

Environmental Policy

Protecting the environment through responsible business practices

Cardan Compliance Services is a leading provider of ISO consultancy, auditing, training and compliance support. We recognise our responsibility to protect the environment, prevent pollution and contribute to a more sustainable future through the effective management of our environmental impacts.

We are committed to operating an Environmental Management System (EMS) that complies with the requirements of ISO 14001:2026 and to continually improving our environmental performance.

Our Commitments We will:

Environmental Protection

Protect the environment and prevent pollution through the effective management of our activities, products and services.

Compliance Obligations

Fulfil applicable legal requirements and other compliance obligations relevant to our context and our interested parties.

Continual Improvement

Continually improve our EMS to enhance environmental performance and support the delivery of our strategic direction.

Awareness and Competence

Ensure our people are aware of this policy, understand their environmental responsibilities and are supported through training and engagement.

Sustainable Resource Use

Minimise the use of natural resources, reduce waste and promote sustainable practices, including digital working and the responsible use of energy, water and materials.

Interested Parties

Consider the needs and expectations of our interested parties and work collaboratively to reduce environmental impacts across our value chain, including suppliers and partners.

Our Objectives

We will set, monitor and review measurable environmental objectives to support this policy and drive continual improvement.

Reduce our environmental impacts.

Enhance resource efficiency.

Support the transition to a low carbon future.

Engage our people, clients and suppliers.

Our Responsibility

This policy is issued by top management, is communicated to all relevant interested parties, made available to the public and is reviewed periodically to ensure it remains relevant and appropriate.

Together we can make a positive difference.

Professional compliance. A cleaner, more sustainable tomorrow.
