

Introducing BESTpractice™. An evaluation system using key industry criteria to help owners assess, record, and analyze contractor performance.

Multiple Contributor | Real Time Data | Voice Assistance

BESTpractice™ is an easy, effective, and consistent way to rate your contractor on every project. We manage your portfolio to identify lessons learned and eliminate mistakes across your site, region, or entire organization. We help you correct mistakes before they happen!

## BESTpractice™

Our easy to use interface & user-friendly software analyzes contractor performance across your projects & portfolio.

**RATING SYSTEM:** Evaluate contractor performance on every project, consistently, efficiently, and with precision.

**KNOWLEDGE SHARING:** Identify best practices and opportunities for improvement.

**PREQUALIFICATION TOOL:** Select the best contractors for the right jobs.

**INTERNAL SUPPORT:** Guide project managers through multiple priorities, based on critical factors.

**RISK MITIGATION:** Correct mistakes before it is too late.

**REPORTS:** Access a wide range of reports, from a single project to potentially several hundred, across your portfolio.

## Our Platform

- Provides a comprehensive and consistent means to objectively assess and rate contractor performance.
- Prompts Evaluators with well vetted questions that apply to all project types, from small renovations to large, ground-up new builds, based on industry best practices.
- Organizes evaluator responses by Project Phase, and tracks against performance categories and criteria.
- Easy to use interface with YES/NO tap-to-enter capability and features such as virtual assistance and audio guidance.
