Letter From Our Founder

We are delighted to announce the expansion of Computers With A Cause's charitable initiatives from the Lowcountry in Charleston, SC to the resilient community of Maui, HI.

In response to the recent fires near Maui, our organization swiftly stepped in to provide much-needed computer donations to students affected by the disaster. This timely effort reflects our commitment to empowering students with the tools they need for a brighter future.

Encouraged by the positive impact in Charleston, we are excited about the potential transformation in Maui. This marks the beginning of a long-term partnership, and we are dedicated to furthering our support by donating more computers and resources to address the educational needs of Maui's students.

We extend our gratitude to our team members, donors, and the communities that support our vision. Stay tuned for updates on our progress in Maui & beyond!

Best regards,

Bobby C. Baker, MD
