I was the lead sponsor on a hearing addressing the lack of investment in Boston Public School athletics for our students. As a mother of student athletes (Go BLA Dragons!) who benefitted in so many ways from their time on school teams, and as a public school teacher who knows that educating the whole child has to include

physical and social wellness to be successful, I am the right person to fight for school sports for our BPS kids. I know how participation on a school team, whether it's volleyball, cheering, football, or soccer, can transform a youngster's life, increasing motivation and a sense of inclusion, and knitting together a closer school and neighborhood community. Our children deserve better and I will continue to advocate so all students, no matter what school they are at, get opportunities to participate in a range of athletics! CITY OF BOSTON IN CITY COUNCIL

ORDER FOR A HEARING TO ADDRESS THE LACK OF ATHLETIC OPPORTUNITIES FOR OUR STUDENTS

WHEREAS, Massachusetts spends on average \$17,058 per pupil. Boston spends \$24,020.50 per pupil, considerably more than most other cities and towns in the state.; *and*

WHEREAS, Massachusetts spends on average \$161 per pupil on athletic programs, while Boston spends only \$76 per pupil on athletic programs, less than half the state average; *and*

WHEREAS, Wealthy districts such as Concord-Carlisle, whose per pupil expenditure is thousands of dollars less than Boston, spends \$821 per student on athletic programs; *and*

WHEREAS Boston spent \$3.9 million on athletics in 2020, less than a third of 1% (.03%) of its \$1.3 billion budget, compared to most other districts in the state that spent an average of 1% of their budgets on athletics.; *and*

WHEREAS, Bob Hohler, from the Boston Globe, reported that BPS investment in student athletics remains nearly unchanged from 2009, despite the total school budget increasing more than 35 percent over that period; *and*

WHEREAS, We know that our students benefit in so many ways when they participate in sports teams and educating the whole child has to include physical and social wellness opportunities; **NOW, THEREFORE BE IT**

ORDERED: That the appropriate committee of the Boston City Council hold a hearing to discuss the need for proper funding and leadership to offer equitable athletic programming across all schools.

Boston Public Schools Transportation

"The Transportation System is in disarray," Murphy said. "Families and students need more transparency and accountability."

I sponsored a hearing regarding BPS transportation. The Boston Public Schools transportation budget is over \$110 million, which makes up about 10% of the district's spending. The councilors said costs have continued to rise even as enrollment has declined. [Use this link](#) to learn more and watch the hearing.

CITY OF BOSTON IN CITY COUNCIL

ORDER FOR A HEARING REGARDING THE BOSTON PUBLIC SCHOOLS TRANSPORTATION SYSTEM

- WHEREAS,** The FY23 recommended budget for Boston Public Schools transportation is \$116,467,033, which comprises roughly 10% of all BPS spending; *and*
- WHEREAS,** Despite enrollment in BPS having declined by 8,000 since 2015, expenditures for BPS transportation have been steadily on the rise, with there being a roughly \$4 million increase in recommended spending between fiscal years 2022 and 2023; *and*
- WHEREAS,** BPS also provides transportation for out-of-district special education students, and these costs comprise 23.7% of the FY23 BPS transportation budget; *and*
- WHEREAS,** In the FY19 Budget, the Boston City Council approved a \$119 million budget for Boston Public School transportation and the district spent \$126 million; *and*
- WHEREAS,** The Boston Public Schools transportation team has struggled with hiring and bus driver retention problems, which has led to busses being late or not arriving at all to pick up students to take them to school or to out-of-school athletic events; *and*
- WHEREAS,** The ongoing dialogues between state and city officials in regards to BPS reforms has focused on transportation issues impacting the school district, with the state proposing a goal of 95% on-time performance for school busses and the city proposing a 93% on-time performance rate; *and*
- WHEREAS,** Late or absent busses result not only in learning loss for students who must continuously show up late, but it also has a financial burden on families who must pay out of pocket for alternative forms of transportation; *and*
- WHEREAS,** It is crucial that students in Boston Public Schools have access to safe, reliable, and consistent transportation to and from school; **NOW**
THEREFORE BE IT

ORDERED,

That the appropriate committee of the Boston City Council holds a hearing regarding the Boston Public Schools Transportation system. Representatives from the administration, including the Boston Public Schools Transportation Department, in addition to advocates and members of the public are encouraged to attend.

Our **Boston Public Schools** Custodians deserve a fair and just contract. They have been working throughout the pandemic with no contract. Here is my statement in support of our dedicated custodians that keep our school open and clean.

Boston City Council
Erin J. Murphy
 Councilor - At-Large

November 16th, 2022

Our Boston Public School Custodians Deserve a Fair & Just Contract

For the past two years, the custodians in the Boston Public Schools have been working without a contract, meaning there has been no raise while the cost of living in Boston continues to increase drastically.

As a former BPS teacher, I know firsthand how hard our custodians work. They are the first ones in the school buildings each day to turn on the lights, and the heat, shovel the sidewalks, and make sure the schools are clean and ready for our students to learn.

During the pandemic, all our custodians had to show up to work in person. They did not get to work from the comfort of their home. Instead, they took on extra duties cleaning ventilation systems, painting walls, repairing wood floors, replacing tile, and scraping old paint. They continue to show up and do their job, even without a contract, so that students, teachers, and staff have a safe and clean work environment.

I call on the City and administration to take the necessary steps to provide a fair and livable contract for our dedicated custodians. Their selfless work is crucial in keeping us safe and healthy each day. I will continue to stand by and fight for our hardworking city workers!

Their mission is to help young people make positive life choices through trusting relationships with skilled and compassionate social workers. YouthConnect social workers are champions of social justice. By placing social workers in police stations to provide voluntary prevention, intervention, advocacy, and mental health services, YouthConnect works to address the underlying problems and social emotional issues that contribute to juvenile crime and delinquency by working with the entire family, not just the youth. Since 1996, YouthConnect has assisted over 17,000 youth and families.

Thank you to everyone who came out to our event at the Industry in Dorchester. It was great to see everyone and spend some time together.
