## **MAHARANI SCIENTIFIC & ENGINEERING CO.**

Manufacturers, Suppliers & Exporters of:  
Compression Testing Machine, Civil Engineering Lab Equipments, Sand Soil, Cement, Aggregate, Sieves,  
Bitumen, Hydraulic Material Testing Equipments & Research

---

CR-17/A, Upper Cemented Road, Anand Parbat Industrial Area, New Delhi - 110005

### **INTRODUCTION LETTER**

To Whomsoever It May Concern,

We take immense pride in introducing ourselves as Maharani Scientific & Engineering Co., one of India's most trusted and experienced manufacturers of Civil Engineering Laboratory Equipment.

With over 30+ years of industry presence, we have consistently delivered precision, reliability, and innovation in the field of civil engineering testing solutions. Our company has successfully supplied and established complete civil engineering laboratories in 70+ prestigious engineering colleges pan India, ensuring academic institutions are well-equipped with advanced and accurate testing instruments.

In addition to academic establishments, we have had the privilege of working with various Government Departments (including PWD), renowned builders, and a vast network of dealers across India, building a legacy of quality and service.

Our commitment to excellence has also extended globally, as we now export our equipment to countries like Nigeria, Nepal, and several others, gaining international trust and credibility.

Each of our products is manufactured under stringent quality control and meets global standards, ensuring unmatched performance in real-world applications.

We look forward to further opportunities to serve with the same dedication and passion that has fueled our growth for over three decades.

Warm regards,

**Chander Parkash**

Proprietor
