

This year the Lincroft Elementary Science Fair and Lego Brickfest are being combined. STEMfest projects will incorporate science (S), technology (T), engineering (E) or mathematics (M) and the use of Legos. [The use of Legos can encompass the entire project or be a supporting or minor aspect.](#)

There are number of great ideas and resources available online. Plus, there are no limits to the creativity of the projects.

THE DETAILS

- Thursday, January 24th from 6:30 to 7:30pm
in the Leopards Den
- Students will have a chance to share their projects with all students on Friday, January 25th
- Project drop off 6:00 to 6:15pm
- Project pick up following the evening session, following the morning session **or** brought home by the student
- Sign up by January 14th on the [Lincroft PTA website](#)
- Open to student in grades 3, 4 and 5
- Limited to 75 projects
- Partnering on a project is encouraged
- Check out the *How To Do A STEMfest Project* details on the [Lincroft PTA website](#)

FOR MORE INFORMATION

For sign-ups, information on how to do a project or to volunteer to help check out the PTA website at <http://www.lincroftpta.org/>
