SUBJECT: Clarification of the phrase "Your correspondence is being actioned."

I am writing to obtain clarification of the term "actioned". Does this involve assessing whether the disclosure meets the criteria for a public interest disclosure? If a determination is in the process of being evaluated, can I make a formal request that it is and a statement of reasons for a decision is provided?

UPDATE***

In escalating the concerns, I have released the medical records and associated informative material to patients I treated so they may make informed decisions about their health and safety.

If I have not received a response in an additional seven days from today's date, I will continue to meet my duty of care to the workers at Newmont's Tanami Operations.

Kind regards,
