- Change of the guard

### Page 2

- Help build a Tanzania Bible College

## A World Wide Problem

Here we are, 3 years into this “new virus” and every nation around the world has been presented with the same problems. Should we get “the shots” or not? Each city and village has been shut down. We don't have to go over it again with you, you've heard it too many times already.

Romania was also shut down economically, socially & spiritually by Covid as churches were being told to stop meeting and wear face masks if meeting

over a handful of people as home meetings were being scrutinized also.

Recently we were told that a new method of disclosure to determine if you have taken the shots is being tested. In one region in Europe a scan of your hand print will be all it takes to buy or sell anything. Your handprint will tell your government if you re update with flu shots, have a bank account and how much is in each bank account. Scary you say? It is time we teach from pulpits how to stand for Christ no matter what comes next. How to pray effectively and how to keep our eyes on Jesus even if it means doing it alone in this world. Keep praying and seeking God. Plan for the future. Fear not the future and draw nigh unto the Lord with all your heart.

### Scriptures to Remember

1, “Blessed is he that considers the poor: the Lord will deliver him in time of trouble.

2, The Lord will preserve him, and keep him alive; and he shall be blessed upon the earth: and thou wilt not deliver him unto the will of his enemies”

Psalm 41:1-2 (KJV)

## Ministry in the Time of Storm

Everyone knows when winter comes in Romania. The only question is how harsh was it. I have been to homes like the one above all to many times. It is hard to find wood to burn in the stoves for heat. Most of the places to live have 14 Id. plastic for roof cover. I remember crying myself to sleep because that day we visited bout 20 shack homes less than the above, none had wood for heat and little children running round almost naked.

Cont. pg. 2

## Time For Changing the of the Guards

It's time for a change. After 30 years of working with Paul Crisan it is time for Kay and I to step down. The 1st 6 years was so very unique. Very dangerous at times but surpassed by the blessings of the Lord 10 times over. A special team the Lord chose to place together in 1988. It proved to be the right ones at the right time. For that I personally thank God and say continued blessings to my lifetime pal. This month another very qualified person will take over CWE and they shall be introduced at the right time. They love Romania too. Until that time we say we love each of you, though most we have never even met. One day we shall. Until then, SHALOM—peace be with you until we do meet, be it on this earth...or after.

**J-O-Y Happens when you have Jesus—Others—You, in the right order.**

## Maranatha Bible College - Tanzania

This Newsletter Sponsored By

CHRISTIANYELLOWPAGES.COM

There is a Bible College in Tanzania Africa named Maranatha Bible College. The college, based out of Texas, offers degree education in BA, MA and Doctorate. They desire to build a building to hold 135 students to have school online. The college has been in existence for just a few years and is being accredited by a world wide **accreditation** association.

This is a season of hard rains and it is difficult to do much building. They tried recently to build their classroom and the cement could not dry properly due to rains and the end wall fell. The costs to rebuild can be up to \$5,000. This will build with steel reinforcement bars and I wanted to share their need with you. I believe it is a worthy cause for us to help. Please help them today with a gift through CWE. Your every portion will help build for the Kingdom of God and the future of an entire nation.

### Continued from page 1— **A World Wide Problem**

Although the international Pandemic problem has effected everyone, we must tell you this ministry has been horribly affected too. Our income to support the Crisan work in Romania has seen an income drop from \$3,500 a month to just \$800 per month now. That is not enough to survive on. Dove House workers are often without payroll. Natural gas, water, food enough for Dove House & Bethany House, all these are left wanting. But most of all Paul & Cami need fuel and auto maintenance to keep ministering the gospel. He preaches in streets and alleys again and keeps the pastors together on the internet. It is a critical time, please pray and help as you can.

We know you are a praying and believing people, and we need you to pray now. In many areas they will need to rebuild again. Paul and pastor leaders have met daily online and often multiple times per day. They pray together, share God's Word & lift each other up in song and scripture. No sickness is too great for our Lord. Without you we can not send and we are counting on you. Thank you for being a God sent partner with them. Pray and then help financially all you can at this critical time.

### **Ministry in the Time of Storm** - continued from page 1

That day a husband of one family was in jail for cutting a limb off a tree to have heat for his family. The reason for my tears was not just for him but when I woke I looked outside and it was snowing...just like in the picture above. All I could think of was those children. It tried to buy wood for the entire village only to be told it would cost \$1,000 USD for only 1 cord of wood. Homes like the above are all over Romania in small Gypsy villages. There are up to 4 million Gypsies in Romania and 300,000 children living in the streets with no home.

Recently most of one entire village was burned badly. Many homes were too badly burned to live in. Paul and Cami Crisan sprung into action. They assess the situation and quickly found a public center to bring the homeless to feed them. The center also had rooms and they agreed to take in the homeless during the tragedy. Regularly food was brought to them as the Crisan's worked almost night and day to secure safety for the people. Local churches helped distribute food, clothing and bedding during a cold winter until a better place can be found. Thanks to you and your continued support the Crisan's can continue to work for others in need. Thank you for being a part of this ministry and for your continued support.
