Our vision is to see communities grow in a positive way by building on each other's talents, strengths, and resources. Our mission is to carry this out in our restaurant through reducing food and material waste and serve as much local product as possible. Our values are transparency, integrity, balance, kindness, and respect.

True to our vision, mission, and values: We will be introducing practices to reduce food and material waste to 1) help the environment and 2) keep prices low. Our hope is that you order enough to not throw food away or need a take out container. To support this we will offer most sandwiches and salads, from the lunch menu, as 1/2 order portions and a reduced price. As always we welcome your feedback. Thank you for your business and please come again.

Jeff, Johanna, Juno, and Jazlyn Herron
