## LOBOTOMY

NEW RELEASE - LOBOTOMY (EP)

Released: OCT 2024 - house of dissent

After the release of their successful debut E.P “MEMBERS OF THE BORED” which received worldwide airplay in 2016/17, and then the follow up LP “SUPERMOLECULE EMOTION” in 2022, comes the latest, follow up release **LOBOTOMY**.

*A musical peek into the depths of a mind that thinks it's sick. Persuaded by a world filled with gleeful self-obsession and ultimately a pointless, socially enforced self harm in the guise of authoritative help.*

### THE SOUND?

The Tarzan Grip sound is ostensibly a bastard love child as the consequence of a nefarious orgy between the likes of:
