HOW WE WORK

From the first conversation
to the first game.

RESIDENTIAL BOCCE BALL COURTS — DESIGN AND
CONSTRUCTION

LET'S BUILD SOMETHING GREAT
TOGETHER.

OUR PROCESS

Professionally managed, *start to finish.*

We work closely with you at every stage — and we try to take every court from breaking ground to first game in **five days or less.**

1

CONSULTATION

We walk your property with you, listen to how your family lives outdoors, and talk honestly about what fits your space.

2

DESIGN

Your court — and any pool, pavers, landscaping, or seating — is designed around your property, not dropped onto it.

3

CONSTRUCTION

Our own crew builds it: excavation, concrete foundation, drainage field, leveling, turf, lighting. Professionally managed, with clear communication throughout.

4

FIRST GAME

We clean the site thoroughly, install your scoreboard and ball holders, hand over your regulation bocce set — and your backyard becomes the favorite room of the house.

WHY THE RECREATIONAL TEAM

- Decades of court construction experience, nationwide
- Trusted by residences, country clubs, HOAs & schools
- Affiliated with Ritzman Courts
- One-year limited warranty on every build
