Are you applying for yourself or for someone else? Please specify the best point of contact.

What motivated you to apply for a laptop computer, and how will it support your academic and personal growth?

Computers *with a Cause*

Supported in part by the Dr. Bobby and Julie Baker Foundation

Can you describe any community service initiatives or volunteer work that you have been involved in, and how has this impacted your education and personal values?

In what ways do you plan to use the laptop to connect with and learn from other cultures, both locally & globally?

What is your current academic standing, and how has your academic success influenced your future goals and aspirations?

Can you describe any challenges that you have faced in accessing technology or using computers, and how will a laptop help to overcome these challenges?

How do you plan to use technology to further your education and prepare for your future career?

Can you describe any programs or software that you would like to use on the laptop to enhance your learning experience?

How do you plan to balance your academic, extracurricular, and personal responsibilities with the use of the laptop?

What are your plans for post-secondary education or career goals, and how will a laptop support your preparation and application process?

In what ways do you plan to give back to your community or support other students who may face barriers to accessing technology or educational resources?

Once you have completed the application, please click the submit button below and we will be sure to review your application shortly.

Thank you for applying with Computers With A Cause!
