Trauma Recovery/HAP is a 501(c)(3) nonprofit organization committed to relieving human suffering and breaking the cycle of violence by providing low-cost training to mental health professionals serving traumatized communities worldwide.

Trauma Recovery/HAP's organizational objectives are to:

- give local mental health professionals the tools to meet the long-term emotional needs of traumatic stress survivors in their own communities by training them in EMDR methodology, and
- promote general public awareness of trauma, its effects and treatment.

Eye Movement Desensitization & Reprocessing (EMDR) Weekend I Training Objectives:

- Identify 3 components of the EMDR Approach designed to provide effective treatment with clients
- Describe 3 important existing research studies [more than twenty randomized studies support the effectiveness of EMDR therapy]
- Name the 8 phases of EMDR for comprehensive treatment and how to implement the phases with clients
- Identify the parameters treatable with EMDR to safely and effectively implement EMDR with clients
- Describe 3 aspects of the AIP Model for effective case conceptualization and treatment planning
- List 6 types of client complaints treatable with EMDR
- Describe the criteria for client selection and how to apply to client cases

Records of Attendance will be emailed to all participants of an EMDR Weekend I training after their attendance at the Weekend I training has been confirmed and payment has been received.

**Participant Completion Criteria:**

Completion of EMDR Basic Training Part I and Part II.

- *Each training event is three days of didactic and supervised practice.*
