This lease is not assignable. Resident may not sublease the mobile home site or lease the home to any individual who has not applied for and been accepted as a resident by Management. All homes located in the community must be owned by community or owner-occupied.

On-Site Resale of Home

The right to occupy a home on the lease site is not unconditionally transferable with the sale or transfer of title to the mobile home. To insure that the purchaser(s) of your home, should you decide to sell it, will be permitted to keep and occupy the home on the leased site, the following criteria must be met:

- The exterior physical appearance of and condition of the mobile home and leased site must be in good condition (windows, exterior siding, sheds, lawns, etc.). Therefore, prior to listing the home for sale, you are required to have management inspect the exterior of your home and leased site to ensure that they are in compliance with community standards. The fee for the inspection is Twenty and no/100 dollars (\$20.00) which must be paid days prior to the inspection. The inspection is valid for ninety (90) days and, if your home is not sold within that period, a supplemental inspection, at no charge, is required. All items that need repair or correction must be completed, weather permitting, prior to management's final authorization of resale.

- If the home is to remain on the leased site, the buyer must meet with community management, apply for and be approved for residency PRIOR to the closing on the sale of the home. If the purchaser of the home occupies the home without first having obtained Management approval for residency, the purchaser will be deemed to be a trespasser and may be evicted from the community. The Resident will remain responsible for all rent and other charges which may accrue, regardless of whether the Resident continues to occupy the home.

- Any improvements, alterations or additions to the mobile home and/or home site which are to remain on the home or home site following the onsite sale of the home, with the exception of concrete pads, must be sold and ownership transferred to the purchaser upon the sale of the home. It shall be the responsibility of the purchaser to have any anchoring systems inspected to insure that they have been properly installed, activated and maintained.

Removal of Home

- Resident must provide Management with thirty (30) days written notice of intent to remove the home from the leased site. If the tenancy is pursuant to a written lease and Resident intends to remove the home upon expiration of the lease, Resident must, at least thirty (30) days prior to the expiration of the lease, provide Management with written notice of intent to remove the home. The removal of a home by Resident prior to the expiration of the lease term will result in the Resident's continued liability for rent until the expiration of the lease term or until Management is able to lease the home site, whichever occurs first. Forms for notifying Management of Resident's intent to remove the home are available in the community office.
- Failure to provide a timely written notice will result in Resident's continued liability for payment of rent for a thirty (30) day period commencing with the date Management actually received written notice of Resident's intention to vacate or if home is removed without any prior written notice, then Resident shall remain liable for rent for a thirty (30) day period commencing with the date the home is actually removed from the community. All rents and applicable charges due by resident to management must be paid in full prior to the removal of the home from the leased site.
- The leased site must be left in clean and neat condition. Any improvements or installations placed on the leased site including, but not limited to, decks, sheds, porches, tie-down anchoring systems, awnings, carports, etc. must be removed from the leased site. These items do not become fixtures or property of the community. Only trees and shrubs may remain on the site following the removal of a home.
- Any expense incurred by Management in restoring the site to its original condition, such as the cost of removing items, including, but not limited to, trash, sheds, anchoring systems and tie-downs, will be charged to the Resident.

- Resident shall be solely responsible for any damages to community property or that of other residents resulting from the removal of the mobile home from the community.
