How will access to a computer support your family's educational and personal goals, and what specific resources or programs will you use?

Computers *with a Cause*

Supported in part by the Dr. Bobby and Julie Baker Foundation

Can you describe any challenges that you currently face in accessing or using technology, and how a computer would help overcome these challenges?

How many children or family members will have access to the computer, and what is the anticipated frequency of use?

How will access to a computer help you to better balance work and family responsibilities, and support your personal growth and development?

Can you describe any community service or volunteer initiatives that you have been involved in, and how has technology been used to support these efforts?

What is your current employment situation, and how will access to a computer help you to advance your career or pursue new opportunities?

How will you ensure the security and privacy of your family's information when using the computer, and what measures will you take to protect against potential threats?

Can you describe any previous experiences using computers or technology, and how will you use this knowledge to make the most of this opportunity?

How do you plan to give back to the community and support other families or individuals who may also face barriers to accessing technology?

In what ways will access to a computer help to support your family's personal growth, academic success, and overall well-being?

Once you have completed the application, please click the submit button below and we will be sure to review your application shortly.

Thank you for applying with Computers With A Cause!
