

## HIGH SCHOOL WINS GROUP 2 STATE BASKETBALL TITLE

### Spewak Comes Close to Breaking Scoring Record in Group 2 Division by Scoring 18 Points. Comba Tallies 13 Points.

By CLARENCE M. SCHWARTZ

Asbury Park, N. J.—A Carteret High School basketball team, looking and acting more ferocious than it has in the last few years, won the Group Two State Championship Saturday night at the spacious Convention Hall in this city when it conquered a somewhat highly touted Ramsey High team by the score of 42-23.

The victory for the McCarthymen brings the championship back to this town for the second time in local sports history. The invincible team of 1932 was the first to bring this honor to the school.

Ramsey, the day previous defeated a troublesome Merchantville team, whereas Carteret easily disposed of a weak Toms River team, holding it to two field goals.

Spewak, who on Friday scored eighteen points against Toms River, started Carteret down the home stretch with a field goal immediately after the game opened, giving Carteret a lead it never relinquished.

Ferrel Vernon, who like Spewak, is destined for a varsity berth on the Group Two all-state team, converted a foul soon after Spewak's tally, making a score of 2-1, the closest Ramsey came in overtaking the Blue and White. The first quarter ended with a 10-7 score, Spewak accounting for seven of his team's ten points.

At half time, Carteret had increased its advantage to 27-11, and going into the final quarter, led by 37-17.

Spewak again paced the scorers with fourteen points, giving him a total of thirty-two points in the last two games, which, incidentally, is (Continued on Last Page)

## State Court Champs Banquet April 7th

Members of the high school 1934 State Championship basketball team will be honored by the American Legion and the Harmony Social Club and Chamber of Commerce at a banquet to be held Saturday night, April 7th. Tickets will be on sale March 28th. The affair will be held in the high school.

A meeting of the committee will be held next Thursday evening at 7:30 in the American Legion rooms.

## HIGH SCHOOL PAPER RECEIVES AWARD

### Wins Prize for Mimeographed Publications.

Eleven delegates from Carteret High School were sent to represent the "Loudspeaker" at the tenth annual convention held at the Columbia University by the Columbia Scholastic Press Association recently.

The opening session of the convention convened at the McMillin Theatre at 1:30 on the afternoon of March 8th. Following the opening session, sectional meetings were held and at these meetings the students listened to many noted speakers, among whom were: Burriss Jenkins, Jr., noted sports cartoonist; Eddie Dooley, sports broadcaster and reporter; William E. Haskell, assistant to the president of The New York Herald Tribune; and others.

On the second day a general session was held at the McMillin Theatre, followed by the convention picture on the library steps. In the afternoon the delegates attended sectional meetings and a special feature lecture was held in the McMillin Theatre, at which Robert L. Ripley, creator of "Believe It or Not" addressed the students.

The last days of the convention proved to be the most interesting. After a general session and sectional meetings, the delegates attended a round table meeting at which they discussed their problems with student leaders of other schools. Lou Little, head football coach of Columbia University and writer for International News Service addressed the delegates at a feature lecture.

The students returned to Carteret High School bearing the good news that the "Loudspeaker" was awarded second place among the mimeographed publications entered in the annual contest.

The delegates are most grateful to the staff members and the advisers for making this trip possible. They hope that the constructive criticism received at the convention will help the "Loudspeaker" to attain a higher rating next year.

Those who represented the "Loudspeaker" were: Gladys Huber, editor-in-chief, Helen Turk, Irene Beigert, Bertha Venook and Sidney Janofsky of the literary department, Clara Horvath, Elsie Rockman and Louis Nagy of the business department, and Marie Rapp and Dorothy Fisher of the typing section. One of the advisers, Miss E. C. Monahan, Miss L. F. Powers and Mrs. F. Thoburn, accompanied the group each day.

## Young Binstein Injured While Hitching Ride

Samuel Binstein, 9 years old, son of Mr. and Mrs. John T. Binstein, of 42 Mercer street, was seriously injured Monday afternoon when he fell from a truck on which he was stealing a ride. The driver of the truck was Fred S. Kermode, of 234 Walnut street, Roselle. The boy was standing on the rear of the running board and was struck by a rear wheel as he fell. Kermode took the boy to the office of Dr. Samuel Messinger, after which he was removed to the Rahway Memorial Hospital. He sustained a concussion of the brain and a possible fracture of the skull.

## Slightly Burned as Cleaning Fluid Ignites

Max Schwartz and his wife, of 318 Pershing avenue, were both slightly burned Sunday when fire started in the kitchen of their home. Mrs. Schwartz's hair became ignited and her husband threw a blanket over her head, putting out the fire. His right hand was burned. The fire started, firemen said, when inflammable cleaning liquid used in renovating clothing became ignited. The woodwork and draperies of two windows were damaged and, fire and smoke damaged other parts of the kitchen before firemen arrived and put out the blaze. The property damage was estimated by firemen at about \$100.

## Elmer E. Brown Host to Young Demos.

Borough Attorney and former Assemblyman Elmer E. Brown played host to members of the Young Democratic Club on a trip to Trenton, Monday evening. Leaving Carteret in a chartered bus, the guests attended a session of the Assembly and then the Senate, where Mr. Brown as a former member of the Assembly was granted seats in the chambers as a mark of respect to a former member. Following the session a dinner was served at the Broadway Inn in Trenton. Several district leaders made the trip with the young men.

## Capacity Attendance at A. O. H. Ball

Taxing to capacity the German Lutheran Hall, members and friends of Division No. 7, Ancient Order of Hibernians held their 35th annual entertainment and dance on Saturday evening, March 17th. During the evening several exhibition dances were given by Miss (Bubbles) Phillips, of Washington avenue. A military tap and later a specialty number which were well received.

Little Miss Doris Anderson, three year old daughter of Mr. and Mrs. John Anderson, a pupil of Miss Armours appeared in several toe dances. Patrick Shea, a famous Irish dancer and former member of the famous Irish players gave an exhibition of the various jigs and reels of Ireland. Appearing with Mr. Shea were: Mrs. Thomas Williams, of Roosevelt avenue, and Miss Mary McCarthy, of Rahway.

A drawing for \$5.00 for the benefit of the Order was held and the prize awarded to Mr. Alex Pavlek, of Randolph street. At the request of members of a boys' club in the center district, a drawing was held for a \$2.50 gold-piece. This award went to Mr. William Walsh, of Pershing avenue.

Music was furnished by the Greenwich Village Orchestra, under Steve Gregor.

## Citizens Are Urged to Burn All Rubbish

With Easter Sunday but a short way off, the season of house cleaning is here and Carteret residents are advised by Fire Chief Charles A. Brady to burn all the rubbish that has accumulated during the winter before it burns itself and possibly your home with it.

The annual clean-up period is the ideal time in which to make a safety inspection of our homes and to make them safe not only from fire but other accidents as well. Chief Brady suggested that particular attention should be given to attics and cellars to see that such fire hazards as old rags, newspapers and other inflammable material should be removed quickly.

## Local Merchant Enthusiastic About The New Line of Refrigerators

Evidence that the long-expected public buying wave now is sweeping through this and practically all other sections of the country in no uncertain manner is seen in reports received by Sol Sokler, of 54 Roosevelt avenue, local representative of Leonard Refrigerator Company, from executives of the company at Detroit.

Shipment records are being broken at the Leonard factories and production is being carried on at top speed, to fill the demand for the company's new refrigerators. Mr. Sokler has just been informed by Godfrey Strelinger, sales manager of Leonard.

"A new March shipping record was made this month when shipments showed a 122% gain over those made during the corresponding month of 1933," Mr. Sokler said. "A similar record was made in February," he continued, "and January shipments were far in excess of any made during these two months of the year in Leonard's 53 years in business."

"I believe that the record business being done by Leonard Refrigerator Company indicates that many people who for four years have gone without even many of the necessities of life, buying only that which was absolutely necessary, are beginning to purchase those things which they have wanted for so long. We look for the spring and summer to produce not only record demands for electric refrigerators, but for radios as well."

## NEW LIBRARIAN TO SUCCEED L. PHILLIPS

### B. W. Harrington Takes Charge April 1st.

The Library Board met on Tuesday evening and elected B. W. Harrington to succeed Mrs. Charles Phillips, as librarian.

Harrington is a graduate of the University of Notre Dame, having received the degree of A. B. He majored in English literature while there.

Prior to attending Notre Dame Harrington was a student at the local high school. He also put two years in at New Jersey Law School.

The new appointee is slated to commence his duties on April 1st.

Mrs. Charles A. Phillips has held the position for ten years ever since the library was established. The library has constantly extended its usefulness during her regime increasing its circulation tremendously.

The library building itself was a gift of the local industries to the municipality. In the first instance, the library building was simply turned over temporarily by the industries on a short term lease with no charge with the proviso if the library worked out successfully and there appeared to be a demand that consideration would be given to donating the library. After a few years of successful progress the library building was turned over to the municipality which took over the operation of the library.

## F. A. Monaghan Wins Lengthy Court Case

In a dispute of long standing regarding property in the Borough, Vice-Chancellor Berry at Long Branch recently decided that Veronica and Henry Schroeder, of Washington avenue were rightfully entitled to the possession of the disputed property.

John and Joseph Slinksy had instituted suit against the Schroeders to recover property conveyed to the Schroeders in 1930 on Lincoln avenue.

The Vice-Chancellor in his decision decided that the Schroeders were the lawful owners of such property and refused to order its return to the Slinksys.

The Schroeders were represented by Francis A. Monaghan.

### ANNIVERSARY

Mr. and Mrs. William Cromwell, of Locust street celebrated their 11th wedding anniversary in the company of relatives and friends Saturday evening, March 17th. Their home was beautifully decorated in honor of the occasion. Cards and dancing took up part of the evening with a Saint Patrick's Day supper served late in the evening.

## MAYOR'S VOTE BREAKS TIE TO PASS REVISED BUDGET

### Three Republican Councilmen Vote "No"—Figures Now Close to '29 Boom Levels.

The vote in the Council for the greatly increased town budget stood three to three until broken by the vote of the Mayor. The Democrats carried the budget which his \$33,742.78 more than last year. The budget last year was \$232,160.41. It has been raised by the Democrats to \$265,903.19.

Ellis led the Republicans in opposing the budget.

Most of the budget items are increased in varying amounts up to over fifty per cent.

In addition to the increases in the budget items \$31,543.19 was run in as alleged assessment interest deficiency. It was claimed at the outset that this was put in by the Bureau of Municipal Accounts. Inquiry at the Bureau of Municipal Accounts developed that that was not the case but that particular amount was sent down in the first budget from Carteret.

## FATE OF WOR TOWER TO BE MADE KNOWN

### U.S. Dept. of Commerce to Render Decision.

Protests by commercial aviation concerns against erection of a 385-foot tower at Carteret by radio Station WOR are before the United States Department of Commerce.

Aviation officials declare the tower, if erected to increase the power of WOR from 5,000 to 50,000 watts, would be a menace to air navigation. Jack Poppell, head of the engineering department of WOR, went to Washington Tuesday night expecting to get the decision of the Commerce department on the proposal to erect the tower.

The transmitter for the tower is ready for installation. Should the project go through it will cost approximately \$200,000. David Casem, head of the publicity department of WOR, said he expects the new plant to be in operation by the Fall. The tower now in use will be held in reserve in case of breakdown.

The Station experienced difficulty in obtaining a permit to erect the tower at Carteret, the application at that time being for a tower 765 feet high. After permission was granted by Carteret, the project was blocked by protests to the Department of Commerce by the aviation companies.

Aviation officials contend the tower would rebroadcast the radio beacon, resulting in multiple beacons that would confuse pilots. The clear entrance for planes to Newark airport is from the south and planes approaching on the Cleveland beam frequently cut over from Bellafonte to come in on the Washington beam. The cut-off route taking them directly over Carteret. In thick flying weather, it was feared, the 765-foot tower would be a hazard to the ships.

Aviation sources report WOR agreed to compromise by reducing the tower to 385 feet and moving its location to Linden. Casem agrees that the tower will be 385 feet high, but declares it will be in Carteret. He said the question of whether the tower would interfere with the aviation radio beacon was referred to the United States Bureau of Standards and it was his understanding the bureau had decided it would not.

In aviation circles it was understood that heads of lines had been asked to approve the tower if it is erected in Linden at a height of 385 feet and that they have reacted favorably to that plan.

Frank Szymanowski was recently granted letters of administration by Surrogate Connolly on the estate of his mother who passed away on December 26th, last, leaving \$2,100.

quary at the Bureau of Municipal Accounts developed that that was not the case but that particular amount was sent down in the first budget from Carteret.

Last year there was slipped into the budget, \$10,000 item under the name of "Remitted Taxes More than Three Years in Arrears." This is put in once more.

This simply means that that is practically \$41,000 extra in the budget to play with, which is not assigned against any particular item.

In regard to interest on assessment in arrears, that particular interest was paid by the general taxpayers before. Now it is put in the budget for them to pay again.

One of the excuses for boosting the library account is that the janitor who was carried under Grounds and Buildings was assigned to his proper place under the Library account. However, it is noticed that the amount for Grounds and Buildings was not reduced correspondingly. In other words, the amount was added to Library but not taken away from Grounds and Buildings.

In pretty much the same way only the \$31,500 was worked in because it was claimed it was "mandatory", which is what Al would say is a lot of bologna.

This raising of items and slipping in about \$41,500 that has no place in these times in the budget results in jacking the budget up almost on a parallel with the 1929 boom-time budgets. The 1929 budget under Mulvihill was \$274,606.79, which is only \$8,703 more than the 1934 budget in the beginning of the fifth year of the depression.

It was variously reported before the budget was put through that the \$10,000 item for taxes over five years in arrears would be stricken out and that efforts would be made to take out the \$31,000 which it was alleged was "mandatory."

The \$10,000 was not stricken out and the \$31,000 was not mandatory and was not put in originally by the Bureau of Municipal Accounts, as claimed.

It would appear that the boys feel that the tax revenues may not be fully collected and after boosting the budget item after item they want to have enough extra money in the budget so as to make sure there is plenty to take care of everything.

Those who voted for the budget were:  
Mayor Joseph A. Hermann.  
Councilman J. E. Donahue.  
Councilman William D'Zurilla.  
Councilman Philip Turk.

Those who voted against the budget were:  
Councilman Hercules Ellis.  
Councilman William Greenwald.  
Councilman Michael Yarcheski.

Stephen Drake, with his four-year-old son, is rescued from a blizzard by Jim Flynn, big timber operator, whom Drake has robbed. Flynn forgives the theft, and Drake, until his death, impresses on the boy, Steve, the debt they owe "Old Jim." Twenty years later, Steve meets "Young Jim" Flynn, his benefactor's son. Sent by Old Jim, incapacitated through an accident in which Kate, his daughter, is temporarily blinded, to take charge of the company's—the Polaris—woods operations, the youth is indulging in a drunken spree. Hoping to do something for Old Jim, Steve hastens to the company's headquarters, finding Franz plotting against the Flynn interests. Worthing Franz in a fist fight, the Polaris crew assumes that Drake is Flynn's son, and he takes charge, as "Young Jim." A photograph of Kate, which Steve finds, intrigues him immensely. Steve gains the friendship of LaFane, woods scout. Franz discovers Drake's impersonation. Threatened with disclosure, Steve accuses Franz of attempting to murder him, exhibiting evidence, and the man dare not act. Steve sends LaFane to find Young Jim and sober him up. Steve wins the friendship of MacDonald, who owns timber land vital to the Flynn interests and the Scotsman gives him an option for Polaris to buy his timber.

## CHAPTER VI—Continued

"Never mind. Just try to get any evidence on me for anything, now, and see how far you'll get! Just because you've gotten hold of an option don't think you'll pulled Polaris up by its bootstraps! Not yet, you—"

He broke short as the Laird opened the door, bearing in both hands the precious log.

Steve thought for a moment that Franz was only awaiting a chance to go on and unmask him before the Scot and he was prepared to meet any such move with an admission of the truth. The option was made out to the company, to no individual, and he would claim rightful possession of it no matter what came.

But Franz said no more and Drake put this down to the other's knowledge of MacDonald, his whims and moods. Likely Franz did not dare, in this mellow moment, wield the club he held.

They drank together and Steve folded the document, slipping it into his breast pocket.

"The time is none too long now, Mr. MacDonald," he said, bound to leave before any complications arose. "I'll have to be on my way, now. This means a lot of quick work in Chicago."

"Ay, seven days, James. . . 'Nd 'twas a grand troot, a grand, bonny troot."

The old man did not rise, as Steve picked up his hat.

"I'll see you, I trust, on the seventh day, sir. My thanks for your hospitality."

With no more farewell, except a curt nod to Franz, he left them and strode down to the river.

The option in his pocket was a warm, living weight against his breast, a charge to keep, a trust to guard. Where his own safety was concerned Franz might present, but more than his personal safety was at stake, now. He bore the hopes of Old Jim Flynn in his pocket and until he had safely recorded in public files he could not rest.

His canoe was waiting, having been brought down-stream from where he had fished by one of the Laird's Indians, and as he launched for the first stage of the journey he had a flash of a pursuer, ruthless and determined. Drake was unarmed; he well knew that the shoulder holster beneath the other's shirt was not empty. . . .

He did not hasten so long as he was in sight of the MacDonald establishment, but when he rounded the first bend he bent forward and paddled until his canoe leaped and veered at the drive of the blade.

He knew the country and the trails well enough, but Franz knew them more intimately than he. The landing above Twenty Mile rapid was the obvious place for one to leave the river and take to his legs for transport. To run the white water, of course, would cut miles from the journey but the risk of tragic disaster was great.

He speculated as he speeded along, trying to put himself in Franz's position, trying to reason as Franz would reason. When he reached his decision he commenced to smile with tongue in cheek. He relaxed his paddling and chuckled and sat back, drifting with the current.

He could hear the grumble of the treacherous water below, and ran his canoe into a shallows where it was screened by overhanging alders and watted, looking backward.

Of course, Franz might not do what Steve expected of him, but he was proceeding on the belief that to block the recording of that all-important document he would be forced to follow. . . .

"Right!" Drake muttered aloud as a canoe shot into sight far behind, coming fast.

He shoved off and bent to the paddle and in a moment from the fall of his eye he saw the other sweep into sight of him, and then he was rounding a bend with the voice of shaggy old Twenty Mile growing louder in his ears.

He looked over his shoulder just once. Franz had not rounded the bend yet. A leaning cedar was fifty feet beyond him. He rose to one knee, dropped his paddle and balanced there, arms raised.

The cedar rushed at him. The first twigs brushed his hands. His right

closed on a stout, green branch. He snatched at another with his left, missed, and grappled at a dry stub. He gave these holds his weight, gambling they would bear it, lifted his feet and let the canoe shoot on. The stub cracked warningly and, wriggling, kicking, he let it go and grasped living wood and with a heave swung himself sideways and up, until he lay along the hole, panting furiously as he drew branches about himself for concealment.

He could see his canoe, tossing like a chip, enter the first white water and disappear around the sharp bend.

So much accomplished! Now, he turned his face up-stream. Franz was approaching, making in toward the trail landing. He leaped out as the bow touched rock and stopped to grasp the thwart and lift the canoe out and checked all movement, then moved slowly into the trail, scanning the rocks and earth.

Steve chuckled. No sign was there for him to see! Even at the distance he could detect Franz's bewilderment. He went a short distance up the trail and returned, scratching his head and peering down into the head of the rapid.

A moment before, Franz had had Drake in sight. The only place he could have left the river was at that trail; leaving it, he could not have failed to leave signs. Easy!

Franz evidently made up his mind. He stepped into the current again and started down the current. Balancing gingerly, Drake worked his way toward shore and ran along the ledge to the trail, feeling his breast pocket to be certain that the precious paper was still there.

The sun was sinking into the forest beyond LaFane's meager camp.

LaFane himself lounged beside the fire, smoking indolently. Young Jim

Down Into the Rushing Maw of the River Went Franz.

Flynn sat with his back against a tree, glowering.

"Going to starve me next?" he blurted.

The other shook his head. "No. Whatever is done to you, you do. Within limits, that is."

"Limits!"—bitterly. "When I didn't want to come in here, you beat me up; when I tried to leave you did it again. Now it's nothing but coffee for both of us. Enjoying it, are you?"

"Much. . . . Yes, you're sober, now; you've been sober most of a week. There's a little rife yonder. In that birch sits a grouse. If you weren't ashamed to show how shaky you still are you'd try to get him because you're hungry. When you are able to take your living from the country, we'll feed. Not before. I can stand it longer than you can."

After a time he said:

"I'm glad you're ashamed."

"Go to h—!"

LaFane smoked on.

"He was depending on you and you turned him down. Think of that! An old man, laid up with smashed bones, his back to the wall, and you turned him down. . . . I recall how gentle he always was with kids. I should think they'd break their necks to do things for him."

"Shut up!" the boy snapped and averted his face.

"No, I'll keep reminding you of it, and of what you might have been able to do to me, and of what you can do for him and to me if you make up your mind to it. A fine man, your father; not the kind most men would turn down. . . ."

Young Jim winced and LaFane's lips twitched as if he wanted to smile.

## CHAPTER VII

Down into the rushing maw of the river went Franz. Spray lashed his face, the canoe bucked and reared like a frightened, living creature. He grazed a rock and although the touch was light the jolt all but upset him. He shot between protruding boulders with scarcely a hand's breadth to spare and straightened out for the run down a stretch that was white from cliff to cliff.

He was forced to work frantically to keep himself in shallows because protruding rocks were so thick outside that no craft could thread them. He skirted a lodged tree top, canoe rasping through the outer branches without

disaster, but was turned crosswise of the current.

For a long moment it seemed as though the pull of the river would defy his efforts to straighten out and that the canoe surely must capsize, but he put into the paddle every energy of his splendid body. The bow responded, swinging slowly at first. . . . swinging faster, threatening by that spin to bash the one rock with even a greater vigor than the current alone could have impelled. But he won. Won by inches. He straightened out, slipped past and was in safe water.

At the foot of the rapid a big eddy swirled monotonously. As Franz came abreast the eddy, his jaw dropped because along its outer edge, beside a half-submerged log, floated a heavily listed, water-weighted canoe. He altered his course and went close, saw the shattered bottom where a rock had impaled the water-weighted craft, observed the Polaris star-branded on the bow and let a long breath slip through his lips.

"So!" he said and laughed, somewhat uncertainly. "So, Young Jim Flynn, or whoever-you-are! Old Twenty-Mile got you, eh? You, and your d—d option!"

Meanwhile, along the trail that led through the timber out to the Shoe-string road, Steve Drake covered the miles at a woodsman's swift pace. At dawn he entered Shoestring and breakfasted. Inquiry developed no news of Franz. He had a moment of wonder, of doubt. If the other had met death in the rapid. . . . But he shrugged that off. To prevent his arrival here Franz would have shot him down without compunction, concerned only with escaping suspicion for such an act.

Later, he lingered in the register's office until he saw that the entry had been properly made and then, drawing the first really long breath it seemed he had enjoyed since he first stepped into the store at Good-Eye and picked up the gage hurled by Old Jim Flynn's enemies, he walked down to the telegraph office. Franz, thwarted, might try for vengeance, now, but all he could do would be to harm Steve Drake's body, and that was a trifling consideration.

"Sleep well?" LaFane asked that morning.

"No,"—shortly.

"I heard you rolling around. A boy in your shape, who's done to himself and his father what you have done, shouldn't expect to sleep very—"

"For the love of God, LaFane, won't you please let up?"

Honest appeal was in both voice and gesture. Tears showed in his eyes and his breath caught. Slowly his hands which had been wide spread dropped to his sides, his head hung and he turned away.

For an interval the older man watched him. Then he walked close. He put a hand on the boy's shoulder and gripped it tightly.

"Look at me, son," he said and his tone was most gentle. "Look at me. . . . That's right! And listen to this: It was all you had left, your sense of the decent thing. It almost got away but you hung to it. You've got it, now; it's yours; for keeps. If you hate me, I'm sorry. But you won't have much longer to endure me. That's a promise. As soon as the last shake is gone, we go. The job waiting is not one for a man who isn't steady as a rock!"

Young Jim stared at him and his lip twisted as he fought back emotion.

"I don't hate you," he said quietly. "I'm only hating myself. . . . the myself that was!"

Brsly, then, the other began dumping the contents of the grub sack on the rock. He smiled serenely as he cooked that hearty breakfast.

Steve Drake wrote his telegram to Kate Flynn with great care. He told all that had happened as briefly as was possible but re-read it carefully to be certain that no word important to the proposed transaction had been omitted.

His last line was:

"This deal is only way out. Money must be in MacDonald's hands Thursday at four p. m."

To the operator, he said: "Send that. And I'll wait right here until an answer comes."

Butter would not melt in Franz's mouth at times, McNally had said. And this day was one of those occasions. He stood on a high point beside the Laird and showed him where he had found Steve Drake's canoe.

He spoke in a hushed tone, as one does of tragedy. He led the old man slowly to where the wrecked craft was beached and there MacDonald stood with bared head while tears ran down his wrinkled cheeks.

"Oh, a gude lad he was! A fine, gude lad. 'Nd a grand angler. . . . Why. . . . Why'd he chance 't rapid?"

Franz debated with himself craftily.

"The queer part of it all, Mr. MacDonald, is that the fellow was not Young Jim Flynn. The real Young Jim was drunk over on Moose lake when this fellow showed up and passed himself off for the one they'd been expecting. He admitted it to me but I didn't think it was any of my affair so I said nothing to anyone."

"But who was he? What was he doing?"

"I can't answer that. Who he was doesn't matter. What he was doing here I could only guess."

## St. Lawrence Waterway Treaty Rejected by Senate Despite President's Efforts—Revamping of Air Mail in Progress—House Passes Bonus Bill.

By EDWARD W. PICKARD

DESPITE the fact that President Roosevelt phoned personally to a number of senators of both parties seeking to persuade them to vote for ratification of the St. Lawrence waterway treaty, the pact was defeated in the senate by a vote of 46 to 42. Thus the affirmative vote was far below the required two-thirds of those voting. Party lines were disregarded. Twenty-two Democrats voted against ratification, along with 20 Republicans.

Senator Lewis

In favor of the pact were 31 Democrats, 14 Republicans and 1 Farmer-Laborite.

Mr. Roosevelt, it was said in Washington, was decidedly vexed by this defeat of a major administration measure, and he began preparations to resubmit the treaty at a future session of congress. Senator James Hamilton Lewis of Illinois, Democratic whip of the senate and one of the leading opponents of the rejected treaty, predicted that Canada would soon offer the United States a substitute treaty. This may be true, but dispatches reveal that in Montreal, at least, the defeat of the pact was hailed with joy because business men there think the project too expensive to be undertaken at this time. The President's warning that Canada would, on its own initiative, build an all-Canadian waterway seems to be met by this news from Montreal.

Chicago and the Mississippi valley are blamed by Mr. Roosevelt for the rejection of the treaty, and there is no doubt that their arguments against the proposed restriction of diversion of water from Lake Michigan to 1,500 cubic feet a second were potent. This amount, according to Senator Lewis and other Middle West senators, would be wholly inadequate to maintain navigation in the Mississippi waterway. The Atlantic seaboard senators, too, were almost solidly against the treaty.

If the treaty is resubmitted, the clauses concerning the sovereignty of Lake Michigan and the Chicago diversion may be omitted; but Senator Lewis said, "So far as I am concerned—and I believe I speak also for several others—I shall not be satisfied with a mere omission, but shall demand that internationalization of Lake Michigan and the limitation of the sanitary district diversion shall be specifically renounced by Canada."

Secretary of Labor Perkins joined with Wagner and other witnesses before the board in urging the passage of Wagner's bill which would create a permanent labor board and outlaw employer influence over the organization of employees. Representatives of the American Federation of Labor demand that employers be forced to recognize the unions and predict general strikes especially in the automobile industry unless prompt action is taken to satisfy the men.

BY DIRECTION of the President, all air mail operations by the army air corps were suspended by Maj. Gen. Benjamin D. Foulois, chief of the corps, and the drafting of a new schedule that would insure greater safety for the flyers was begun. When the news reached him of the ninth and tenth army mail carriers within three weeks Mr. Roosevelt sent out word: "The continuation of deaths in the army air corps must stop." He ordered that the carrying of air mail cease except "on such routes, under such weather conditions and under such equipment and personnel conditions as will insure, as far as the utmost care can provide, against constant recurrence of fatal accidents."

General Foulois, Brig. Gen. Oscar Westover, chief of air mail operations, and various Post office department officials built a revised "safety" route with the trans-continental line from Newark to San Francisco as the main line, other routes feeding into it. The intention was to reduce the number of trips on all schedules and to permit less night flying.

Colonel Lindbergh aroused interest by visiting Washington for two days and conferring with Secretary of War Dern. Soon after the secretary named the colonel, Orville Wright and Clarence Chamberlain on a committee to investigate the army carrying of the air mail.

Lindbergh, however, declined to serve on the committee, repeating in his letter to Secretary Dern his severe condemnation of the plan to have the

army carry the air mail. Mr. Dern urged him to reconsider. Meanwhile, the colonel appeared before the senate post office committee to testify concerning permanent air mail legislation.

General Foulois has been working on a plan by which army flyers could join with commercial pilots in receiving training. The step follows a suggestion by Mr. Roosevelt that "because military lessons have been taught us during the last few weeks," army aviators should train with those who "later on will fly the mail" in "night flying, blind flying and instrument flying."

TWO hundred and thirty-one Democratic members of the house kicked over the traces and, with the aid of 59 Republicans, passed the Patman bill calling for the immediate payment of the veterans' bonus with greenbacks. The President has repeatedly expressed his opposition to the measure and indicated that he would veto it if it got through congress. Its passage by the senate was unlikely.

There were only two reasonable explanations for the revolt of the Democrats. One was put in words by Representative John Y. Brown of Kentucky, a Democrat, who was in opposition. He said: "You are buying a veterans' vote. You are holding out this piece of bait to get veterans' votes this summer. There is not a man in the house who believes this bill will ever become a law, and yet you sit here and vote for it for your own political welfare."

The other explanation was that many of the Democrats are resentful of the "rubber stamp" label that has been put on congress and welcomed an opportunity to break away from dictation and, as one of them said, vote as their consciences directed.

IN A new revolt against administration policy the house insisted on adding more than \$200,000,000 in veterans' benefits and government pay to the federal outlays in the next fiscal year. However, this was a compromise, for the amendment adopted by the house involves a total annual expenditure of approximately \$90,000,000 for veterans as compared with the \$18,000,000 called for under the veterans' amendment adopted by the senate.

Briefly summarized, the house measure as sent to conference provides:

1. That all Spanish-American war veterans be restored to the pension rolls on a basis of 75 per cent of what they received prior to enactment of the economy bill last session.
2. That all World War veterans with service connected disabilities be restored to the rolls on a full basis.
3. That World War veterans with presumptive disabilities be returned to the rolls on a 75 per cent basis.

In addition, it eliminates pensions for emergency officers, pensions for the widows of the men lost in airship disasters, and knocks out the so-called Borah amendment limiting the restoration of the federal pay cut to persons receiving less than \$6,000 a year.

SAMUEL INSULL, whose deportation was ordered by the Greek government, his ticket bought and his train selected by the officials, vanished from his residence in Athens between midnight and morning, and for hours the police of the country were frantically searching for him. Then it was announced that the fugitive had been arrested aboard the Greek freighter Meotis, which had been pursued by a torpedo boat destroyer. Insull was bound for Kessy, Egypt, near Alexandria, and presumably was heading for either Persia or Afghanistan.

The Athens police learned from the Insull household nothing of the way in which Insull escaped from the city. They thought he was aided by "international crooks."

The Greek government decided that Mrs. Insull was an undesirable resident and should be ejected from the country.

WALTER J. CUMMINGS, chairman of the Continental Illinois Bank and Trust company of Chicago, is the new treasurer of the Democratic party. The place was first offered to John S. Cohen, Atlanta publisher, but he rejected it. Mr. Cummings' first task will be the raising of funds with which to help along the election of Democratic senators and congressmen this fall. Supposedly he will also raise the money for the next Presidential campaign.

ON JULY 1 the University of Illinois will have a new president in the person of Arthur Cutts Willard, now dean of the college of engineering in the university. Mr. Willard, who is fifty-five years old, is a graduate of the Massachusetts Institute of Technology and is internationally known as an authority on heating and ventilation.

THE gunboat Fulton, known as the "grief ship" of the American navy, caught fire during a storm off the China coast and had to be abandoned. The crew of 187 officers and men was rescued by two British vessels and taken to Hongkong. Only three men were injured.

JOSEPH B. EASTMAN and the Interstate Commerce commission have joined in recommending to congress legislation that will place under "the guiding hand of government control" the transportation agencies that use the highways and waterways of the country. Their report, which was submitted to the President, declares that regulation of motor and water transportation is necessary "if a threatening chaos is to be transformed into order." Such regulation, they said, should be concentrated in the Interstate Commerce commission.

In proposing changes in the interstate commerce act, the co-ordinator and the commission recommend liberalization of the long and short haul clause forbidding a railroad to charge less for a longer than a shorter haul, except on permission from the commission.

This clause is held by middle western interests to have damaged them substantially by preventing traffic moving by rail to the Pacific coast, and its repeal is now being sought.

SECRETARY OF COMMERCE ROSE PER obtained the approval of President Roosevelt for a new program for subsidizing the American merchant marine which he will submit to congress.

CRIMINAL action for alleged evasion of the federal income tax law was ordered by Attorney General Cummings to be brought immediately against Andrew W. Mellon, former secretary of the treasury and one of the world's wealthiest men; T. L. Siddow, Cleveland, law partner of Newton D. Baker; Thomas S. Lamont, son of the noted financier Thomas W. Lamont and a member of the J. P. Morgan banking house, and James J. Walker, former mayor of New York.

Mr. Cummings announced that the Department of Justice had conducted a secret investigation of the tax affairs of these four men and had turned the information gathered over to United States attorneys in New York, Cleveland and Pittsburgh. Grand jury action in each of those cities was expected to result. Cases against more than a score of other men were being prepared by the department's tax division.

Mr. Mellon was quick to place his case before the people. In a long statement he denied ever having failed to pay his proper income taxes and said that in the last twenty years he had paid more than \$20,000,000 in this form of rates. He characterized the attorney general's action as "politics of the crudest sort." He continued:

"I feel very strongly that before the attorney general of the United States should bring a charge of this kind against me I, like any other citizen, should be given proper notice in the manner provided by law of the government's intention to assess additional taxes and should have been afforded an opportunity to meet such charges in the customary way.

"In all my years of experience in the administration of the tax laws I have never known of a single instance in which such unfair and arbitrary action has been taken."

Over in London, where Jimmy Walker is sojourning, the former playboy mayor said he was not surprised, that the authorities were only doing their duty and that he even welcomed it as an opportunity to vindicate his character.

By order of the President a new income tax procedure was put in force, designed to break up so-called "negligent" evasion of taxes. All tax returns which the government suspects of embodying willful evasion will be referred to grand juries for investigation of possible fraud.

LIBERTAD, most important seaport of the republic of Salvador, was almost destroyed by an explosion of dynamite on the docks and the resulting conflagration. It was believed at least 150 persons were killed.

ONE of Japan's new torpedo boats, the Tomozuru, of 527 tons, was wrecked mysteriously off the Sasebo naval base and it was believed most of her crew of 113 men were lost. The vessel was completed only February 26 last and was a new type, carrying the heaviest armament ever given a ship of its size. It was considered a triumph of Japanese naval architecture. Several others of the same type are under construction.

HARRY PIERPONT, one of John Dillinger's gang, was convicted at Lima, Ohio, of the murder of Sheriff Jess Sarber in a jail raid in which Dillinger was set free by his comrades, and was sentenced to death in the electric chair. The commander of the Ohio National Guard took every precaution to prevent the rescue of Pierpont by his resourceful chief, for Dillinger was still at large, presumably in or near Chicago.

At Crown Point, Ind., a special grand jury began investigating the easy escape of Dillinger, a special prosecutor having been named to conduct the inquiry. At present only two men, Deputy Sheriff Ernest Blunk and Turnkey Sam Cahoon, have been accused of aiding Dillinger in his jail break.

BY A vote of 15 to 8 a District of Columbia grand jury refused to return indictments in its investigation of an alleged conspiracy to defraud the government on War department contracts. Secretary Dern was highly pleased with what he called a vindication of the department.

# Fifty Famous Frontiersmen

By ELMO SCOTT WATSON

## The Founder of Nashville

"EACH one should do what he can to him his duty. As for my station, is here, and here I stay if every man of you desires it." So spoke James Robertson, leader of the pioneer colony that had settled the Cumberland river in Tennessee on Christmas day, 1779. There had been 256 men in the colony at first but in 60 days 39 had fallen under the tomahawks of the Cherokees, and a few more months 67 others had perished. Crops had failed and starvation loomed. Some of the settlers were to leave, and finally only 134 of the 256 were left. They tried to get Robertson to abandon his post, and he gave his answer.

It was characteristic of this Scotch Irishman from Virginia who had settled in North Carolina in 1750. His spirit had carried him across the mountains with Daniel Boone to the west and had brought him back, after terrible hardships, to North Carolina to lead a party of settlers into the Watauga region and later still Tennessee.

The emigration of Robertson's followers from the Watauga to the banks of the Cumberland in central Tennessee is one of the epics of the frontier. After all he had endured to get the settlement there, he was not going to give up so easily. So, with his son and two other companions, Robertson made his way to Boonesboro, where Daniel Boone lent him passage and lead. He soon had need for it, for 1,000 hostile Cherokees swept down upon the fort at Nashville.

Then it was that Charlotte Robertson proved herself a worthy mate of the stout-hearted pioneer. In their attempt to capture the houses of the whites, the Cherokees left a gap in their ranks. Mrs. Robertson, full of hand and crouched in a look-out tower of the fort, seeing the stampede of the horses and the break in the Indian line shouted to the sentry: "Open the gates and set the dogs on 'em!" As the savages drew their tomahawks to fight off the dogs, the settlers fled to safety, whereupon Charlotte Robertson uttered her "thanks be to God who gave to the Indians a dread of dogs and a love of horses."

There were a few more years of Indian fighting and then peace came to Tennessee. With it came honor to James Robertson—Washington made him brigadier general and he was Indian commissioner until his death. He died in 1814 but he had lived to see the colony which he had founded grow to a great commonwealth and enter the sisterhood of states.

## The Emperor of the West

TO THE Indians he was "White Eagle"—six feet, two inches tall, with a constitution of iron and a heart of pure white, a man of Indian courage and unfailing honesty. To the white men of his time he was the "Emperor of the West," a wilderness king who ruled over 400,000 square miles, an empire which extended from California to Alaska and from the Great Salt Lake to British Columbia. To history he is the "Father of Oregon," more truly than is any other man who may be given that title. He was the shaman of two nations who made him much he became in his declining years a "Man Without a Country."

All these was Dr. John McLoughlin. Like that other monarch of the empires of fur, Kenneth Mackenzie, who ruled at Fort Union in Montana, McLoughlin was a Scotchman who first served the Hudson's Bay company. In 1812 he was appointed chief factor for the H. B. C. in the Columbia river district of the Pacific Northwest. Abandoning Astoria, which had come into possession of the H. B. C. via the Northwest company, McLoughlin built Fort Vancouver further up the river.

Here began his rule over his empire. He not only developed the fur trade, but he also encouraged the agricultural development of the Pacific Northwest. He ruled his subjects, both white and red, with fairness and justice and they in turn loved and respected "Emperor John" as the "White Eagle."

Then American settlers began to drift into the Oregon country. More than one forlorn American fur trader and more than one hollow-eyed settler gaunt from privation, found a generous host in the Scotch doctor and a reliable source of supply while they were carving a home from the wilderness. As an employee of the H. B. C. he should, of course, have expected from the country this advance guard of American settlement. But he did not.

So when the Hudson's Bay company learned what he was doing, the "Emperor of the West" was quickly dethroned. He was not even recognized as a British subject by the majority of his fellow-countrymen. More than that he was impoverished by his loans to the settlers who failed to repay him. In 1849 he tried to become an American citizen. But petty souls who could not forget that he had once ruled the country for a British company blocked him. Congress failed to confirm his title to lands near Oregon City, Oregon where he wished to retire in his old age and claim jumpers took them away from him. Five years after his death in 1857, the legislature restored these lands to his heirs. But it was too late to save the beloved Scotch doctor from dying, a broken-hearted old man, a man without a country.

**The Carteret News**

PUBLISHED EVERY FRIDAY IN THE YEAR AT THE PLANT OF THE CARTERET NEWS AT 9 COOKE AVENUE, CARTERET, N. J. TELEPHONE, CARTERET 8-0300.

M. E. YORKE, Publisher

Entered as second-class matter June 24, 1908, at the post office at Carteret, N. J., under act of March 3, 1879.

THE CARTERET NEWS was founded June 17, 1908 as THE ROOSEVELT NEWS; was published on Wednesdays until July 15, 1909; was then published on Thursdays until December 6, 1912, since which time it has been a Friday paper. The title of the paper became THE CARTERET NEWS on November 17, 1922, following the election of November 7, 1922, when the people of the Borough voted to change the name of the Borough from Roosevelt to Carteret by a vote of 1652 to 203.

**TAXES**

The taxpayers have been hard hit and as a group have more than done their part, much more so than some of the officials.

However, this cannot be said of all taxpayers. Some taxpayers who could well afford to pay their taxes in whole or in part have avoided doing so.

It is rather natural in these times for people to hang on to all the money they have got and not be particularly concerned about such things as taxes, especially when they feel that governmental expenditures have not been adjusted in keeping with the people's ability to pay.

Nevertheless the municipality has to carry on in bad times as well as good times. It is quite true there have been no reductions in the number of employees in the municipality despite the conditions. Yet it is essential that the municipality maintain its school system and other primary services. We all should do our part and pay as much taxes as we can.

The municipality wisely has made it possible for taxpayers to pay in installments, monthly if necessary. If we are to continue our schools and our other services, such as police, fire department, we must do what we can towards tax payments. If we want to continue our schools, fire department, police and health department we will have to contribute what we can towards taxes. Unless there are adequate tax payments we cannot have these services.

We should avoid making it necessary for the State and County to force the municipality to bring about tax sales. As it is now the municipality owes the State and the County a large amount for 1933. On top of that, Carteret has a bill to pay to the State and the County for 1934. In Rahway and many other places they had tax sales in order to carry on their services, even to a limited degree. Let us avoid tax sales by paying as much taxes as we can now.

**WHO TO BLAME**

It does not fool anyone in the budgets to put in padding under various accounting names. Nothing ought to go in municipal budgets except appropriations for definite purposes.

When amounts are put in the budget that are not to take care of a real definite, specific purpose, then it is just so much padding.

It just means so much money put in as a sort of a kitty to play with for any purpose the boys see fit.

If it is really estimated that money will be needed for something definite, it is much more sensible and honest to put it in and then try to get it.

Juggling and putting items in under high-sounding names does not fool everybody.

It is even worse to pretend the thing is to cover a certain purpose and that it is demanded by the State when as a matter of fact the State never heard about it.

It is going to be difficult enough in these days to work ourselves out of the mess we are in generally even when we co-operate together one hundred per cent.

There certainly cannot be cooperation when budgets do not actually represent things which it is pretended they do.

One of the difficulties with this sort of thing is that when this is fully appreciated that there is money in the budget for no definite purposes at all, people who have been trying their best to cooperate and go along begin to question how much truth there is in any statement that is made by officials. Surely that is not a good reputation to develop. When that situation comes about it is natural for taxpayers not to worry about providing money and they are very apt to feel one set of officials cannot be much worse than the others, because you get the run around in any event.

If in these times taxpayers decide that they better look after themselves with what is left rather than worry about tax money, then officials in such cases have only themselves to blame.

**PLENTY**

In the budget just passed by the Democrats and opposed by the Republicans for the Borough proper, there appears to be \$10,000 for taxes in arrears and \$31,000 for alleged interest which is not definitely to take care of any item.

This clearly appears to be so much extra to play with or to use for such emergency purposes as the municipal officials develop. Apparently fearful that the Borough would not raise all its tax money for the regular purposes, such as roads, sewers, etc., it was thought desirable to put an extra amount in the budget for no real purpose, so that they would have plenty of income for the regular appropriations.

**ANNOUNCE MARRIAGE**

Miss Ruth Essig, daughter of Antonia Essig, of Chrome avenue, announced her marriage to Mr. Robert Eudy, of Rahway. They were married on December 2nd of last year by the Rev. W. D. Strong, of the Woodbridge Congregational Church, in Woodbridge.

**GAVE SONG RECITAL**

Miss Ruth I. Brown, local soprano, gave a song recital Sunday afternoon in the Y. M. and Y. W. H. A., in Elizabeth. Many from the borough were present. Albert Danziger, violinist, was the assisting artist.

**SERIES OF TEAS**

The first of a series of monthly teas under the auspices of the Mother Teacher Association of the Presbyterian Sunday School was held Sunday afternoon in the Sunday school rooms as a St. Patrick's tea. Mrs. Harry Yetman and Mrs. Harry Axon poured.

**BRIDGE-LUNCHEON HELD**

A bridge luncheon was held in the Elizabeth-Carteret Hotel, Elizabeth, Saturday afternoon under the auspices of the Junior Woman's Club of Carteret. There were twelve tables in play.

**10 YEARS AGO THIS WEEK IN THE CARTERET NEWS**

ISSUE OF MARCH 21, 1924

THE CARTERET TAX rate for 1924 has been set at \$4.05 as compared with \$3.79 for 1923, according to the County Tax Board.

AN AUDIENCE cheered Mayor Mulvihill at Monday's Council meeting when he defended his administration against the charges of depleting the public treasury. The mayor stated, "the commissioner of municipal accounts heard that the Borough of Carteret was short about \$35,500 in its accounts", and further, "through some misinformation, the source of which we have been unable to ascertain." He laid the source to a "councilman", whereupon Councilman Child admitted telephoning to the commissioner, but denied writing letters. The mayor presented a prepared address to the audience, blaming the board of education for all financial troubles, inasmuch as his administration had to meet a payment of \$78,800, which was to have been paid the year before by the previous administration.

JOSEPH SCHARF, fifty-five, of 103 Emerson street, died Wednesday night after a brief illness.

THE CARTERET Parent Teacher Association launched an appeal to the people of Carteret to vote in favor of the new high school on next Thursday, concluding, "We ask you to think of our children and their future and to act as your conscience dictates."

DICK LYNCH and Charley Leslie are preparing for their eight-round engagement scheduled for next Monday night at Rahway.

THE SPEEDWAYS, with Mullan, Harrigan, Kondus, Yorke, Riedel and Morris, defeated the Arrows, with Donnelly, Harrington, Bill Sexton, Armour and Currie, by an 18-17 score, last night.

**U. S. C. Membership Campaign Progressing**

The membership campaign of the Ukrainian Social Club is progressing satisfactorily, according to reports submitted by the captains of the teams this week. Thirty-six new members have enrolled, with the Blue team headed by Miss Mary Myno leading by a small majority. The drive will end April 2nd, when plans will be made for a banquet in honor of the winning team.

Miss Anna Pavlik, has been appointed chairman of the national April showers social to be held at the Nathan Hale School on Thursday night, April 26.

A special meeting will be held next Monday to discuss the organization of baseball for the club. Patsy Paconnig will be in charge of the baseball activities this season.

**Dr. P. R. Wexler Married in N. Y. City**

Announcement has been made of the marriage of Miss Helen Suderoff of New York and Dr. P. R. Wexler of the Borough, which took place last Sunday afternoon in New York City.

Among those in attendance at the wedding from Carteret were:

Isaac Chodosh, Mr. and Mrs. Sol Chodosh, Mr. and Mrs. Abraham Chodosh, Louis Chodosh, Mr. and Mrs. Samuel Chodosh, Mr. and Mrs. Nathan Chodosh, Mr. and Mrs. Robert Chodosh, Mr. and Mrs. Harry Chodosh, Mr. and Mrs. Neil Chodosh, Mr. and Mrs. Sam Wexler, Meyer Wexler, Palmer Wexler, Ralph Wexler, Mr. and Mrs. Harry Goz, Solomon Chodosh, Pinkus and Frances Goz, Pinkus and Pearl Chodosh, Hyman Chodosh, Mr. and Mrs. Ben Kaplan and Jacob Chodosh.

**DE MOLAY ANNIVERSARY**

The Woodbridge Americus Chapter, Order of DeMolay, will hold their sixth anniversary dance at the Craftsmen's Club in Woodbridge, on April 2nd. The orchestra will be announced later.

Many local boys belong to this organization.

**NOTICE**

TAKE NOTICE That JOSEPH BAKOS, intends to apply to the Borough Council of the Borough of Carteret for Plenary Retail Consumption License for premises situated at 247 Washington Avenue, in the Borough of Carteret, New Jersey. Objections, if any, should be made immediately in writing to Harvey V. Platt, Borough Clerk of the Borough of Carteret.

SET MY FEET IN THY WAY

By ANNE CAMPBELL

SET my feet in thy way, dear God! It will be easy then To tread the paths the saints have trod Far from the haunts of men. There are two roads that I may take. One climbs to starry heights, And one, pursued for the vain world's sake, Is lost in bitter nights!

Set my feet in thy way, oh Lord, And let me see the sweep Of white-clad angels moving toward Thy presence, still and deep, There is a loveliness scarce seen Except by inner eyes, That lifts our souls beyond the mean, And makes us fine and wise.

Set my feet in thy way, dear God, And may my spirit find In reaching upward, with the cloud, The growth for me designed, There is a fuller life for me Above the common day, Help me to reach it finally! Set my feet in thy way!

BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

NIMBLEHEELS JUMPS BLINDLY

A FUNNY thing about this world is the unexpectedness of things. Have you ever noticed that? Good things come to you unexpectedly and bad things happen in just the same way. Some folks are always expecting bad things to happen, and it sometimes seems as if they were just the people to whom bad things do happen.

Nimbleheels, the Jumping Mouse, for his size the most wonderful of all Jumpers, is one of the most timid

He Jumped Blindly and Then Wished He Hadn't.

members of a most timid family. Not even his cousin, Nibbler the House Mouse, is more timid. So, like all timid people, Nimbleheels is all the time expecting something to happen. Anyhow, that is the way it appears to his neighbors.

To be sure, Nimbleheels has enough to make him timid. Like the rest of his family, he is forever being hunted. In the daytime he never knows when the keen eyes of a member of the Hawk family are upon him. At any time of day Black Pussy the Cat may come stealing through the grass looking for him. At night Hooty the Owl, Reddy Fox and Old Man Coyote hunt for him just as they do for his cousin, Danny Meadow Mouse. So Nimbleheels is always ready to jump at the least hint of danger.

You mustn't understand from what I have told you that Nimbleheels always goes in great long jumps when he moves about. That is what Peter Rabbit thought at first, and Peter was quite surprised when he discovered that Nimbleheels runs about on the ground in much the same way as his relatives. It is when he is startled or in great danger that Nimbleheels jumps.

He is much like Peter Rabbit in that he prefers the night to the day for traveling about. That is one reason

why he is not better known by the little people of the daytime. That is the time he likes to sleep curled up in a snug little nest under a grassy tussock or upturned sod. This is just what he was doing one day not long after his visit to the dear Old Brier Patch. He was fast, very fast asleep, dreaming the dreams that mice love best. Not a single soul knew where his cozy little bed was. He had slept there for so many days without once being disturbed that he felt quite safe there. Whenever he went out looking for food he expected something to happen, but there in that carefully hidden little nest he never expected anything to happen.

This being so, perhaps you can imagine how Nimbleheels felt when he was wakened from those beautiful Mouse dreams by the shaking of the ground by heavy footsteps very near him. His eyes flew open, but down there among the stems of the tall grasses he could see nothing. Swish, swish, came through the grass and something very big and terrible seemed to be right over him. Nimbleheels was too frightened to think. But if he couldn't think he could jump, and jump he did, without once looking where he was jumping. He said afterward that there wasn't time for that. He jumped blindly and then wished he hadn't. He landed in the queerest place you can imagine. Can you guess where?

Matter of Diet and Weight

Abundant Proof That It Is Not Always the Amount of Food Eaten That Regulates the State of Fat; Definite Program Needed.

Again comes a headline in a newspaper: "Scientist says weight is merely a matter of calories—all fat persons eat too much." Well, all of us know some people who eat largely and remain thin, and vice versa.

When I have talked to some of the research workers after hearing a lecture with the above text, I find that practically all of their experiences have been with persons who are so fat that they are obese. The specialists talk glibly about reducing people 50 to 100 or more pounds. They speak of original weights of 350 to 400 pounds. I have never been able to get them to commit themselves about cases of persons slightly over normal who would like to be thinner for the sake of comfort and beauty. Until I do I shall go on believing that there are some other facts besides the amount of food eaten, which regulates the state of fat.

There is one other admitted factor now, and that is, of course, exercise. Light diet, combined with exercises, if followed regularly, is most certain to bring results. People, however, sometimes get tired waiting as in some cases it takes several weeks to begin to lose, while water replaces fat in tissues. Not long ago some one wrote to ask me what I thought of the use of glandular extracts in weight reduction. That is, of course, a question for a physician, but it has been shown that what will work with one person will have no effect upon another, perhaps because the activity of the extract is destroyed by the digestive juices. Sometimes two or more glandular extracts will be combined in treatment under the almost daily supervision of the physician—sometimes there are the desired results—and sometimes not.

Dieting also should usually be done under the direction of a physician. The specialists who work with really obese persons find it necessary to have them under hospital care, not only to see that the principle of the prescribed diet is followed but to see that no more food than is ordered is given sympathizing families. Persons who are slightly overweight must depend upon their own self-control in the selection of food.

It is, however, much easier to follow a definite program made out by the doctor or dietitian than to attempt to follow orders by cutting down quantities just anywhere and any way.

The reason some published schemes of diet have worked in some cases is usually because diet directions were specified. If a plan is not definite enough, there may be one of them quite different in results—either too much food to reduce really, or too little food for health, may be taken.

A man told me the other day that he had been able to reduce his weight naturally by the simple method of giving up going out for lunch, and instead, having a bottle of milk sent in. One woman takes one day each week for a diet of fruit alone, and says she keeps fit. Another woman gave up eating all sweets and bread. The most pleasant and generally most practical method is to reduce sweet or starchy foods, and fats, to a minimum, at all three meals. It is a good plan to take a cupful of hot bouillon, or tea, or a glass of milk between the frugal meals. In the meals themselves should remain plenty of fruit and vegetables.

Mineral Mayonnaise. 1/2 teaspoon mustard, 1 teaspoon salt, Cayenne, 1/2 teaspoon sugar, 1 egg yolk, Lemon Juice, Vinegar, 1 cup mineral oil. Mix the dry ingredients and add the yolk of egg. Mix well and add one-half teaspoonful of vinegar. Add the oil gradually, drop by drop at first, then more quickly, beating with an egg beater. As the mixture thick-

Fabric Sticks to Metal. A worker at a prominent insulate has devised a method of combining metal with any sort of fibrous material by means of a metal adhesive consisting of certain low-melting alloys which will cling to both metal and fiber without affecting the properties of either. One of the first commercial results of the development is a form of corrugated roofing in which sheet metal is protected on either side by asbestos fiber firmly attached. Other materials such as wool, felt or paper, can be bonded equally well to metal.

ens, thin with lemon juice or vinegar and continue adding oil. Mix with the materials for salad just before serving.

Spinach Salad. 1 pint boiled spinach, 2 hard cooked eggs, Special french dressing.

Chop the spinach. Chop separately the whites and yolks of the eggs and arrange them, mixed in little mounds on the spinach. Pour over the salad a french dressing.

Foamy Omelet. 6 eggs, 6 tablespoons water, Pepper, 1 teaspoon salt, 1 tablespoon butter.

Separate the eggs and beat the whites until stiff. To the yolks add the seasonings and the water. Beat until light. Cut and fold the whites into this mixture and pour into a hot pan in which the butter has been melted. Cook slowly, shaking the pan, until brown underneath, and place on the grate of the oven until dry on top. Fold and serve on a hot platter with tomato and onion sauce.

Canadian Butter. The butter exports in 1933 from Canada amounted to about 4,000,000 pounds, most of which went to the British Isles.

MEMORY'S PART IN THE RECORDS OF EVERYDAY LIFE

Unpleasant things may be pleasantly remembered and, in a sense, gloried in. Among these are hardships overcome, dangers survived and sacrifices that bear fruit. So it was held by Aeneas, who assured his comrades that in days to come they would rejoice to recall their trials and tribulations. One can readily enough understand that. It is only the terrors that it is unpleasant to recall. There can be nothing painful in the recollection of difficulties mastered. An old philosopher was convinced that the gods rejoiced to see a good man in difficulties, for that involved a conflict in which it is possible for a strong character to triumph. What is pleasant to remember is loyalty to truth and right. Browning makes this very clear in one of his poems. The thing that stings is the recollection of failure and cowardice, falsehood and pettiness. Shakespeare's counsel "to thine own self be true" cannot be improved on. A man's future, the point from which he looks back on his journey through life, is determined by what he does and thinks every day. If he would have happy recollections, he can have them, but only by filling his life with things which he would rejoice and be proud to remember. Memory may be one of life's blessings or one of its greatest curses. To return to the gloomy phase of the subject, Lady Macbeth suffered from and because of things "rooted in the memory," which is a very solemn thought. If evil is rooted in the memory it is very difficult to get rid of.—Indianapolis News.

One hundred years ago the English Bible society, at great expense, put an edition of the Bible in the Manchu language, then the official language of the Chinese court and government. REASON FOR THE FEZ

The recent decree of President Mustapha Kemal, forbidding the citizens of Turkey to wear the time-honored fez, recalls the practical reasons underlying the origin of this ancient head-dress. Almost all Turks are devout followers of the Mohammedan religion, one of the requirements of which is that each believer must pray five times daily. And because a Mohammedan prayer is said in a kneeling position with the forehead touching the ground or floor, it early became apparent that a hat with a brim was unhandy for a people whose prayers must be said with the head covered whether indoors or out.—Kansas City Star.

## QUIBS OF SPORT

Appropriate for Team Medwick's Lifetime Bat to Win on Saint Patrick's Day. Average Is .312 for Two Years.

By CLARENCE M. SCHWARTZ

ASBURY PARK, N. J. March 17—Riding home on a bus from this fair city and trying to think up a new and distinct idea for this newspaper piece is quite an interesting state of affairs.

However, as this piece is written, the tale of Coach McCarthy's 1934 edition of courtsters has been told. Completing one of the best seasons ever encountered by any school team, winning ten games and dropping but five, the local outfit continued its winning ways and captured the Group Two State Championship for the second time in three years.

A comparison of the two ball clubs shows that the present team is superior in games won and lost and also in scoring.

### Final Tourney Results—

The results of the final games appear to be quite an interesting lot. In the Group 4 division, Trenton repeated by downing Union Hill, 29-19. Incidentally, it was the forty-fifth straight victory for Red Smith's boys, captained by the invincible Meyer Bloom.

Johnny Misco, former Woodrow Wilson High star who played against Carteret in the finals of 1932, and who is now playing with Hun School, went on somewhat of a scoring rampage Saturday night against Pennington, charting up twenty points. But it was in a lost cause, for the Pennington team won the game in an overtime period by a 41-36 count, to give them the Group 4 Prep title.

### Asbury Park Seems Unfamiliar to Writer—

This city seems a bit unfamiliar to one who is usually accustomed to seeing it with all its decorations (meaning bathing beauties and all other fluffy little things).

However, I would like to quit my job (it has been hinted that I should) and stay here for good. They tell me the rooms in the hotels are quiet, but we know otherwise.

### Medwick's Complete Lifetime Record—

While at Saturday night's ball game in the spacious Convention Hall in this city, a game which saw a highly favored Carteret team shellack the Hams from Ramsey by a 42-28 score, a copy of the 1933 edition of the "Who's Who in Baseball" came to my attention. This handy little book gives the lifetime records of all major league ball players who took active participation in the 1933 campaign.

### Medwick's record:

MEDWICK, JOSEPH MICHAEL

Born Carteret, N. J. November 24, 1911

### McCarthy Pays Spewak Glowing Tribute—

A glowing tribute was paid to Wes Spewak last week by Coach McCarthy of the local high school. The coach stated that Spewak is one of the best centers he has ever come across in his active coaching career, and observers who saw Wes in action at the tournament games will readily agree on this point.

When the all-State teams come out, Spewak will surely be in the pivot position.

It was indeed fitting for Coach McCarthy's team to win the State title for him on Saturday. Would you believe it, but Mac didn't know it was St. Patrick's Day until Saturday at lunch, when Johnny Barbarczuk, the crooner of the team, broke into the strains of "My Wild Irish Rose."

McCarthy's principal reason for taking the boys to the Asbury Carleton Hotel was for rest. However, the hotel also housed the Ridgefield Park and Ramsey teams, and it happened that the Carteret boys were not on the top floor.

The boys went swimming Saturday morning, and some of them, especially next year's varsity center, were scraped up a bit, when they returned because of the concrete floor of the pool.

### Local Basketball—

Not much has been said lately in this column concerning local basketball. Basketball, as everyone knows, is not enjoying as healthful a season as was anticipated. At present the only active senior teams are the Ukes and Falcons.

Of the two, the Ukes are drawing the most mention. Not only are they anxious to have their box-scores put in the public prints, but they know the value of newspaper publicity.

As the season progresses, the Hamulaks are distinguishing themselves in local court circles. Steve, the elder of the boys, made a fine showing Saturday night against the New Britain Ukes, scoring 15 points.

Hey! driver, what's the hold-up here at 1:30 A. M. A home-coming reception?

## M'CARTHY GIVES BOYS ALL CREDIT

By STAFF CORRESPONDENT

ASBURY PARK, March 17—"The boys deserve all the credit you can give them, remarked Coach Frank McCarthy in the Carteret locker room Saturday night after his boys had won the Group Two State Championship for the second time in three years.

It was the same old scene that is enacted each year in one of the two locker rooms used by tourney teams. The victory, which brings realization of a dream of every ball player, is always followed by the same impromptu celebration.

When a ball player becomes unusually jubilant, he dances, slaps the back of everybody within reach, changes the procedure to hand-shaking, and finally comes to the song. So it was Saturday night in the dressing room of the Carteret High basketball team who had just clinched the Group Two championship.

Heroes of the final game always come in for the heavy back-slapping end are the center of the hand-shaking groups. So it was with Wesley Spewak and Dinney Comba, who were singled out in their excellent performances in the final game.

McCarthy was willing to give all the credit to his players.

"They played a wonderful ball game, in fact it was the best they played all season. They proved to me that they were capable of winning a title.

"Spewak and Comba were great today. It is with much dissatisfaction that I must have Wes Spewak graduate this year.

Not only would I rate him the best center I had here at the school, but I would pit him against any center in the State. In Enot and Comba, we have two wonderful forwards, and their work next year will be worth watching. Markowitz and Barbarczuk are two equally good guards. At center, the boy who will jump, will have a big pair of shoes to fill."

The school was a scene of much activity this week. The boys were duly applauded, given much credit and were asked to give their side of the picture in the victory.

## ST. JOE JUNIORS CHAMPS-OF LEAGUE

The St. Joe Juniors are the new champions of the second half of the Junior Basketball League by virtue of their 9-8 victory over the Tigers Tuesday night at the high school gym.

A basket by Trav Jackson tied the score in the final period, and a converted foul made by Jack Dixon, gave Comba's men a victory.

## Ukes Need But One Game to Clinch Cup

With only one more game to play, the Ukes are sure of first place in the standing of the LUC basketball loop by virtue of their crushing victory over the New Britain Ukes Saturday night at the local gym by a 33-27 score.

With Steve Hamulak and Bubnick blazing the trail, the local lead was never overtaken. Mike Paluch was high scorer for the losers with ten points.

The Ukes only need a victory over Mahonoy City, whom they play this Saturday, before they become the league champs.

## SPEWAK NAMED GROUP 2 CENTER

Comba Is Also Named on Group 2 Team.

Wesley Spewak, captain of Carteret High's Group Two high school State championship basketball team, was named all-state center of the Newark Evening News' All-Group 2 varsity which was announced yesterday. In addition, he was accorded the center berth on the third all-state varsity, representing high and prep schools.

Johnny Comba, his team-mate, likewise made the first team of his division, as did Hymie Walling, former Keyport star, who played with St. Benedict's Prep.

Walling was teamed with Leavitt and Thomas, of Pennington; Misco, Hun School and Weems, of Wenonah.

Mercer, of Chatham; Vernon, of Ramsey; Spewak and Comba, of Carteret; and Lorenzo, of Dover, make up the all Group 2 high school varsity.

Mike Briscese and Ray Otowski, of Keyport and Perth Amboy, respectively, were the only other players from this district to land a berth. Briscese made the second team of All-Group 2 high, while Otowski merited a guard position on the All-Group 4 third team.

## High School Wins State Court Title

(Continued from First Page)

The best individual performance in the Group Two division. Comba came next in line with thirteen points, of which five were made on foul shots. Mike Markowitz scored eight points.

The Bergen County team could not solve the fast team-work of the Blue and White, so when the final gun was fired, Carteret had won the championship by the safe margin of fourteen points.

## WHAT THE BOYS SAY ABOUT WIN

By WES SPEWAK

Captain, 1934 State Champs "Now that everything is over and our great record for this year has been filed, it is fitting to pay tribute to individuals, where tribute is due.

The boys, naturally enough, deserve the most credit. Their splendid cooperation aided us immensely in our victory over Perth Amboy, which was indeed the greatest upset of the season. Coach McCarthy is very lucky to have all this year's State champs back next year, except myself. I sincerely think that we will have as good a team next year as we have had this season.

In conclusion, I want to pay a tribute to Coach McCarthy. He is a great coach and a great guy and I enjoyed working for him, and I imagine the feeling is mutual from all the players."

MIKE MARKOWITZ—"As I have always said to my team-mates, you can't beat a good team, and we proved our ability."

JOHN BARBARCZUK—"Well, I'll tell you. I think we won through everybody's co-operation."

BUDDY ENOT—"Our superior passwork and knowledge of knowing how to handle the ball brought the championship to Carteret."

DINNEY COMBA—"Spewak's ability to play the pivot and everyone's fine game won for us on Saturday night."

JOE LUKACH—"We had fish on Friday and ham on Saturday."

JOE TOTH—"I hope we do as well next year."

LEO KOHN—"It was Jackie Wielgolinski's ability to shoot fouls that we won."

BUTCH BARTZ—"As Toth says, I hope we do as well next year."

JACK WIELGOLINSKI—"Every-one aided in the victory."

## Combine To Score 23 Points In Defeating Toms River 41-10

Wes Spewak and Dinney Comba Star in Sweep of Tourney Games to Bring State Title Back. Down Ramsey in Final, 42-28.

Holding their opponents to two goals, the Carteret High School basketball team qualified for the finals in the play-offs for the State Championship Friday afternoon at Convention Hall in Asbury Park, downing Toms River by a smashing score of 41-10.

Captain Wes Spewak of the local outfit came within two points of breaking the tournament scoring record which is twenty points. Spewak accounted for eighteen of his team's forty-one points.

Taking the lead early in the first quarter, Carteret was never in danger of being headed. Baskets by Spewak, Markowitz and Enot put the game on ice for the local troupe, and at half time the locals led by 25-2. The amazing fact is that the Blue and White defensive ability was so strong, that it limited Toms River to only two field goals.

Toms River's Norman Hopson, the high scoring forward, was ably taken care of by Mike Markowitz. Holding Hopson to five points, Mike himself scored seven.

Spewak had a field day, and scored eighteen points. His superb ability to shoot fouls was a decided advantage to the entire club. Out of ten fouls, Spewak made eight and to round it out, plunked in five field goals. A fitting climax indeed for a graduating star.

Lukach played his last basketball game for Carteret on Friday, also. Although he did not start, Lukach was seen in action and scored one beautiful shot from the field.

## Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTERET'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. Get at drug stores. ©1931 C. M. Co.

## C. A. CONRAD IS B. OF E. PRESIDENT

### Re-elected for Another Term by School Board.

At the meeting of the Board of Education held on Monday, Charles A. Conrad, local business man, was re-elected president of the board. Thomas Jakeway was chosen vice-president and William V. Coughlin was re-named district clerk at the meeting for the organization of the board for the school year 1934-5. The new members elected to the board—Joseph Galvanek and Gus Medvetz, were inducted into office. Mittuch was a candidate for the presidency of the board and received two votes—Haury's and Galvanek. On the vote for vice-president, Jakeway received the votes of Beigert, Conrad, Lukach, Medvetz and Galvanek. Jakeway, of course, did not vote, but Haury and Mittuch voted "No." Galvanek, apparently, regardless of politics voted for Jakeway. Coughlin was reappointed clerk on the approval of Beigert, Conrad, Jakeway, Lukach and Medvetz. Galvanek did not vote, apparently feeling not experienced enough to make an intelligent decision as yet. Mittuch and Haury voted against the appointment. The salary was fixed for one year at \$1,460.00. Following the election of the officers, President Conrad thanked the members. Applications were received for teachers from Thomas Chester, of Carteret, Marie Revell, of Frederickburg, Virginia, and Harry C. Rosenfeld, of Phillipsburg. More applications were received for a janitor's job. The Borough has already two janitors for each school. The request of the first Hungarian Baptist Church to use the auditorium of the high school for a play on the night of May 19th was acted upon favorably. The faculty of the adult night school, which was sponsored by the State Board of Education, advised the Board of Education that there had been some complaints by individuals who had been teaching in this emergency school that had not received what they had figured was the correct amount in final payment for their services. The Board of Education directed District Clerk Coughlin to write to the State Board of Education for further information and learn whether or not some mistake had not been made. President Conrad advised that the employees of the Board of Education would get paid before they went on their Easter vacations. This payment amounts to approximately \$37,000.00.

## DELEGATES NAMED BY JUNIOR WOMEN

### To Represent Club at Convention in April.

Miss Frances Harrington and Miss Wanda Knorr were Tuesday night appointed delegates to represent the Junior Woman's Club at the convention of Junior Woman's Clubs in Atlantic City, April 28th. A card party will be held in the home of Mrs. Earl Foote, April 12th. Reports were received on the bridge-tee held recently in the Elizabeth-Carteret Hotel in Elizabeth. After the business meeting there was a social session with refreshments and cards. The Misses Alice Brady and Ann Reilly were hostesses. Others present were the Misses Jane and Mary Harrington, Mary Filosa, Mrs. Eleanor Husk, Miss Ann Lewandowski, Miss Ann Proczura, the Misses Loretta Kay, Helen Hill, Ann Foote, Wanda Knorr, Catherine Grech, Helen Strubbers, Edna Bradford, Evelyn Springer, Ruth Grohman, Frances Sarzillo, Eleanor Bryer, Agnes Gunderson and Kathryn Conran.

## BIRTHDAY PARTY

In honor of the fifth birthday anniversary of their son, William, Mr. and Mrs. Joseph Zimmerman, of 115 Longfellow street, entertained a group of young people at their home on Sunday afternoon. Refreshments followed the playing of games. The guests were James Baird, Ewald Barcher, Walter and Mary Myrto, Johanna Stroller, Joseph Sabo, Walter Senczuk, Joseph Adam and Kathryn Zimmermann, Mrs. Joseph Hubb, Mrs. Barcher, Mrs. Sabo, Mr. and Mrs. Bertalan, Mr. and Mrs. Adam Zimmerman and son, William.

## ROSARY SOCIETY

The Rosary Society of St. Joseph's Church met Wednesday night in the church hall. Arrangements were made for the members of the society to receive Communion in a body on the first Sunday in May, with a Communion breakfast in the church hall.

## "Number Game Racket Must End" Says Chief

Chief of Police Henry J. Harrington declared war on the number racket Wednesday afternoon when he arrested six men, finding pay slips upon the person of each. The men were immediately arraigned in Police Court and fined. They were: Joseph Pilgrim, 31 Mercer street; John Payne, 16 Bergen st; John Brown, 53 Mercer street; Leo Robinson, 1 Salem avenue; Robert Thomas, 57 Mercer street; all colored, and Edward Stook, of Sharot street. Thomas was fined \$100 and \$10 costs, or ninety days in jail. It was his second offense. The others were each fined \$50 and \$10 costs or sixty days in jail. They all paid. Assisting the chief in making the roundup were Sergts. J. J. Dowling and Thomas McNally. Robert Thomas was arrested a few weeks ago when the police broke up a bookmakers establishment, broke up the slot machine racket and arrested a few number writers.

## COURT CHAMPIONS TENDERED BANQUET

### Held Saturday Night in High School Gym.

To the accompaniment of a slight snowfall, the Carteret Parent Teacher Association's banquet to the winning high school basketball team was held Saturday, March 24th, at the high school at 7:00 P. M. Mrs. Mary Armour, president of the P. T. A., greeted the guests and made them welcome. Mr. William V. Coughlin, acted as toastmaster and introduced the members of the Board of Education, Mayor Joseph A. Hermann, members of the Council, members of the high school faculty and out-of-town guests, who, all in turn, profusely congratulated and complimented the winning heroes on their achievement in attaining the State Basketball championship in their class. Coach Frank A. McCarthy and Wesley Spewak, captain, gallantly responded for the team. The Coach also called upon each member of the team to say a word.

## DESTROYS BEACON LIGHT

A sedan with a Pennsylvania registration struck the traffic beacon at the "Y" formed by Cooke and Pershing avenues in front of the borough hall Saturday night. The concrete base of the beacon, weighing more than a ton, was moved about two feet and the beacon itself was destroyed. The driver who was accompanied by six girls, drove away rapidly. Mitnell Level, of Lincoln avenue, saw the accident and gave the police the license number of the car.

## FINED FOR RECKLESS DRIVING

Andrew Kunda, of Washington avenue, who was arrested several days ago on a charge of drunken driving, was arraigned in Police Court, Tuesday night on a charge of reckless driving, and was fined \$10 and \$3.75 costs.

## IN TRENTON SUNDAY

Mr. and Mrs. Hugh Carlson and family spent Sunday in Trenton, visiting Mr. and Mrs. Henry Carlson.

## GOOD APPOINTMENT

The announcement from Trenton that Harold Hoffman is again to be Motor Vehicle Commissioner meets with plenty of approval in Carteret. The smiling Motor Vehicle Commissioner when he was Congressman for this district, treated everyone alike whether they were Republicans or Democrats. He was then very much on the job and many in Carteret have not forgotten the good job he did then. Through experience and background he is well qualified to give the average man a break and is well able to minister the important office he holds.

## DINNER TO HONOR LEWIS COMPTON

### Tribute to His Fine Relief Work Efforts.

A testimonial dinner is to be given to Lewis Compton, county director of emergency relief on April 10th at the Rutgers Gymnasium. It is understood that Mr. Compton will soon retire as relief director from Middlesex which is highly regrettable. The speakers at the dinner are to be John Colt, State Director of Emergency Relief, and former director, Chester I. Bernard. It is understood that Dr. Clichier, president of Rutgers, will speak briefly. Formal invitations have not been sent out but it is understood that friends of Mr. Compton and those who approve of his fine work in emergency relief are invited to attend. The Rutgers Jazz Bandits have volunteered to furnish the music for the banquet. Dancing is to follow. Prior to the dancing an exhibition of gymnastics is to be given by Rutgers. The affair is planned by those who have had to do with emergency relief and is to be non-political throughout. Those who have been interested in handling emergency relief in Middlesex County are well aware of the unusually fine job performed by Lewis Compton, who has also been a very able director of the Board of Freeholders.

## FINED FOR STEALING WIRE

Four boys who are alleged to have stolen copper wire from the East Line right-of-way, were arrested on Friday last. The two older boys were fined \$5 each and the younger ones paroled in the custody of their parents.

## SCHOLARSHIP OPPORTUNITIES

Some Advantages High School Students Have to Secure Higher Education for Small Expense.

By HELEN TURK

Many people do not realize the many opportunities provided by the leading colleges and universities for the ambitious high school graduate of today. Anyone who has shown himself to be a student of high standing both in scholarship and leadership in his school may apply to various institutions for a scholarship. Provided that his recommendation is satisfactory, he is very likely to be awarded a scholarship covering his regular college expenses in part or in whole. Scholarship awards are usually made on a basis of superior scholarship, participation in extra curricula activities, character, personality and especially in need of help.

## SURPRISED

A delightful surprise birthday party was tendered to Miss Helen Csele of Pulaski avenue, daughter of Mr. and Mrs. John Csele, at the home of Mr. and Mrs. James Owens of Atlantic Street on Saturday evening. Dining and music was enjoyed. Refreshments were also served. Among those present at the party were: The Misses Ruth Coughlin, Mary and Helen Csele, Violet Chelus, Margaret Owens, Kathleen Dooey, Peter Olsen, John Dickson, Thomas Dowling, Floyd Owens, John Harrington, Herbert Malwitz, Wesley Spewak and Elmer Krysko.

## DANCE AND CARD PARTY

The first annual dance and card party given by the Ernie Nier Republican Club will be held Monday night, April 16th, at the Craftsmen's Club, 94 Green street, Woodbridge. Cards will start promptly at 8:00. Music by Bert Stroller and his Hollywood Orchestra. Dancing will start at 10:00. There will also be other entertainment.

## EDWARD WEBB IN WOODBRIDGE CRASH

Two passengers were injured when automobiles driven by Edward Webb of 147 Edgar street, Carteret, and Gerald Arnone, of 151 Lexington avenue, Jersey City, collided at Second and William streets, Sunday night. The force of the crash threw the Arnone car into the fence around the home of Joseph Magyar, damaging it considerably. Patrolman Andrew Simonsen reported that the accident occurred when Webb, driving east on Second street, in Woodbridge, crashed with Arnone, going south on William street. Miss Frances Madona, 35, of 31 Wallace street, Jersey City, a passenger in the Arnone car, was injured slightly, as was Mrs. E. J. Bennett, 69, of 147 Edgar street, a passenger in the Webb machine. Both refused medical treatment.

## SCHOOL BUDGET IS APPROVED MONDAY

### Enables B. of E. to Pay School Employees.

The Council met on Monday for consideration of the school budgets. Without some positive action on the budgets, it is not legal to pay any of the Board of Education employees. It was thought if the budgets were let go on to Trenton for consideration that due to red tape, the employees might be for two or three months more without pay until there was action on the budget. The budget for the first six months calling for \$249,647.35 was approved. The budget for the school year beginning July and running until June 30th, 1935, was raised from \$239,207.27 to \$247,307.27. This provides for a 5% increase in salaries in the second school year. The people twice voted down the budgets that were submitted to them, apparently indicating they still thought the budgets were too high. It is certain that the tax income of Carteret in the last year indicates they are in no position to even meet the existing budgets. However, at the Council meeting it was suggested that the five per cent increase was subject to the way the tax money was paid in including arrears. In other words, the thought expressed was that the Borough would not be obligated to pay five per cent more in the new fiscal year unless it was available. The passage of the budget, however, requires the levying of that amount of increased taxes to provide for the school budget. Part of this increase will be levied in the second half of the calendar year of 1934. The levy for the first half year has already been made, one-half of the previous year. It has been suggested that instead of five per cent increase put in the budget for the new school year, that approximately the same amount could be put in and those in the lower brackets be dealt with a little more generously. Report is that it is the opinion of Borough Attorney Brown that this could not be done. At the same meeting the alleged \$31,000 supposed to be for delinquency in interest on assessments was voted to be spread over five years. It was suggested that this was mandatory and ordered by the Commissioner of Accounts but this does not seem to be the case at all. Building Inspector Colton recommended that the Rahway Library Association be allowed to demolish five frame dwellings at 20 to 28 Bergen street. He claimed that they were in bad shape and constituted a menace in their present condition. It appears the Library Association said that it would be glad to deed the entire property to anyone who would accept it and relieve the Library Association of the delinquent tax obligation. It appears that the Canda interests got rid of some of its taxes in pretty much the same way, turning over to the town some land instead of paying its taxes. If everyone would do this the town would have plenty of land but no money to operate with. The fact that people want to tear down the buildings and give the buildings and land to the Borough indicates what the tax situation has done to the average property holder, it was pointed out.

## HIKE PLANS COMPLETED

At the meeting of Troop 82, Boy Scouts of America, held on Saturday, plans were completed for the hike to Linden tomorrow. Various tests are to be taken. A talk on what to do in case of emergencies on a hike was given by Scoutmaster Misdom. The German American Citizens' Club has made arrangements for a spring festival and dance in the German Lutheran Hall, May 19.

SYNOPSIS

WNU Service

Stephen Drake, with his four-year-old son, is rescued from a blizzard by Jim Flynn, big timber operator, whom Drake has robbed. Flynn forgives the theft, and Drake, until his death, impresses on the boy, Steve, the debt they owe "Old Jim." Twenty years later, Steve meets "Young Jim" Flynn, his benefactor's son. Sent by Old Jim, incapacitated through an accident in which Kate, his daughter, is temporarily blinded, to take charge of the company—the Polaris—woods operations, the youth is indulging in a drunken spree. Hoping to do something for Old Jim, Steve hastens to the company's headquarters, finding Franz plotting against the Flynn interests. Warring Franz in a fist fight, the Polaris crew assumes that Drake is Flynn's son, and he takes charge, as "Young Jim." A photograph of Kate, which Steve finds, intrigues him immensely. Steve gains the friendship of LaFane, woods scout. Franz discovers Drake's impersonation. Threatened with disclosure, Steve accuses Franz of attempting to murder him, exhibiting evidence, and the man dare not act. Steve sends LaFane to find Young Jim and sober him up. Steve wins the friendship of MacDonald, who owns timber land vital to the Flynn interests and the Scotsman gives him an option for Polaris to buy his timber. Knowing of the giving of the option, and wanting the timber for a rival company, Franz plans to put Steve out of the way, but the latter outwits him.

## CHAPTER VII—Continued

He said that significantly and the Laird stared at him in sharp query. "My guess would be this: that Flynn tried to buy from you and had gotten nowhere, that he knew his son was a worthless bum, that he found this fellow who makes a good enough appearance and who surely is a darned good fisherman and sent him in here with the deliberate purpose of winning your confidence and friendship."

"Ye think so? Ye think that, lad? . . . I wonder . . ." An irate gleam commenced to show in the Laird's eyes. "Queer happenin's, queer things. Ah, I'm sick of it all! Age rides heavy on th' shoulders! A great relief I felt when I signed his option but if he's gone, it's gone w' him 'nd I've got th' timber back again! If Jim Flynn's a smart trickster, no more will I have to do w' him but I've th' property back noo 'nd just when I'd commenced to reckon on other investments."

It was Franz's opportunity, his hour snatched from what happened to have been defeat yesterday. Cleverly he played his cards. Each word he spoke was well calculated. They walked back to the Laird's where the old man paced the room while Franz listened in evident sympathy and waited. . . .

His waiting was rewarded and, at dawn, he started for Shoestring himself, an option in his possession. He presented his document to the register of deeds and watched that worthy scratch his head as he read it.

"Well, that's the second option on that description!" he declared.

"Second!" Franz's voice was shrill.

"Sure. Young Jim Flynn was in yesterday with it. He waited around town until this noon for a telegram."

"But . . . Why, he couldn't . . . He's . . ."

But ghosts do not transact business. He had been thwarted again but his agile mind grasped one shred of hope.

"His was a seven-day option, wasn't it?"

"Yes. Dated Thursday."

"Record this, then. It's for fifteen."

He went out of the building and walked slowly to the edge of town, throwing himself down under a tree and trying to plan. Telegrams had been exchanged between Shoestring and Chicago relating to this transaction. Now, if a man could know what instructions those messages contained . . .

Down at the railroad station, which was also the telegraph office, a figure stood for long in the deep shadow of the building. After a time, seeing no one, hearing no one, a man slipped an iron bar beneath a window sash, put his weight on it and heard the catch give with a snap and a tinkle. Slipping into the room he closed the window cautiously behind him.

He found Steve's message, signed with the single word, Jim; and after further searching, located the reply:

"God's in his heaven, all's well with the world. The option is grand news but indication of what you have done with Dad's trust brings the greatest happiness I have ever known. Twenty-five thousand currency will be delivered to Good-Bye Tuesday. Have team at Shoestring Monday noon."

And in the little camp beyond the Mad Woman two men lay under the arching stars and talked on and on.

"You've got it to do," LaFane said again and again. "You can do it; you must do it. In less than a week, now, you'll be as fit as you ever were. . . . And you can and you must; you can and you must!"

The boy beside him trembled a little.

## CHAPTER VIII

Even after he had taken up the many details that were awaiting his decision Steve re-read that telegram from Kate Flynn and although one phase of her reaction gave him a feeling of vast achievement, another factor gave him pronounced dismay.

If LaFane failed to do for Young Jim what Steve had hoped he might do, Kate's heart would be broken. If he were making progress, Steve had no word of it and each day that was

added to the absence of the two reduced his hope by just so much.

Drake knew, that the time for his unmasking was at hand. Beyond a doubt Old Jim would send an attorney to close the timber deal and the chances were that any lawyer or agent so trusted would have had dealings with Polaris in the past, and would know Young Jim well.

When Steve re-entered his cabin on the return from town to find it in a sorry state of disarrangement he experienced a moment of great surprise. Then Franz's words at the Laird's came back. He had boasted that Steve had no evidence against him to prove that he had attempted murder. Sure enough; the shotgun was gone. He was chagrined at not having taken more precautions. However, he told himself, the threat which he had held over Franz was no longer of major importance. The man could tell his story of having discovered the genuine Young Jim elsewhere in the country almost any time, now; it would make little difference to any person but Kate.

Early on a Sunday morning McNally harnessed his light team and started for town to meet the arrival due the next day.

Drake would have driven to the railroad himself, but the fire hazard continued to increase and if a burning started he wanted to be on the job; furthermore, he was hoping that LaFane would come, either with Young Jim or bearing word of him. He must be present to have at the earliest possible moment whatever news might be forthcoming.

Had he gone to Shoestring himself he might have observed things that old McNally missed.

For one thing, he might have seen Franz idling within the building, watching as Mac escorted the arrival

The arrival of the man for whom he was to form such an antipathy frustrated the success of that scheme. His hope of sending Jim Flynn tobogganing into ruin so his holdings might go to add to that growing empire of timberlands which Franz's principals desired was quickly cooled by the new signs of life about the job which followed the arrival of an outstanding leader.

This was bad enough but, added to these other failures which could be laid only at the feet of the one who posed as a Flynn, was the item of his hold over Mary Wolf. When Steve Drake aided the girl in her departure from the squalid little farm home where she had been so conveniently located, Franz was shaken by an urge for vengeance which knew no bounds.

He tried to kill, in a cowardly way, and failed. He tried blackmail, a coward's weapon, and failed again. At MacDonald's, because of his regard for the old Scot's nature, he was forced to stand by and see the last plan he had laid for personal gain go crashing down.

But he was no quitter, this Franz! And when he read those telegrams, at Shoestring, hope came to life again. Money was coming into the country; money in a quantity which was in itself disturbing to consider. But that money meant more than the possession of so many thousands. It renewed his faith that some day he would be the agent for a transaction involving the transfer of the much coveted MacDonald property.

He had unmasked Steve Drake for the Laird at the proper moment. If that option could be caused to lapse he felt certain that the eccentric old Scot would refuse to renew a deal with one who had hoodwinked him or with a corporation which had had such a one in its service. So, the option must lapse.

Steve was in the store when McNally drove into the clearing. Mac had planned to spend the night at the last farmhouse between headquarters and town and Drake, after breakfast, had busied himself there to be present at the arrival.

But his mind was not wholly on that event, important though it was. It persisted in going back to an earlier incident of the day.

He had awakened as usual when the chorus of bird songs commenced to swell, dressed and stepped outside with an ejaculation of surprise, because Mary Wolf was seated on a log beside his threshold, elbows on knees, waiting with stolid patience, apparently for his appearance.

"Hullo, Mary! When and where'd you drop from?"

"Camp, Jus' now," she said.

"Something wrong? Has Franz been after you again? I haven't seen him in days and I'd wondered about you."

"Nothing wrong, Franz don't come by our camp."

"Well, if nothing's wrong . . . What brings you here again, Mary?"

"You want me?" she asked so simply and directly that it quite took his breath.

"Want you? Why . . . What . . . That is, I don't know what you're driving at," he evaded lamely.

The girl stirred slowly on the log.

"My father, he die 'n'-bye," she said. "Not long, now. He gets worse. He breathes fast . . . So." She panted. "I should not go before he is dead. He is old; sick. At school they tol' us we should stay by old people. Take care of 'em. That is right, I do."

"But he die pretty soon. I can go. You're Jim," she said, "you treat me good. You are the only young man who ever treats me good. You say to me, you do me like your own man and do by white women. You are . . . you are . . ." She hesitated, seeming to search for the proper word. Then, successful, spoke it with as much emphasis, it is likely as she had ever placed on an utterance.

"You are kind."

Steve laughed, deeply embarrassed.

"I say what is so; you are kind. You live alone. I can cook good. They tol' me at school I can cook good. I not like some. Some girls don't work. Me, I work. My father die. I come here and cook for you. I do it all. Sweep, Wash. Sew. I be your girl."

Red swept into Steve's cheeks. He searched his face with a probing gaze, almost as a faithful dog might, expecting largess.

"When Old Jim come, I go away. When white girls come, I go away. When you go to town, me I stay by camp. I think everything when I got bark and split cedar. What you say, Jim?"

Now, what did a man say to a proposal such as this?

Steve Drake said nothing at all. He had not a word at his command for that interval. In Mary's plan was nothing unclean, nothing offensive. It was childishly natural. He had been kind to her, probably the first man of his race and years whom she had known and who had not looked upon her as a creature of utility, and in her gratitude she was offering all that she possessed.

"Why, Mary," he began with a helpless feeling as he realized the futility of attempting to make her understand either how deeply her offer touched him or the impossibility of his acceptance. "You . . . I don't know what to say to make you know that I am your friend. But, even so, you can't come here and stay. Understand that? I can't have you here."

## Gain in Industrial Employment Reported—Steel Industry Accused of Price Boosting and Fixing—Japan and U. S. Exchange Good Will Notes—Navy Bill Passes.

SECRETARY OF LABOR FRANCES PERKINS announces a jump of \$45,000 in industrial employment and a gain of \$12,000,000 in weekly pay rolls between January 15 and February 15.

Secretary Perkins

"Factory employment increased 6.1 per cent while pay rolls rose 12.6 per cent," Secretary Perkins said in summing up the developments. She added that since March of last year, 2,400,000 workers have returned to industrial jobs and \$67,650,000 added to the weekly pay rolls.

Secretary Perkins pointed out that her survey of industrial employment covers only a small part of the total business field.

"The manufacturing and non-manufacturing industries covered," she explained, "normally employ only 20,000,000 of the 49,000,000 gainful workers of the country and therefore these totals do not indicate all changes in employment. To them should be added 10,000 workers reported by the interstate commerce commission to have been taken on during the last month by Class I steam railroads, and gains in agricultural employment which normally take place at this time with the beginning of farming activities in the Southern states."

"The increases in employment and pay roll in the automobile industry were the outstanding gains of the month. The agricultural implement industry reported employment gains of 14.9 per cent and machine tools a rise of 16 per cent, continuing the gains which have marked every month since last May and June.

"Industries allied with building construction also showed increased operations."

PRICE fixing and price boosting, tending to discriminate against small enterprises, are current practices in the steel industry under its NRA code, the federal trade commission declares in a report to the senate.

That there has been price fixing as well as increases in prices of steel products during the period covered by the inquiry, the commission declares, are conclusions warranted by ample facts. Under the provisions of the code and the methods of its application prices for any given product at any point of delivery are uniform. This is a direct violation of the order to desist from the Pittsburgh plus practice.

The steel code, according to the trade commission, is devised to lodge control of the industry with the United States Steel corporation and other large producers, to take business away from little manufacturers, to discriminate against certain fabricators and producing centers and to discriminate in favor of powerful customers like the automobile industry.

At a press conference at the White House the President indicated that he was not satisfied with the way the steel code is operating. There were signs the Executive might reopen the code and call for drastic revisions to protect consumers and independent manufacturers from price fixing and increased costs.

ASSURANCES of cordial regard and pledges of a desire for the settlement of any differences by amicable means were expressed in an exchange of notes between Secretary of State Hull and Koki Hirota, Japanese foreign minister. The exchange of notes was the outcome of interchanges initiated by Japan in furtherance of a foreign policy the general purpose of which is to conciliate the United States. Japan is intent upon persuading the United States to abandon the policy of obstruction of Japanese occupation of Manchuria and to recognize the Japanese dominated state of Manchukuo.

Hirota expressed the firm belief that "no question exists between our two countries that is fundamentally incapable of amicable solution."

Hull, in concurring with that statement, said he would be glad to receive "any suggestion calculated to maintain and to increase that friendliness and cordiality which have constantly marked, since the conclusion of our first treaty, the relations between our two countries."

Japan let it be known unofficially recently that it desires an increase in its naval ratio with the United States and Great Britain under the Washington and London naval treaties and would like to enter preliminary discussions.

PRESIDENT ROOSEVELT, in a letter to the senate and house banking committees, asked congress to set up twelve industrial credit banks which he had been told would safeguard the jobs of 340,000 persons and create work for 375,000 more. Immediately after the President's wishes

were known legislation was introduced in both houses giving the federal reserve system authority to create the banks, financing them by selling \$140,000,000 of stock to the treasury.

The plight of the "small or medium size" industrialist was stressed by the President, and he cited results of a survey indicating that such industry was badly in need of \$700,000,000 working capital.

A RAY of hope for unpaid school teachers appeared when a house subcommittee was ordered to draft legislation authorizing direct federal grants to needy school systems throughout the country. The primary purpose of the proposed grants would be to insure the operation of schools for a minimum term each year.

A serious curtailment of educational facilities in many sections of the country has been forced by lack of funds, according to the committee, with consequent result that thousands of children are not receiving the proper amount of instruction. An inability to pay teachers is the most pressing problem.

A large part of the proposed federal grants will be available for the payment of salaries to unpaid teachers.

Under the direct grant measure proposed by the education committee it was understood, the necessary funds would be supplied either by the federal Emergency Relief administration or the Public Works administration.

SPEAKING before an assembly of 5,000 cheering chief Fascists Premier Mussolini outlined a 60-year program of internal and external expansion which, he predicted, would in the Twenty-first century give Italy the "primacy of the world." That century, he said, will be a "black shirt era."

"In this age of plans," Il Duce declared, "I want to lay before you a plan not for five years or ten years but for 60 years carrying on to the Twenty-first century, at which time Italy will have the primacy of the world."

"Italy has no future in the West and North. Her future lies to the East and South in Asia and Africa. The vast resources of Africa must be valorized and Africa brought within the civilized circle.

"I do not refer to conquest of territory but to natural expansion. We demand that nations which have already arrived in Africa do not block at every step Italian expansion."

Here, it was said, he was referring particularly to France.

Internally, Mussolini said, immediate objectives are completion of swamp reclamation by 1940, new aqueducts and highways, plans to recreate Italian municipalities, complete rebuilding of 500,000 rural houses and repairs to 830,000 rural houses, a work of 30 years.

"Every rural person will have a clean and healthy house," he asserted. "Only in this way can the rush to the city be combated."

In the midst of a pandemonium of applause Mussolini said Fascism "became universal in 1929."

"But in this phenomenon," he continued, "it is necessary to distinguish positive from negative Fascism. Positive Fascism knows how to destroy the old and rebuild the new, whereas negative Fascism knows only how to destroy."

EXPANSION of the navy to treaty limitations is now assured with the passage by congress of the Vinson-Trammell bill. The bill calls for the construction of 102 warships and an increase of 1,184 in the naval airplane strength at a cost estimated at between \$570,000,000 and \$700,000,000 spread over five years.

The bill merely "authorizes" a treaty navy. Appropriations must follow in order to translate the action into ships and planes.

Private builders of ships and planes for the navy are limited in the bill to a 10 per cent profit on the "contract price," excepting on contracts involving \$10,000 or less.

Alternate warships must be built in government navy yards, unless the President determines that emergency conditions require change of that schedule.

A BROAD national program for reducing the nation's supply of milk from 10 to 20 per cent in return for federal cash payments to the individual milk producer was proposed to the dairy industry of the country by the Agricultural Adjustment administration. The program was evolved after months of effort by AAA experts.

The plan suggested by the administration would involve some \$165,000,000 at the outset. It was said, with prospects that the cost might rise as high as \$300,000,000. It would be financed by a processing tax of a cent per pound on butter fat, gradually increasing as the program advanced, to a peak of 5 cents per pound.

THE man who works for a living will get a break if amendments to the income tax law proposed by the senate finance committee are finally adopted. These amendments would take more taxes from big estates and reduce the tax on smaller incomes.

Chairman Harrison estimated that the net result of the changes proposed would add \$50,000,000 of annual revenue to the bill.

The committee voted unanimously for a proposal to continue the one-tenth of 1 per cent corporation capital stock and 5 per cent excess profits tax levy, which were repealed when repeal put liquor taxes into effect.

These taxes would have expired July 1. Under the new proposal they would become effective again July 1, 1935. Experts estimated the revenue from these taxes at \$85,000,000.

The reduction in income taxes would come in the form of a 10 per cent credit to be allowed on earned income up to \$20,000.

The estate amendment would increase taxes on such property to a maximum of 50 per cent as against the present 45 per cent, the raises ranging from 1 per cent on estates valued between \$1,000,000 and \$1,500,000 to 5 per cent on those over \$10,000,000.

TRACTS urging the public to donate cash to promote the sport of flying in Germany were circulated in Berlin Sunday. Under the Versailles treaty public funds are not permitted to be used to stimulate aviation, but the leaflet points out that the treaty does not refer to private initiative, and adds:

"We are unable to construct military planes, but the development of the sport of flying and training German people as flyers is entirely dependent upon ourselves and our readiness to make sacrifices."

The demand for a German air force was also emphasized by Gen. Hermann Goering, premier of Prussia and reichsminister of aviation, in speaking at a flying exhibition at the Essen airport. Goering declared that Germany can enjoy no security, no peace, no equality until she is granted the right to defend herself in the air. This demand cannot be altered, the air minister proclaimed.

"If other countries are permitted the heaviest weapons of attack in the air, Germany at least must be given the right of defense," he said.

ANOTHER step forward in developing trade between the United States and Austria was taken with the recent decision of the Austro-American commercial interests in Vienna to found an American Chamber of Commerce in Vienna. Later a cognate institution is also to be established in Washington.

The decision to open up a chamber of commerce here is the result of lengthy study by a committee appointed some time ago "for founding a special organization to develop trade and tourist traffic between Austria and America."

The organization of the American Chamber of Commerce has the backing of President Ernst Streeruwitz of the Vienna Chamber of Commerce, American Consul General E. H. Harris, and Commercial Attache J. L. Hughes.

General inquiry has indicated that the United States can get a bigger share of the Austrian market through this way of making an intensive study of detailed openings for exports than through any new general trade agreements.

THE city of Hakodate, most important port in northern Japan, was reduced to a smoldering shambles as the result of a devastating fire. One thousand persons are dead and three thousand are injured. The fire followed in the wake of a driving equinoctial windstorm which tore through northern and western Japan. A total of 150,000 of the city's 210,000 inhabitants are homeless. Thirty-seven thousand of the 48,000 houses were burned to the ground.

SECRETARY MORGENTHAU reported to President Roosevelt that income tax receipts for the first quarter of the year were well above estimates and far more than a year ago.

Payments to the close of business March 15, the day when all returns were due, were \$147,794,000. In announcing this figure on the basis of telegraphic reports from collectors, the treasury said corresponding collections last year were \$99,847,000.

In 1933, however, the date for filing returns was extended from March 15 to March 31, after the bank holiday.

Treasury estimates of income tax payments for March are \$250,000,000 as compared with \$174,000,000 last March.

A NEW and serious controversy has arisen in the railroad industry. Unexpectedly, representatives of the railroad brotherhoods flatly rejected a compromise wage settlement suggested by President Roosevelt, calling for a continuation of their 10 per cent pay reduction until April 30, 1935, and demanded an immediate restoration of pre-depression wages for all railroad workers.

The action, taken by the Railway Labor Executives' association, threw negotiations looking to an amicable settlement of the rail wage situation into a virtual uproar and precipitated what the spokesmen of the railway management called a "serious situation."

# "Marathon War" Resumed Over Chaco Boundaries

## Hostilities Reopened by Bolivia and Paraguay.

Washington. — South America's "Marathon War" has been resumed. Following a Christmas truce and unsuccessful peace parleys, Paraguay and Bolivia reopened hostilities in the Chaco, a huge lowland covered in part with grass and in part by forests, and lying nearly in the heart of the continent.

"Chaco, corrupted from Chuen, means 'hunting ground' in Quechua, the language of the Incas of Peru," says Harriet Chalmers Adams in a communication to the National Geographic society. "Perhaps the ancient Peruvians hunted in this remote region beyond the Andes. Perhaps Inca tribes, fleeing from Spanish invaders, settled here, mingling their blood with that of the original inhabitants.

"One may see the Chaco from the wharves of Paraguay's capital, Asuncion. It begins on the opposite, or western shore, of the Paraguay river. A vast, low-lying, swampy region, given over for the most part to primitive nomadic tribes, the Chaco is being reclaimed as a cattle country. It is the larger but more sparsely settled portion of Paraguay. All but 50,000 of the 800,000 inhabitants of Paraguay live on the eastern, or Asuncion shore, where the land is slightly rolling, savannas mingling with forest, and tree-clad hills rise to perhaps 1,500 feet altitude.

### Splendid Grazing Lands.

"As early as 1537 the intrepid colonists who founded Asuncion plunged through the trackless Chaco in an unsuccessful attempt to reach Peru. By 1548 a party actually succeeded in reaching the Pacific and returning to Asuncion, taking two years for the round trip.

"Cattle raising is Paraguay's chief industry, meat products leading among its exports. The Chaco, with its high native stock grasses and ample water supply, is a promising cattle country. There is probably no stock raising region in the United States possessing such fine natural grazing lands, in spite of the Chaco's handicap of occasional floods. As the vast plains of Argentina are more and more given over to the cultivation of cereals, the cattle ranges are bound to creep north to the grasslands of Paraguay and eastern Bolivia.

"The Paraguayan cowboy is known as the chacrero. Although usually smaller in stature than his cousins, the Argentine gaucho and the Chilean huaso, he is muscular and hardy, a typical rough rider. On a saddle trip we met a group of cowboys driving a band of cattle from the rodeo, where the herd is rounded up, to the river. I can still hear their ringing cattle call, 'Co-co-co! Co-co! Coa! Coa!'

"About nine miles above Asuncion, on the Chaco side of the river, is a settlement of some commercial importance known as Villa Hayes (pronounced 'Ve-ya Eyes' in Spanish). It was named after a President of the United States, Rutherford B. Hayes, who, acting as arbitrator in determining the boundary between Argentina and Paraguay, rendered a decision highly favorable to the latter. Ironically, this town, named for an ardent prohibitionist, is surrounded by cane fields whose product is distilled into a very powerful rum.

"Modern explorers of the Chaco are the men engaged in the quebracho industry. It developed with the expansion of the Argentine railways, when quebracho logs were found to be just the thing for railway ties, and for fence posts on the extensive Argentine ranches. Quebracho (the word means 'ax-breaker') is a hardwood so durable that logs cut and left in the forest for 25 years have been found sound.

### Extremes in Climate.

"The Chaco is uniformly flat; its climate one of extremes. It is a land of heavy rainfalls and long-continued droughts. Animal life is abundant. The Chaco is the sportsman's paradise, a British enthusiast told me, 'From May to August is the best season—freer from insect pests. We go duck shooting in flat-bottomed boats on a chain of smaller rivers and lagoons.'

"Besides duck, quail, and snipe, there is a native 'turkey of the mountain,' with a black head, black head tufts, and a yellow black beak. Tapir, deer, carpincho, otter, and coypu abound in the marshy regions. Coypu skins are exported from the lower Plata to the United States, the hair to be used in the manufacture of felt hats for men. In the woods are the jaguar,

### Smell of Onions

#### Was Worth \$3,500

Philadelphia.—A jury in Delaware county court has decided that the inability to be able to smell onions is worth \$3,500.

Miss Jean Marsh, Philadelphia ex-model, twenty-seven, was struck by an automobile driven by John M. Ruegenberg, Upper Darby. Several operations were performed on her nose in an attempt to restore its former beauty. The operations failed and the young woman sued the autoist.

She testified at the trial in Media that she couldn't even smell onions and the jury's sympathy went out to her in the form of a \$3,500 verdict.

### HE WAS PREPARED

When heavy snows and cold winds prevailed in Washington recently, J. S. Warmbath, one of the Capital's residents, recalled that he had just the garb the weather demanded. He was a member of Commodore Peary's Arctic expedition of 1898, and had saved his Eskimo suit. So he got it out and defied the weather.

### Too Poor to Propose

By BETTY STRONG

IF DORIS WHITE had not fallen in to his arms, Bob Richards would never have given her another thought. He was clumping up the last flight of dark, oilcloth covered stairs, when he heard a little gasp and then something soft and yielding was flung head first into his arms. He caught her as easily as he had caught the ball when he was fielder, and having set her on her feet gently asked in his big voice with the trace of huskiness in it, "Hurt any?"

She breathed quickly, and answered, "I—I guess you saved my life!" There was just the suggestion of a laugh in that voice that went straight to Bob's heart.

"You see, I must have caught my toe in the oilcloth," she explained. Bob thought she had the softest, sweetest voice he had heard for a long time.

"I think my dinner is forever lost!" Doris said sadly, stooping to feel about the stairs.

They found at last the head of lettuce, the two rolls still in their bag and the lemon that was to help make up the dinner. In the process they said several things to each other, altogether trite and yet somehow most illuminating.

So it was not strange that the second time Bob ran into the occupant of the hall bedroom he lifted his hat and stopped to talk.

The third time they met, Bob asked directly, "Would you take a walk with me this afternoon?"

The faintest tinge of color showed through Doris' white skin and she said—"I was Saturday—" "I'd love to!"

They walked along Fifth avenue, stopping before the shop windows to peer in and feeling a part of all the thrill and stir of an afternoon on the avenue.

Doris' eyes were shining and she was actually preening each time Bob Richards looked down at her.

The next Saturday it rained and Doris hesitated and then knocked at the door on the second floor that bore the card, "Robert Richards."

"I thought you might have tea with me, it's such a cold, dismal kind of afternoon," Doris offered shyly.

At the answering gleam of pleasure in his eyes Doris hurried up the flight of stairs. She knew it would mean that she must lunch meagerly all the following week, but she bought crumpets—toasted them over her gas burner—and a tiny jar of marmalade, and a spray of narcissus to put in the bowl by the window.

At his loud rap she opened her door and smiled up at him.

Bob laid down a box of candy as he said, "I bought it for the party," and looked about him curiously.

For it was the oddest hall bedroom he had ever seen. He had imagined a room with a bureau and an iron bed, and enough room just to sit on the one chair. What he saw was a room with two windows and an alcove, a room that looked sunny in spite of the fact that it was raining, because the walls were yellow and charming sunny colored chintz hung at the windows and covered the cushions of the two brown tinted wicker chairs.

Gleaming brass candlesticks were on a table in the corner, a brilliant color print of blue mountain and an icy mountain brook hung over the gray-painted table. A couch under a tumble of cushions—and a black luster bowl held the frail narcissus in the window.

Doris sitting down at the table pouring tea into clear yellow cups, he suddenly saw as another girl. A girl removed from his own hard struggles by all the beauty of this charming room. Why, she must earn more in a week than he did to have a place like this!

For a month Doris scarcely saw the owner of the room on the second floor. When she did meet him by chance, he hurried past her with an abrupt "Good evening!"

But once when she climbed the two flights of stairs and saw that Bob's door was open and a strange girl was standing by the black marble mantelpiece, her heart seemed like a piece of lead. She could scarcely drag herself away.

"Oh, do you live on the floor above?" the strange girl asked eagerly. "I've seen your room and it is so pretty—" Doris answered, wondering how she could go on talking when the bottom of her little world had dropped out.

"I bought the hangings on Sixth avenue at a sale, and the candlesticks in Allen street for \$1.25; you can find some second-hand furniture and paint it yourself; oh, yes, I'll show you how." She smiled wistfully and went on up the stairs.

But the blood thrummed in her ears madly when she heard clumping steps behind her. Doris turned to see Bob Richards coming toward her with a bewildered, dawning happiness in his eyes.

"I heard what you said," he began, "I had to come back. I thought I'd go away and try to forget you—for I knew I couldn't ask a girl with all you had to marry a poor fellow like me. You mean it, Doris, you fixed up that room out of nothing?"

He caught her hands and looked down into her eyes.

"Don't you know I love you?" "But—" she whispered.

"I was ashamed to ask a rich girl to marry me," he said as he took her in his arms.

# Coats on the Spring Style Program

By CHERIE NICHOLAS

THE calendar declaring advent of spring, the thermometer contradicting the glad news by registering winter's lingering touch, and in the meantime the spring style parade schedules for an early date—what to wear, eye that's the question! With what tantalizing persistence does the clothes problem disturb our peace of mind at this time of the year.

However, here's to take cheer, for we believe you will agree with us that in the perfectly stunning capes-coats in the picture we find the answer. It is not only that the soft, downy light-as-a-feather rabbit wools which fashion these coats assure protection against almost anything which is apt to happen in the way of weather, but when it comes to "looks" it would be difficult to conceive of a new spring outfit which could surpass either of these distinctive models.

Both are developed in reversible fabric of soft rabbit woolen, with one side pastel monotone and the other side plaided in harmonizing shades. This type of material is well suited to the draped lines favored for spring, being especially adaptable to the styling of the hood or monk collars, which so smartly detail many of the newer coats. The fabric feels very soft against the flesh, having only the finest rabbit fur woven into it. Its modernized version it has no resemblance to the so-called hairy fabrics introduced last fall, which were oftentimes rough in surface and inclined to feel scratchy. Combining as it does, light weight with warmth, weaves of rabbit woolen are acceptable for wear from now into late spring and then some.

Nor has the half been told of the charm of this material since more black and white print falls to convey the message of beguiling color which these reversible weaves carry. The very spirit of spring breathes through the lovely pastel monotones reversed

as they are with large plaids in harmonizing shades. All you have to do is to know your colors and the salespeople will do the rest, placing before your eager eyes either the materials to be bought by the yard or the very garments themselves, styled as in the illustration, of rabbit wools in exquisitely springlike grayed greens such as stand foremost on fashion's color card, or in the misty pastel blues which are of wide appeal or mayhap in a voguish dusky pink, or if you prefer in one of the new yellowish tones which spell chic with emphasis, the color sympathy ever enhanced with a blended reverse plaiding.

In the model to the left the coat and long cape are made all in one. It is interesting to note, too, that the coat part is backless to the waist, so that the cape clings closely at the shoulders. The wrap-around effect is characteristic of this season's slenderized silhouettes.

The shorter caped-ensemble to the right is styled along unusual lines. The unique side closing with buttons which look like shells from the seashore, and the standup collar which fences the throat are smart features. The plaid-lined cape is made with long belt-ends which pull through a slit at the back, being at the front casually and adjustably, so that the garment can be fitted exactly to the wearer's figure. A one-piece dress with elbow length sleeves is worn under this cape. It has a high neck closing with a narrow tie of the reversible fabric swatches of the plaid appearing on the tops of two little pockets.

### FOR HER TROUSSEAU

By CHERIE NICHOLAS

This lovely nightdress, you'd almost think it a summer evening gown, was one shown at the spring fashion opening in Paris. It is exquisitely made and would bring joy to the heart of any debutante. For the spring bride's trousseau it is ideal. It is fashioned of pale blue georgette. The same choice lace which makes the shoulder ruffles and yoke, is cut out to form the double band incrustations and the cunning bow tie.

### Spring Fabrics

New fabrics include "feathered" organdies barred and dotted with cotton chenille, and organdies embroidered in big chenille dots for summer evening frocks.

### FEMININE STYLES

#### LOSE MASCULINITY

Dresses are finally appearing without mannish cut. A whole parade of little beauties wear sports outfits that are soft and breezy with ruffles.

The tie silks, which a year ago would simply have shrieked masculine attire, are this year's feminine delights. Whether soft or stiff the silk, the collars are ruffled or pleated. This frilly touch takes care of all the trimming touches on the dresses.

It's a positive fact now that spring is to be lively, and very hot tamale. The Mexican style and coloring have caught on in a bright way.

In the sports department the two-piece dress is being shown in a tuck-in style with the top and the skirt in different colors. It's a nice idea as it offers an alternative blouse. If you don't like this idea, you can trim the blouse with the skirt fabric, giving it a nice ensemble touch.

### Bows at Heels Are Fad in

#### Spring Footwear Styles

The back of the shoe will have no reason to feel slighted this spring. In keeping with the extensive use of bows at the back of dresses, new footwear styles include dainty little bows at the heels.

In some of the styles this new heel bow is of ribbon matching the dress in color and carried through loops at the side of the shoe.

Shankless kid opera pumps, with no sole under the arch, are another innovation in footwear fashions—one on which a designer is said to have spent five years of experimentation. Instead of a sole the upper of the shoe is brought down under the arch and seamed.

### Spring Note in Scarfs

Scarfs of crinkled taffeta ribbon, of fluffy chenille wound around the throat or of shining cravat silk sound a springtime note contrasting with winter styles.

### Following Old Custom,

#### Venetian Girls Parade

Twelve weddings will be the result of a score of girls, bent on finding husbands, riding the canals of Venice in heavily belled gondolas, reviving a traditional Venetian marriage custom.

In days of old, the doges of the city believed in matrimony and "more babies," just as Mussolini does today. To encourage marriages, the doges used to assign a dowry to 12 girls chosen from among many candidates. The fortunate young women were then paraded in a richly decorated boat through the city canals to attract the attention of all eligible young men. The ceremony unforgettably occurred on the feast of the Purification of the Virgin.

The marriage hunt was commemorated every year uninterruptedly from 944 A. D. until the Fourteenth century, when Venetian girls became self-conscious and shy and refused to submit to the "humiliating" public search for a husband. It was then thought to replace the girls by dummies, but the attempt proved a failure.

### Natural

"Did you hear my speech on the radio?" asked the colleague.

"I did," answered Senator Sorghum.

"How did it sound?"

"Natural as life. It put me to sleep in five minutes."

### WHAT TO DO FOR IT:

TAKE—2 teaspoonfuls of Phillips' Milk of Magnesia in a glass of water every morning when you get up. Take another teaspoonful 30 minutes after eating. And another before you go to bed.  
OR—Take 4 to 6 new Phillips' Milk of Magnesia Tablets—one tablet for each teaspoonful as directed above.

If you have Acid Stomach, don't worry about it. Follow the simple directions given above. This small dosage of Phillips' Milk of Magnesia acts at once to neutralize the acids that cause headache, stomach pains and other distress. Try it. You'll feel like a new person.

But—be careful you get REAL milk of magnesia when you buy—genuine PHILLIPS' Milk of Magnesia. See that the name "PHILLIPS" is on the label.

MEMBER N. R. A.  
Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

The Carteret News

PUBLISHED EVERY FRIDAY IN THE YEAR AT THE PLANT OF THE CARTERET NEWS AT 9 COOKE AVENUE, CARTERET, N. J. TELEPHONE, CARTERET 8-3000.

M. E. YORKE, Publisher

Entered as second-class matter June 24, 1908, at the post office at Carteret, N. J., under act of March 3, 1879.

THE CARTERET NEWS was founded June 17, 1908 as THE ROOSEVELT NEWS; was published on Wednesdays until July 15, 1909; was then published on Thursdays until December 6, 1912, since which time it has been a Friday paper.

REGULATION

It is interesting in one part of the town to see one of the police officers at a traffic junction regulating traffic despite the fact there is a traffic light at the junction flashing green and red.

This saves the time of the taxpayers and makes those who visit the town think we know what we are about here. There is no reason why traffic should be held up unnecessarily.

However, at the lower end of the town at Hudson street and Roosevelt Avenue where there is a similar situation; there appears no regulation of the traffic although it is very much needed.

It is out of the question for the Borough to station officers at these points all day long but it would appear that when they are in that vicinity as some often are, that such situation should be regulated the same as it has been at times on the Hill.

What we have done in that direction is fine, but it appears we have not gone far enough.

GOOD WORK

The basketball team of Carteret High School just completed a very successful season. There is naturally a certain amount of pardonable local pride in the good record the boys have made.

It is not beyond expectancy that many local groups should recognize the good work of the boys in one way or another.

However, in view of the fact that the team represents the community as a whole, it might be nice to merge all these affairs into one so that all those who cared to, regardless of whether they belong to one of these groups, could take part.

TRAFFIC

It appears the Borough is considering putting up more traffic lights. This, of course, means the increased cost of an original light installation which amounts to about \$250, and the additional cost of maintenance.

At the same time the Borough is giving consideration as to how to cut down the light bill. Before there are any more traffic lights installed, it would appear we ought to make a careful survey and not put lights in to take care of some crowd where a particular one fancies it would be a nice thing to have a light in front of their place.

It is questionably whether we have not already too many traffic lights. In some cases where the traffic lights are flashing red and green there is very little traffic and all it serves to do is to hold up traffic rather than aid it.

It would be a lot better to cut out unnecessary things like that and have the money available for more urgent purposes like salaries. The Borough has had a difficult job collecting taxes in 1932 and even more so in 1933.

In order to pay salaries, the Borough had to take money out of the sinking fund and to divert money that was due the State and County. The Borough now owes the sinking fund since it put in their place bonds which are an obligation on the Borough.

So, it is not in a position to put up more traffic lights. It is questionable whether the present traffic lights should be in force. It is simple enough to say what is \$250? But it is this attitude and the mounting up of these items that causes the deficits and make it impossible at times to pay salaries and meet other requirements.

We must realize conditions and not vote to spend money for things that would be very nice in better times but which we could well do without now.

## WOMAN'S CLUB ACTIVITIES

By Isabel Lofkowitz Telephone 8-0301

"In the Spring the gardener's fancy lightly turns to thoughts of—Small Gardens."

"Small Gardens" will be the theme of discussion by Mr. Eugene Baumann, florist, of Rahway, at the club's meeting on April 12th.

There will also be election of president, first vice-president, second vice-president, recording, federation and corresponding secretaries, all of the above for one year. Four directors, each for three years, will also be decided upon.

The Club Woman's Radio Hour was this past Monday turned over to the League of Women Voters who had as their speaker Mrs. John A. Swenson, of Leonia, chairman of legislation of the League. In her topic "The Present Status of the League's Legislation," Mrs. Swenson reviewed some of the bills pending before the Legislature and what is being done with them.

Postponed from the original date of February 26th by a severe snowstorm, the club held its annual card party on March 26 at St. Joseph's Hall, with Mrs. John Nevill as chairman. There were 27 tables in play, contract, auction bridge, pinochle, euchre fan tan and five hundred being the order of the evening. Mrs. John Adams won the dark horse; Mrs. Ida Cutter the door prize. Part of the proceeds will be used to pay for glasses for needy school pupils. The club thanks Mr. Edward Lloyd for his part in making the evening a success.

Mrs. T. J. Nevill and Mrs. Leo Brown attended a Red Cross meeting in Perth Amboy last Friday.

At the meeting on April 12, Mrs. Leo Brown will hold her art review, awarding prizes to the winners. Officers and directors will give their annual reports.

### Foresters

Officers were elected Tuesday evening at a meeting of Court Carteret No. 48, Foresters of America, as follows: Chief Ranger, Harry Rock; of Emerson street; sub-chief ranger, Jacob Bernat; senior woodward, Martin Rock; junior woodward, John Herogy; senior beadle, Charles Vargo; Junior beadle, Stephen Demeter; treasurer, Joseph Shuteffo; financial secretary, William F. Lawlor; recording secretary, James Phillips; lecturer, Edwin S. Quinn; trustee, Thomas Larkin.

The Court voted to do away with initiation fees for new members for a year and to supply free medical attention and medicine to all members. A large delegation was appointed to attend a dance at Rahway, April 6th.

### Craftsman's Club

The card party held by the Craftsman's Club on Monday evening was featured by a splendid turn-out and the awarding of many fine prizes. The affair was held at Odd Fellows' Hall.

Among the winners of the various prizes were:

Joseph C. Jomo, Lewis Bradford, Mr. and Mrs. Peter Goderstad, Morris Gluck, Mr. and Mrs. Samuel Wexler, James Johnson, John Marcinial, Mr. and Mrs. Louis Chodosh A. D. Glass, Mr. and Mrs. Sumner Moore, Sam S. Carpenter, Sig Olsen, Mr. and Mrs. Harry Chodosh.

Moe Levinson, Mrs. Richey, Walter Colquhoun, Mr. and Mrs. Gus Kostebader, Mr. and Mrs. W. Kirchner, W. Clifford, Isabelle Colquhoun, Stanley Andrus, Mrs. Joseph Enot, Agnes Clifford, Mrs. Sam Srolowitz, William Grasmie, Mr. and Mrs. William Schmidt, Joseph Weisman, E. Krysko, A. Fink and Helen Carson.

## PRESBYTERIAN CHURCH NOTES

By the Pastor

Easter Sunday will be observed as New Members Day at the Presbyterian Church. A group will be received into the church at the morning service. There will be special music by both choirs. The sermon topic will be "The Easter Dawn". The pastor will speak to the Juniors on "A New House". There will be also the Sacrament of Baptism for children.

The Senior Christian Endeavor will meet at 6:30 on Sunday evening. Instead of the discussion of a special topic there will be a Worship Service followed by a review of a part of "Today's Youth and Tomorrow's World" by Stanley High.

Good Friday will be observed by a special service at 8:00 o'clock which is planned for just one hour. There will be special music by the choirs and a brief message on "Christ's Completed Work" by the pastor.

The Junior Christian Endeavor will hold an Easter Social on Monday afternoon at 1:00 o'clock.

The Monthly meeting of the Mother Teacher Association will be held on Monday evening.

The Ladies' Mission Band will meet on Tuesday evening at the home of Mrs. E. J. Bennett, 147 Edgar street.

The Intermediate Christian Endeavor will hold a business and social meeting on Tuesday evening at 7:00 o'clock.

The Senior Christian Endeavor will hold a business and social meeting on Monday evening at the Manse.

The Easter Communion Service will be held one week from Sunday April 8th.

"Music does not 'progress', and in no sense can one call old music inferior to the new or vice versa. To achieve the art of good listening is to accept the old music for what it is and likewise the new, each for its own virtues."

**GOOD EYES FOR LIFE**, by Olive C. Henderson. The anatomy and hygiene of the eye simply explained with chapters on the care of children's eyesight, the importance of posture and lighting, the effect of diet, tobacco and alcohol.

**FIFTY WAYS TO SAVE MONEY**, by Malcolm McCaw.—Although one critic calls these money saving plans "merely tricks for kidding yourself into taking money out of your pocket and putting it into the painted pig or the savings account", it is probable that many readers will find very helpful suggestions in the ways that other people have devised for effecting personal and household economics and establishing systematic savings.

**ELECTRONS AT WORK**, by C. R. Underhill.—Unlike many others in the field this book combines theory and its practical applications to an unusual degree. Fundamental principles are emphasized rather than details of apparatus which may become obsolete. Up-to-date and readable enough for an interested high school student to use in parts, though the whole work demands an able, mature mind.

### BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

#### A DOUBLE SCARE

BLACKY the Crow sat in the Big Hickory tree with his head cocked on one side, as he looked far across the Green Meadows to where a familiar figure was just turning out of the Long Lane which comes down from Farmer Brown's. That familiar figure was Farmer Brown's boy. Blacky had known him ever since he could remember.

"Times have changed," thought Blacky. "Times certainly have changed a whole lot. Farmer Brown's boy is different. The time was when I always looked first thing to see if he had a gun with him. He used to try

Blacky Doesn't Believe in Taking Any Unnecessary Risks.

to fool me about that gun, but he never did. These days I never have to think about a gun, so far as he is concerned. I wish that all the rest of the two-legged creatures in this world were like him. It certainly would make it a whole lot easier for us Crows in corn-sprouting time. But then it would take a whole lot of fun out of life, too," Blacky grinned wickedly. "It certainly would be tame and no fun at all if there were no terrible guns to watch out for."

Farmer Brown's boy turned out of the Long Lane onto the Green Meadows and headed straight across towards the Big Hickory tree and the Smiling Pool. Blacky continued to watch him with the very lively interest which he always takes in whatever Farmer Brown or Farmer Brown's boy may happen to be doing.

As he strode along through the meadow grass, he was whistling. He usually is whistling when he is outside the house. So far as Blacky could see, Farmer Brown's boy hadn't a care in the world. Suddenly, without any warning at all, Farmer Brown's boy broke off his whistle with a yell. He jumped as if he had been stung and, reaching over, slapped at one leg.

Blacky the Crow sat up suddenly, and his bright eyes sparkled. It was perfectly plain to Blacky that Farmer

Brown's boy had had a scare of some kind. Blacky's eyes are very keen. There is very little that they miss. But look as he would, Blacky couldn't see a single thing which could possibly have frightened Farmer Brown's boy. Blacky spread his wings and flew over toward Farmer Brown's boy. Although he wasn't afraid, or at any rate wouldn't admit that he was, he flew high. Blacky does not believe in taking any unnecessary risks. Safety first is Blacky's motto.

As he flew over Farmer Brown's boy, Blacky moved as slowly as he could, and his sharp eyes searched all around in the grass for something which might have frightened Farmer Brown's boy. Not a thing was to be seen. By this time Farmer Brown's boy was sitting down. With one hand he was holding to one leg just above the knee, and with the other he was rolling up the leg of his trousers. More than this, Blacky could not see, because you know he could not stand still in the air. To this day he does not know what happened.

What did happen was this: When Nimble Heels the Jumping Mouse was awakened from his pleasant dreams, it was by the approach of Farmer Brown's boy. In his fright he jumped blindly, not looking to see where he was going; and, without meaning to at all, he jumped right up inside the trouser's leg of Farmer Brown's boy. It is a question which was the most startled—Nimble Heels to find himself in such a strange place, or Farmer Brown's boy. It was a double scare. Do you wonder that Farmer Brown's boy jumped and yelled?

### The Home of Tomorrow Is Exhibited

PROCLAIMED as the "New Deal" for women and as "The Home of Tomorrow," this eight-room house, equipped with numerous electric devices, was opened to the public in Mansfield, Ohio. The house was designed by engineers as an experiment to gather data so that "the way may be prepared for a new way of living and of speeding up social trends of the new day which appears not far distant."

### ASTROLOGY OLD AS THE WORLD

Claim Made That It Can Be Traced to Adam.

The beginning of astrology occurred a long time ago—so long ago that it was before any recorded history. Every period of man's existence on this planet in his present form has included knowledge of planetary influences. The historian Josephus, who lived in the First century, tells us astrology was known and used by a former race that lived on the earth before the flood, stating that "they received their information concerning the zodiac and planets from Adam, who in turn had been taught by God Himself."

Josephus also said the flood had been foreseen by Seth, who engraved his prediction on two pillars of stone. The historian added that he himself had seen the remains of those pillars. He further stated that Noah used and taught the science of astrology, and, with Enos, preserved it to the days of Abraham. Abraham, we learn from other sources (chiefly the works of Bishop Eusebius, one of the most learned and just men of the Fourth century), was a great adept, or even a master, of Chaldean astrology.

The astrology of the Chaldeans was of a secret nature, concealed by everything along the gamut from reverse symbols to an unfathomable code known as "The Priests' Alphabet," in which true meanings were recorded, abbreviated, and mixed up. Years of study were required merely to learn this alphabet, we are told, and then the candidate who could at last read the words had practically to learn another language to find out what they meant.

It is unfortunate that such was the case, according to deeper students of this subject today, for many of the great keys to a true understanding of life and the higher laws of nature perished with their possessors. We may have the books they left, but we are largely in the dark as to their real message. Moses was known to be a master of astrological wisdom and its application. Pearce, a leading astrologer of the Nineteenth century, says Moses was taught by the Chaldean Magi, who were also the instructors of the great Egyptian priesthood. For this reason, it is believed by students, the first five books of the Bible, accredited to Moses, might well be a part of this mysterious and marvelous literature.

The Romans did all they could to ruin real astrology, for they used it as a divination art almost exclusively, pretending to tell fortunes of kings and in other ways using its terms and symbols for personal and political promotion. It is the distortion of astrology which occurred under Nero, Domitian, and other emperors that our present day objectors rightfully discredit.

Fortunately, the knowledge we have of planetary influences and their mode of action in the human realm will enable us to reconstruct most, if not all, of the lost wisdom.

Those who have been powerful links in the chain of knowledge that reaches up to us from that great civilization under the Chaldeans and Egyptians, now slowly being rebuilt for our modern minds, are the scientific leaders of history. The world is forever in debt to Pythagoras, to Plato, to Newton, to Kepler, to Napier, and to a host of other men of vision and penetration, all of whom have spoken definitely for astrology.—Chicago Tribune.

#### The Bird Has Speed

At widely separated points on the prairies, says Nature Magazine, you find outcrops of sandstone, forming cliffs or buttes, and here you are sure to find in the porches or on ledges the brick-red eggs of that most splendid of all our birds of prey—the prairie falcon. A bird of marvelous speed and indomitable courage, this little falcon typifies the wild freedom of the Great Plains. Less frequently you come upon the eyries of the majestic golden eagle. The nests, which are often used for generations, are added to, year after year, until the material composing them would fill the body of a wagon.

### Whose Fault?

#### The Boy or Girl Who Refuses to Eat

"What have I ever done to deserve a child who refuses to eat, and is just skin and bones?" The mother who asks that question might be surprised to learn that she alone is to blame. She knows a lack of appetite is the sign of a clogged system, but does the wrong thing to remedy the condition. A violent cathartic that upsets the stomach pulls down a child like a spell of sickness. It often forms the laxative habit. A more sensible way of regulating children is explained in the column to the right:

It's a lucky girl whose mother knows how to regulate her children's bowels without some strong, evil-tasting cathartic that upsets the system and ruins their appetite! Whenever sluggishness coats the little tongue, makes the whites of the eyes a bilious yellow, or a child is headachy and fretful, just try pure California Syrup of Figs. The senna in this fruity laxative is so agreeable to take, so natural in action! Get real California Syrup of Figs at any drug store. The bottle should say "California".

New Intelligence Test  
May Be Size of Feet

"Give me men who are big-footed men, and I will show you a bunch of men who can carry the mail in any sport." Such is said to be the slogan of Bert Munhall, athletic trainer of Carnegie Tech in Pittsburgh. Mr. Munhall's idea, according to the St. Louis Globe-Democrat, which calls attention to his theory, is that "the boy with his pedal extremities has an advantage to start, not so much because of his big feet per se as because, normally, big feet are a direct outgrowth of having done a lot of walking, and a lot of walking implies that the walker has had a lot of exercise, with the strong and supple muscles that grow with exercise. They are an earmark of health and soundness and alertness."

Well, Lincoln and Washington had big feet, although they were big men in every way. The St. Louis paper suggests that big feet are a sign of stamina, co-ordination and physical alertness. "Why should not the same symbol be of important testimony for the selection of doers in any of the arts or sciences?" Perhaps foot-measuring will be added to the Intelligence tests one of these days.—Literary Digest.

## QUIBS OF SPORT

### Great Weather to Write Junior Baseball League About a Little Bit Will Never Replace of Baseball. Twilight Loop.

By CLARENCE M. SCHWARTZ  
TO ANY BASEBALL FAN

Cheer up, sad fan, and cease repining. The summer sun will soon be shining; When in some tight pinch you have fanned, Or bubbled up grounders, nine or ten You'll wish for winter back again.

Nothing could be more fitting in weather like this than to write about a little baseball, the men who have gone looney over it and other things. In fact, it is almost high time that interest was stirred up again, for it takes quite a long time before some of the local folks are aroused over this national famed game, which increased incredible popularity last season, mostly through the feats of the Carteret Jednota team.

What else is there for a fellow to think about besides baseball? The weather is bright and cheerful, practically too good to be true. Bowling, billiards and basketball will soon be crowding the exits to leave us for some six months. And now, almost every fan is anxiously awaiting the day, when those heartfelt words open fan is anxiously awaiting the day, when those heartfelt words open.

But yet, even though these evenings are a little too chilly to play ball, we must not entirely forget our winter sports. "Ole Man Winter" is a peculiar guy, and is apt to blow into town any time and turn our nice warm thoughts of summer and baseball into snow and ice, and send us back to the basketball courts or the bowling alleys.

Nevertheless, this is a darn good imitation of spring; and when spring is here, baseball is here, but not to interfere with indoor sports entirely. This is a fact that most fellows were never known to regret.

At any rate, if the men are not altogether too fond of obtaining physical training, they can be credited with taking a wise move in laying some plans for this season's Twilight League. Time is known to pass with incredible speed from the present into the past without one noticing it. The season may be clearly a month and a half off, but nevertheless, if action had not been decided upon, it might come into our land with us snoozing away at a winter's hardness.

There are some baseball workers, including Phil Turk, Sam Smolenski and Ed Skeffington who are of the opinion that the 1934 season will come upon them very soon and they can hardly wait for the opening day.

They will talk together in a few weeks and discuss matters for the betterment of their loop. They will accept entry blanks from the two new teams desiring membership. And above all, they will discuss the proposition of having one schedule and having a six or eight team league.

These questions will merit all the consideration given it, for the quality and quantity of the teams in the league are probably the most important things. Three poor teams and three good teams are not what the fan wants—it is six strong evenly matched clubs. And it is interesting to note that what the fan wants counts nowadays.

### Seek to Replace Carteret Twilight Loop

Some of our local free speaking young men are going about town boasting that the Carteret Twilight League will not organize this year, and in its place a Junior Twilight Baseball loop, similar to the Carteret Junior Basketball League which operated this winter, will be organized.

Do the organizers of this proposed Junior Baseball League think for a moment that "a league for the kids" will take the place of the senior loop? If the Carteret Twilight League is not going to organize this year, why don't the men behind this proposed Junior League get the Twilight league into operation? Apparently they are not interested enough. If these "promoters" think that a league for the juniors will take the place of the senior league, Carteret Twilight League baseball has failed in the twelve years of its existence in this town.

During the summer, we can just picture the Smolenskis, the D'Zurillas, the Migleczs and the Mitroks and the other really good local boys sitting in the stands watching a couple of kids perform, whereas they themselves have no league to play in because the so-called "organizers" in this town are laying off "organizing" this year because they were razed a little in the columns of this paper last season. A very unsportsmanlike move. Can't they take it?

However, if the fans have any faith in Phil Turk, president of the local loop, they will see the Twilight League in full swing this season. Phil has promised this writer that the league will re-organize.

Do not think for a moment that this writer is opposed to organizing a Junior Twilight Baseball League. In fact, it was his intention last summer to get a baseball league together. Wasn't it partly through his efforts that the Carteret Junior Basketball League was organized this winter, giving Carteret's youth a chance to play basketball?

The Twilight league games will be played on Tuesday, Thursday and Sunday this year. Why can't the Junior League play on Monday and Wednesday?

But under no condition will the Junior League take the place of the Carteret Twilight loop.

## HOW WOMEN CAN WIN MEN AND MEN WIN

The Favor of Other Men

Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, dizziness, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you. But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all. Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only fine, mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. 25¢ at drug stores. Refuse "something just as good" for it may gripe, loosen teeth or send you to the hospital. Ask for Carter's Little Liver Pills by name and get what you ask for. ©1933, C.M.Co.

### Trojans Down Uke Reserves by 36-29

The Trojans nosed out the Uke Reserves by a 36-29 count at the high school court Tuesday night.

With Morton and Denny leading the attack with thirteen points each, the Trojans took the lead in the first quarter and maintained it throughout the game.

John Bubnick with twelve points, was the individual star of the Ukes. His baskets counted from every angle of the court. Five baskets and two converted foul shots placed him among the scoring leaders of the evening.

The box-score:

### Finals in H. S. A. Loop To Be Played Wed.

A four team basketball elimination tournament, made up of the teams connected with the Hebrew Social Alliance, was run off Wednesday night at the high school court.

It appears to be a candy tournament, for the Nestles defeated the Hersheys by a 19-12 score, and the Rockwoods came from behind to nip the Bakers, 25-14.

These two teams will battle for the league championship this Wednesday.

The games last week were featured by Sam Kaplan, who scored ten of the Hershey's twelve points, and Pinkie Chodosh's eight points in the victory of the Nestles.

### The Flag of Afghanistan

The Afghan flag consists of the following design: A mosque between two triangular pennants over a five-pointed star and enclosed within a combination of a circle and an octagon, all in flat white upon a black background.

### '34 STATE CHAMPS DOWN 1932 TEAM

#### Win by 33-20 With Spewak Leading Attack.

With Wes Spewak, Carteret High's all-state center scoring twelve points, the 1934 State Champs defeated the 1932 champs last night at the high school court by a 33-20 score.

With each of the regular five men scoring consistently, the 1934 team led throughout the contest.

Ted Kleban with ten points, Spewak with twelve points and Malaszewski with eight points were the scoring leaders.

Because the high school gym was being used last week for the banquet tendered the 1934 State Champs, the Ukes-Mahoney City basketball game had to be postponed.

### St. James Bombard Schwartz's All Stars

Clem Schwartz's All Stars were all but stars Tuesday night at the St. James Hall when they were shellacked and bombarded with everything but the ball by the St. James Juniors by a score of 48-25.

With Al Such and Goyena scoring freely in the second half, the St. James' lead became bigger and bigger. At half time the score was 15-10 in favor of the home town.

### Coach Denies Rumor About Leaving C.H.S.

The rumor to the effect that Coach McCarthy was leaving Carteret High was quickly stifled Tuesday afternoon by an announcement from McCarthy.

"I am not leaving Carteret High, and when I do leave, everyone will know of it. Evidently someone got their signals mixed."

The rumor caused quite a disturbance among the students of the school.

### ST. JOS. WIN AGAIN

Coming from behind in the final minutes of play on baskets by Trav Jackson, the St. Joseph Juniors downed the Trojans last night at the high school court by 26-20, in the second game of the title play-off.

## Need But One More Victory To Gain Loop Championship

### Dixon, Toth and Walsh Score Freely as Trojans Lose Tuesday, 19-9—Jackson Gives Saints Another Victory Last Night, 26-20.

Completely outguessing and outclassing their opponents all through the contest, the Saint Joseph Juniors defeated the Trojans Tuesday night at the high school court by a 19-9 score in the first game of a two out of three series to decide the league championship.

Paced by Jack Dixon, Bill Walsh and Joe Toth, the Saints forged into the lead soon after the opening whistle sounded.

A basket in the first quarter by "Squint" Kubicka opened the game, but seconds later, on a difficult one hand shot, Jack Dixon tied the score. Dixon tossed in another basket later in the first period, and a foul made by Jackson gave the Saints a lead of three points when the second half got under way.

A fast passing game exhibited by the St. Joe team in the second period kept their lead. Baskets by Bill Walsh further put the St. Joe team into the lead.

At half-time the Saints led by 9-5. Joe Comba's men practically coasted into victory during the second half. Great defensive work by Jackson and Harrington prevented any further scoring threats the Trojans had to offer.

The game was featured by a basket made by Joe Toth, Saints' captain, from the jump-ball position. Toth jumped up, tapped the ball, and into the basket it bounded.

Inasmuch as the St. Joe team has

only one more game to win before they are the league champs, the Trojans are not to be overlooked. A great game by "Squint" Kubicka aided the Trojans no little, but support from the other four men was lacking.

As the series stands, the Saints have won one game, the Trojans have dropped one.

The box score:

## Wake Up Your Liver Bile - Without Calomel

### And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas blunts up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in rashes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25¢ at drug stores. ©1931 C. M. Co.
