syrup, which is prepared under the most exacting laboratory supervision from ripe California Figs, richest of all fruits in laxative and nourishing properties.

It's marvelous to see how billious, weak, feverish, sallow, constipated, under-nourished children respond to its gentle influence; how their breath clears up, color flames in their cheeks, and they become sturdy, playful, energetic again, A Western mother, Mrs. H. J. Stoll, Valley P. O., Nebraska, says: "My little daughter, Roma Lucile, was constipated from babyhood., I became worried about her and decided to give her some California Fig Syrup. It stopped her constipation quick; and the way it improved her color and made her pick up made me realize how rundown she had been. She is so sturdy and well now, and always in such good humor that neighbors say she's the happiest girl in the West."

Like all good things, California Fig Syrup is imitated, but you can always get the genuine by looking for the name "California" on the carton.

Radios in Russia

Hardly a corner of the principal cities of Russia is without its loud speaker, blaring forth news and propaganda from the leading broadcasting stations. Recently the authorities placed a large order for radios, to be installed in factories and workmen's clubs. There are relatively few radios in homes.

Do you get up in the morning with a tired feeling and drag yourself through the day? Nervous—jumpy—irritable? It is the warning sign of constipation. Neglect may bring serious ailments. Take 2 or more of Dr. Morse's Indian Roof Pills. They are a gentle, mild, and absolutely safe laxative. Made of nature's pure herbs and roots. Use them tonight and bring back your pep - at all druggists.

National Savings

In 1931 almost every second person in the country had a savings bank account, bank statistics show. There were 51,000,000 denositors with the total of their savings amounting to \$28,250,000,000. For 20 years prior to 1931, the savings of the people aver-1911 there were 17,000,000 savings accounts totaling slightly less than \$8,000,000,000.

HILDREN'S STORY

THORNTON W. BURGESS

JOLLY, round, red Mr. Sun was just going to bed behind the Purple Hills as Peter Rabbit stole into the Old Orchard. It was just that beautiful hour between daytime and nighttime when the little people of the Green Meadows and the Green Forest who have been busy all day are beginning to get drowsy and are thinking of going to bed, while those who have been sleeping all day are getting sleepy-winks out of their eyes and are thinking about filling empty stomachs. The Old Orchard always is very pleasant at this hour. Peter likes to steal up there and sit

Peter Turned to Look at Johnny and Was Puzzled at the Look of Disgust on Johnny's Face.

for a while near Johnny Chuck's doorstep to chat with Johnny Chuck while they watch the first of the Black Shadows steal among the trees and listen to the good-night twitters of the feathered folk and the beautiful evening song of Brownie the Thrush,

"Chitter-chitter-chitter-chitt Chitterchitter-chitter-chit! Chit, chit, chit, chit!" Peter put his head back to look up. Over the tops of the trees raced a black form, this way, that way, turning, wheeling and then with rapid wing beats racing straight ahead, all the time shouting joyously. It was a bird, of course. Flitter the Bat is the only animal who can fly, and he cannot fly anything like the darting little black form Peter was watching. It was Sooty the Swift.

"Sooty gets more fun out of flying than anybody I know of," declared "Just listen to him! He shouts just for pure joy of using those queer little wings. I know how he feels. He feels just as I do when I race around and kick up my heels just for pure joy in being alive. Sometimes I wish I could shout then, but you know I can't, because I haven't any voice for shouting. Just listen to Sooty! He isn't much to look at, but he seems to have more fun than any bird I know of unless it is Skimmer the Swallow, and then after all, Sooty is a swallow himself."

"Huh!" It was Johnny Chuck. "Huh!" exclaimed Johnny again. Peter turned to look at Johnny and was puzzled at the look of disgust on Johnny's face. "Huh!" exclaimed Johnny Chuck once more. "For a fellow who goes about as much as you do and pokes his nose into other people's affairs as much as you do, Peter Rabbit, you know mighty little about your neighbors. Whoever told you

that Sooty is a swallow? "Why-why-why, I don't know that any one did," replied Peter slowly, looking more puzzled than ever. "I didn't have to be told. Any one can see that he is a swallow just to look at him.'

"Huh!" Johnny Chuck seemed very fond of that exclamation, "I suppose any one can make themselves see what they want to see if they don't use their brains enough to find out other things. Sooty isn't a swallow, and never will be a swallow. He belongs to another family altogether. He's a swift. That's what he is-a

Peter didn't know just what to say. Johnny Chuck spoke as if he knew exactly what he was talking about, and Peter had to admit to himself that he really didn't know a thing about Sooty. "Chitter-chitter-chitter

Uncovered Wagon on an Oregon Trail

CHARLES FARNSWORTH, who lives in the Tualitan valley, Ore., had to make a trip to near the Idaho line, some 300 miles and as he did not have any means of transportation he hitched up his two dogs and started off. He is a small man and rode on top of the ballbearing wagon.

For School Wear

This smart jersey ensemble of green, with black and white checked blouse, is sure to be a winner in the classroom and on the campus this fall. It is worn with a small green felt hat. The full sleeves are drawn together just below the elbow with narrow snug-fitting bands.

WARNING to PROPERTY OWNERS

TODAY a letter came to my desk that deeply impressed me. It was written by a woman - the mother in a typical American family. Her little home had been saved from foreclosure by a coat of new paint, for which a part of their meager savings had been paid.

Those few gallons of fresh paint had so revived the appearance and enhanced the value of the property that the mortgagee had consented to renew the loan . . . and the little home was saved.

I could not help thinking of the thousands of homes and buildings that are shabby and unattractive today due to several years of neglected painting; of the millions of home owners who, because of reduced incomes and enforced economy, have been obliged to sacrifice painting for taxes, interest, assessments, to say nothing of food, clothing, heat and other essentials of comfort and health.

You have seen these paint-starved houses and buildings, as have I. They are everywhere about you. Perhaps your home is included.

Do you understand what they signify? Do you realize what will happen to wood or metal that is literally naked of paint if these houses and buildings face the attack of another season of rain, snow, ice, and frost?

Never in the history of our country has the situation been paralleled. Property owners face an added burden of expense amounting to millions of dollars for repairs and replacements next spring.

And the crisis, in my opinion, will be reached this coming winter when paint of four, five, and even six years exposure to the weather will be unable to resist the elements -when badly weathered wood and metal will be easy prey for rot, rust and decay.

Today the big question facing thousands of property owners is plain. It is "paint or pay." Either you must invest a little this fall in new paint or you must take the risk of

paying many times the cost of paint to repair the damage done by rot, rust and decay this winter.

Even at the sacrifice of other things, have your house or buildings completely repainted now. No investment you can make will pay better dividends. And nothing you can buy will make you and your family feel so uplifted and cheerful.

If you cannot arrange to do a complete repainting job now, at least give the badly weathered places a coat or two of protecting paint.

Look especially, to the window sills, thresholds, outdoor porches and steps; the joints of porch railings and palings; the bases of pillars; the edges of eaves; the roof; the gutters and down spouts. These are the vital spots where water lodges-where ice and frost settle-where rot and rust attack first.

A few dollars' worth of good paint, applied now, will protect these vital spots-will tide you over this crucial winter. And it will probably save you a much greater expense for repairs and replacements next spring and summer.

Under existing conditions, you may be tempted to buy a cheap paint because of its low price. I hope you will not make this costly mistake.

Even on sound lumber, inferior paint is a poor bargain. But on weathered wood, which is very porous, such paint is worse than useless. It gives you a false feeling of security and leaves you without protection.

Prices of well-known, established brands of paint are now the lowest in fifteen years. Enough good, dependable paint can be purchased for a few dollars to protect all the badly weathered surfaces on your building.

Again I repeat, do a complete job this fall if you can. But at least do the vital exposed places before it is "too late."

MEDWICK TO PLAY IN AMBOY SUNDAY

Joe Medwick, who has played such a whirlwind game for the St. Louis 1920, the supplements thereto and Cardinals, is going to display his wares next Sunday at the Perth Am- the legislative session of 1927 notice boy City Stadium, according to announcement made in Perth Amboy.

It is understood that Jerry Harrigan will have Joe perform in the outfield for him with his Carteret

Opposed to the Carteret A. A. will be the Lehighs of Perth Amboy, which will have in their line-up Bill Urbanski Boston Braves shortstop.

Carteret representatives will also present Ernie Sabo, Micky D'Zurilla and Tom Carey.

In view of Joe Medwick's sensational work since he joined the St. Louis Cardinals and the steady and effective work of Bill Urbanski of the Boston Braves, it is expected P. M. that plenty of locals from both towns will be on hand to cheer their fav-

CARTERET TRIMS SAYREVILLE, 5-1

Duplicating their performance of earlier in the season, the Carteret A. A. diamond representatives defeated Holy Trinity, 5-1, in Sayreville, on Sunday afternoon in the third and final game of their "crucial" series.

Joe Sabine, burly Amboyan, who did most of the pitching for the Lehighs in the city league, turned back the locals down with six hits.

Carteret won the game in the thence (2) Northerly, along Pershfourth when four run crossed the ing Avenue to Roosevelt Avenue; platter.

Wake Up Your Liver Bile -Without Calome!

in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels

And You'll Jump Out of Bed | If this wie is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skim often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'SLITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent : substitute, 25c at Ali stores. @ 1931, C. M. Co.

Play SAFE with MOTOR FUEL

GUESSolines

BLUE SUNOCO is ALL gasoline, an exceptionally fine gasoline... pure, high powered and knockless

LOOK OUT FOR CUT PRICE INFERIOR GUESS olines . . .

> Frequently pennies saved on GUESS olines grow into dollars spent on repair bills. Such GUESS olines are apt to knock easily; are frequently low in power; and may cause gum, sulphur or carbon troubles.
