EZ SLIDE
VISUAL SCHEDULE

How do I make my pictures for an EZ Slide Visual Schedule?
It's EZ! Go to www.ezslideschedule.com and make a copy or
download our template (free!)

1. **If you have a picture subscription to:**

Lesson Pix and you use:

1. **Google Slides –** Download the Lesson Pix extension for [Google Slides](#)

2. **Microsoft Office (Word and PowerPoint) –** Download the Lesson Pix "Add on" for [Microsoft Office](#)

3. If you want words for your images you will need to create a text box to label the image as needed.

Boardmaker:

Look up "Community Activities" and search "EZ Slide Visual Schedule Template". Follow directions on the board, print, cut, insert into the schedule and **have fun**!

Symbol Stix:

Download symbol (downloads as a png), upload into EZ Slide Template, insert text box if needed.

2. If you don't have a picture subscription – don't worry!

Use online clip art files, real images (png, jpeg, etc), or pictures you take with your phone/tablet/camera! Click on the image box and insert the image from the web or a file you've saved that's accessible through google slides or power point!
