IV-S Roll Cutting Machine - Wilson

Overview

- Manufactured by YYS, an expert in roll cutting machines manufacturing.
- Highly Efficient - Cut up to 110 inch rolls in 3-5 mins.
- Simple, intuitive control operating system allows 2-3 person crew to operate, minimizing cost to customers.

Advantages

- **Reduces Roll/Peel Waste**
- **Reduced Costs, Increase Space** - Smaller rolls optimizes space and freight costs.
- **We come to YOU** - Compact, efficient design is **MOBILE!**
- **Zero Mess** - Patented Vacuum System ensures all dust is captured and disposed during operation.

Requirements for Service

- **Electrical Requirements** - 480V / 100 AMPS
 - Shore or generator supplied and within 100 ft of machine.
- **Clamp Truck dedicated for RCS use.**
- **10k Lift to unload and set up machine**
- **40 yard dumpster emptied every other day for duration of visit**

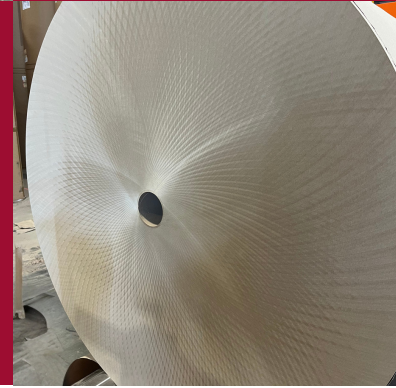

Precision Cutting for a Superior Edge

Wilson is equipped with a revolutionary blade specially designed for paper cutting applications for more than 150 cuts!

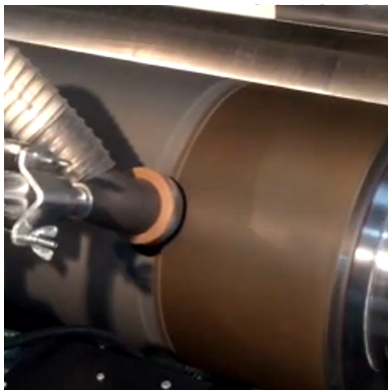

Ideal Uses

- Repair rolls with water or clamp-truck damage
- Resize Rolls to optimize storage / transportation costs

Our Equipment

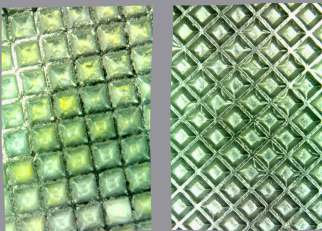

We take great pride in our state-of-the-art equipment...it's what makes RCS the ideal partner for all your needs!

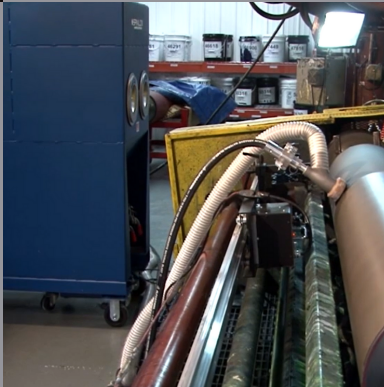

Dust-Free, Zero Mess Cleaning

The revolutionary cleaning attachment includes an industrial-strength vacuum capable of disposing of all dust/debris!

Before and After

Completely removes all ink and glue build-up deep inside cells!

Sanilox Roll Cleaning System

Overview

- Manufactured by Eaglewood Technologies,
- Uses 5-micron baking soda granules to fully clean cells.
- State-of-the-art cleaning head includes an industrial strength vacuum to ensure no-mess cleaning.
- Attaches directly to Flexo/RDC and travels across full length of roll for an even, deep clean.

Advantages

- **Highly Efficient** - Clean Rolls of all sizes in 45 minutes!
- **Cost Effective** - Competitively priced. Includes One (1) free roll cleaning for demonstration
- **Increased Print Quality** - Better transfer from cells.
- **Less downtime / Labor** - Anilox Roll remains in Machine
- **Weekend Availability** - Reduces impact on plant operation
- **Operator Friendly** - Simple display screen and operating procedures enables machine to essentially run itself.

Requirements for Service

- 2 dedicated, 20 outlet extension cord
- Trash Hopper(s) to dispose of used media.
