BIOGRAPHY

The Boys of "SALAZAR" have only been together a short time. In that short amount of time Salazar has been blessed with great success. Driven by our own unique sound and energy on and off the stage. We have quickly established our own brand of music. Extremely loyal to our growing fan base...Humbled by them at the same time. We are truly grateful.

We also have original music written and recorded and are currently working on an album.

There's a good number of years of experience and stage presence that hits the stage every time we do a show! SALAZAR is all about the crowd. From our "in your face" "guitar driven" "party songs"...to our SALAZAR inspired ballads...we love to put on a show!

We have shared the stage with many of the local artists in the GA music scene such as: Highway 55, Justin Dukes, Lance Stinson, and Hatton Still. As well as a few signed artists such as: Molly Hatchet, The Lacs, Twang and Round, Colt Ford, Saving Able, Jeff Bates, Confederate Railroad, A Thousands Horses, Big and Rich, Blackberry Smoke, and a couple more coming up soon.

We look forward to rocking the stage in your hometown!
