*50 Years of Excellence*

Established 1972

# WELCOME

TRANS SEAS was established in the United States in 1972 by Taleb “Ted” Ayoub; a successful entrepreneur, loving husband and father, as well as a role model for those that needed the inspiration, leadership and guidance to master the art of self-respect, good behavior towards others, being successful in both heart and mind, and how to apply those methods, values and qualities to everyday life at work with friends and colleagues, and at home with family.

TRANS SEAS continues to apply these same traditions, ethics and values passed down through generations of integrity, knowledge, and experience when managing our Clients projects and specific priorities of quality, delivery and cost. Our legacy at TRANS SEAS consists of this same successful formula and has been applied on each of our projects of nearly every application. Our professional services have expanded from global trade to Client Representation, and everything else in-between.

- EDUCATION
- STADIUMS
- HEALTHCARE
- FINANCIAL
- SHOPPING MALLS
- ENTERTAINMENT
- MOSQUES
- PALACES

# Mission

With our exceptional reputation due largely to the quality of our staff. Trans Seas shall continue to demonstrate our peak performance through excessive training of product knowledge, sales, work place ethics, and integrity in our day-to- day correspondence and business activities with our clients, vendors, suppliers and contractors.

## Teamwork

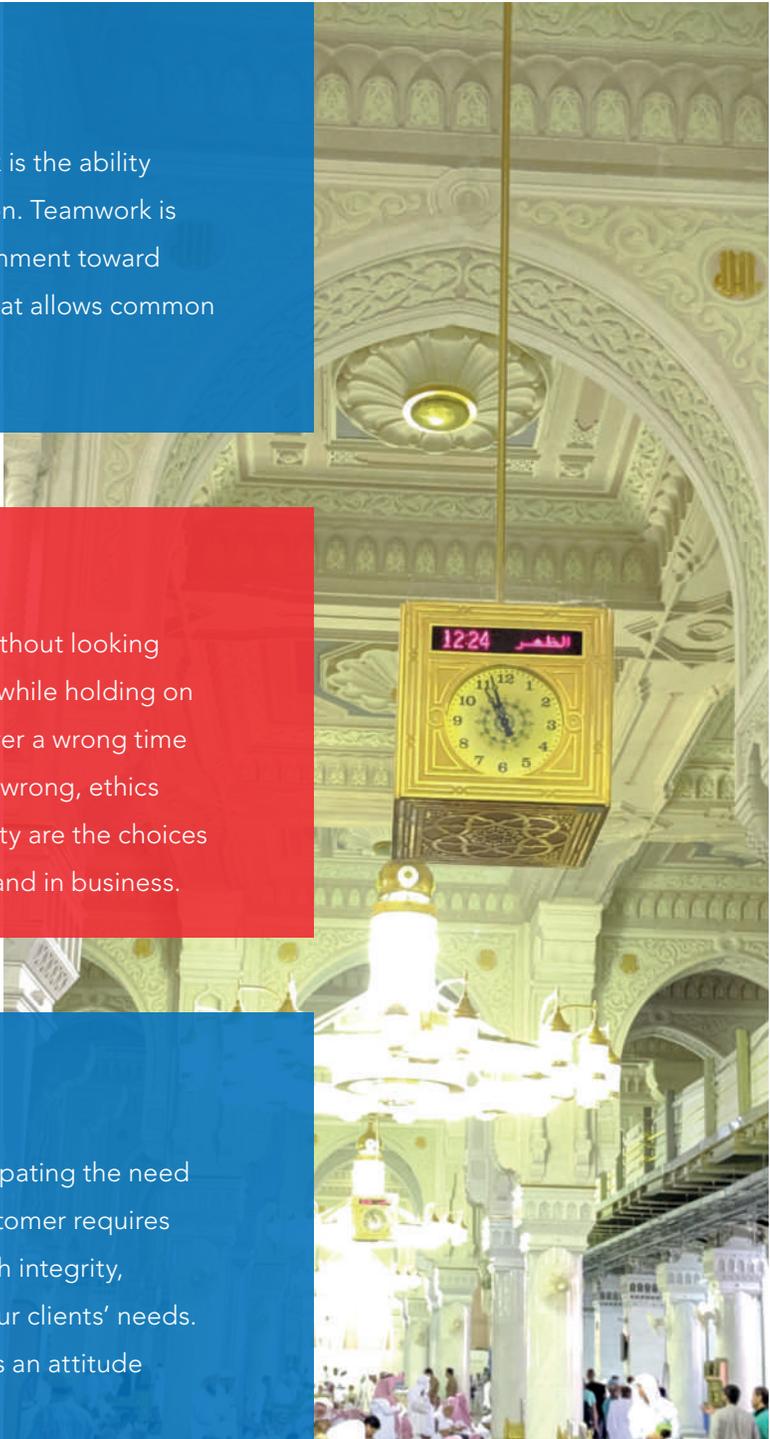

At Trans Seas, we believe that Teamwork is the ability to work together toward a common vision. Teamwork is the ability to direct individual accomplishment toward organizational objectives. It is the fuel that allows common people to attain uncommon results.

## Integrity

Each day we travel the path of integrity without looking back, adjusting to an ever-changing road while holding on to our unchanging principles. There is never a wrong time to do the right thing. Choosing right over wrong, ethics over convenience, and truth over popularity are the choices we make that measure our success in life and in business.

## Customer Service

Extraordinary service is the result of anticipating the need and providing the solution before the customer requires it. The high road to service is travelled with integrity, compassion and understanding each of our clients' needs. Customer service is not a department...it's an attitude

# Procurement

## As Specified - In Budget - On-Time

Our vast knowledge and global network of manufacturers and suppliers allows Trans Seas to keep ahead of the game when searching for the specified product at the best price. Often, items are sourced through Other Equal Manufacturers (OEM) which provides a cost-savings option to our clients as well as meet/exceed the item specifications in terms of quality, design, and overall product performance.

On exclusive projects where Excellence and Quality cannot be sacrificed, TransSeas works on a client-friendly fee structure. We work on a negotiated flat-fee based on the scope of the project, cost of materials, shipment, and manpower, thus preventing the inflation of prices against the manufacturers original invoice. All cost plus fixed fee contracts are procured with our experienced staff dedicated to making each project a success.

# Turnkey Solutions

AFTER MARKET SERVICE

# Installation

## Certified Factory- Trained

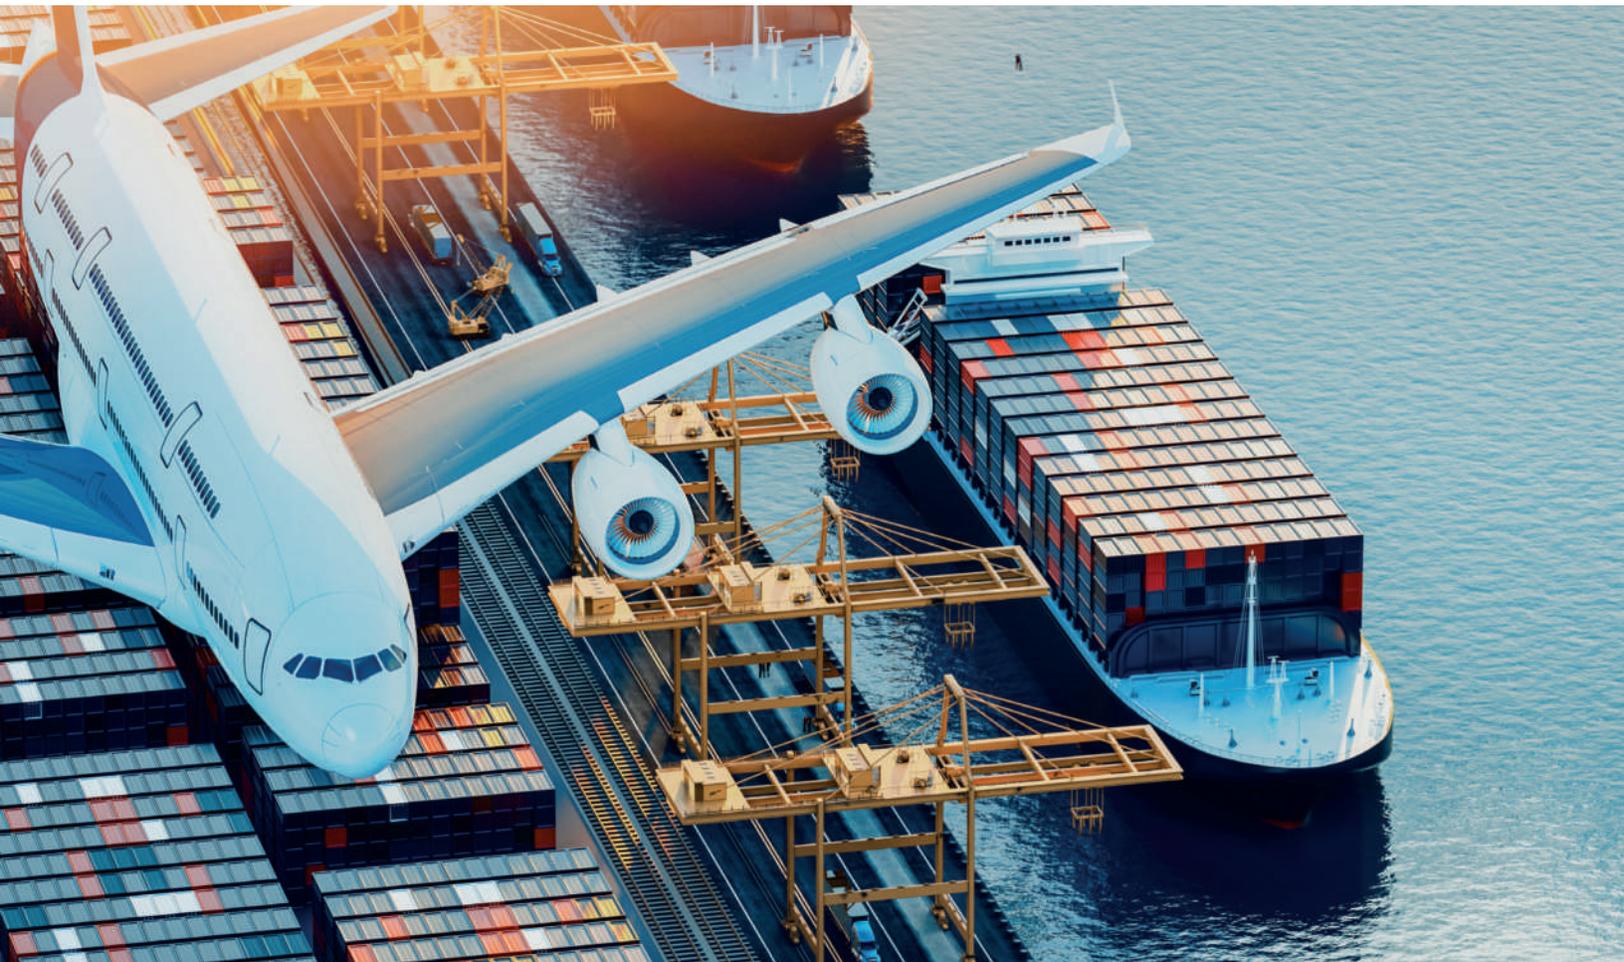

Trans Seas can handle the placement and installation of all products sold. Providing a complete turnkey package, all installation performed is under the direct supervision of our factory-trained and certified installers to ensure overall product function and performance are at its peak.

# Shipping

Trans Seas offers door-to-door shipping services around the world with attention to detail.

Trans Seas coordinates shipping activities using an array of specialised carriers, network of warehouses and professional installation crews operating throughout the world. We specialise in handling long distance transportation services for delicate items.

With multiple shipments on new projects, Trans Seas coordinate all materials to arrive in accordance with the project schedule. Our precision delivery provides less contractor downtime, fewer lost and damaged items and streamlined scheduling and planning.

King Fahad Expansion  
Advance Clock Systems

The Holy City of Makkah, which lies inland 73 kilometers east of Jeddah, is the place where the Prophet Muhammad, peace be upon him, was born - the place where God's message was first revealed to him and the city to which he returned after the migration to Madinah in 622 AD.

Makkah is the holiest city on earth for Muslims. Five times each day, over one billion Muslims, wherever they may be, turn to the Holy City of Makkah to pray. At least once in their lives, all Muslims who are not prevented by personal circumstances perform the Hajj, the pilgrimage to Makkah. Thus each year the Holy City of Makkah is host to some two million hajjis (pilgrims) from all over the world.

TRANS SEAS Designed, Supplied and installed a Computerized indoor/outdoor Advanced Clock System, custom-made to the client's Specifications.

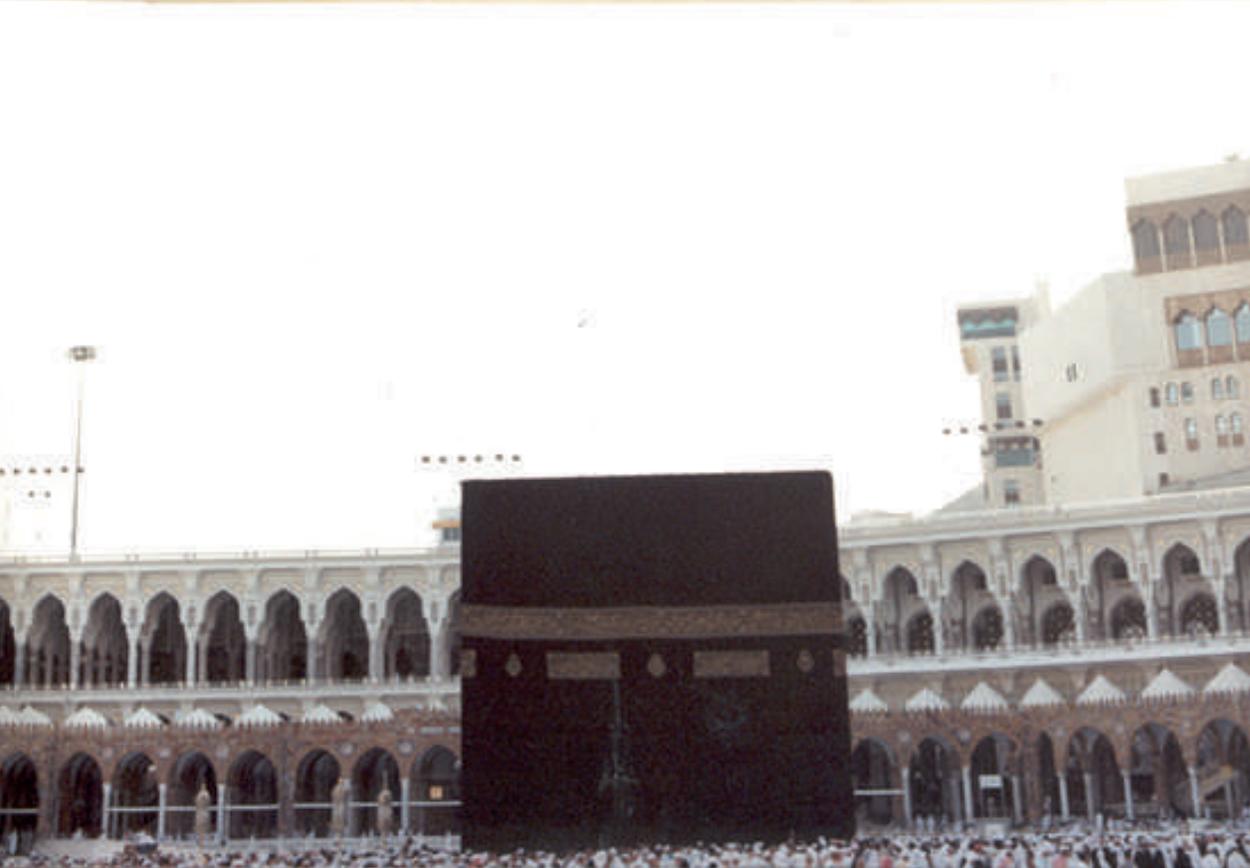

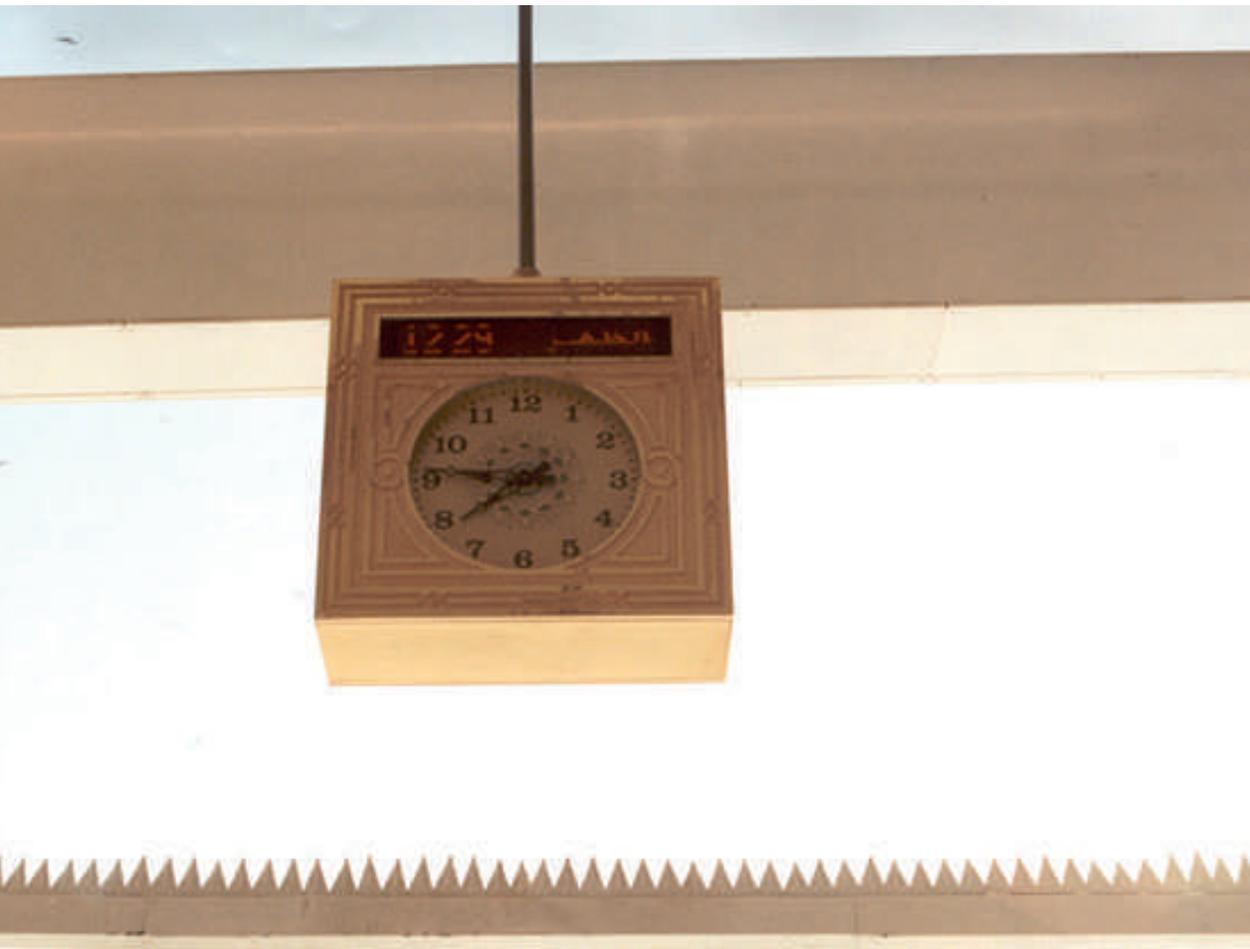

## Makkah Holy Haram Expansion Clock Tower

## Madinah - Prophet's Mosque Expansion

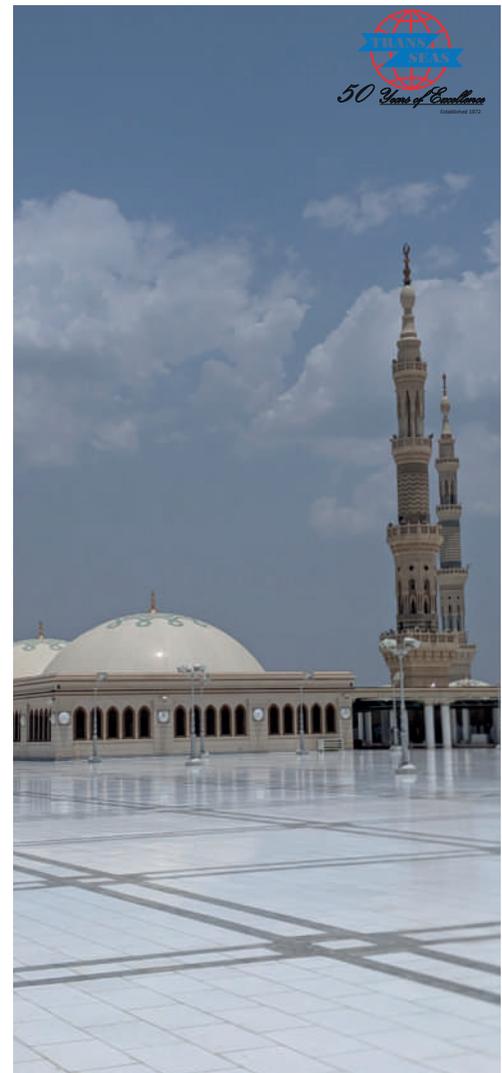

Location: Madinah, Kingdom of Saudi Arabia  
Duration: 1991 - 1993

Madinah, which lies 447 kilometers north of the Holy City of Makkah, is the second holiest city in Islam. It was to Madinah that the Prophet Muhammad, peace be upon him, and his followers, faced by the hostility and persecution of the Makkhan merchants, departed in 622 AD - and, when the citizens of Madinah asked the Prophet to live amongst them and arbitrate in affairs (an invitation taken to mean their rejection of polytheism and submission to the will of one God, Allah), it was in Madinah that the Islamic era began.

Madinah is then the city of the Prophet. As the place in which the Holy Qur'an was compiled and from which the Prophet's companions administered the affairs of the Muslim community, it was the seat of the first Islamic state. From Madinah, armies, spreading the word of the Prophet, were dispatched to Egypt, Persia, and Syria.

Madinah is also the place in which the Prophet, peace be upon him, was buried.

TRANS SEAS designed, supplied, and installed custom-made steel doors to the client's exact specifications.
