Hannah was a wife who had no children

Hannah was one of two wives of Elkanah, and they lived in the hill country of Ephraim. Elkanah's other wife had sons and daughters and year after year his other wife would provoke Hannah because the Lord did not give her any children. Hannah's husband did not understand why she was sad and continuously wept and would not eat. He believed that he was as valuable to her as ten sons.

Hannah cried out to the Lord

One day when Hannah could no longer bear the pain of her empty womb, she went to the temple to present her supplication to the Lord. She cried out to the Lord and wept bitterly. She was so upset that she made a promise to the Lord in her request for a son, she said: "O Lord of hosts, if you will indeed look on the affliction of your servant and remember me and not forget your servant, but will give to your servant a son, then I will give him to the Lord all the days of his life, and no razor shall touch his head." (1 Samuel 1:11)

After she said this prayer out loud she continued to pray in her heart, but her lips moved. She was observed by the priest, Eli, who accused her of being a drunken woman. She explained that she had not had any wine nor strong drink and that instead she was deeply distressed and was praying to the Lord. Eli told her to go in peace and also asked that the Lord would grant her request. After that Hannah was no longer sad and she no longer fasted.

The Lord remembered Hannah's prayer

Not long after her visit to the temple to present her request to the Lord, she was with child. When she delivered her son she called him Samuel which means "asked of God". Hannah did not forget her promise to the Lord either and as soon as Samuel was weaned she presented him to the Lord. When she arrived at the temple that same priest, Eli was there. Hannah reminded him of the time that she prayed to the Lord for a son and then dedicated Samuel to the Lord. And he worshiped the Lord there.

An award-winning investigative journalist, he used his real name; In *American Prison*, Bauer weaves a much deeper reckoning with his experiences together with a thoroughly researched history of for-profit prisons in America from their origins in the decades before the Civil War. Private prisons became entrenched in the South as part of a systemic effort to keep the African-American labor force in place in the aftermath of slavery, and the echoes of these shameful origins are with us still.
