

Q

What is a green stance on natural resource management and pollution?

(typical of the Green party)

Q

What is a blue stance on natural resource management and pollution?

(typical of the Democratic party)

Q

What is a red stance on natural resource management and pollution?

(typical of the Republican party)

Q

What is a yellow stance on natural resource management and pollution?

(typical of the Libertarian party)

Qs

about ecology policy

- Should the government develop nuclear energy?
- Should private companies be allowed to develop nuclear energy? If so, what should be the penalties for leaks or improper disposal of radioactive waste?
- Should government continue to subsidize fossil fuels?
- Should government continue to subsidize solar and wind power?
- Is clean energy tech innovation stimulated enuf by the free market?
- Does privatization of property lead more to protection and wise stewardship of land or more to exploitation and externalized costs of resource development?
- Should wildlife have rights to pristine habitats?
- Who should monitor safe waste disposal to protect food supply on land & oceans? Should the U.S. ban single-use plastics?

A

natural resources and pollution

- **reduce climate change** = keep Paris Climate Agreement
- **increase regulations & tax industrial pollution** = protect public health and long term sustainability of agriculture productivity

A

natural resources and pollution

- **subsidize clean energy** = transfer billions in oil & coal subsidy to clean energy development, transportation efficiency
- **conserve public lands** = water, wildlife habitat, hunting & fishing are better protected by public oversight than private

A

natural resources and pollution

- **deregulate** = the price of gas and consumer products will go up if there are costly regulations such as pollution controls
- **subsidize fossil fuels** = continue tax incentives for energy production

A

natural resources and pollution

- **protect thru private property rights** = full legal consequences for individuals & businesses who pollute
- **drain the swamp** = government has enabled the destruction of the environment thru cronyism and kickbacks
