For Providers

CAQH enables providers and group administrators to enter information once, and share it with all plans they authorize. This reduces administrative burden and errors, and allows practices to focus on patient care.

Log InRegister

Become proficient. Quickly.

CAQH solutions are designed to be user friendly and intuitive. [CAQH University](#) is an easy way for providers, practice staff and group administrators to master CAQH Provider and Member Data Portals, reduce administrative burdens and improve the way they exchange information with payers and other business partners.

Our Promise

Your CAQH profile will always be:

- ✓ Complete
- ✓ Current
- ✓ Attested on time
- ✓ Ready for any payer review

You focus on patients. We handle the paperwork.

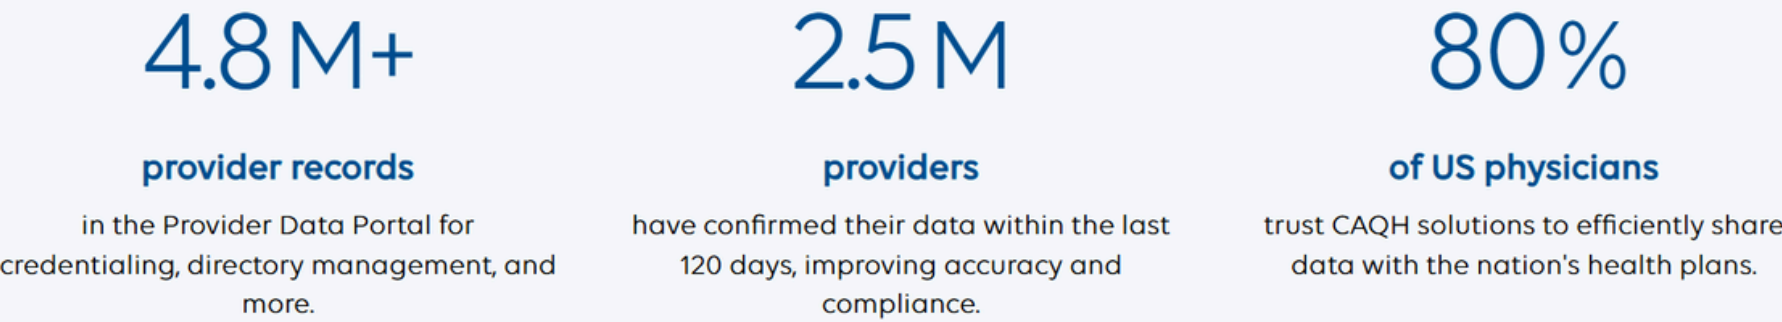

CAQH Management Services

We take full ownership of your CAQH profile so you don't have to.

CAQH is the primary database insurance companies use to credential providers. If it's incomplete, outdated, or attestation lapses, your credentialing, contracting, and claims can be delayed or denied.

We make sure that never happens.

Provider Data At-a-Glance

Fewer Burdens

CAQH helps practices efficiently manage professional and practice data. Enter information once, verify it on a predictable schedule and share it with the plans you designate.

Better Directories and Member Access

CAQH streamlines and improves directory maintenance, resulting in better member access, greater regulatory compliance and fewer outreach calls from payers.

Convenient And Secure

CAQH portals are backed by a concierge level of support and are HITRUST certified to provide the highest levels of data security and privacy.
