By placing this order, you agree to the Terms of Use and

Our operating regulations

Total 101,5 USD

Order

Contribute to carbon neutrality

Reduce your carbon footprint by contributing up to 0,08 USD with every order.

How it works

Just contribute a maximum of \$0.08 USD through your order and you'll help reduce carbon emissions.

We buy high quality carbon credits from Southeast Asia and contribute to tree planting and renewable energy projects. Through CO2 coins published on <https://carbon-credits.world/>

Nature Conservation Project

Carbon credits (CO2 tokens) aim to prevent greenhouse gas emissions from business production activities

Sustainable development according to international conventions

Carbon credits (CO2 tokens) aim to regenerate the environment, promoting the absorption of greenhouse gases from the atmosphere.
