

SecureLeb Privacy Policy

Effective date: September 4, 2026

Website: SecureLeb.com | Android application: SecureLeb (com.secureleb.app)

1. Introduction

SecureLeb respects the privacy of users of the SecureLeb website and Android application.

This Privacy Policy explains how information may be accessed, processed, used, retained, and protected when you use SecureLeb.com or the SecureLeb Android application (com.secureleb.app).

By using the SecureLeb website or Android application, you acknowledge the practices described in this Privacy Policy.

2. Information We Collect

The SecureLeb Android application does not require users to create an account and does not directly request access to sensitive device information such as precise location, contacts, SMS messages, call logs, microphone, camera, or stored photos.

The application requires internet connectivity in order to display SecureLeb.com.

When you access SecureLeb.com through the application or a normal web browser, standard technical information may be processed automatically by our web hosting, network, or security infrastructure. This may include:

- IP address
- Browser or device type
- Operating system
- Date and time of access
- Pages or resources requested
- Basic network and security information
- Server and security logs

This information may be processed for website delivery, security, troubleshooting, fraud prevention, and maintaining reliable service.

3. Information You Voluntarily Provide

SecureLeb provides direct communication options including secure email, Signal, Telegram, and telephone.

If you choose to contact SecureLeb, we may receive information that you voluntarily provide, such as:

- Your name or chosen identifier
- Email address or messaging identifier
- Telephone number
- Message content
- Documents, files, or other information that you voluntarily send
- Information necessary to respond to your inquiry or request

You are responsible for deciding what information you choose to send.

4. How We Use Information

Information may be used to:

- Provide and operate SecureLeb services
- Respond to inquiries and communications
- Provide requested information or assistance
- Maintain website and application security
- Detect abuse, technical problems, or malicious activity
- Improve reliability and functionality
- Comply with applicable legal obligations
- Protect the rights, safety, and security of SecureLeb, its users, and others

SecureLeb does not use the Android application to build advertising profiles.

5. Android Application Permissions

The SecureLeb Android application uses only the permissions necessary for its web-connected functionality.

These include:

- Internet access - required to load SecureLeb.com
- Network status - used to determine whether an internet connection is available

The application does not request native access to your contacts, precise location, microphone, camera, SMS messages, or call history.

When you choose an external action such as Signal, Telegram, email, or telephone, Android may transfer you to the relevant external application or service.

6. Third-Party Services

SecureLeb may provide links to or interact with third-party services, including services such as Signal, Telegram, email providers, telephone services, or external websites.

When you leave SecureLeb or use one of these external services, that service may process information according to its own privacy policy and terms.

SecureLeb does not control the privacy or security practices of independent third-party services.

7. Cookies and Local Storage

SecureLeb.com may use cookies, browser storage, or similar technical mechanisms where necessary for website functionality, security, or performance.

SecureLeb does not intentionally use the Android application for third-party behavioral advertising.

Hosting, security, or infrastructure providers may process limited technical information required to operate and protect the website.

8. Sharing of Information

SecureLeb does not sell personal information.

Information may be disclosed only when reasonably necessary to:

- Service providers that help operate or secure the website or application
- Process a service specifically requested by the user
- Comply with applicable law, legal process, or lawful governmental requests
- Protect SecureLeb or others against fraud, abuse, security threats, or unlawful activity
- Protect legal rights, safety, or property

Service providers are expected to process information only for the services they provide.

9. Data Retention

SecureLeb retains personal information only for as long as reasonably necessary for the purpose for which it was provided, including responding to communications, maintaining operational records, protecting security, or satisfying applicable legal obligations.

Technical server and security logs may be retained according to the operational and security settings of SecureLeb and its infrastructure providers.

Information that is no longer required may be deleted or anonymized where reasonably practicable.

10. Data Security

SecureLeb uses reasonable technical and organizational measures designed to protect information from unauthorized access, disclosure, alteration, or destruction.

SecureLeb.com uses encrypted HTTPS connections.

However, no internet transmission, electronic communication, or storage system can be guaranteed to be completely secure.

Users should avoid transmitting unnecessary sensitive information.

11. International Processing

Some infrastructure or third-party communication services used by SecureLeb may process information on servers located outside Lebanon.

Where such processing occurs, information may be subject to the laws and data-protection requirements of the jurisdiction in which the service provider operates.

12. Children's Privacy

SecureLeb is not designed or directed specifically toward children under the age of 13.

SecureLeb does not knowingly seek to collect personal information from children under 13 through the Android application.

If you believe that a child has provided personal information to SecureLeb improperly, please contact us so the matter can be reviewed.

13. Your Privacy Rights

Depending on your location and applicable law, you may have rights regarding personal information you have provided, including requesting:

- Access to your personal information
- Correction of inaccurate information
- Deletion of information
- Restriction or objection to certain processing
- Information regarding how your data is handled

Requests can be submitted using the privacy contact information below.

14. No User Accounts

The SecureLeb Android application currently does not provide user registration or user accounts.

Therefore, there is currently no application account or profile that users need to delete.

If account functionality is introduced in the future, this Privacy Policy and the application's account-deletion procedures will be updated accordingly.

15. Changes to This Privacy Policy

SecureLeb may update this Privacy Policy when the website, Android application, services, legal requirements, or data-handling practices change.

The effective date at the top of this page will be updated when material changes are made.

Users are encouraged to review this page periodically.
