

Sponsored Events Distribution

When we have reached our cap on processing applications for clothing we will distribute clothing, baby care, children toys, and other specialty items through our Sponsored Events Distribution Days.

These are special days that are sponsored by FYMO, other companies, agencies, and organizations (*schools, youth clubs, sport teams, religious groups, etc.*).

These events are mostly open to our target market and are aimed at providing **free** distribution of items to the selected participants. For more information contact communityrelations@fymo.org

Individual and Corporate Sponsorships are needed to secure Sponsored Events Distribution Days.

Sponsored distribution days allow FYMO to come out to community events, job fairs and other special events hosted by FYMO, other companies, agencies and organizations to distribute free resources (provided by FYMO) such as women and men clothing and household goods to the hosting company participants.

Sponsorship Applications are available for those that are interested in sponsoring upcoming events and for those that would like to be a sponsor for one of our distribution service day.

Household Goods Distribution

Applications are filled according to what is currently available, these items change rapidly. Our goal is to provide a basic starter package that includes at least one item from each section of goods listed. The size of package usually requires a compact-mid size vehicle with ample space to load items in and take home. Participants picking up household items must be informed to have reasonable transportation when picking up goods.

Applications are fill on a first come first served basis. When resources run low we have to accommodate package sizes accordingly to serve as many applicants as possible.
