

Fresno Autorama Will Open March 11

The 14th Annual Fresno Autorama, sponsored by Blackie Gejeian, has landed a speciality car called the "Bugaloos Buggy", a \$52,000 mobile bed tabbed "X Rated Car", and a futuristic vehicle featured as "Martian Spider".

The "Bugaloos Buggy", created for the new "Bugaloos" TV series, is equipped with flapping butterfly wings for flying and twin screws under the rear for water travel.

The exotic "X Rate Car" and the "Martian Spider," which

has never been shown west of the Mississippi, were designed and built by Bob Reisner of Long Beach.

The four-day autorama, which opens March 11, will be held at the Fresno County Fairgrounds. Over 100 custom built cars will be selected from 14 United States' auto shows for the affair.

Free Indy 500 movies will again be shown throughout the Autorama.
